CASE NO. FL04-7198-01

## SECTION 1 INTRODUCTION

With this filing, BellSouth Telecommunications, Inc. proposes to recover the cost associated with special construction necessary to provide DS1 Alternate Serving Wire Center service from the customer's location at 784 S Hwy 74, Peachtree City, Georgia, to the Atlanta Courtland Street Central Office (GA04-9283-04) and to recover the cost associated with special construction necessary to provide interstate Dry Fiber service to the customer's location at 13801 NW 14th Street, Sunrise, Florida (FL-04-7198-01). Special Construction is required because facilities are not available to meet the Customer's request and the Telephone Company has no other planned use for the facilities requested.

Because this special construction is provided in connection with a service available under an existing tariff, the customer will be charged the tariff rates for services as set forth in BellSouth's FCC Tariff in addition to the charges described herein. The charges set forth in this filing recover the costs caused by this customer's request. Workpaper I provides a summary of the charges for the service; Workpaper II provides cost details, Workpaper III provides monthly capital cost calculations, and Workpaper IV provides non-recoverables summary. Attachment A Workpapers pertain to GA04-9283-04 and Attachment B Workpapers pertain to FL04-7198-01.

## SECTION 2

### RATE AND COST DEVELOPMENT

#### 2.1 INTRODUCTION

This special construction filing establishes charges necessary for facilities to provide service between the customer's location at 784 S Hwy 74, Peachtree City, Georgia, to the Atlanta Courtland Street Central Office (GA04-9283-04). The equipment portion requiring special construction consists of a duplicate power supply at the customer's premise. Also, This special construction filing establishes charges necessary for facilities to provide service to the customer's location at 13801 NW 14th Street, Sunrise, Florida (FL04-7198-01). The facility portion requiring special construction consists of 1,200 feet of underground fiber cable to the customer's location.

## 2.2 DESCRIPTION OF CHARGES

### 2.2.1 Nonrecurring Charge

The Nonrecurring charge is applied to recover the present worth of the monthly capital costs, calculated over the account average life of the applicable field reporting code. The capital costs are developed from the estimated non-recoverable investments associated with the special construction. The non-recoverable investments consist of estimated engineering and installation costs based on labor hours and labor rates, outside contractor billing and associated material. Details of this component are shown on Workpaper IV, page 1. The present worth of the capital costs is developed using the authorized cost of capital. Details of the costs supporting this component are shown on Workpaper II, page 1.

The Case Preparation Charge is applied to recover the applicable costs of the case preparation. Case preparation consists of the cost of administrative expenses associated with preparing a special construction case and the associated tariff filing. Details of the costs supporting this component are shown on Workpaper II, page 1.
