ACCESS SERVICE

2. General Regulations (Cont'd)2.3 Obligations of the Customer (Cont'd)2.3.11 Jurisdictional Report and Certification Requirements (Cont'd)(C) Jurisdictional Reports - Switched Access (Cont'd)(1) General (Cont'd)

implemented July 1, and will serve as the interstate percentage for the next twelve months billing. If the customer does not supply the report, the Telephone Company will calculate a PIU based on the available known call detail for the customer's terminating access minutes for the prior quarter.

(T)
(T)
(T)

The customer shall compute the PIU using the following formula (rounded to a whole percentage).

$$\frac{\text{Interstate Minutes}}{\text{Total Minutes}}$$

When Special Access service is provided on a Switched Access facility, e.g., Special access DS1 on a Switched Access DS3, the facility will be apportioned between Switched Access and Special Access. The jurisdiction of the Special access service shall reflect the composite of the jurisdiction of the lower capacity services, if any, of which it is comprised.

(TR158)

ACCESS SERVICE

2. General Regulations (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.11 Jurisdictional Report Requirements (Cont'd)

(C) Jurisdictional Reports - Switched Access (Cont'd)

(3) Feature Groups C and D

- For terminating access minutes, the customer may supply the interstate percentage or the customer may allow the Telephone Company to develop the projected interstate percentage for such terminating access minutes based on the available known call detail for the customer's terminating access minutes for the prior quarter. Customers choosing not to supply a PIU for terminating Feature Group C or D switched access service may continue to allow the Company to develop this PIU based on the available known call detail for the customers terminating access minutes for the prior quarter. This percentage shall be used by the Company as the interstate percentage for such call detail. (C)

When a customer employs the use of 700 or 900 Service Access Codes over Feature Group D switched access, the customer must provide the Company with the projected percentage of interstate use for the 700 or 900 calls made. The remaining percentage will be treated as the intrastate percentage.

(D) Billing Disputes Involving Jurisdictional Reports

If the Telephone Company disputes the PIU provided by the customer as set forth in (C) preceding, or the reported PIU varies by more than five percentage points over the preceding PIU, the Telephone Company will ask the customer to provide the data used by the customer to determine the projected interstate percentage. The customer shall retain, for a minimum of one year, accurate call detail records from which the percentage of interstate and intrastate use can be derived, and shall make such records available for inspection for PIU verification. Such records shall be made available for inspection and audit within 15 days of the Telephone Company's request for verification. (C) (M)

The Telephone Company shall limit audits to no more than one per year, except where additional audits may be required to verify allocation changes which represent a five percent shift from the customer's most recent reported figures, and such change is not the result of seasonal shifts or other identifiable reasons. The customer may request that verification audits be conducted by an independent auditor. In such cases the associated auditing expenses will be paid by the customer. (C) (M)

(M) Information found on this page previously found on Page 2-23.

ACCESS SERVICE

2. General Regulations (Cont'd)2.3 Obligations of the Customer (Cont'd)2.3.11 Jurisdictional Report and Certification Requirements (Cont'd)(D) Billing Disputes Involving Jurisdictional Reports (Cont'd)

In the event that the customer fails to provide adequate records to enable the Telephone Company or an independent auditor to conduct an audit verifying the customer's PIU, the Telephone Company will bill the usage for all the contested periods using the existing PIU for the customer or the PIU calculated by the Telephone Company based on the available known call detail for the customer's access minutes for the prior quarter. This PIU will remain in effect until the customer provides the call detail records from which the percentage of interstate and intrastate use can be derived. No prorating or back billing will be done based on the newly derived factor.

(C)

(C)

2.3.12 Determination of Interstate Charges for Mixed Interstate and Intrastate Switched Access Service

When mixed interstate and intrastate Switched Access Service is provided, all charges (i.e., nonrecurring, monthly and/or usage) including optional features charges, will be prorated between interstate and intrastate. The percentage determined as set forth in 2.3.11 preceding will serve as the basis for prorating the charges unless the Telephone Company is billing according to actuals by jurisdiction. The percentage of an Access Service to be charged as interstate is applied in the following manner:

(A) Monthly and Nonrecurring Charges

For monthly and nonrecurring chargeable rate elements, multiply the percent interstate use times the quantity of chargeable elements times the stated tariff rate.

(B) Usage Sensitive Charges

For usage sensitive (i.e., access minutes and calls) chargeable rate elements, multiply the percent interstate use times actual use (i.e., measured or Telephone Company assumed average use) times the stated tariff rate.

The interstate percentage may change as revised usage reports are submitted as set forth in 2.3.11 preceding.

Information previously found on this page now found on Page 2-22.1.

ACCESS SERVICE

17. Rates and Charges (Cont'd)17.4 Other Services (Cont'd)17.4.8 Digital Subscriber Line Access Service

(A) Asymmetric Digital Subscriber Line (ADSL) Access Service

Regulations concerning Asymmetric Digital Subscriber Line Access Service are set forth in Section 8.1, preceding.

Rates and regulations for ADSL Access Service are in addition to any rates and regulations that apply for the ADSL Access Service customer's local exchange service.

1. Standard Arrangements:

	Monthly Rate	Nonrecurring Charge	
(a) ADSL Access Port:			
Option 1	\$ 29.95	\$ 99.95	
Option 2*	\$ 59.95	\$ 99.95	
Option 3#	\$119.95	\$ 99.95	
Option 4	\$ 21.00	\$ 99.95	
Option 5	\$ 59.95	\$ 99.95	
Option 6	\$ 34.95	\$ 99.95	
Option 7	\$124.95	\$ 99.95	
(b) ADSL Logical Access Link:			
Initial Logical Link	Free		
Each additional Logical Link	\$ 19.95	\$ 19.95	
(c) ADSL Network Access Link			
Connection which provides 50 Logical Access Links:			
- Per DS1 (1.544 mbps)	\$ 399.95	\$ 499.95	
- Per DS3 (44.736 mbps)	\$2250.00	\$ 700.00	(R)
- Per OC3 (155.52 mbps)	\$3500.00	\$1200.00	(N)
Additional block of 50 Logical Access Links	\$ 99.95	\$ 99.95	

2. Term Discounts:

(a) ADSL Access Port:

Option 1		
12 Month	\$ 19.95	\$ 99.95
Option 4		
12 Month	\$ 17.00	\$ 99.95
Option 6		
12 Month	\$ 24.95	\$ 99.95

(b) ADSL Network Access Link

12 Month	5%
36 Month	10%

* As of March 1, 2004 Option 2 will no longer be available to new customers.

As of February 2, 2005 Option 3 will no longer be available to new customers.
