¹Broadband service charges not included. Offer expires 1/31/05. Monthly rate includes direct-dialed domestic calls and calls to Canada. International calls are billed at additional per-minute rates and may have different feature capabilities. A \$29.99 service activation fee applies. Other charges may apply. Customers who disconnect Service must return equipment associated with Service in order to avoid disconnect fee. Minimum system requirements apply, DSL or 2-way cable. Internet access required. Service does not support certain directory services, direct dial calls outside the U.S. and Canada, operator assisted, pay services or third-party billing (except calling card prepaid services). Other restrictions may apply. Service will not function during a power or broadband service outage and is not compatible with home security systems. Service's 911 Emergency Dialing operates differently from traditional 911 Service. To insure correct emergency call routing, the Service Address provided to us MUST correspond to the physical location of your AT&T CallVantageSM Service phone.

²Savings do not include charges for broadband services. As compared to the lead end to end offers of MCI, Sprint, Verizon, SBC, and Bell South as of 9/8/04. Savings may be higher dependent upon state and carrier.

See the FAQs and subscriber agreement for additional terms and conditions.

³Savings based on weighted average of calling to all countries, compared to the lead plan of AT&T as of 10/1/04. Calls terminating on phones or other wireless devices may be charged additional per-minute rates and are not included in stated savings.

⁴Broadband service charges not included. Monthly fee includes direct-dialed calls within your local calling area. All other calls are billed at additional per-minute rates. A \$29.99 service activation fee applies. Customers who disconnect Service must return equipment associated with Service in order to avoid \$29.99 disconnect fee. If a long distance number or non-local number is used for the Locate Me, 3-Way or Calling Forwarding Features, charges will be applied. Other charges may apply.

Our Story

Cinergy Communications offers a complete line of communications services and products, including local service, long distance, Internet access, web hosting and telephone equipment. Our focus is to help both business and residential customers throughout Indiana, Kentucky, Tennessee and Ohio communicate more effectively.

Cinergy Communications, formerly Community Telephone, was born out of the merger of five companies located in southern Indiana and western Kentucky. They were Wright Businesses and Long Distance Management (Paducah, KY), Telemanagement Systems (Evansville, IN) and Network WCS (Evansville, IN), MarTech Communications (Bowling Green, KY) and Mercury Communications (Hopkinsville, KY).

These companies came together with the goal of collectively providing the cities they served a higher level of service with a local presence. During the last two years we've developed into a full-service, integrated communications company.

Our success then caught the attention of Cinergy Corporation, one of the nation's leading diversified energy companies. In May of 2001, we changed our name based on our affiliation with Cinergy Corporation to better reflect our core business strengths.

We are now unified under a new name, with a new look, but our management remains the same, as well as our commitment to serving Indiana, southern Ohio, western Kentucky and north-central Tennessee.

Our focus now includes an increased emphasis on research and development of new products and services. Our goal isn't simply to be the lowest-priced service, but to be the best service you can get for your money.

A strong past helps build a strong future. With three decades of industry experience, we've built a record that speaks of innovation and

vision. Among our accomplishments:

- First interconnect company (sells and services business telephone systems) in Paducah, KY -- 1969.
- First local company in our region to offer consumers a lower-cost alternative for long distance service -- 1982.
- First Internet Service Provider (ISP) in our region -- 1994.
- Pioneer in online transactional banking -- 1995.
- One of the first phone companies doing business following deregulation of local telephone service under the "Telecommunications Act of 1996."
- Industry leadership in software development for doing business over the Internet.
- Pioneer in IP Telephony -- 2003.

Our future is exciting and full of new endeavors. We are making decisions that will ensure the highest level of customer service, enhance the scope of the products and services we offer and help support the growth and future success of our customers.
