

## ACCESS SERVICE

16. Packet Data Services (Cont'd)16.8 Infospeed DSL Service (Cont'd)(D) Terms and Conditions

1. The Company will provision and maintain Infospeed DSL Service from the Infospeed DSL Connection Point to the network interface device (NID) at the customer's designated premises. The customer is responsible for obtaining a compatible splitter and modem.
2. The customer will provide the Company with the necessary information (e.g., customer name and address, circuit address, serving area, etc.) to provision Infospeed DSL Service.
3. Access from the Infospeed DSL Connection Point will be provided via the Company's ATM service. The rates and charges for ATM service are in addition to rates and charges for Infospeed DSL Service.
4. The Company offers Infospeed DSL Service over available, compatible facilities to Customers to serve End Users who subscribe to the Company's local exchange service. In addition, the Company offers Infospeed DSL Service over available, compatible facilities to Customers to serve End Users who do not subscribe to the Company's local exchange service in the following circumstances:
  - (a) Where an existing Customer's End User switches its existing local exchange service from the Company to a carrier that does not use the Company's switching facilities and does not require a dispatch of Company personnel to the End User's premises; or
  - (b) Where a Customer's End User does not currently subscribe to local exchange service provided either by the Company or a carrier that utilizes the Company's loop or switching facilities.
