This contract tariff is for all services offered in Section 22 of this tariff. The customer is charged rates as specified in Section 22. Customers are eligible for a 6% credit in any month that their monthly recurring revenue, for applicable services, is equal to or greater than \$1.8 million. This credit is offered for a maximum of twelve (12) months.

In order to qualify, customers must have completed the fifth year of a five year term discount plan and must have billed a minimum of \$1.8 million monthly recurring charges for six consecutive months immediately prior to the contract effective date to be eligible for a revenue discount of 6% applied to the monthly billed revenue.

This discount will be applied as a credit on a monthly basis to one designated special access billing account number on the second full invoice following the qualifying months. If the customer's monthly recurring charges fall below the \$1.8 million minimum billing for all special access services provided in Section 22, no discount will apply for that month.
