(C) Service Period

- (1) Subject to the limitations in (C)(3) following, the service period for each new SpA muxed DS3 ordered under an individual circuit specific term plan in accordance with (B)(3) preceding is equal to the individual term commitment selected for such SpA muxed DS3 (**muxed DS3 service period**). Term plans for new SpA muxed DS3s are specified in (B)(3)(d) preceding.
- (2) Subject to the limitations in (C)(3) following, the service period for each new SpA muxed DS3 ordered under a term plan that includes DS3 services and is managed on a non-circuit specific basis (e.g., CDP) is equal to the common expiration date for such DS3 term plan, or the time remaining in such existing DS3 term plan, as applicable. Available circuit specific term commitments for new SpA muxed DS3s are specified in (B)(3)(d) preceding.
- (3) For new SpA muxed DS3 subscribed to this Option XX, and regardless of any term plan subscribed to by customer, the service period and corresponding discount in (F)(1)(a) following shall not extend beyond December 31, 2010.

- (2) The percentage discounts set forth in (F)(1)(a) following will only be applied to the rate elements specified in (E)(1) preceding and only in those MSAs specified in (D) preceding that have achieved Phase I or Phase II pricing flexibility. Wire centers for the Phase II MSAs are listed in Section 14.7 preceding of this tariff, Section 15.3 of Tariff F.C.C. No. 11, and Section 19.1 of Tariff F.C.C. No. 14. (F) Terms and Conditions

(1) Percentage Discounts

- (a) The discounts under this Option XX are percentage based and are applied for the duration of the Service Period to the applicable rate elements set forth in (E)(1) preceding which are ordered by the customer in accordance with the terms of this Option XX. The customer will receive the following discount that coincides with the term plan selected by the customer for the newly installed SpA muxed DS3 and newly installed or upgraded SONET, as applicable.

<u>Term</u>	<u>Percentage Discount</u>
3-year	20%
5-year	20%
7-year	10%

- (b) The Telephone Company will first apply any discount associated with the applicable term plan (such as TPP or CDP) under which the service is ordered, and then apply the Option XX discount to that already discounted rate. When the service involved is also under another contract tariff option for which minimum revenue, total revenue, or minimum quantities are measured on an aggregate basis, the Telephone Company will apply the Option XX discount prior to applying any discount associated with such other contract tariff option. For example: assume that the monthly rate for SpA muxed DS3 is \$1,500 and that the TPP discount is twenty percent (20%). Also assume that the applicable discount under this Option XX is ten percent (10%). The Telephone Company will first apply the TPP discount to the monthly rate [$\$1,500 - (\$1,500 \times 20\%) = \$1,200.00$] and then apply the Option XX discount to that already reduced rate [$\$1,200 - (\$1,200 \times 10\%) = 1,080$].
