

DESCRIPTION AND JUSTIFICATION - REVISED
John Staurulakis, Inc. Tariff F.C.C. No. 1
Transmittal No. 98
Hargray Telephone Company, Inc. (SC)
FRN #0001-8867-04

Hargray Telephone Company, Inc. (Hargray) hereby provides a Description and Justification for its proposed revisions to individual rates to become effective July 1, 2004 originally proposed in Hargray's filing under Transmittal No. 96 of the John Staurulakis, Inc. Tariff F.C.C. No. 1 (JSI Tariff). Hargray is an Issuing Carrier of the JSI Tariff.

Description of Filing

The accompanying revised tariff material is being filed by John Staurulakis, Inc. (JSI) on behalf of Hargray Telephone Company (Hargray), operating in the state of South Carolina. The JSI Tariff F.C.C. No. 1 governs the provision by Hargray of Switched Access, Special Access and Miscellaneous Services. The instant filing further revises, prior to becoming effective, revised rates for Switched Access Local Transport and Special Access filed by JSI on behalf of Hargray on June 16, 2004 to address issues raised by AT&T respecting Special Access rates and DSL in AT&T's Petition filed with the Commission on June 23, 2004.

Background

On June 23, 2004 AT&T Corp. (AT&T) filed a petition in which it requested, *inter alia*, suspension of Hargray's tariff due to the alleged recovery of DSL costs through overstated Special Access rates.¹ Hargray, through JSI, has been in contact with AT&T and the parties have agreed to revision by Hargray of its July 1 rates for Special Access and the Switched Access Direct Trunk rates affected, in turn, by the Special Access rate reductions. The reductions in Special Access rates serve to address the concerns raised by AT&T in its Petition.

¹ See Petition of AT&T Corp. Addressing July 1, 2004 Annual Access Charge Tariff Filings, WCB 04-18, (June 23, 2004) (*AT&T Petition*) at Section I.H, page 14.

Justification for Cost Support and Rate Development

The cost support data associated with this filing includes Exhibit 1, showing the impact of revisions made by this filing to rates filed under Transmittal No. 96 and a revised version of Attachment 9 to the original filing under Transmittal No. 96. Because the changes reflected in this revised filing deal with rate development and not the underlying revenue requirement, we are not including Attachments 1 through 8 as they remain unchanged from Transmittal No. 96. Revised TRP Schedules are included with the cost support material in accordance with the Commission's April 19, 2004 release entitled In the Matter of Material to be Filed in Support of 2004 Annual Access Charge Tariff Filings, Tariff Review Plans, DA 04-1048 (2004 TRP Order), together with the June 10, 2004 release entitled In the Matter of Material to be Filed in Support of 2004 Annual Access Charge Tariff Filings, Tariff Review Plans, Errata, DA 04-1700 (2004 TRP Errata).

The total annual revenues generated under this tariff are projected to be \$6,668,185, a decrease of \$301,772 from the projected amount in the June 16, 2004 filing. See Revised Attachment #9. The result of this revised tariff material will be an annual decrease to the interexchange carriers for switched access of \$267,820, \$1,137 more in decreases from the projected amount in the June 16, 2004 filing. With respect to special access, this filing replaces the overall increase in projected special access revenue of \$133,307 indicated in the original proposed rates under Transmittal No. 96 with an overall decrease of \$167,328. Thus, the revised filing effectuates a reduction in projected special access charges of \$300,635 to address AT&T's concerns respecting special access and DSL raised in its Petition filed June 23 with the Commission.

Hargray Revised TRP Schedules

Hargray's revised TRP schedules associated with its Traffic Sensitive Access Service filing are included with its cost support material as required by the Commission's *2004 TRP Order*.

2. Increase (Decrease) in Special Access Revenue (per Attachment 9, Page 4)	\$133,307	(\$167,328)	(\$300,635)
3. Total Increase (Decrease) in Direct Charges (line 1+ line 2)	(\$133,376)	(\$435,148)	(\$301,772)

Note 1: Due to rounding

Note 2: Reduction in Projected Annual Interstate Access Revenue Requirement billed to IXCs represents increased offset for High Speed Internet Access (xDSL) revenue.

NOTE: The purpose of Exhibit 1 is to show the difference between rates in this revised filing hereunder and the rates originally filed in JSI Transmittal No. 96 on June 16, 2004.

For a comparison of the final rates for the 2004 Annual Filing, including both rates changed in this filing and rates that remain the same as filed in Transmittal No. 96, to the effective rates prior to July 1, 2004, please see revised Attachment 9 Attached.
