- 1.2 Regulations, rates and charges as specified in this tariff apply to FIA and shall not serve as a substitute for IC tariff offerings of services to end users. The provision of such FIA by the Telephone Company as set forth in this tariff does not constitute a joint undertaking with an IC for the furnishing of any service.
- 1.3 The Telephone Company provides service to three study areas. In all portions of its service territory, including all three study areas, the Telephone Company qualifies as a "rural telephone company" as that term is defined in Section 3(37) of the Communications Act of 1934, as amended 47 U.S.C. §153(3)(37). The offering and provision of service under this tariff, are subject to, and limited to the Telephone Company's obligations as a rural telephone company.
- 1.4 Any telecommunications carrier, as that term is defined in the Communications Act of 1934, as amended (47 U.S.C. §§ 151, et seq.), that orders or uses the Telephone Company's facilities to transport Internet-bound traffic to the Internet or otherwise facilitate delivery of traffic of Internet-bound traffic to an Internet Service Provider, is subject to the rates terms and conditions contained in this tariff rather than the Telephone Company's intrastate tariffs.
