[2] Includes Malheur Home Telephone Company.

**12. SPECIALIZED SERVICE OR ARRANGEMENTS**

**12.3 CASES (Cont'd)**

**CASE NO:** 2005-1  
**CUSTOMERS:** Los Alamos National Labs and the University of New Mexico  
**EFFECTIVE:** 9-1-2005

**DESCRIPTION:** This case allows Los Alamos National Labs to connect a GeoMax Circuit located at their premise with the University of New Mexico premise using only one CO Node. The terms and conditions for GeoMax as set forth in Section 7, preceding would require the aforementioned arrangement to connect through two CO Nodes. This case introduces a configuration that requires only one CO Node in lieu of the two CO Node requirements, hence the name "Hairpin Configuration".

The initial term of this case is 60-months which will complete on August 31, 2010. If this service becomes a general tariff offering within the term of this Case, this arrangement will be converted to that general offering at the applicable rates. If the customer chooses not to convert to the general tariff offering, the service will be terminated without assessing Termination Liability.

The customer will be billed at the appropriate 60-month term rates set forth in Section 7, preceding and Section 17, following. When the entire service or a portion of the service is disconnected prior to the expiration of the fixed period service rate plan then Termination Liability and Waiver Charges (TLA) as set forth in Section 7, preceding, will apply.
