21. CONTRACT TARIFFS (Cont'd)21.9 Contract Tariff Option 8 (Cont'd)(D) Eligibility Requirements

(N)

All of the following requirements must be met in order to be eligible for subscription to Plan G.

- (1) Customers who wish to subscribe to Plan G must do so by submitting a written authorization during the subscription period, which begins on September 3, 2004 and ends on December 31, 2004.
- (2) The customer must accept service on the original service date. If the customer does not accept service on the original service date, any change to a later date will make the service ineligible for the discount, unless the change is initiated by the Telephone Company.
- (3) The eligible DSR services and the associated rate elements may only be ordered on a term plan as allowed for DSR as described in Section 20.2 preceding.
- (4) A new service cannot be a service that was disconnected from another contract option, discount plan, or tariff arrangement and ordered under this plan in order to include that service in this plan.

(E) Description of Plan G

- (1) Plan G offers a discount as set forth in (E)(2) following on all eligible DSR services that meet the conditions outlined in this Plan G. For the purchase of new DSR services, the Plan G discount will apply to eligible DSR monthly recurring rate elements (Nodes, Ports, and Mileage). In addition, the discount will apply to new installations of eligible DSR Ports ordered during the subscription period on any new or existing DSR service, except as set forth in (C)(1) preceding. Application of the discount on Mileage rate elements is limited to those instances where at least one serving wire center is within an MSA identified in (C) (1) above.
- (2) Under Plan G, the customer will receive a discount, as set forth below, applied to the term plan rates then in effect as described in Section 20.2 preceding. Except for service provided under another contract tariff in this Section 21 for which minimum revenue or total revenue is measured on a contract level basis, or a term plan as described in Section 20.2 preceding, service subscribed to under Plan G is not eligible for any other service, term, or volume discount offered under this tariff.
 - For any 3-year or 5-year term plan, the Plan G discount is 20%.
 - For any 7 year term plan, the Plan G discount is 10%.

21. CONTRACT TARIFFS (Cont'd)21.9 Contract Tariff Option 8 (Cont'd)(F) Terms and Conditions

(N)

Unless superseded by the terms and conditions set forth herein, all terms and conditions, including termination liability and minimum periods, as stated in Section 20.2, apply to the DSR services subject to this Plan G.

- (1) For service ordered with a term plan under Plan G, the Plan G discount expires at the end of the initial term.
- (2) When service is disconnected prior to completing the minimum period, the Plan G discount is not used in calculating the minimum period charges for the remainder of the minimum period, and the customer shall be responsible for any cancellation charges, minimum period obligations, and/or termination liabilities as set forth in Section 20.2 preceding.
- (3) Replacements, rearrangements, or any other physical change to service under Plan G will result in termination of the Plan G discount, with the exception of adding or removing nodes and ports to DSR. Any additions of ports or nodes ordered after the subscription period ends will be billed at the then effective tariff rates, as set forth in Section 20.2 preceding, and such additional node(s) or port(s) shall not be eligible for the Plan G discount.
