INTRODUCTION

The Verizon Telephone Companies (Verizon) are submitting tariff pages to introduce a new Contract Tariff Option in its Tariff F.C.C. Nos. 1, 11, and 14. This Contract Tariff is offered with a service period of twelve (12) months and provides a customer with a one-time credit(s) when it achieves qualifying total billed revenue during that service period that is between \$49,000,000 and \$56,000,000.

This Contract Tariff Option is filed pursuant to Verizon receiving Pricing Flexibility relief for Special Access Services in qualifying Metropolitan Statistical Areas (MSAs)¹.

DESCRIPTION

Total billed revenue for qualifying services is comprised of monthly recurring charges assessed by Verizon for the customer's Special Access Voice Grade Services, Digital Data Services, High Capacity 1.544 Mbps Services, and High Capacity 44.736 Mbps Services and Switched Access DS1 and DS3 Direct Trunked Transport services which the customer subscribes to in all operating territories under Verizon's Tariff F.C.C. Nos. 1, 11, 14, and 16. The portion of the total billed revenue for qualifying services attributable to the customer's Switched Access DS1 and DS3 Direct Trunked Transport services must be at least \$350,000 (\$350K), but may not exceed \$2,000,000 (\$2M).

The attached tariff pages provide a complete description of the terms and conditions and rates and charges applicable to this Contract Option.
