2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

  (A) Channel Services Payment Plan (Cont'd)

    (7) Renewal Options (Cont'd)

      (f) (Cont'd)

          Another example is a month-to-month customer, in service for 15
          months, who wishes to convert to a 60-month CSPP arrangement with
          no changes. The combined service period of the Month-to-Month
          arrangement and the CSPP arrangement is equal to 75 months, which
          would be billed under Payment Plan C.

    (8) Transfer of Service

      (a) Service transferred to a new customer at the same location in
          accordance with Section 2.1.2 preceding does not constitute a
          disconnect of service or a discontinuance of an existing CSPP
          arrangement.

    (9) Prepayment

      (a) Effective October 15, 2005, prepayment is not available for new   (N)
          CSPP arrangements.   (N)

      (b) Upon entering into a CSPP arrangement, the customer may prepay the   (T)
          outstanding recurring monthly rates in whole or in part for all
          rate elements included in the CSPP arrangement. The Company retains
          full ownership for services in accordance with Section 2.4.6. The
          following conditions apply:

        - A prepayment allowance will be applied to the amount prepaid for
          each given month equal to 0.6666% per month compounded monthly for
          the number of months the payment is advanced.

        - The customer may elect the percentage of the monthly rates to be
          prepaid, provided however, the same percentage shall apply to all
          rate elements included in the CSPP arrangement for all months
          remaining in the service period.

        - This same prepayment percentage will apply in the event the
          customer adds services to an existing CSPP arrangement subsequent
          to the establishment of the service.

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(A) Channel Services Payment Plan (Cont'd)

(9) Prepayment (Cont'd)

(b) (Cont'd)   (T)

- When a customer who has prepaid recurring monthly rates replaces the existing CSPP arrangement with a new CSPP arrangement, the customer will be credited with that portion of the prepayment amount, representing a prepayment of the monthly recurring rates remaining in the existing CSPP arrangement.

- Customers who prematurely disconnect will have termination liability charges deducted from the unused prepaid balance. The remaining prepaid balance, if any, will be credited to their bill.

(B) Area Commitment Plan (ACP)

The Area Commitment Plan (ACP) allows customers who have obtained service on a month-to-month basis to receive reduced rates, in the form of ACP credits, in exchange for a commitment to maintain a level of service for a specified period of time. The terms of this plan apply to special access services or switched access services that are available under an ACP, except as noted in the rate regulations for a service.

Services included in a Channel Services Payment Plan (CSPP) and/or a Transport Payment Plan (TPP) may not be included in an ACP or vice versa.

The customer determines the commitment level of rate elements that will be included in an ACP, i.e., the customer will provide the number of commitment rate elements expressed as a whole number (e.g., 12 DS1 Local Channels). For example, a customer wishes to establish an ACP for all of his DS1 services that are billing on a month-to-month basis. The customer has 12 DS1 Local Channels and 6 DS1 Interoffice Channels that have a total of 90 Interoffice Channel miles. In this example, the quantity of commitment rate elements would be specified as 12 DS1 Local Channels and 90 Interoffice Channel miles. For interoffice channels, the commitment is based on a quantity of miles. When credits are applied to interoffice channel miles on a circuit, the customer automatically receives credit for the fixed rate element component of the interoffice channel. As a further example, this customer may desire to establish a commitment level only for a small portion of these DS1 services. In this case, the customer would specify the level that is desired (e.g., 1 DS1 Local Channel). ACP commitments are made on a regional basis, i.e., one commitment for all Company service areas.
