PART I (Continued)

5.1 Frame Relay Service (Continued)

5.1.4 Application of Rates and Charges (Continued)

D. Monthly Rates and Nonrecurring Charges

A nonrecurring charge applies for each installation of certain FRS rate elements. This charge also applies whenever the facility associated with the rate element is moved, changed or rearranged. The charge is not applicable when Customer converts from one term plan to another and there is no physical change in the service facility.

In addition, for customers of record prior to July 29, 2004 with 44.736 Mbps UNI Port with Access Line Connections ordered under a seven-year TPP, the monthly rate is differentiated by the designation of the normal serving wire center of the customer designated premises as 1) an FRS DS3 Packet Switch, 2) an FRS DS3 Access Point, or 3) a serving wire center which is designated as neither an FRS DS3 Packet Switch or an FRS DS3 Access Point. Locations (serving wire centers) that have been designated as either FRS DS3 Packet Switches or FRS DS3 Access Points are identified in the National Exchange Carrier Association, Inc. Tariff FCC No. 4.

A nonrecurring charge applies for service ordered on a month-to-month basis. The customer will not be eligible for any refunds of the nonrecurring charges should a term plan be requested subsequent to the initial installation of service.

Premier PVC - A monthly recurring charge applies, on a per CIR basis, for each Premier PVC optional feature ordered. This charge applies in addition to the Standard or FRASI CIR rate element. (N)
