

**DESCRIPTION AND JUSTIFICATION  
ILLINOIS CONSOLIDATED TELEPHONE COMPANY (ICTC)**

**Transmittal No. 126, Filed January 31, 2005  
Effective February 15, 2005**

**Description**

This filing changes the provisions of the Company's wholesale product, Video over Digital Subscriber Line Service (VoDSL), in the areas of interface requirements and Special Construction.

Paragraph 10.4.2(C) clarifies the interface requirements for Video Service Providers (VSPs) when they use the Company's VoDSL service. It also clarifies the ability of VSPs to utilize alternative transport arrangements, as well as ICTC transport such as Gigabit Ethernet or other Special Access service.

In Paragraph 10.4.2(H), application of Special Construction charges is modified, clarifying this area as only being used in extraordinary situations.

**Justification**

These changes will result in clarification of the service provisions and an enhanced VoDSL service and is in the best interests of the VSPs, the customers, and the Company.
