## ACCESS SERVICE

25. Discount Plans (Cont'd)25.1 Commitment Discount Plans (Cont'd)25.1.9 Termination Liability (Cont'd)

(C) (Cont'd)

(2) Option 2 Termination Liability Charge Method and Calculation  
(Cont'd)

(b) The above steps will be repeated for each service type included in the CDP plan. Upon determining the total termination liability for all service types under Option 2, the Telephone Company will compare the termination liability charge calculated under Option 2 with the termination liability charge calculated under Option 1, and shall apply the method that produces the lesser termination liability charge. For example, if the termination liability charge under Option 1 were calculated at \$120,000 and the termination liability charge calculated under Option 2 (Method B) was \$51,444; the \$51,444 under Option 2 (Method B) would apply.

(c) For services based on TPP rates, the discount percentage is calculated as one (1) minus the percentage difference between the discounted channel termination rate applied and the month-to-month rate for the channel termination.

(i) Prior to subtracting the percentage difference from the number one (1), the percentage difference shall be converted to a positive (+) number.

For example, assume that the month to month TPP rate for Special Access DS1 service is \$100 and that the discounted TPP rate is \$70. The percentage difference is calculated by the following equation:

$$(70 \text{ minus } 100) \text{ divided by } 100 = -0.3.$$

(ii) To calculate the discount percentage, the percentage discount -0.3 shall be converted to a positive (+) number prior to subtracting it from number one (1). In this example, the calculation of the discount percentage shall be 1 minus (+0.3) which equals 0.7.

## ACCESS SERVICE

25. Discount Plans (Cont'd)25.1 Commitment Discount Plans (Cont'd)25.1.10 Minimum Period

The minimum period for any service provided under the CDP is one (1) year from the date that such service is installed. When a service is disconnected prior to the expiration of the minimum period, the customer shall be responsible for charges for the balance of the minimum period. The calculation for the Minimum Period Charge will be determined as set forth in Section 5.2.6 preceding.

(M) (x)

(M)

(T)

(M)

(M) (x)

As an illustrative example, assume that customer establishes a DS1 High Capacity/1.544 Mbps Special Access Service under a term payment plan (TPP) on 1/1/2001. On 1/1/2005, customer establishes a Commitment Discount Plan with a five year commitment period for its DS1 High Capacity service type. On 2/1/2005, customer disconnects the DS1 High Capacity circuit originally installed on 1/1/2001. Since the service was installed on 1/1/2001, and the disconnection date was 2/1/2005, the minimum period under CDP of one year has been met. Therefore, the customer is not required to pay any minimum period charges.
