TARIFF F.C.C. NO. 1

Cancels Original Title Page

1st Revised Title Page

Original Title Page Effective December 1, 1998

ACCESS SERVICE

Regulations, Rates and Charges

applying to the provision of Access Service
for connection by customers to the interstate communications
facilities within
the operating territory of

Fidelity Telephone Company

in the State of Missouri

as provided herein.

Access Services are provided by means of wire, fiber optics, radio, any other suitable technology, or a combination thereof.

Pursuant to Section 61.87 of the Commission's rules, this Fidelity Telephone Company Tariff F.C.C. No. 1 is cancelled in its entirety effective July 1, 2005.

(N)

Effective July 1, 2005, Fidelity Telephone Company will be an issuing carrier in the National Exchange Carrier Association (NECA) Tariff F.C.C. No. 5. All rates, rules, and regulations for the provision of interstate access services by Fidelity Telephone Company can now be found in the NECA Tariff FCC No. 5.

ACCESS SERVICE**1. APPLICATION OF TARIFF**

- 1.1 This tariff contains rates and charges applicable to the provision of Switched Access and Special Access Services, and other miscellaneous services, hereinafter referred to collectively as service (s), provided by Fidelity Telephone Company, to customers. This tariff also contains Access Ordering charges that are applicable when these services are ordered or modified by the customer. Fidelity Telephone Company participates in the National Exchange Carrier Association, Inc. (NECA) Tariff F.C.C. No. 5 for Carrier Common Line, End User Common Line, and Universal Service Fund Services, therefore the rates and charges for these services are as provided in the F.C.C Tariff No. 5.
- 1.2 The provision of such service by Fidelity Telephone Company as set forth in this tariff does not constitute a joint undertaking with the Customer for the furnishing of any service.
- 1.3 This tariff references the regulations, terms and conditions of the National Exchange Carrier Association, Inc. (NECA) Tariff F.C.C. No. 5, Access Service, for the General Regulations, End User Common Line, Carrier Common Line, Switched Access, Special Access, Universal Service Fund, and other miscellaneous services contained therein. Regulations, terms and conditions applicable of these services are specifically cross referenced and included in the following sections of the National Exchange Carrier Association, Inc. Access Service Tariff F.C.C. No. 5: (x)

ACCESS SERVICE

8. Digital Subscriber Line Access Services

(N)

Digital Subscriber Line (DSL) Access Services provide transmission services over local exchange service copper facilities that can be used for simultaneous voice and data communications. Service is provided, where available, between customer designated premises and designated Telephone Company Serving Wire Centers.

8.1 Asymmetric Digital Subscriber Line Access Service8.1.1 General

Asymmetric Digital Subscriber Line (ADSL) Access Service enables data traffic generated by a customer-provided modem to be transported to a DSL Access Service Connection Point using the Telephone Company's local exchange service facilities. A DSL Access Service Connection Point is an interconnection point designated by the Telephone Company that aggregates data traffic from and to Telephone Company ADSL-equipped Serving Wire Centers (SWCs). The DSL Access Service Connection Point is located within the operating territory of the Telephone Company. The customer's ADSL Access Service must be connected to a telecommunications service provider's (TSP's) customer designated premises using the Telephone Company's Special Access Services.

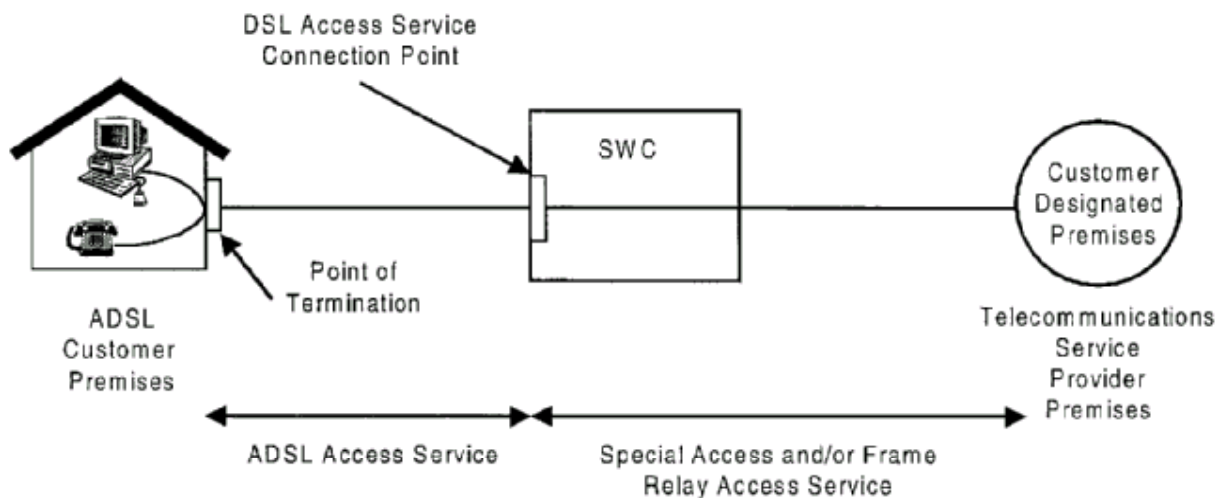

(N)

ACCESS SERVICE8. Digital Subscriber Line Access Services (Cont'd)

(N)

8.1 Asymmetric Digital Subscriber Line Access Service (Cont'd)8.1.1 General (Cont'd)

A generic view of how ADSL Access Service would be interconnected with a TSP's network is depicted in the figure following. The customer's ADSL-equipped Serving Wire Center and associated DSL Access Service Connection Point are located in the same office within the Telephone Company's operating territory. The ADSL Access Service customer orders ADSL Access Service pursuant to the provisions specified in this section. The ADSL Access Service customer's TSP orders Special Access Services to connect its designated premises to the DSL Access Service Connection Point.

ADSL ACCESS SERVICE

(N)

ACCESS SERVICE

8. Digital Subscriber Line Access Services (Cont'd)8.1 Asymmetric Digital Subscriber Line Access Service (Cont'd)

(N)

8.1.2 Limitations

ADSL Access Service is available at a maximum upstream speed of 640 kbps (i.e., from the customer's equipment up to the DSL Access Service Connection Point) and a maximum downstream speed of 1.544 Mbps (from the DSL Access Service Connection Point down to the customer's equipment). These peak speeds are not guaranteed by the Telephone Company due to factors that may affect the actual speeds delivered, including the ADSL Access Serving Wire Center, condition of the facilities, and any capacity limitations in the TSP's network design. The Telephone Company does not provide customer premises equipment (CPE) in conjunction with the ADSL Access Service offering.

ADSL Access Service will be furnished where suitable facilities exist as determined by the Telephone Company. The Telephone Company will identify its ADSL-equipped Serving Wire Centers in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. Tariff F.C.C. No. 4.

ADSL Access Service will be provided over existing Telephone Company local exchange service lines. Rates and regulations for ADSL Access Service are in addition to any rates and regulations that apply for the associated local exchange service line provided under the terms and conditions in the Telephone Company's general and/or local exchange service tariffs.

(N)

ACCESS SERVICE

8. Digital Subscriber Line Access Services (Cont'd)

(N)

8.1 Asymmetric Digital Subscriber Line Access Service (Cont'd)8.1.3 Undertaking of the Telephone Company

The Telephone Company will provide ADSL Access Service at rates and charges as set forth in Section 17.4.9(A) and/or 17.4.9(B) as follows:

(A) The Telephone Company will determine if the associated local exchange service line is suitable for use with ADSL Access Service. Service will not be provided on lines that the Telephone Company determines are not suitable for ADSL Access Service or on lines that produce interference with other services provided by the Telephone Company.

(B) The Telephone Company, after determining if the local exchange service line is suitable for ADSL Access Service, will notify the customer if any additional CPE is necessary to support ADSL Access Service.

(C) The Telephone Company will provision and maintain ADSL Access Service from the DSL Access Service Connection Point to the Point of Termination at the ADSL Access Service customer's premises.

ACCESS SERVICE

8. Digital Subscriber Line Access Services (Cont'd) (N)8.1 Asymmetric Digital Subscriber Line Access Service (Cont'd)8.1.4 Obligations of the Customer

In addition to the regulations described in other sections of this tariff, the following provisions apply to ADSL Access Service:

- (A) The customer must subscribe to local exchange service from the Telephone Company pursuant to the Telephone Company's general and/or local exchange service tariffs. The Telephone Company will automatically disconnect ADSL Access Service when the associated local exchange service is disconnected for any reason.
- (B) The customer is responsible for providing the Telephone Company with the necessary information to provision ADSL Access Service (e.g., customer name, telephone number and premises address; billing name and address when different from the customer name and premise address; its Internet Protocol (IP) address; and the contact name and telephone number of the TSP with which the customer's ADSL Access Service will interconnect).
- (C) The customer is responsible for providing and maintaining all required customer provided equipment (CPE), which must be compatible with the Telephone Company's ADSL Access Service.

(N)

ACCESS SERVICE

8. Digital Subscriber Line Access Services (Cont'd)

(N)

8.1 Asymmetric Digital Subscriber Line Access Service (Cont'd)8.1.5 Rate Regulations

This section contains the regulations governing the rates and charges that apply for ADSL Access Service.

(A) Minimum Period

The minimum period for which ADSL Access Service is provided to a customer and for which charges are applicable is one month.

(B) Moves

A move involves a change in the physical location of one of the following:

- The Point of Termination at the ADSL Access Service customer designated premises
- The ADSL Access Service customer designated premises

A move will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply.

(C) Temporary Suspension of Service

When the associated local exchange service line over which ADSL Access Service is provided is temporarily suspended, the ADSL Access Service and one-half of the ADSL Line Charge monthly rate will be temporarily suspended for the time period that the associated local exchange service is suspended.

(N)

ACCESS SERVICE

8. Digital Subscriber Line Access Services (Cont'd)

(N)

8.1 Asymmetric Digital Subscriber Line Access Service (Cont'd)8.1.5 Rate Regulations (Cont'd)(D) Rate Categories

There are two types of rates and charges applicable to ADSL Access Service. These are a monthly rate and a network reconfiguration charge.

The monthly rate for the ADSL Line Charge applies each month or fraction thereof for each local exchange service line equipped with ADSL Access Service.

All changes to existing ADSL Access Service (e.g., a change of TSP or restoration of the ADSL Access Service following a disconnect for non-payment of charges and/or a disconnect of the associated local exchange service line for any reason), other than changes involving DSL network reconfigurations and administrative activities, will be treated as a discontinuance of the existing service and an installation of a new service.

A DSL Network Reconfiguration Charge applies when the ADSL Access Service customer's TSP requests the Telephone Company to modify the Telephone Company's network to: 1) accommodate a change in the ADSL Access Service customer's existing IP address or 2) limit the data speed delivered over the customer's existing ADSL Access Service line. This charge applies for each request per ADSL Access Service line. The Telephone Company will bill the DSL Network Reconfiguration Charge to the ADSL Access Service customer's TSP.

(N)

ACCESS SERVICE8. Digital Subscriber Line Access Services (Cont'd)8.1 Asymmetric Digital Subscriber Line Access Service (Cont'd)

(N)

8.1.5 Rate Regulations (Cont'd)(E) Rate Categories (Cont'd)

The following administrative changes will be made without charge to the customer:

- Change of customer premises address when the change of address is not a result of a physical relocation of equipment,
- Change in billing data (name, address or contact name or telephone),
- Change of billing account number,
- Change of agency authorization that requires no changes to the Telephone Company's network,
- Change of customer contact name or telephone number and,
- Change of jurisdiction.

Rates and charges for ADSL Access Service are as set forth in Section 17.4.9(A), following. The DSL Network Reconfiguration Charge is as set forth in Section 17.4.9(C), following.

Effective Date: October 16, 2001

ACCESS SERVICE

8. Digital Subscriber Line Access Services (Cont'd)8.2 ADSL Access Services Discount Pricing Arrangement

The telecommunications services offered under the ADSL Access Services Discount Pricing Arrangement (DPA) are provided at wholesale rates to the customer under the conditions listed below.

(A) The customer purchases ADSL Access Service as described in Section 8.1 preceding, for the purpose of combining these telecommunications services with its own information service(s) to create a new retail service for sale to its end user customer(s).

(B) In addition to the obligations specified in Section 8.1.4, preceding, the customer assumes the following obligations:

(1) The customer will deal directly with its end user customers with respect to all matters pertaining to the service provided, including marketing, sales, ordering, installation, maintenance, trouble reporting, repair, billing and collections. The customer will not direct its end users to contact the Telephone Company for any aspect of the service the customer provides.

(2) The customer will submit orders for ADSL Access Service to the Telephone Company in a format and manner designated by the Telephone Company.

(3) The customer will obtain the appropriate authorization to allow the Telephone Company to provision ADSL Access Service over the customer's end user's existing telephone exchange service line.

(C) When the customer purchases ADSL Access Service under the ADSL Access Service DPA, the rates and charges in Section 17.4.9(B), following, will apply in lieu of the rates and charges specified in Section 17.4.9(A), following. A monthly charge applies for each ADSL Access Service line covered under the DPA. A DSL Network Reconfiguration Charge will apply for each requested reconfiguration for each ADSL Access Service line covered under the DPA.

In addition, a nonrecurring one-time plan set up fee and a monthly recurring administrative charge, as specified in Section 17.4.9(B), will be charged to each wholesale customer (ISP) to cover the costs of initializing the operational support system to handle orders under the DPA.

ACCESS SERVICE

14. **EXCEPTIONS TO ACCESS SERVICE OFFERINGS**

The services offered under the provisions of this tariff are subject to availability as set forth in the National Exchange Carrier Association, Inc. Access Service Tariff F.C.C. No. 5 Section 2.1.4. In addition, the following exceptions apply: (x)

(In planning an end-to-end service, the customer should contact the Telephone Company in each customer designated premises city to assure itself that all of the service or service components required for a given customer service are currently available.)

14.1 The following service(s) is (are) not offered.

- (A) With respect to NECA F.C.C. No. 5, Section 9 Directory Assistant Service is not provided under access tariff rates.
(x)

14.2 The following offering(s) is (are) limited to existing location. No inside moves, rearrangements or additions will be permitted.

(None)

14.3 The following offering(s) is (are) limited to existing location. Inside moves or rearrangements may be undertaken. However, no additions will be permitted.

(None)

14.4 The following offering(s) is (are) limited to existing locations where additional units may be added for growth. Inside moves or rearrangements may be undertaken.

(None)

14.5 The following offering(s) is (are) limited to existing locations where additional units may be added for growth. However, inside moves or rearrangements will not be permitted.

ACCESS SERVICE

14. **EXCEPTIONS TO ACCESS SERVICE OFFERINGS**

14.6 Because NECA does not yet have language in its tariff to accommodate long-term number portability (LNP), language is added herein to describe the LNP offering:

- (A) Fidelity queries the regional database as required on behalf of its local exchange, line side access service customers and resale customers to enable completion of calls to numbers with NXX codes that have been designated as number portable. This service is “automatically” provided as part of the dialing process employed in Fidelity’s local exchange and access network. (Z)
- (B) On calls placed to numbers with NXX codes that have been designated as number portable, an originating LNP capable switch, using advanced intelligent network capabilities will suspend call processing, formulate and launch a query via the common channel signaling network to a database containing information necessary to route calls to number portable NXX codes. When the necessary routing information has been returned from the database to the switch originating the query, call processing is resumed and the call is routed to the correct network switching element for completion to the called party.

ACCESS SERVICE

15. ACCESS SERVICE INTERFACES AND TRANSMISSION SPECIFICATIONS

The Access Service Interfaces and Transmission Specifications applicable to services offered in this tariff are the same as those applicable to the NECA Tariff F.C.C. No. 5. (x)

ACCESS SERVICE

17. Rates and Charges (Cont'd)17.2 Switched Access Service (Cont'd)17.2.4 Feature Group B (FGB with an Abbreviated Dialing Arrangement (ADA) Rate Factor

In end offices that are equipped with equal access capabilities, premium rates apply to all FGB with ADA access minutes.

In end offices that are not equipped with equal access capabilities:

- Carrier Common Line Rates and charges will be developed by multiplying the premium charges computed pursuant to 3.8 preceding by an ADA rate factor of .95.
- Switched Access premium rates will apply to:
 - Entrance Facility
 - Direct Trunked Termination
 - Directed Trunked Facility
 - Tandem Switching
 - Multiplexing
- Switched Access premium rates multiplied by an ADA rate factor of .95 will apply to:
 - Local Switching
 - Information Surcharge
 - Residual Interconnection Charge
 - Local Transport Facility and Local Transport Termination (when the Telephone Company has identified in NECA Tariff F.C.C. No. 4 Wire Center Information that it has not received a bona fide request for Direct Trunked Transport)
