And

FAA FTI, c/o Harris Corporation  
Melbourne, Florida  
CASE NO. FL04-C937-01

## **SECTION 1 INTRODUCTION**

With this filing, BellSouth Telecommunications, Inc. proposes to recover the cost associated with special construction necessary to provide Alternate Serving Wire Center Diversity from the customer's location at 2150 FAA Blvd, Macon, Georgia to the Macon GuyPaine Central Office (GA05-5151-00) and to provide route diversity from the customer's location at 2302 Bellevue Avenue, Daytona Beach, Florida, to the Daytona Beach Main Central Office (FL04-C937-01). Special Construction is required because facilities are not available to meet the Customer's request. With these cases, the Telephone Company must construct new fiber facilities and electronics. The Telephone Company has no other planned use for the facilities requested.

Because this special construction is provided in connection with a service available under an existing tariff, the customer will be charged the tariff rates for services as set forth in BellSouth's FCC Tariff in addition to the charges described herein. The charges set forth in this filing recover the costs caused by this customer's request. Workpaper I provides a summary of the charges for the service; Workpaper II provides cost details, Workpaper III provides monthly capital cost calculations, and Workpaper IV provides non-recoverables summary. Attachment A details the above workpapers for GA05-5151-00 and Attachment B details these workpapers for FL04-C937-01.

SECTION 2  
RATE AND COST DEVELOPMENT

2.1 INTRODUCTION

This special construction case establishes charges necessary for facilities to provide service between the customer location at 2150 FAA Blvd, Macon, Georgia to the Macon GuyPaine Central Office (GA05-5151-00) and to provide route diversity from the customer's location at 2302 Bellevue Avenue, Daytona Beach, Florida, to the Daytona Beach Main Central Office (FL04-C937-01). The facility portion requiring special construction consists of aerial fiber cable and labor to install electronics between the customer's location and their Central Offices.

The following is a summary of the charges associated with this filing. A description of each element is contained in Section 2.2.

GA05-5151-00 -Special Construction Charges for Alternate Serving Wire Center Diversity Service

Special Construction Charge	\$5,219.00
Case Preparation	\$1,542.00

FL04-C937-01 - Special Construction Charges for route diversity

Special Construction Charge	\$5,368.00
Case Preparation	\$1,468.00

2.2 DESCRIPTION OF CHARGES

### 2.2.1 Nonrecurring Charge

The Nonrecurring charge is applied to recover the present worth of the monthly capital costs, calculated over the account average life of the applicable field reporting code, then spread over the contract period. The capital costs are developed from the estimated non-recoverable investments associated with the special construction. The non-recoverable investments consist of estimated engineering and installation costs based on labor hours and labor rates, outside contractor billing and associated material. Details of this component are shown on Workpaper IV, page 1. The present worth of the capital costs is developed using the authorized cost of capital. Details of the costs supporting this component are shown on Workpaper II, page 1.

The Case Preparation Charge is applied to recover the applicable costs of the case preparation. Case preparation consists of the cost of administrative expenses associated with preparing a special construction case and the associated tariff filing. Details of the costs supporting this component are shown on Workpaper II, page 1.
