With this filing, Verizon submits revisions to Internet Protocol – Virtual Private Network (IP-VPN) Service regulations to introduce Dedicated User to Network Interface (UNI) Port with Access Line Connections, Dedicated UNI Port Only Connections and new speeds for i-VCs. A Description providing a detailed explanation of these revisions is being provided as an attachment to this filing.

Verizon will not be submitting any supporting information pursuant to Section 61.49 for this filing, since there is no demand for IP-VPN Service in the State of New Jersey. These changes have no impact on revenue under the cap and no changes to the indices will occur. Therefore, Tariff Review Plan ("TRP") support will not be included with the filing.

Figure 1, provided as an attachment to this filing, will be used in the 2006 Annual Filing to demonstrate that the new rate elements being introduced under IP-VPN should be granted the same Phase I or Phase II regulatory relief in the MSAs and the non-MSAs where the service category has been granted such relief.

Payment in the amount of \$720.00 has been electronically transmitted to the Mellon Bank in Pittsburgh, Pennsylvania, in accordance with the fee program procedures. The Form 159 is being transmitted electronically via ETFS.

In accordance with the requirements of Section 61.21(a)(3) of the Commission's Rules, the F.C.C. Registration Number (FRN) for Verizon is 0003-7085-00. Verizon is filing this application on behalf of issuing carriers with the following FRNs:
