9. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

9.3 Miscellaneous Services (Cont'd)

9.3.3 Presubscription (Cont'd)

(F) PIC Charge Application (Cont'd)

agent receives service from the selected IC, it may access the IC of its choice by dialing the appropriate 10XXX carrier identification code.

The Presubscription Change Charge is a nonrecurring charge that varies

based on the type of PIC Change order that is submitted. Rates for manually submitted orders will typically be higher than rates for electronically submitted orders. When a customer requests only an interLATA PIC Change, the interLATA Presubscription Change Charge from this tariff will apply. When a customer requests both interLATA and intraLATA Presubscription changes to the same phone number on the same order, a lower rate applies from this tariff and an intraLATA Presubscription Change Charge may be applied under the Telephone Company's appropriate intrastate tariff.

Orders submitted using a mechanized interface to the Telephone Company's service order system or other electronic processing system are considered electronically submitted changes. Orders submitted via fax, email, regular mail, or telephone are considered manually submitted changes.

The rates for Presubscription Change Charges are found in Sections 20.1.7, 20.2.7, 20.3.7, and 20.4.7, following.

## ACCESS SERVICE

9. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)9.3 Miscellaneous Services (Cont'd)9.3.3 Presubscription (Cont'd)(F) PIC Charge Application (Cont'd)

The Telephone Company will make post conversion changes in the end user's or agent's PIC assignment pursuant to an IC provided list of customers, accepted by the Telephone Company under conditions set forth in (C) and (D). Should an end user or agent dispute authorization of the change in PIC assignment, and if the IC cannot produce a letter of agency or confirmation from the end user or agent, the IC will be billed two PIC charges: one unauthorized PIC change charge, in Section 20, for the change to the disputed IC; and one PIC change charge, in Section 20, for restoring the end user's or agent's prior IC assignment. If the IC produces the letter of agency or confirmation of choice within 15 days of the Telephone Company request, the end user or agent will be billed two PIC charges in Section 20 in lieu of charges to the IC. Charges are only applicable if a change in an end user's or agent's IC selection has actually been implemented in the sw`itch.

The standard format for Letter of Authorization (LOA) processing of PIC changes requested by an IC is electronic (i.e., Magnetic Tape or Network Data Movers). The specifications for the standard format of information is identified in the procedures for Customer Account Record Exchange (CARE), industry support interface, maintained by Alliance for Telecommunications Industry Solutions (ATIS) as part of the Ordering and Billing Forum (OBF) workgroup. A nonrecurring charge per telephone number as set forth in 20.1.7, 20.3.7, 20.3.7, 20.4.7 or 20.5.7 following will apply to an IC submitting paper or fax LOAs. This charge will not apply if the Telephone Company is unable to accept electronic LOA information
