

**BELLSOUTH TELECOMMUNICATIONS, INC.**

**DESCRIPTION AND JUSTIFICATION**

**Terms and Conditions Changes - BellSouth ADSL Service**

**TRANSMITTAL NO. 875**

With this filing, BellSouth Telecommunications, Inc. (hereinafter referred to as "BellSouth") is revising its Tariff F.C.C. No. 1, Section 28 to make terms and conditions changes to BellSouth ADSL Service. These modifications will accommodate customer needs to change the data rate combination (speed) associated with their existing ADSL Service without extending their minimum service commitment.

The Tariff will now state that when a customer changes the speed of their existing ADSL Service, the service effective date associated with their existing service will apply to service provided at the new speed selected. Thus, customers can make a change in speed of service without re-starting the clock on their minimum service commitment, which is measured from the service effective date.

Transmittal No. 875 is being filed on February 7, 2005 and is scheduled to become effective February 22, 2005.
