Effective: May 9, 2006

Vice President, Federal Regulatory
1300 I Street, NW, Washington, D.C. 20005

ACCESS SERVICE

32. Contract Tariffs (Cont'd)32.42 Contract Tariff Option 41

(N)

(A) Scope

- (1) Contract Tariff Option 41 (**Option 41**) provides a transitional billing credit for certain monthly recurring rates assessed during a conversion (as described below) from Special Access Verizon Dedicated SONET Ring (DSR) service(s) to Special Access IntelliLight® Optical Transport Service (IOTS).
- (2) DSR is described in Section 34.1 following. IOTS is described in Section 7.2.19 preceding.

(B) Eligibility Requirements

All of the following requirements must be met in order to be eligible for subscription to Option 41.

- (1) A customer must subscribe to Option 41 by submitting a written authorization in a manner designated by the Telephone Company during the sixty day (60) period that begins on May 9, 2006 and ends on July 8, 2006 (**Subscription Period**).
- (2) The customer must place an order for a conversion from DSR to IOTS. For each conversion of DSR to IOTS that is ordered, the customer must meet all of the following requirements.
 - (a) A conversion under this Option 41 is the replacement of one (1) or two (2) in-service DSRs which are equipped with enhanced nodes or with nodes that are not enhanced (**the existing DSR(s)**) with a single IOTS (**the replacing IOTS**). At the customer's option, the replacing IOTS may also include a new DSR that utilizes IOTS SONET optical transport channels as the backbone transmission facilities between the DSR enhanced nodes (**the new DSR**). The new DSR is subject to the DSR requirements set forth in Section 34.1 following and to the IOTS requirements set forth in Section 7.2.19 preceding as they apply to connecting DSR to IOTS.
 - (b) For each existing DSR being converted, the replacing IOTS must include a SONET optical transport channel that has an optical carrier rate equal to, or greater than, the optical carrier rate of the existing DSR. For example, when converting one (1) existing Optical Carrier 12 (OC12) DSR to IOTS, the IOTS must include a SONET optical transport channel with an optical carrier rate of OC12 or greater.
 - (c) The existing DSR(s) must have been purchased under Section 34.1 following or under another contract tariff option in this Section 32.

ACCESS SERVICE

32. Contract Tariffs (Cont'd)32.42 Contract Tariff Option 41 (Cont'd)

(N)

(B) Eligibility Requirements (Cont'd)

(2) (Cont'd)

(d) The commitment period for the term plan of the replacing IOTS must extend beyond the expiration date of the commitment period for the term plan of the existing DSR as follows:

- (1) When converting one existing DSR to IOTS, the commitment period for the term plan of the replacing IOTS (as selected under Section 7.2.19 preceding or under another contract tariff option in this Section 32) must have an expiration date that extends beyond the expiration date of the commitment period for the term plan of the existing DSR.
- (2) When converting two existing DSRs to a single IOTS, the commitment period for the term plan of the replacing IOTS (as selected under Section 7.2.19 preceding or under another contract tariff option in this Section 32) must have an expiration date that extends beyond the expiration date of the commitment period for the DSR term plan with the later expiration date.

(e) The replacing IOTS must be within the same operating territory as the existing DSR(s) and must be configured as follows.

- (1) Where one existing DSR is converted to IOTS, the replacing IOTS must have at least one (1) customer premises node location and one (1) CO node location in common with the existing DSR being replaced.
- (2) Where two existing DSRs are converted to a single IOTS, the replacing IOTS must have at least one (1) customer premises node location and one (1) CO node location in common with either of the existing DSR(s) being replaced.

(C) Serving Area

- (1) The serving area of Option 41 consists of the Phase I and Phase II Metropolitan Statistical Areas (**MSAs**) of this tariff. Wire centers within the Phase II MSAs of this tariff are set forth in Section 15.3 preceding.
- (2) Any additions of, or changes to, the wire centers within an MSA that occur during the Service Period of the replacing IOTS subscribed to under this Option 41 will apply and be included in this Option 41.

(N)

(D) Terms and Conditions

- (1) Except as set forth in this Section 32.42, the terms and conditions applicable to Special Access IOTS, as set forth in Section 7.2.19 preceding also apply.
- (2) Upon completion of the conversion, and regardless of the actual time taken to complete the conversion, a transitional billing credit applies as follows.
 - (a) two (2) months of transitional billing credit equal to fifty percent (50%) of the recurring monthly rates for the node, high speed pass-through interface, amplification and mileage Special Access rate elements of the replacing IOTS will apply; and
 - (b) two (2) months of transitional billing credit equal to fifty percent (50%) of the recurring monthly rates for the node, high speed pass-through interfaces and mileage Special Access rate elements of the existing DSR(s) will apply.
 - (c) When the replacing IOTS also includes a new DSR that utilizes IOTS SONET optical transport channels as the transmission facilities between the DSR enhanced nodes, transitional billing credit is not applicable to the enhanced nodes for such new DSR.
 - (d) Shared Use as set forth in Section 5.2.7 preceding is allowed under this Option 41; however, only the Special Access portion of such existing DSR(s) or replacing IOTS is eligible for the transitional billing credit.
 - (e) The conversion from DSR to IOTS is complete when all circuits on the existing DSR(s) are disconnected and the SONET optical transport channels on the replacing IOTS (as required under (B)(2)(b) preceding) are installed and operational on the replacing IOTS, and the existing DSR(s) are disconnected.
- (3) For each conversion the customer subscribes to under this Option 41, the commitment period of the term plan for the replacing IOTS (as selected by the customer under Section 7.2.19 preceding or the applicable contract tariff option under this Section 32) will be extended by two (2) months beyond the selected commitment period (**extended commitment period**).

ACCESS SERVICE

32. Contract Tariffs (Cont'd)32.42 Contract Tariff Option 41 (Cont'd)

(N)

(D) Terms and Conditions (Cont'd)

(4) Subscription to Other Contract Tariff Options

A customer subscribing an IOTS to this Option 41 may concurrently subscribe that same IOTS to any other tariff arrangement, contract tariff option, special service arrangement, or Individual Case Basis (ICB) arrangement offered by the Telephone Company and available to the customer either currently or at any time during the commitment period, which tariff arrangement, contract tariff option, special service arrangement, or ICB allows subscription to IOTS.

- (5) Termination liability will not apply to disconnection of the existing DSR(s) when the conditions set forth in (B)(2) preceding and Section 7.2.19(F) preceding or the applicable contract tariff option in this Section 32 are met. The customer will remain responsible for any outstanding minimum period obligations on services connected to the existing DSR(s) as they may apply under Section 5.2.5 preceding.

- (6) During the extended commitment period (as set forth in (D)(3) preceding) for the replacing IOTS, the customer is subject to termination liability under Section 7.2.19(E) preceding or the applicable contract tariff option in this Section 32 if service subscribed to under this Option 41 is discontinued prior to the end of the extended commitment period.
