ACCESS SERVICE

25. Discount Plans (Cont'd)25.1 Commitment Discount Plans (Cont'd)25.1.11 Termination Liability (Cont'd)Option 2 Termination Liability Method and Calculation (Cont'd)

Using the data from the final true-up and any previous true-up data necessary to recalculate the prior twenty-four months, the Telephone Company will calculate the termination liability charge as follows.

- (1) Determine the total dollar amount associated with all of the monthly rate elements which were discounted over the previous twenty-four months (i.e., the actual discounted dollar amounts for the prior twenty-four months).
- (2) Determine the total dollar amount (with no discount applied) for the same rate elements in (1) for the prior twenty-four months and apply the discount percentage for the highest commitment period which could have been satisfied (36 months in this example).
- (3) If the total dollar amount in (1) is greater than the total amount in (2), the Telephone Company will subtract the total dollar amount in (2) from the total dollar amount in (1) and credit the difference to the customer. If the total dollar amount in (2) is greater than the total dollar amount in (1), the Telephone Company will subtract the total dollar amount in (1) from the total dollar amount in (2) and apply the difference as an adjustment (charge up) to the customer.

25.1.12 Minimum Period

The minimum period for any service provided under the Commitment Discount Plan is one year from the date that such service is installed.

(T)
(T)

As an illustrative example, assume that customer establishes a 1.544 Mbps (DS1) High Capacity Special Access Service under a Service Discount Plan (SDP) on 1/1/2001. On 1/1/2005, customer establishes a Commitment Discount Plan with a five year commitment period for its DS1 High Capacity service type. On 2/1/2005, customer disconnects the DS1 High Capacity circuit originally installed on 1/1/2001. Since the service was installed on 1/1/2001, and the disconnection date was 2/1/2005, the minimum period under CDP of one year has been met. Therefore, the customer is not required to pay any minimum period charges.
