## ALLTEL offers local telephone service in Raleigh, N.C.

### For additional information contact:

Corporate Communications 501-905-8000  
[corporate.communications@alltel.com](mailto:corporate.communications@alltel.com)

Release date: Nov. 17, 1999

RALEIGH, N.C. -- Residents in Raleigh, Chapel Hill and Cary now have a choice for local telephone service with ALLTEL. ALLTEL began offering local telephone service to area residents this week, two months after launching local telephone service to area businesses.

Now business and residential customers can receive local telephone, wireless, long-distance, Internet and paging services from one company and bundle the services on one bill.

"This is exactly what the Telecommunications Act of 1996 was trying to achieve -- competition in the marketplace," said David Stafford, vice president and general manager for ALLTEL in Central North Carolina. "Telephone customers deserve to have a choice in their service, and ALLTEL is pleased to be the first full-service communications provider in North Carolina to do that."

Various business and residential packages are available to customize a communications package for every type of customer.

Though this is ALLTEL's first local telephone service offering in Greensboro and Winston-Salem, ALLTEL has provided local telephone service to customers in 31 North Carolina communities for more than 50 years and launched wireline telephone service in Charlotte last year.

"ALLTEL has taken every measure to ensure that our service will be of the highest quality," Stafford said. "We are using an extensive fiber-optic network throughout the area, and we have tested the capabilities of the network by first converting our retail stores, business offices and employees to ALLTEL service."

ALLTEL is the nation's sixth largest local telephone company and the sixth largest wireless communications company.

ALLTEL, now among the 25 largest Internet service providers in the country, offers its Internet customers five separate e-mail accounts and 5 megabytes of personal Web space at no additional cost. The company also offers Web hosting, Web site development and dedicated access.

ALLTEL provides communications services to more than 8 million customers in 25 states and has information services clients in 55 countries and territories.

ALLTEL is a customer-focused, information technology company that provides wireline and wireless communications and information services

# U.S. Area Codes

## US Area Codes

The table below gives a list of US area codes for each state, with a list of important cities and towns in each of the telephone area codes. Weight is given to population and also to proximity to the border with adjoining telephone area codes. US cities and area codes shown in parentheses in *(green)* are not yet in use; in each such case, long distance area codes immediately above in the table apply to the US cities and area codes shown in *green*. Information shown in **(red)** relates to the implementation of US area codes.

The list of area codes for Canada follows the same format for the provinces and territories.
