

**BELLSOUTH TELECOMMUNICATIONS, INC.**

**BellSouth DSL “EUA Conversion” – Special Promotion**

**DESCRIPTION AND JUSTIFICATION**

**TRANSMITTAL NO. 953**

With this filing, BellSouth is revising its Tariff F.C.C. No. 1, Sections 25 and 28 to add a Special Promotion that provides service credits for nonrecurring and one (1) month’s recurring charges applied to DS1 or DS3 facilities ordered for use to transport to a BellSouth DSL End User Aggregation (EUA) port an NSP’s DSL service that is currently routed to a BellSouth ATM port. In addition, Termination Liability Charges (TLCs) for disconnection of DS1 or DS3 used to transport the NSP’s DSL service to the ATM port shall not apply for DSL service converted to EUA under this Special Promotion.

BellSouth is making this Special Promotion available to provide NSPs flexibility in transitioning their service arrangements.

The BellSouth “EUA Conversion” Special Promotion filing applies to incremental demand only and does not impact existing demand. For this reason, this promotion does not create any price cap headroom or effect price cap indices in any manner. Workpaper SUM-A displays price cap indices and rate detail for this filing demonstrating that BellSouth remains within all allowable limits.

Transmittal No. 953 is being filed on January 31, 2006 to become effective February 1, 2006.
