2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(A) Channel Services Payment Plan (Cont'd)

(4) Disconnects (Cont'd)

(b) (Cont'd)

- (1) the completed service period is 12 months, or 25% of the length of the originally selected CSPP service period, whichever is greater, and
- (2) the service period of the new CSPP arrangement for the higher order of service is equal to or longer than the remaining service period of the disconnected arrangement, and
- (3) the service orders to install the new higher order of service and disconnect the old service are related together and received by the Telephone Company at the same time, and there is no lapse in service between installation of the higher order of service and disconnection of the existing service, and
- (4) the capacity of the higher service is equal to or greater than the existing service. For converting LightGate service (a.k.a. BellSouth SPA Point to Point Network) to SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring) the capacity of the LightGate service (a.k.a. BellSouth Point to Point Network) is considered to be the quantity of DS3's activated on the LightGate service (a.k.a. BellSouth Point to Point Network).

For the purposes of determining a higher order of service, the following ranking will be used (Analog Voice Grade (a.k.a. BellSouth SPA DS0 VG) services=lowest, SMARTRing services (a.k.a. BellSouth SPA Dedicated Ring)=highest):

1. Analog Voice Grade (a.k.a. BellSouth SPA DS0 VG) Services
2. DS0 (a.k.a. BellSouth SPA DS0 Digital Data) Services
3. DS1 (a.k.a. BellSouth DPA DS1) Services (described in 7.2.9 following)
4. SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) (described in 7.2.13 following)
5. LightGate service (a.k.a. BellSouth SPA Point to Point Network).
6. BellSouth SPA Managed Shared Network Service
7. SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring)
8. SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network)/BellSouth Managed Shared Ring service
9. SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring)

Customer requested conversion of Digital Data Access Service (a.k.a. BellSouth SPA DS0 Digital Data) to Fast Packet Access Service will be treated as an upgrade to a higher order of service and, as such, termination liability will not apply in accordance with regulations set forth herein.

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(D) Transport Payment Plan (Cont'd)

(6) Requests for Changes in Length of Service Period (Cont'd)

(a) (Cont'd)

- If the new TPP arrangement has a service period shorter in length than the time remaining under the service period for the existing TPP arrangement, the change to the new TPP arrangement constitutes a disconnection of the existing TPP arrangement for which termination liability charges apply.

(b) Subsequent to the establishment of a TPP arrangement, and prior to the completion of the selected service period for that arrangement, the TPP arrangement may be extended subject to the following conditions:

- The start date of the TPP is not changed, however, with an extension the customer selects a new TPP service period (i.e., the number of months associated with the customer's TPP) that is greater than what presently exist for the current TPP.
- The maximum service period that may be selected for an extension is 96 months. After 96 months, a customer must establish a new TPP arrangement.
- If the new service period selected with an extension results in a change of Payment Plans, then the rates associated with the new Payment Plan will be effective on the first day of service under the extended TPP. For example, if a customer presently has a 36-month TPP arrangement, which is associated with Payment Plan A rates, and extends his service period to 61 months, which is associated with Payment Plan C rates, the Plan C rates will be effective on the first day of the extended TPP.
- If a TPP arrangement that has been extended is disconnected prior the expiration of the extended service period, termination liability charges will be based on the rates associated with the extended TPP arrangement at the time of the disconnect. For example, if a customer's TPP that has been extended and is receiving Plan C rates at the time the TPP is disconnected, then Plan C rates will be used to determine the applicable termination liability.

(a) When a service period under an existing CSPP or TPP arrangement is completed, the customer may select a new TPP arrangement at rates and charges in effect on the first day of service under the new TPP arrangement, continue service under the month-to-month rates, or discontinue service with no termination liability charge. If the customer does not elect to either discontinue service or continue service under a new TPP arrangement, service will be continued under month-to-month rates. The TPP customer of record will have a 60-day grace period after which current month-to-month rates will apply.
