ACS of Anchorage, Inc. ("ACS-ANC") currently provides the FAA with a self-healing fiber optic ring for special access circuits that require redundant routing, under special contract. The FAA has requested that charges be applied on a per circuit basis rather than the current lump sum payment arrangement. As a result, this tariff revision replaces the special contract arrangement between ACS-ANC and the FAA with a new Special Access optional feature called, "Shared Sonet Ring Interoffice Transport" ("SSRIT") that can be ordered by the customer on a per circuit basis, subject to availability of network facilities.
