ACCESS SERVICE

7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

7.2 Service Descriptions (Cont'd)

7.2.11 Self-healing Rings (Cont'd)

(A) Self-healing Multi-nodal Alternate Route Topology Ring (SMARTRing) Service (a.k.a. BellSouth SPA Dedicated Ring) (Cont'd)

The customer must provide suitable floor space, controlled environment, and source of non-switched suitable power to support this service.

Where the customer provides two separate entrance facility cable routes for SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring), the primary and alternate entrance facilities will be separate and will enter the customer node over such different routes. When the customer requests a connection at a Customer Node via two local channels and Telephone Company facilities do not exist for the second Local Channel, the Telephone Company may provide an equivalent second Local Channel via an existing alternate route. When facilities become available for the second Local Channel, the Telephone Company may rearrange the alternate route at any time.

SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) OC-1, OC-3, OC-3+, OC-12, OC-48, OC-48+, OC-192 or OC-192+ capacity installed on or after June 3, 1994, is also available with BellSouth Customer Network Management Service under the rates and regulations set forth in 7.4.12 following. BellSouth Customer Network Management Service is available with two options: (1) Surveillance or (2) Reconfiguration. Customers wishing to incorporate either of these capabilities into their SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) should advise the Telephone Company at the time the initial service is requested. When the customer requests to add either BellSouth Customer Network Management Service option subsequent to the initial service installation, a SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) Rearrangement charge applies as set forth in 7.5.14 following. Customers who desire to only monitor their rings may order only Surveillance. However, customers who order Reconfiguration must already be subscribing to Surveillance or be ordering Surveillance coincident with Reconfiguration. Reconfiguration may not be ordered without Surveillance.

Reconfiguration is provided on a per STS-1 basis. Customers who wish to utilize this service to reconfigure DS1 interfaces must purchase the BellSouth Customer Network Management Service Reconfiguration option for all DS1 interfaces associated with the STS-1 group which the customer desires to have equipped with BellSouth Customer Network Management Service capability.

When the customer orders Reconfiguration, the customer must order a sufficient quantity of SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) channel interfaces at every Customer Node and Central Office Node where reconfiguration capability is desired. This option is not available with SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) channel interfaces which transport BellSouth SWA service.

Reconfiguration for SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) interfaces applies to interfaces on the ring only.
