

ACCESS SERVICE

23. Dedicated Ring and Optical Services (Cont'd)23.1 Verizon Dedicated SONET Ring (Cont'd)

(T)

(D) Application of Rates and Charges

(T)

- (1) DSRs are available for 3, 5 and 7-Year commitment periods. The 3 and 5-year plans apply to ports, nodes, mileage and high speed (pass through) interfaces. The 7-Year plan applies only to nodes, high speed (pass through) interfaces and mileage. However, DSR ports are also available on monthly terms. Nodes and ports* added subsequent to the initial installation may be coterminous to the expiration date of the DSR provided the addition is prior to the 21st month for a 3-year plan, prior to the 36th month for a 5-year plan, or prior to the 50th month for a 7-Year plan. Nodes added after the aforementioned periods require extending the commitment period for an additional one year for a 3-year plan, an additional 2 years for a 5-year plan, or an additional 3 years for a 7-Year plan. However, ports in a Month-to-Month plan may be added at any time. (T)
- (2) Monthly recurring charges apply for the nodes, ports, the mileage between nodes, and high speed (pass through) interfaces. Once a term period expires, the prevailing rates of the current plan will continue until the customer cancels service or requests a new term plan. (T)
- (3) With the exception of Storage Interface Ports, for DSR ports purchased on a month-to-month basis, nonrecurring charges apply on a first and additional basis (i.e., for the first port and for each additional port at a node as described in detail below) at the initial installation of DSR service, and to all ports installed subsequent to the initial installation of DSR service. The First Nonrecurring Charge applies to the first of each port type and speed installed at a node. The Additional Nonrecurring Charge applies for each additional port of the same type and same speed added at the same node on the same order. For example, if a customer places an order for ten (10) GigE3 Ports at the same OC48 node, one First Nonrecurring Charge and nine Additional Nonrecurring Charges will apply for the GigE3 Ports. The charge will vary based on whether the installation is in connection with the initial installation of the DSR service or a subsequent installation of ports. (T)(y)

(T)(y)
- (4) For Storage Interface Ports purchased on a month-to-month basis, nonrecurring charges apply to the installation of ports on a first and additional basis regardless of whether the installation of such Storage Interface Port is in connection with the initial or subsequent installation of DSR. (T)(y)
- (5) Nonrecurring charges for DSR nodes apply to all nodes installed subsequent to the initial installation of DSR. (T)(y)
(T)(y)

* A mix of enhanced nodes and those nodes that are not enhanced is prohibited. Ports requiring enhanced nodes may not be added to nodes that are not enhanced.
