6. MISCELLANEOUS SERVICES (Cont'd)

6.14 End User Port Charges

(C)

- (A) End users subscribing to Integrated Services Digital Network-Basic Rate Interface (ISDN BRI) and Integrated Services Digital Network-Primary Rate Interface (ISDN PRI) will be assessed an ISDN Line Port Charge.

When end user ISDN BRI or ISDN PRI is provided by a local service provider that resells local service (reseller), the reseller will be assessed the ISDN Line Port charge.

- (B) Each DS1 arrangement connected to the Telephone Company switch where the customer provides the terminating channelization equipment shall be assessed port charges as shown in section 6.14(D).

6. MISCELLANEOUS SERVICES (Cont'd)6.18 Universal Service Fund Charge

The Federal Universal Service Charge (FUSC) recovers the Telephone Company's contribution to various federal universal service funds. The Telephone Company will apply the FUSC Surcharge Factor each month to the billed charges for interstate access services provided to end users from this Tariff.

The FUSC Surcharge Factor will not apply to any billed charges for an end user when the interstate access provided to the end user qualifies under the federal universal service guidelines for Lifeline Assistance. The FUSC Surcharge Factor will not apply to interstate access services purchased by customers that resell these services to end users as part of an interstate telecommunications service and are required to contribute to the various federal universal service funds. In case of a dispute regarding whether the customer is reselling services and contributing to the various federal universal service funds, the Telephone Company may request a signed certification to that effect from the customer.

FUSC Surcharge Factor	Percentage

13. END USER FIA (Cont'd)13.6 Rate Regulations

- (A) When the end user's local service is provided by the Telephone Company, the end user will be charged the End User Access Charge. When end user local service is provided by a local service provider that resells local service (reseller), the reseller will be charged the End User Access Charge.
- (B) Residence rates, as set forth in 13.7 following, apply to common lines that are subject to residential rates under Telephone Company General and/or Local tariffs.

End user residence common line rates are applied as primary or nonprimary. Until January 1, 1999, the primary residence end user common line rates will apply to only one line when the customer has more than one line billed on a single account for the same service name at the same service address.

Effective January 1, 1999, the designation of primary and nonprimary will be changed as follows. The primary rate is assessed to the residential subscriber line which is any or all of the following:

- 1) the only line provided at that service address; or,
- 2) the first line installed at that location. Any additional residence exchange lines at the same service location, regardless of the named subscriber, will be assessed the nonprimary rate; or,
- 3) the line designated as the primary by the billed party or parties when multiple exchange lines are ordered at the same time for the same service location.

In most cases only one line at a service location can be classified primary, all others are considered to be nonprimary.

Business Single Line rates, as set forth in 13.7 following, apply to common lines that are not subject to residential rates under Telephone Company General and/or Local tariffs when only one such line is obtained by the same customer within a state from the same Telephone Company.

Business Multiline rates, as set forth in 13.7, apply to common lines, that are not subject to residential rates under Telephone Company General and/or Local tariffs when more than one such line is obtained by the same customer within a state from the same Telephone Company and to all pay telephone common lines. Central Office located Centrex and Centrex-type services are rated as set forth in 13.7 for Business Multiline except as set forth in (C) following.

FACILITIES FOR INTERSTATE ACCESS

13. END USER FIA (Cont'd)13.6 Rate Regulations (Cont'd)

(B) (Cont'd)

A distinction should be made between multi-line and multi-party service, in that each party of a multi-party service is treated as a single-party service for rate application. For example:

(M)

- 1) A multi-party residential subscriber with one line will be assessed the residence rate.
- 2) A multi-party residential subscriber with two or more terminating lines will be assessed the residence rate for each of those lines.
- 3) A multi-party business subscriber with one terminating line will be assessed the business single-line rate.
- 4) A multi-party business subscriber with two or more terminating lines will be assessed the business multi-line rate for each of those lines.

(C) Central Office located Centrex Dormitory (Residential) Service is a service to a college, university or school that serves the students or faculty dormitory (residential) quarters. Residence rates, as set forth in 13.7, apply to Common Lines used to provide Centrex Dormitory Service.

(D) For service provided as Remote Call Forwarding, residential or business, under the General and/or Local exchange service tariffs, End User Access charges do not apply.

(E) Pay Telephone common lines and related facilities are rated as Business Multiline as set forth in 13.7.

(F) For Integrated Services Digital Network-Primary Rate Interface (ISDN PRI) the ISDN PRI end-user charge as set forth in 13.7 and the port charges as set forth in Section 6.14(C) will apply per ISDN PRI service.

(C)

(G) For Integrated Services Digital Network-Basic Rate Interface (ISDN BRI) the ISDN BRI end user charge as set forth in 13.7 will apply per ISDN BRI service.

(H) End User Port Charge

When an end user is provided local exchange service under any general and/or local exchange tariff(s) using a DS1 (1.544 Mbps) channel service where the customer provides the terminating channelization equipment, five (5) EUCL - Multiline Business Individual line or trunk charges as set forth in Section 13.7 and the port charges as set forth in Section 6.14(C), preceding, apply to each DS1 channel service.
