ACCESS SERVICE

2. General Regulations (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.10 Jurisdictional Report Requirements (Cont'd)

(A) Jurisdictional Reports (Cont'd)

(1) Percent Interstate Usage (PIU) (Cont'd)

- (b) When the Telephone Company receives sufficient call detail to permit it to determine the jurisdiction of some or all originating and terminating access minutes of use, the Telephone Company will use that call detail to render bills for those minutes of use and will not use customer reported Percent Interstate Usage (PIU) factors to determine the jurisdiction of those minutes of use.

The Telephone Company will apply the PIU factor, either provided by the customer as set forth in (A)(1)(c) or as otherwise determined in accordance with this tariff, only to minutes of use for which the Telephone Company does not have sufficient call detail to determine jurisdiction. The customer reported PIU factor will be used until the customer provides an updated PIU factor as set forth in (C)(1) following. No prorating or back billing will be done based on the updated report.

ACCESS SERVICE

2. General Regulations (Cont'd)2.3 Obligations of the Customer (Cont'd)2.3.10 Jurisdictional Report Requirements (Cont'd)(A) Jurisdictional Reports (Cont'd)(1) Percent Interstate Usage (PIU) (Cont'd)

(c) When the customer initially orders Switched Access Service(s) the customer will state in its order (Access Service Request) a Percent Interstate Usage factor. This factor will be used by the Telephone Company as the customer-provided PIU factor until the customer provides updated PIU factors as required in (C)(1) following. For each service listed below, the customer may provide separate PIU factors in accordance with (a) and (b) preceding. (T)

- Feature Group A or CSL BSA (Notes 1,2)
- Feature Group B or CST BSA Option 1 or 4 (Notes 1,2)
- Feature Group C or CST BSA Option 2 (Note 1,2)
- Feature Group D or CST BSA Option 3 (Note 1,2)
- Directory Assistance Service (Notes 2,4)
- 700 Access Services (Note 2)
- Toll Free Services (Notes 1,2,3)
- 900 Access Services (Note 2)
- Inward Operator Services (Note 2)
- LIDB Access Service (Note 2)
- Common Channel Signaling Access (CCSA)(Note 2)
- Billing Name and Address Service (Note 2)

Note 1: The customer has the option to provide the Telephone Company with both an originating and a terminating PIU factor for each account or state from which the customer may originate and/or terminate traffic.

Note 2: The Percent Interstate Usage (PIU) factors will apply to all associated elements and services, e.g., Carrier Common Line, Local Switching, Tandem Switched Transport, Host/Remote Switched Transport, Access Tandem Switching, Common Trunk Port service and minute of use based multiplexer rate elements, where applicable.

Note 3: "Toll Free" service includes any access service which utilizes the following NPAs: 800, 888, 877, 866, 855, 844, 833, and 822 as they become available to the industry.

Note 4: The customer shall provide a PIU factor for each Directory access service group ordered.

(TR 520)

Issued: December 10, 2004

Effective: December 25, 2004

Vice President, Federal Regulatory

ACCESS SERVICE

2. General Regulations (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.10 Jurisdictional Report Requirements (Cont'd)

(A) Jurisdictional Reports (Cont'd)

(2) Switched Access Service Entrance Facilities, Direct Trunked Transport Facilities and Dedicated End Office and Access Tandem Trunk Ports (Cont'd)

(b) Dedicated End Office and Access Tandem Trunk Ports (Z)

In addition to the report requirements set forth in (A)(1) and (A)(2)(a) preceding and (C)(1) following, the customer must provide an interstate percentage of use in a whole number for Dedicated End Office or Access Tandem Trunk Ports. The customer must provide a single interstate percentage of use per state or billing account to be applied to all Switched Access Dedicated End Office and Access Tandem Trunk Ports. For the initial establishment of Switched Access Service, the Telephone Company will utilize the interstate percentage of use reported on the customer's access service request as the interstate percentage of use for Dedicated End Office and Access Tandem Trunk Ports. These interstate percentages of use will be used in determining the monthly rates to be applied for the Dedicated Trunk Ports as set forth in 2.3.11(A) following.

ACCESS SERVICE

2. General Regulations (Cont'd)2.3 Obligations of the Customer (Cont'd)2.3.10 Jurisdictional Report Requirements (Cont'd)(C) Report Updates

- (1) Effective on the first of January, April, July and October of each year, the customer may update the jurisdictional reports that require a projected interstate or RTU interstate percentage. The customer shall forward to the Telephone Company, to be received no later than 20 calendar days after the first of each such month, a revised report showing the interstate percentage of use for the past three months ending the last day of December, March, June and September, respectively, for each service arranged for interstate and intrastate use. Except as set forth in (A)(1) preceding where jurisdiction can be determined from the call detail, or for BNA Service, where jurisdiction can be determined from the recorded message detail, the revised report will serve as the basis for the next three months billing and will be effective on the bill date in the following month (i.e., February, May, August and November) for that service. No prorating or back billing will be done based on the report. If the customer does not supply the report, the Telephone Company will assume the percentage to be the same as that provided in the last quarterly report. For those cases in which a quarterly report has never been received from the customer, the Telephone Company will assume the percentage to be the same as that provided in (A)(1)(c) preceding.

ACCESS SERVICE

2. General Regulations (Cont'd)2.3 Obligations of the Customer (Cont'd)2.3.11 Determination of Interstate Charges for Mixed Interstate and Intrastate Usage Rated Services or Mixed Use of an Expanded Interconnection Multiplexing Node or Virtual Collocation Arrangement

When mixed interstate and intrastate usage rated services or Expanded Interconnection are provided, all charges (i.e., nonrecurring, usage and/or monthly) including optional features and BSE charges, will be prorated between interstate and intrastate. The percentages as set forth in 2.3.10(A)(1) and (A)(2) for Switched Access Service, or 2.3.10(E) preceding for Expanded Interconnection will serve as the basis for prorating the charges. The percentage of service to be charged as interstate is applied in the following manner:

- (A) For monthly and nonrecurring chargeable rate elements, multiply the interstate percent times the quantity of chargeable elements times the stated tariff rate per element.
- (B) For usage sensitive (i.e., access minutes and calls) chargeable rate elements, multiply the percent interstate use times actual use (i.e., measured or Telephone Company assumed average use) times the stated tariff rate.

The interstate percentage will change as revised usage reports are submitted or a revised percentage is calculated as set forth in 2.3.10(C) preceding.
