ACCESS SERVICE

21. Contract Tariffs (Cont'd)21.12 Contract Tariff Option 11

(N)

(A) Scope

- (1) Contract Tariff Option 11, the New Connect Discount Plan E (Plan E), is an offering exclusively for new installations of IntelliLight Optical Transport Service (IOTS), as set forth Section 7.2.14(C)(4) preceding, ordered during a specific period of time.
- (2) The regulations, terms, and conditions provided in this Section 21.12 automatically apply to all customers who order new services offered under Plan E in the applicable Metropolitan Statistical Areas (MSAs) during the specified subscription period. The qualifying services are listed in (B) following and the applicable MSAs are specified in (C) following.
- (3) The subscription period during which the customer qualifies for Plan E, begins May 28, 2004 and ends December 31, 2004. In order for a service to be included in Plan E:
 - (a) An order for the new service must be placed during the subscription period, and the service must be one of the services specified in (B) following. A new service can not be a service that was disconnected from another contract option, discount plan, or tariff arrangement and subsequently ordered under this plan in order to include that service in this plan.
 - (b) The customer must accept the service on the original service date.
 - (c) If the customer does not accept service on the original service date, any change to a later date will make the service ineligible for the discount, unless the change is initiated by the Telephone Company.

ACCESS SERVICE

21. Contract Tariffs (Cont'd)21.12 Contract Tariff Option 11 (Cont'd)(D) Description of Plan E

- (1) Plan E offers an automatic additional discount on all eligible IOTS services ordered from Section 7.2.14(C)(4) preceding of this tariff that meet the conditions outlined in (A), (B), and (C) above. The discount will apply to new installations of IOTS rate elements (Nodes, Amplifiers, and Mileage). In addition, the discount will apply to new installations of Optical Transport Channels ordered during the subscription period on any new or existing IOTS service. The additional discount will be applied to the monthly recurring rate elements associated with the options and categories listed in (B) above. The additional discount will not be applied to cross-connect services or to Collocated Interconnection arrangements. Application of the discount on Ring Mileage rate elements is limited to those instances where serving wire centers at each end of the mileage are within an MSA identified in (C) above.
- (2) The services and the associated rate elements may be ordered only on a term plan as allowed for IOTS as described in Section 7.2.14(C)(4) preceding.
- (3) Under Plan E, the customer will receive a discount applied to the monthly recurring rate elements of the term plan in effect from time to time as described in Section 7.2.14(C)(4) preceding. Except for service provided under another contract tariff in this Section 21 for which minimum billed revenue is measured on a contract level basis or under Contract Tariff Option 6 preceding, service provided under Plan E is not eligible for any other circuit-specific service, term, or volume discount offered under other sections of this tariff.
- For any 3-year, 5-year, or 7 year term plan, the Plan E discount is 33%.
- (4) Shared use as set forth in Section 5.2.8 preceding is allowed under Plan E; however, only the special access portion of a service is eligible to receive the Plan E discount.

ACCESS SERVICE

21. Contract Tariffs (Cont'd)21.12 Contract Tariff Option 11 (Cont'd)(E) Terms and Conditions

(N)

Unless superseded by the terms and conditions set forth herein, all terms and conditions, including without limitation, termination liability and minimum periods, as stated in Section 7.2.14(C)(4) preceding, apply to the respective services subject to this Plan E:

- (1) At the expiration of the initial term plan, if a new agreement for the service is not effective and the customer has not requested a discontinuance of the service in writing, the Telephone Company will automatically renew the service, and the discount of Plan E will automatically be extended for one additional term of equal length to the expiring term plan. The automatic extension will not apply if the customer notifies the Telephone Company within sixty (60) days after the expiration of the initial term that it wishes to select a new term plan or disconnect the service. Upon expiration of the renewal term of Plan E, the customer's rates will revert to the then current tariff rates for the same term.
- (2) When service is disconnected prior to completing the minimum period, the Plan E discount is not used in calculating the minimum period charges for the remainder of the minimum period, and the customer shall be responsible for any cancellation charges and/or termination liabilities as set forth in Section 7.2.14(C)(4) preceding.
- (3) With the exception of adding or removing a node to an IntelliLight Dedicated SONET Ring or an IOTS dedicated ring, replacements, rearrangements, or any other physical change to service under the Plan E will result in termination of the Plan E additional discount. The Plan E discount will not apply to any obligations or calculations of cancellation charges, termination liability, or charges applicable to the remaining minimum period obligation.
- (4) Only additional IOTS Optical Transport Channel rate elements may be added to an existing IOTS service or an IOTS service already under Plan E. Firm orders for such additional rate elements placed by December 31, 2004 will receive the discounts available under Plan E.
- (5) Billing for Plan E will commence for all rate elements of the IOTS service simultaneously at the start of the 5-Year term plan. When such billing commences, billing will cease, without term liability, for the existing optical network service that is being replaced by the IOTS service.
