(7) Optional Features (Cont'd)

(h) Coin Sent-Paid Capability

Coin sent-paid capability allows the customer to receive signals for coin sent-paid traffic from line controlled pay stations. This option requires the use of Exchange Access Operator Services Signaling (EAOSS) and/or Modified Operator Services Signaling (MOSS). Coin sent-paid capability access is provided direct to designated Telephone Company end offices or via tandem access at the TOPS tandem switches and is available with BellSouth SWA FGD or BellSouth SWA TSBSA 3.

Technical specifications for MOSS are as set forth in the Bell Communications Research Technical Publication TR-TSY-000064. Technical specifications for EAOSS are as set forth in the Bell Communications Research Technical Publication FR-NWT-0000271.

(i) Tandem Signaling

This option provides for the automatic transmission of signaling indicators which identify the interexchange carrier and trunk group to which the call is to be directed. This option, available with BellSouth SWA FGD, is provided on originating direct trunk groups.

Direct trunk groups equipped with tandem signaling can be arranged to overflow to other direct trunk groups equipped with tandem signaling. Direct trunk groups equipped with tandem signaling can not be arranged to overflow to the Telephone Company's common trunk groups.

Depending on the signaling facilities available, this option will be provisioned via MF or CCS7 signaling. The CCS7 alternative requires the establishment of: 1) CCSAC as described in 6.1.3(A)(7)(e) preceding and 2) CCS7 Signaling Connections and CCS7 Signaling Terminations between the customer's SPOI and the Telephone Company's STPs as further described in Section 6.1.3(C) following.

(j) Surveillance Optional Feature

BellSouth SWA DS1 and DS3 Transport services can be provided with BellSouth SPA Customer Network Management (CNM) - FlexServ Service (C) as set forth in Section 7 of this Tariff for surveillance only. These SWA channel terminations are not available for reconfiguration. Rates and charges for the surveillance options are provided in Section 7.5.18, of this Tariff.

### 6 - BellSouth SWA Service (Cont'd)

#### 6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

##### 6.2.10 BellSouth Dedicated Ring (Cont'd)

###### (A) Self-healing Multi-nodal Alternate Route Topology Ring (Cont'd)

The customer must provide suitable floor space, controlled environment, and source of non-switched suitable power to support this service.

Where the customer provides two separate entrance facility cable routes for BellSouth Dedicated Ring, the primary and alternate entrance facilities will be separate and will enter the customer node over such different routes. When the customer requests a connection at a Customer Node via two local channels and Telephone Company facilities do not exist for the second Local Channel, the Telephone Company may provide an equivalent second Local Channel via an existing alternate route. When facilities become available for the second Local Channel, the Telephone Company may rearrange the alternate route at any time.

BellSouth Dedicated Ring OC-1, OC-3, OC-3+, OC-12, OC-48, OC-48+, OC-192 or OC-192+ capacity is also available with BellSouth SPA CNM - FlexServ Service Surveillance option under the rates and regulations set forth in 7.4.12 following. Customers wishing to incorporate this capability into their BellSouth Dedicated Ring should advise the Telephone Company at the time the initial service is requested. When the customer requests to add the BellSouth SPA CNM - FlexServ Service Surveillance option subsequent to the initial service installation, a BellSouth Dedicated Ring Rearrangement charge applies as set forth in 6.8.1 (L) following. (C)

### 6 - BellSouth SWA Service (Cont'd)

#### 6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

##### 6.2.10 BellSouth Dedicated Ring (Cont'd)

###### (A) Self-healing Multi-nodal Alternate Route Topology Ring (Cont'd)

The compatibility requirements, technical specifications, and generic requirements for BellSouth Dedicated Ring terminated at the customers designated locations are referenced in Technical Reference ANSI T1.404-1994, ANSI T1.403-1989 and ANSI T1.105-1991.

DS3 interface combinations and technical specifications are referenced in Bellcore TR-INS-000342.

DS1 interface combinations and technical specifications are referenced in Bellcore TR-NPL-000054.

STS-1, OC-1, OC-3, OC-12 and OC-48 interface combinations and technical specifications are referenced in BellSouth Telecommunications, Inc. Technical Reference TR-73582.

These self-healing multi-nodal DS3 high capacity service channels have a long term performance objective of 99.5% error-free seconds and a severely errored second (SES) objective of less than 0.009% SES when the circuit is available. Self-healing multi-nodal DS1 high capacity service channels have a long-term performance objective of 99.95% error-free seconds.

When the distance between nodes on a BellSouth Dedicated Ring is such that optical signal regeneration is required, then regeneration equipment will be provided at no additional charge to the customer to assure proper operation of the service. In some cases regeneration will be provided via SONET Add/Drop equipment called a Regeneration Node. A Regeneration Node does not contain the capability to add or drop services. Accordingly, BellSouth SPA CNM - FlexServ Service may not be ordered with a Regeneration Node, however, a customer may monitor a Regeneration Node via the BellSouth SPA CNM - FlexServ Service Surveillance option when a customer has established surveillance for a ring. Regeneration Node Surveillance is provided as a part of the charges associated with the customer's ring level BellSouth SPA CNM - FlexServ Service Surveillance. Regeneration Node and Regeneration Node Surveillance, as applicable, will appear on a customer's records as non-rated USOC(s), as follows:

Regeneration Node, all ring capacities, non-rated	SHSRN
Regeneration Node Surveillance, all ring capacities, non-rated	SHSRS

#### 7.1 General (Cont'd)

##### 7.1.2 Rate Categories (Cont'd)

###### (B) Interoffice Channel (Cont'd)

For the Voice Grade (a.k.a. BellSouth SPA DSO VG), DDAS (a.k.a. BellSouth SPA DSO Digital Data), DS1 High Capacity (a.k.a. BellSouth SPA DS1) service and DDCS Channel (a.k.a. BellSouth SPA Derived Data Channel) Interoffice rate elements a "fixed" and "per mile" rate apply as set forth in 7.5.3, 7.5.8, 7.5.9 and 7.5.15 following. Interoffice Channel rates are applicable to all Voice Grade (a.k.a. BellSouth SPA DSO VG), DDAS (a.k.a. BellSouth SPA DSO Digital Data), DS1 High Capacity (a.k.a. BellSouth SPA DS1) service and DDCS channels (a.k.a. BellSouth SPA Derived Data Channel) with mileage greater than zero.

###### (C) Optional Features and Functions

The Optional Features and Functions rate category provides for optional features and functions, which may be added to a Special Access (a.k.a. BellSouth SPA) service to improve its quality or utility to meet specific communications requirements. These are not necessarily identifiable with specific equipment, but rather represent the end result in terms of performance characteristics which may be obtained. These characteristics may be obtained by using various combinations of equipment.

Although the equipment necessary to perform a specified function may be installed at various locations along the path of the service, they will be charged for as a single rate element.

Examples of Optional Features and Functions that are available include, but are not limited to, the following:

- Signaling Capability
- Hubbing Functions
- Conditioning
- Transfer Arrangements
- BellSouth SPA Customer Network Management (CNM) - FlexServ Service (C)
- Data Over Voice Channel

## ACCESS SERVICE

### 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.1 General (Cont'd)

##### 7.1.2 Rate Categories (Cont'd)

#### (F) SMARTGate Service (a.k.a. BellSouth SPA Managed Shared Ring Network) (Cont'd)

- (3) An On-Net DS1 or an On-Net DS3 is one that originates at a collection location that is served by SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) service facilities and is transported over SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) facilities to the aggregation location.

#### (G) BellSouth Expanded Interconnection Service Cross Connects

Terms and conditions and rates for BellSouth Expanded Interconnection Service Cross Connects are as set forth in Section 20 of this Tariff.

##### 7.1.3 Service Configurations

There are four types of service configurations over which Special Access (a.k.a. BellSouth SPA) services are provided: link service, two-point service, multipoint service, and SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring).

A change from one Special Access (a.k.a. BellSouth SPA) Service configuration to another will be treated as a discontinuance of existing service and an installation of a new service as set forth in 5.6 preceding, except for BellSouth SPA CNM - FlexServ Service reconfigurations service or link service configurations. (C)

#### (A) Link Service

A link is a service configuration provided as a DS3 or DS1 channel of a LightGate service (a.k.a. BellSouth SPA Point to Point Network) local channel and/or interoffice channel. DS3 or DS1 channels provided in a LightGate service (a.k.a. BellSouth SPA Point to Point Network) interoffice channel must either be combined with corresponding DS3 or DS1 channels in a LightGate service (a.k.a. BellSouth SPA Point to Point Network) local channel system to form a single link, or they may be provided on a stand-alone link basis with BellSouth SPA CNM - FlexServ Service, SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring), or hubbing applications at Voice Grade channel (a.k.a. BellSouth SPA DS VG) service levels when not directly connected with LightGate service (a.k.a. BellSouth SPA Point to Point Network) local channels. (C)

Individual links may be installed, maintained in service, and subsequently disconnected without affecting other links connected to them. Disconnection of a link, which forms a part of a two-point service configuration, necessitates the disconnection of the non-link service elements in the two-point configuration also.

## ACCESS SERVICE

### 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.2 Service Descriptions (Cont'd)

##### 7.2.9 High Capacity Service (Cont'd)

###### (A) Basic Channel Description (Cont'd)

A BellSouth DS1 Diverse service local and interoffice channel provides for a local and interoffice channel facility, as defined in 7.1.2(A) and (B), utilizing a structurally diverse, fiber-based, architecture designed to limit single points of failure. DS1 Diverse service is available to customer locations where existing Local and Interoffice Channel facilities are fiber-based and utilize structurally diverse routes. Connectivity is available from a BellSouth DS1 Diverse Local Channel to another BellSouth DS1 Diverse service Local or Interoffice Channel, a DS1 (a.k.a. BellSouth SPA DS1) service Basic Channelization System, Centrex Type service, BellSouth SPA CNM - FlexServ Service, LightGate (a.k.a. BellSouth SPA Point to Point Network) service, BellSouth SPA Managed Shared Network service, Expanded Interconnection service, SMARTGate (a.k.a. BellSouth Managed Shared Ring Network) service, Self-Healing Multi-nodal Alternate Route Topology (SMARTRing)(a.k.a. BellSouth SPA Dedicated Ring) service, Exchange Access Connectionless Data (a.k.a. BellSouth Exchange Access Connectionless Data) Service, Exchange Access Frame Relay (a.k.a. BellSouth Exchange Access Frame Relay) service (XAFRS) or BellSouth Exchange Access Asynchronous Transfer Mode service (XAATMS). BellSouth DS1 Diverse Interoffice Channels are not available without interconnection to a BellSouth DS1 Diverse service Local Channel. BellSouth DS1 Diverse service Local and Interoffice Channels may not be connected to a DS1 (a.k.a. BellSouth SPA DS1) service Local or Interoffice Channel, and are not eligible for Alternate Serving Wire Center (ASWC) routing. (C)

The DS1 ASWC arrangement will be provided elsewhere within 12 months of receiving a customer request. Where facilities do not exist, special construction charges for construction of a route or type of facility other than normal may apply as set forth in the Telephone Company's special construction tariff.

The charges for DS1 ASWC as specified in 7.5.9(A) following, apply on a per DS1 local channel basis and are in lieu of the per DS1 local channel charges which apply for DS1 local channels which extend from the customer-designated premises to the normal serving wire center. Interoffice channel mileage for the alternately routed service is based on mileage measured from or to the alternate serving wire center.

## ACCESS SERVICE

### 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.2 Service Descriptions (Cont'd)

##### 7.2.11 Self-healing Rings (Cont'd)

###### (A) Self-healing Multi-nodal Alternate Route Topology Ring (SMARTRing) Service (a.k.a. BellSouth SPA Dedicated Ring) (Cont'd)

The customer must provide suitable floor space, controlled environment, and source of non-switched suitable power to support this service.

Where the customer provides two separate entrance facility cable routes for SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring), the primary and alternate entrance facilities will be separate and will enter the customer node over such different routes. When the customer requests a connection at a Customer Node via two local channels and Telephone Company facilities do not exist for the second Local Channel, the Telephone Company may provide an equivalent second Local Channel via an existing alternate route. When facilities become available for the second Local Channel, the Telephone Company may rearrange the alternate route at any time.

SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) OC-1, OC-3, OC-3+, OC-12, OC-48, OC-48+, OC-192 or OC-192+ capacity installed on or after June 3, 1994, is also available with BellSouth SPA CNM - FlexServ Service under the rates and regulations set forth in 7.4.12 following. BellSouth SPA CNM - FlexServ Service is available with two options: (1) Surveillance or (2) Reconfiguration. Customers wishing to incorporate either of these capabilities into their SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) should advise the Telephone Company at the time the initial service is requested. When the customer requests to add either BellSouth SPA CNM - FlexServ Service option subsequent to the initial service installation, a SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) Rearrangement charge applies as set forth in 7.5.14 following. Customers who desire to only monitor their rings may order only Surveillance. However, customers who order Reconfiguration must already be subscribing to Surveillance or be ordering Surveillance coincident with Reconfiguration. Reconfiguration may not be ordered without Surveillance. (C)

Reconfiguration is provided on a per STS-1 basis. Customers who wish to utilize this service to reconfigure DS1 interfaces must purchase the BellSouth SPA CNM - FlexServ Service Reconfiguration option for all DS1 interfaces associated with the STS-1 group which the customer desires to have equipped with BellSouth SPA CNM - FlexServ Service capability. (C)

When the customer orders Reconfiguration, the customer must order a sufficient quantity of SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) channel interfaces at every Customer Node and Central Office Node where reconfiguration capability is desired. This option is also available with SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) DS3 channel interfaces which transport BellSouth SWA service.

Reconfiguration for SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) interfaces applies to interfaces on the ring only.

## ACCESS SERVICE

### 7- Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.2 Service Description (Cont'd)

##### 7.2.13 SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring)

###### (A) SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring)

SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) is a shared high capacity network capable of providing a 1.544 Mbps transport link with high performance and reliability parameters and a level of redundancy/diversity designed to limit a single event from interrupting service. This service is available in those locations within specified SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) areas which the Company determines can be incorporated into the SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) network enabling the Company to provide the specified level of performance and reliability. For locations where a customer requests SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) and facilities are not available, special construction charges will apply, as set forth in the BELLSOUTH TELECOMMUNICATIONS, INC.'s SPECIAL CONSTRUCTION TARIFF, F.C.C. No. 2. SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) areas and associated wire centers are identified in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. NO. 4 by wire center.

SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) provides a transport link between a customer designated premises where the network is accessed and (1) another customer designated premises, in the same SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) area or (2) a serving wire center in the same SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) area for connection to (a) DS1 Basic Channelization, BellSouth SPA CNM - FlexServ Service, LightGate service (a.k.a. BellSouth SPA Point to Point Network), or SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) as provided in Section 7 of this tariff, or BellSouth Virtual Expanded Interconnection Services under Section 20 of this tariff, or (b) a SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) Area Junction of another SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) area in the same Metropolitan Area.

(C)

###### (B) Performance Objectives

ANSI T1.403-1989 Extended Super Frame Format (ESF) is required on all circuits in order to assure performance objectives. The performance objectives for SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) are as follows:

- (1) Meet or exceed 99.99% circuit availability on a monthly basis. This objective applies except where a customer's equipment is disconnected and/or inoperative.
- (2) Meet or exceed 99.95% error-free seconds on a monthly basis.
- (3) Meet or exceed .009% severely errored seconds on a monthly basis.

##### 7.2.14 SMARTPath DS3 Transport (a.k.a. BellSouth SPA DS3 Shared Ring) Service (Cont'd)

###### (A) SMARTPath DS3 Transport (a.k.a. BellSouth SPA DS3 Shared Ring) Service (Cont'd)

which the Company determines can be incorporated into the SMARTPath service (a.k.a. SMARTPath SPA DS1 Shared Ring) network enabling the Company to provide the specified level of performance and reliability. For locations where a customer requests SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring) and facilities are not available, special construction charges will apply as set forth in the BELLSOUTH TELECOMMUNICATIONS INC.'S SPECIAL CONSTRUCTION TARIFF, F.C.C. No. 2. SMARTPath (a.k.a. BellSouth SPA Shared Ring) service areas are identified in the NATIONAL EXCHANGE CARRIER ASSOCIATION TARIFF F.C.C. No. 4.

SMARTPath DS3 Transport (a.k.a. BellSouth SPA DS3 Shared Ring) service provides a transport link between a customer designated premises where the network is accessed and (a) another customer designated premises, in the same SMARTPath area or (b) a serving wire center in the same SMARTPath area. At a serving wire center in a SMARTPath service area, SMARTPath DS3 Transport (a.k.a. BellSouth SPA DS3 Shared Ring) service may be connected (a) to DS1 (a.k.a. BellSouth SPA DS1) service through a SMARTPath DS3 Transport (a.k.a. BellSouth SPA DS3 Shared Ring) service 28 DS1 Channel System, or to BellSouth SPA CNM - FlexServ Service, or to SMARTRing (a.k.a. BellSouth SPA Dedicated Ring) service as provided in Section 7 of this tariff, or to expanded interconnection services under Section 20 following, or (b) to a SMARTPath DS3 Area Junction of another SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) service area in the same metropolitan area. (C)

###### (B) Performance Objectives

Technical Reference 73575 and Technical Reference 73575, Addendum 1, DS3 framing format with P-bit parity is required on all circuits in order to support maintenance and performance objectives. The DS3 performance objectives for SMARTPath DS3 Transport (a.k.a. BellSouth SPA DS3 Shared Ring) service are as follows:

1. Meet or exceed 99.99% circuit availability on a monthly basis. This objective applies except where a customer's equipment is disconnected and/or inoperative.
2. Meet or exceed 99.5% error free seconds on a monthly basis.
3. Meet or exceed .009% severely errored seconds on a monthly basis.

## ACCESS SERVICE

### 7- Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.2 Service Description (Cont'd)

##### 7.2.15 SMARTGate Service (a.k.a. BellSouth SPA Managed Shared Ring Network) (Cont'd)

###### (A) Basic Service Descriptions (Cont'd)

The customer will designate locations from which the customer's traffic will be collected for management of the transport onto and over the SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) network for delivery to the customer's aggregation location(s). Such collection locations can be customer locations which are on the SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) network (On-Net collection locations) or customer locations which are not on the SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) network (Off-Net collection locations). Where traffic is collected from an On-Net collection location, the traffic will be managed and delivered to the aggregation location(s) on the SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) network as On-Net SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) DS1 channels and On-Net SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) DS3 channels, depending on the capacity ordered. Where traffic is collected from an Off-Net collection location, the customer must specify the standard tariff service desired from the Off-Net collection location to the SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) network (e.g., DS1 service, LightGate 1 service (a.k.a. BellSouth SPA Point to Point Network 1 DS3 Capacity), etc.). The monthly charges associated with such services (e.g., local channel and, if applicable, interoffice channel) will apply up to the SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) wire center which is nearest to the Off-Net collection location's normal serving wire center. This SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) wire center serves as the connection point to SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network). From the connection point, the traffic will be managed and delivered to the customer's aggregation location on the SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) network as Off-Net SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) DS1 channels or Off-Net SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) DS3 channels, depending on the capacity ordered. Off-Net DS1 SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) may connect, at the connection point, to DS1 High Capacity (a.k.a. BellSouth SPA High Capacity) Service, BellSouth SPA CNM - FlexServ Service, DS1 Basic Channelization or a DS1 interface on LightGate service (a.k.a. BellSouth SPA Point to Point Network) or SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) as provided in Section 7 of this tariff, (C)

## ACCESS SERVICE

### 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.4 Rate Regulations (Cont'd)

##### 7.4.1 Types of Rates and Charges (Cont'd)

###### (C) Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for specific work activity (i.e., installation or change to an existing service). The types of nonrecurring charges that apply for Special Access (a.k.a. BellSouth SPA) service are: installation of service, installation of optional features and functions, and service rearrangements.

The following list identifies the individual Special Access (a.k.a. BellSouth SPA) services provided under Section 7 of this Tariff which are eligible for credit of nonrecurring charges under "Service Installation Guarantee" found in 2.4.9 preceding: These services are not eligible for the Service Installation Guarantee when the requested installation, move or rearrangement of service interval is four days or less, as measured from the application date of the service order.

Voice Grade (a.k.a. BellSouth SPA DSO VG),  
Program Audio (a.k.a. BellSouth SPA Program Audio),  
  
Wideband Analog (a.k.a. BellSouth SPA Wideband Analog)  
Wideband Data (a.k.a. BellSouth SPA Wideband Data)  
Digital Data Access Service<sup>1</sup> (a.k.a. BellSouth SPA DSO  
Digital Data),  
High Capacity Service (a.k.a. BellSouth SPA High Capacity),  
Dry Fiber  
SMARTRing (a.k.a. BellSouth SPA Dedicated Ring) service  
(Channel interfaces only)  
SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) service, and  
SMARTPath DS3 Transport (a.k.a. BellSouth SPA DS3 Shared  
Ring) service

Provided, however, that the following services are not eligible for such credit:

Public Packet Switching Network  
BellSouth SPA CNM - FlexServ Service  
Derived Data Channel (a.k.a. BellSouth SPA Derived Data)  
Channel service  
Video (a.k.a. BellSouth SPA Video) services  
BellSouth Metro Ethernet Service

(C)

Note 1: The Data Over Voice Channel optional feature is not eligible for such credit.

## ACCESS SERVICE

### 7 - Special Access (a.k.a BellSouth SPA) Service (Cont'd)

#### 7.4 Rate Regulations (Cont'd)

##### 7.4.11 Shared Network Arrangement (Cont'd)

A one-time coordination charge will be assessed within BellSouth Telecommunications, Inc. with the establishment of a Shared Network Arrangement. The host subscriber and the service user may, by mutual agreement, designate which party will be responsible for payment of the coordination charge. In the event no such agreement is reached, the charge will be applied to the host subscriber's account and the host subscriber will be responsible to BellSouth Telecommunications, Inc. for payment of said charge.

In addition to the coordination charge, a separate nonrecurring charge will apply to process each service order on a shared network account. Charges for coordination and service order processing are contained in Section 7.5.9(E).

Where the host subscriber and the connecting service user subscribe to services under Channel Services Payment Plan (CSPP) terms, the payment periods for directly associated multiplexing rate elements must be the same, with the same termination date, or alternately, the connecting service user must order those rate elements under month-to-month payment terms. Where the host subscriber receives services under month-to-month payment terms, a connecting service user must also receive directly associated multiplexing rate elements under month-to-month payment terms. Disconnection of a connecting service user's services under CSPP terms creates no associated termination or payment obligations for the host subscriber. However, disconnection of the host subscriber's services does create payment obligations for shared network service components as appropriate for the specific service.

##### 7.4.12 BellSouth SPA Customer Network Management Service (CNM) - FlexServ Service (C)

###### (A) General

BellSouth SPA CNM - FlexServ Service is an optional feature that enables the customer to monitor and reconfigure his Voice Grade (a.k.a BellSouth SPA DSO VG), DDAS (a.k.a. BellSouth SPA DSO Digital Data), and High Capacity (a.k.a BellSouth SPA High Capacity) services without the direct intervention of Telephone Company personnel. (C)

ACCESS SERVICE

7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.12 BellSouth SPA Customer Network Management (CNM) - FlexServ Service (C)  
(Cont'd)

(A) General (Cont'd)

(1) Management Terminal Interface for BellSouth SPA CNM - FlexServ Service (C)  
(C)

The Management Terminal Interface (MTI) is utilized with a dial service, a dedicated service or a web access service as a means of accessing BellSouth SPA CNM - FlexServ Service. For interstate access to BellSouth SPA CNM - FlexServ Service a customer must obtain a Management Terminal Interface. The BellSouth SPA CNM - FlexServ Service customer may purchase a dial or dedicated access port with a choice of speeds. (C)  
(C)  
(C)  
(C)

If a customer desires to utilize the Management Terminal Interface for BellSouth SPA CNM - FlexServ Service to access the Mechanized Interface to Specified Operation Support Systems (Trouble Administration and PIC Inquiry and Order) as detailed in 5.2.15 preceding, an additional nonrecurring charge and a monthly rate will apply. (C)

The customer is responsible for providing the facility required to connect the customer's location to the designated Company location. The designated Company location is the suitably equipped office as stated in the NATIONAL EXCHANGE CARRIER ASSOCIATION, (NECA), INC. Tariff, F.C.C. No. 4.

Customers who subscribe to dial access will be given a telephone number to dial, which will establish a port connection. Customers who subscribe to web access will be provided a web address and may utilize a personal computer that has a standard web browser to establish a connection. Dial and web access customers must obtain a Security card from the Telephone Company as specified in 13.3.12 following.

In addition to providing a dial or dedicated access service, the customer will be required to furnish a VT100 type terminal and a compatible data set. The data set required will depend on the type of access chosen by the customer and the capability for connection with the Company. Customer Provided Equipment must comply with specifications found in BellSouth Technical Reference Publication 73535 for Corporate Packet Network Asynchronous Terminal Access and BellSouth Technical Reference Publication 73516 Issue C, Corporate Packet Network Physical Interface Specifications.

## ACCESS SERVICE

### 7 - Special Access (a.k.a BellSouth SPA) Service (Cont'd)

#### 7.4 Rate Regulations (Cont'd)

##### 7.4.12 BellSouth SPA Customer Network Management (CNM) - FlexServ Service (C) (Cont'd)

###### (A) General (Cont'd)

###### (2) BellSouth SPA CNM - FlexServ Service (C)

BellSouth SPA CNM - FlexServ Service includes surveillance (C)  
(monitoring) and reconfiguration of the customer's Special Access (C)  
(a.k.a BellSouth SPA) DS0, DS1, DS3 and STS-1 services equipped with  
BellSouth SPA CNM - FlexServ Service. For SMARTRing services (a.k.a (C)  
BellSouth SPA Dedicated Ring) equipped with BellSouth SPA CNM - (C)  
FlexServ Service, customers may order only monitoring capability or (C)  
both monitoring and reconfiguration capability as described in (3)  
following.

When the customer has accessed BellSouth SPA CNM - FlexServ Service, (C)  
monitoring consists of unsolicited signals of major and minor  
facility alarms (carrier group alarms, bit error rate, bipolar  
violations, slip errors, errored seconds, out-of-frame alarms and  
invalid connections). (Invalid connections are connections between  
Special Access (a.k.a. BellSouth SPA) services with incompatible  
signals or between services without BellSouth SPA CNM - FlexServ (C)  
Service. Customer requests for such connections will be denied). The  
Telephone Company shall not be responsible for service interruptions,  
troubles, loss of customer data, or any other losses resulting from  
attempted invalid connections.

Reconfiguration provides the customer with the ability to direct the  
Telephone Company to connect or disconnect the customer's Special  
Access (a.k.a. BellSouth SPA) services with BellSouth SPA CNM - (C)  
FlexServ Service to or from each other at a central office or central (C)  
offices where the customer has purchased BellSouth SPA CNM - FlexServ (C)  
Service on those services. Such connections and disconnections may (C)  
be performed immediately or at a future time prescribed by the  
customer and, except for Partitioning, are performed without direct  
intervention by Telephone Company personnel.

The customer is responsible for providing the terminal equipment  
required for access to BellSouth SPA CNM - FlexServ Service. (C)

The customer may transmit reconfiguration directions to or receive  
alarm monitoring information from the Telephone Company over a dial  
or a dedicated access service through an MTI.

## ACCESS SERVICE

### 7 - Special Access (a.k.a BellSouth SPA) Service (Cont'd)

#### 7.4 Rate Regulations (Cont'd)

##### 7.4.12 BellSouth SPA Customer Network Management (CNM) - FlexServ Service (C) (Cont'd)

###### (A) General (Cont'd)

###### (2) BellSouth SPA CNM - FlexServ Service (Cont'd) (C)

With the customer's initial order for BellSouth SPA CNM - FlexServ Service the Telephone Company provides the capability for one connection to the Telephone Company for the communication of monitoring and reconfiguration signals. This capability is referred to in this tariff as access to BellSouth SPA CNM - FlexServ Service or "User Access". One customer identification code with password security is included with such access. (C)

With the customer's initial order, the Telephone Company also provides one customer training class for up to five (5) persons. The class length of this initial training is two consecutive eight hour days. These training classes are conducted at a Company designated location. Transportation, lodging and food for the attendees will be the responsibility of the customer. If the customer desires for the initial training to be conducted on his premises, then the customer is responsible for the transportation, lodging and food for the trainer. In addition, the customer is responsible for having the appropriate equipment on his premises.

Reconfiguration and monitoring are not available during the performance of routine maintenance of the Telephone Company's facilities and equipment used to provide BellSouth SPA CNM - FlexServ Service. (C)

The Local and Interoffice Channels and SMARTRing (a.k.a BellSouth SPA Dedicated Ring) channel interfaces which are managed by BellSouth SPA CNM - FlexServ Service are subject to all regulations and charges contained in their respective sections of this Tariff in addition to those contained herein. (C)

Different switching options for DS0, DS1, DS3 and STS-1 channels may be available in the same central office. If customers desire more than one switching option in the same central office and facilities are available, a channel connection is required for each BellSouth SPA CNM - FlexServ Service switching option connected. (C)

BellSouth SPA CNM - FlexServ Service is furnished only in locations where facilities exist. (C)

EFFECTIVE: NOVEMBER 15, 2006

ACCESS SERVICE

7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.12 BellSouth SPA Customer Network Management (CNM) - FlexServ Service (C)  
(Cont'd)

(A) General (Cont'd)

(3) Customer Circuits

There are five types of channel connections, which can be connected to BellSouth SPA CNM - FlexServ Service - DS0 (Single channel), DS1 (1.544 Mbps) digital circuits, DS3 (44.736 Mbps) digital circuits, STS-1 (51.84 Mbps) digital circuits and SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring). (C)

DS0 Channel Connections - There are two types of DS0 channel connections - Voice Grade and Digital. Both types of DS0 connections will be switched at a DS0 level.

DS1 Channel Connections - There are two types of connections available for a customer desiring to terminate a DS1 circuit - DS0 switching and DS1 switching. For example, if a customer needs to be able to monitor or reconfigure the 24 DS0 circuits riding on the DS1 channel, then the customer would purchase a DS1 channel connection with DS0 switching. If the customer does not need access to the individual DS0 circuits, then the customer would purchase a DS1 channel connection with DS1 switching. A monitoring only option (i.e., surveillance option) is also provided for DS1 channel connections. This option may also be used for terminating SWA DS1 channels.

DS3 Channel Connections - There are three types of connections available for terminating a DS3 circuit - DS0, DS1 and DS3. If a customer needs monitoring or reconfiguration capability for 672 individual DS0 circuits, then the customer would purchase a DS3 channel connection with DS0 switching. If the customer only needs access to the 28 DS1 circuits, then the customer would purchase a DS3 channel connection with DS1 switching. The customer would purchase a DS3 connection with DS3 switching if the customer wants to cross connect the entire DS3 circuit. A monitoring only option (i.e., surveillance option) is also provided for DS3 channel connections. This option may also be used for terminating SWA DS3 channels.

STS-1 Channel Connections - There is one type of connection available for terminating a STS-1 circuit - VT1.5. The STS-1 connection will be switched at a VT1.5 level.

SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) Channel Connections - BellSouth SPA CNM - FlexServ Service is available only with OC-1, OC-3 OC-3+, OC-12, OC-48, OC-48+ or OC-192+ SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring). (C)  
(a.k.a. BellSouth SPA Dedicated Ring) is only available in an overlay arrangement). There are two options available for SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) channel connections - Surveillance and Reconfiguration.

#### 7.4.12 BellSouth SPA Customer Network Management (CNM) - FlexServ Service (C) (Cont'd)

##### (A) General (Cont'd)

##### (3) Customer Circuits (Cont'd)

Surveillance allows the customer to monitor the ring and retrieve performance monitoring data. Surveillance will be ordered on a per SMARTRing (a.k.a. BellSouth SPA Dedicated Ring) node basis. Customers who order Surveillance must order it for all nodes on the ring. Reconfiguration will allow the customer to reconfigure circuits associated with SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) channel interfaces. Reconfiguration must be ordered on a per SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) Channel Interface basis. Customers who desire to only monitor their rings may order only Surveillance. However, customers who order Reconfiguration must already be subscribing to Surveillance or be ordering Surveillance coincident with Reconfiguration. Reconfiguration may not be ordered without Surveillance. Within each STS-1 group, all activated interfaces must be optioned the same (either all Surveillance only or all Surveillance and Reconfiguration).

BellSouth SPA CNM - FlexServ Service is available on the following SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) Overlay Ring Arrangements: (S=Surveillance and R=Reconfiguration) (C)

<u>OVERLAYING SMARTRing Service</u> (a.k.a. BellSouth SPA Dedicated Ring)	<u>HOST SMARTRing Service (a.k.a.</u> <u>BellSouth SPA Dedicated Ring)</u>			
---	---	--	--	--

	<u>OC-12</u>		<u>OC-48</u>		<u>OC-48+</u>		<u>OC-192/OC-192+</u>	
	<u>S</u>	<u>R</u>	<u>S</u>	<u>R</u>	<u>S</u>	<u>R</u>	<u>S</u>	<u>R</u>
OC-1	X	X	X	X	X	X	X	X
OC-3	X	X	X	X	X	X	X	X
OC-3+			X	X			X	X
OC-12			X	X			X	X
OC-48							X	X

On an Overlay Ring arrangement, Surveillance must be ordered for each node on both the host ring and the overlay ring.

For SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) customer's web access to Surveillance and/or Reconfiguration capabilities of their service, a Service Establishment Charge for new customer account setup in the Management Terminal Interface Database and a charge for Security Cards as shown in 7.5.18(B)(4), following, applies.

## ACCESS SERVICE

### 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.4 Rate Regulations (Cont'd)

#### 7.4.12 BellSouth SPA Customer Network Management (CNM) - FlexServ Service (C) (Cont'd)

##### (A) General (Cont'd)

##### (4) BellSouth SPA CNM - FlexServ Service Options (Cont'd) (C)

- **Additional Concurrent User Access:** This option provides the customer the ability to establish additional, concurrent connections to the Telephone Company for the communication of monitoring and reconfiguration signals. One additional customer identification code is provided with each additional User Access. For each Additional Concurrent User Access ordered, the customer must also order an additional Management Terminal Interface (MTI). Rates and charges for MTI are located in 7.5.18.
- **Additional User Identification Codes:** This option provides customer identification codes in addition to that provided with each User Access. If the customer has ordered a dial interface, then the customer must also order an additional Security Card.
- **Multipoint Bridging:** This option provides the capability of performing reconfigurations that bridge three or more DS0 channels.

**Voice Grade (a.k.a. BellSouth SPA DS0 VG) Connections:** This option allows the customer the capability to perform reconfigurations that bridge three or more voice grade (a.k.a. BellSouth SPA DS0 VG) channels in the BellSouth SPA CNM - FlexServ Service arrangement into one conferencing arrangement. (C)

**Multipoint Junction Unit (MJU):** This option provides the capability to perform reconfigurations that bridge up to five digital DS0 channels (one master and four legs) in a set. Bridging of multiple sets can be performed, but one channel of each additional set will be required to bridge to the others.

- **Reconfigurations by Telephone Company Personnel:** The customer may request that Telephone Company personnel intervene to perform reconfigurations that the customer could otherwise perform without the direct intervention of Telephone Company Personnel.
- **Additional Customer Training:** This option provides one eight (8) hour day of customer training in addition to that included with basic BellSouth SPA CNM - FlexServ Service. These training classes are conducted at a designated Company location. All other terms that apply for the initial training also apply for the subsequent training. (N)

## ACCESS SERVICE

### 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.4 Rate Regulations (Cont'd)

##### 7.4.12 BellSouth SPA Customer Network Management (CNM) - FlexServ Service (C) (Cont'd)

###### (A) General (Cont'd)

###### (5) Shared BellSouth SPA CNM - FlexServ Service Arrangement (C)

Multiple customers may include circuits with the BellSouth SPA CNM - FlexServ Service option in the same BellSouth SPA CNM - FlexServ Service arrangement, provided all customers designate in writing the same party to serve as their agent. (A BellSouth SPA CNM - FlexServ Service arrangement consists of all special access (a.k.a. BellSouth SPA) services with BellSouth SPA CNM - FlexServ Service that can be monitored and reconfigured through the same User Access.) (C)

The agent will be authorized to represent each of those customers in all transactions and communications with the Telephone Company regarding the shared BellSouth SPA CNM - FlexServ Service arrangement or circuits included in that arrangement including reconfigurations, monitoring, ordering of additional special access (a.k.a. BellSouth SPA) services and BellSouth SPA CNM - FlexServ Service options in the arrangement, and removal of special access services (a.k.a. BellSouth SPA) from the arrangement. The Telephone Company will not process any customer orders or requests affecting that arrangement or circuits included in that arrangement except those submitted to the Telephone Company by the agent. (C)

## ACCESS SERVICE

### 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.4 Rate Regulations (Cont'd)

##### 7.4.12 BellSouth SPA Customer Network Management (CNM) - FlexServ Service (C) (Cont'd)

###### (A) General (Cont'd)

###### (5) Shared BellSouth SPA CNM - FlexServ Service Arrangement (Cont'd) (C)

The Telephone Company will not be liable for any loss to any of the customers in a shared BellSouth SPA CNM - FlexServ Service arrangement caused directly or indirectly by actions of the agent or another customer in the shared arrangement. Each customer in the shared arrangement and the agent indemnify the Telephone Company for the costs of any and all claims arising directly or indirectly out of the actions of agent or another customer in the shared arrangement, including, but not limited to, the cost of defending against such claims. (C)

Any customer in a shared BellSouth SPA CNM - FlexServ Service arrangement must give the Telephone Company 30 days prior written notice of his intent to revoke an agent's authority or to remove his special access (a.k.a BellSouth SPA) services from a shared arrangement. Such notice shall not be effective unless it provides the Telephone Company with specific and sufficient directions regarding treatment of the customer's special access (a.k.a BellSouth SPA) services upon revocation of the agent's authority or removal from the shared arrangement. (C)

###### (B) Application of Rates

Monthly rates and nonrecurring charges as specified in 7.5.18 following apply for BellSouth SPA CNM - FlexServ Service. (C)

BellSouth SPA CNM - FlexServ Service is available under several payment plans: Month-to-Month (with a minimum of one month). Plan A (24-48 Months), Plan B (49-72 Months) or Plan C (73 to 96 Months). These plans are provided under conditions specified in the Channel Service Payment Plan (CSPP), 2.4.8(A) preceding, except as modified following: (C)

- A termination liability charge will be applicable if services provided under a CSPP arrangement are disconnected prior to the end of the chosen service period. The termination charge is equal to the applicable rate, per rate element, under the applicable CSPP rate multiplied by the difference in months between the time the

ACCESS SERVICE

(Cont'd)

(B) Application of Rates (Cont'd)

service period under the CSPP has been in effect and the minimum service period multiplied by a factor. The factor is 50 percent for services provided under the CSPP that have been in effect twelve months or less, or 20 percent for services provided under the CSPP that have been in effect longer than twelve months.

- No charges apply for the conversion of existing SPA CNM - FlexServ Service under a month-to-month payment plan to a CSPP Arrangement. (C)
- The CSPP selected for Surveillance must be equal to or less than the payment plan of the SMARTRing service (a.k.a. BellSouth SPA SPA Dedicated Ring). The CSPP selected for Reconfiguration must be equal to or less than the payment plan of the associated SMARTRing service (a.k.a. BellSouth SPA SPA Dedicated Ring) Channel Interface(s).
- Dial Access customers under CSPP may move to Web Access without termination liability. The Web Access nonrecurring charge will apply for such a move.

(1) Management Terminal Interface for BellSouth SPA CNM - FlexServ Service (C)

(a) Dial, Dedicated or Web Access Port to Access BellSouth SPA CNM - FlexServ Service. (C)  
(C)

An access port is required to access BellSouth SPA CNM - FlexServ Service regardless of the type of channel connection the customer purchases. The type of access required depends on the type of access the customer desires. (C)  
(C)

Customers subscribing to dial access and web access must purchase a Security Card as set forth in 13.3.12 following.

Nonrecurring and recurring monthly rates apply. Charges for access ports are contained in 7.5.18 (A).

(2) BellSouth SPA CNM - FlexServ Service - Channel Connections (C)

(a) Connection of Special Access (a.k.a BellSouth SPA) service to Reconfiguration and Alarm Monitoring Capability.

A DS0/DS1/DS3/STS-1 nonrecurring Connection Charge and a recurring monthly rate are required for each entrance and exit of a special access (a.k.a BellSouth SPA) channel to reconfiguration and monitoring capability.

## ACCESS SERVICE

### 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.4 Rate Regulations (Cont'd)

##### 7.4.12 BellSouth SPA Customer Network Management (CNM) - FlexServ Service (C) (Cont'd)

#### (B) Application of Rates (Cont'd)

##### (2) BellSouth SPA CNM - FlexServ Service - Channel Connections (Cont'd) (C)

A nonrecurring charge and a recurring monthly rate is applicable on a per node basis for SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) Channel Connections - Surveillance. Surveillance must be ordered for all nodes on a customer's ring.

A recurring monthly rate is applicable for each SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) Channel Connection - Reconfiguration. A nonrecurring charge is applicable only if a customer orders Reconfiguration subsequent to the initial order of Surveillance. The number of Reconfiguration channel connections the customer orders should equate to the number of SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) channel interfaces on which the customer desires to have reconfiguration capability. If the customer orders Reconfiguration coincident with Surveillance or orders Reconfiguration coincident with the installation of SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) channel interfaces, a nonrecurring charge for the Reconfiguration element does not apply. The subsequent nonrecurring charge is applicable if a customer orders Surveillance and later decides to order Reconfiguration on existing SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) channel interfaces.

Charges for Channel Connections are contained in 7.5.18 following.

#### (B) Application of Rates (Cont'd)

##### (3) BellSouth SPA CNM - FlexServ Service Options (C)

###### (a) Subrate Reconfiguration Capability

Nonrecurring charges and recurring monthly rates apply.

###### (b) Partitioning

The Partitioning option incurs a nonrecurring charge. A nonrecurring charge also applies when the customer requests the Telephone Company to sub-divide the control access for his service.

###### (c) Additional User Access

For each Additional User Access a nonrecurring charge and a recurring monthly rate applies.

###### (d) Additional Identification Codes

A nonrecurring charge applies for each additional ID requested.

###### (e) Multipoint Bridging

There will be a nonrecurring charge and a monthly recurring rate for each DS0 bridging leg that is equipped with this capability.

###### (f) Multipoint Junction Unit (MJU)

For each channel of the MJU a nonrecurring charge and a recurring monthly rate will apply. This option must be purchased in units of five (5).

##### (g) Reconfigurations by the Telephone Company Personnel

A nonrecurring charge is applicable on each occasion, in 30-minute increments, when the customer requests Telephone Company personnel to perform a reconfiguration or a series of reconfigurations in order to set up point-to-point or multipoint connections, to provide a status report or to establish a conference.

##### (h) Additional Customer Training (N)

Any additional training will incur a nonrecurring charge for each (N)  
eight (8) hour day of training. (N)

##### 7.4.13 Voice Grade (a.k.a. BellSouth SPA DS0 VG) Rate Stability Plan

##### (A) Description

The Voice Grade (a.k.a. BellSouth SPA DS0 VG) Rate Stability Plan (Plan) will allow customers to stabilize their rates for Voice Grade (a.k.a. BellSouth SPA DS0 VG) special access local channels, and associated Voice Grade (a.k.a. BellSouth SPA DS0 VG) interoffice channels for a fixed service commitment period at the rates specified in 7.7.1(A) and (B), following. The Plan allows such customers to select a service commitment period in monthly intervals, with a minimum of 36 months, and a maximum of 60 months for which rates may be stabilized

In return for this assurance of rate stability, the customer guarantees a specified growth requirement for Voice Grade (a.k.a. BellSouth SPA DS0 VG) local channels as described in 7.4.13.2(A), following.

## ACCESS SERVICE

### 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.4 Rate Regulations (Cont'd)

##### 7.4.19.2 SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring)

###### (A) SMARTPath DS3 Transport Service (a.k.a. Bell South SPA DS3 Shared Ring)

The SMARTPath DS3 Area Connection rate element provides for the connection at the designated premises where the customer gains access to SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring) and transport to a designated junction on the network. The SMARTPath DS3 Area Junction rate element provides for the connection between the SMARTPath DS3 Transport network and (1) another customer-designated premises in the same SMARTPath service (a.k.a. BellSouth SPA DS3 Shared Ring) area or (2) a serving wire center in the same SMARTPath area for connection (a) to DS1 Service through a SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring) service 28 DS1 Channel System, or to BellSouth SPA CNM FlexServ Service, or to SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) as provided in Section 7 of this tariff, or to BellSouth Expanded Interconnection services under Section 20 of this Tariff, or (b) to a SMARTPath DS3 Area Junction of another SMARTPath service (a.k.a. BellSouth SPA DS3 Shared Ring) area in the same metropolitan area. (C)

Recurring charges apply for each SMARTPath DS3 Area Connection, SMARTPath DS3 Area Junction and SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring) 28 DS1 Channel System and each interface activated.

SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring) customers electing to connect with DS1 services at a serving wire center must obtain a SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring) 28 DS1 Channel System and the appropriate number of DS1 Channel Interfaces.

SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring) is available under several payment plans: Month-to-month (with a 12 month minimum), Plan A (24-48 Months), Plan B (49-72 Months). Plan A and Plan B are provided under conditions specified in the Channel Services Payment Plan, (CSPP) 2.4.8(A) preceding. Termination liability charges will be applicable if services provided under a CSPP are disconnected prior to the end of the chosen service period. Termination liability charges will be calculated using the procedures for DS1 High Capacity service (a.k.a. BellSouth SPA DS1) as specified in 7.4.16(A) preceding.

A SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring) performance credit, as specified in Section 2.4.4(B) will apply.

ACCESS SERVICE

7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

7.8 Promotions (Cont'd)

7.8.2 Special Promotion – BellSouth SPA Customer Network Management (CNM) - FlexServ Service (Cont'd) (C)

7.8.2.1 General Regulations

- (A) This tariff provides a Special Promotion for BellSouth SPA CNM - FlexServ Service when used in conjunction with DS1 (a.k.a. BellSouth SPA DS1) service and is valid for the period beginning April 1, 2004, through June 30, 2004, subject to the regulations, terms and conditions set forth herein. (C)
- (B) The rates and charges for BellSouth SPA CNM - FlexServ Service and DS1 (a.k.a. BellSouth SPA DS1) service are set forth in this Tariff. The Company reserves the right to change the terms, conditions, rates and charges for BellSouth SPA CNM - FlexServ Service and DS1 (a.k.a. BellSouth SPA DS1) service in this Tariff or other sections of this Tariff during the promotional period in (A) preceding, unless otherwise specified herein. (C)

7.8.2.2 Eligibility Requirements

- (A) This Special Promotion will run for the period specified in 7.8.2.1(A) above.
- (B) The customer must meet the following eligibility requirement in order to participate in this Special Promotion.
- (1) The customer must have an existing Area Commitment Plan (ACP) set forth in 2.4.8(B) of this Tariff.
- (2) Effective April 23, 2004, customers with a BellSouth Premium Service Incentive Plan (PSIP), as set forth in 2.4.8(G) of this Tariff, may also participate in this promotion.

7.8.2.3 Description

- (A) This Special Promotion will be conducted for a 90-day period and applies to BellSouth SPA CNM - FlexServ Service when used in conjunction with DS1 (a.k.a. BellSouth SPA DS1) service. This promotion offers two options: (C)
- (1) Option 1:  
This option provides a 50% monthly credit, for a 12-month period, on the monthly recurring charges associated with BellSouth SPA CNM - FlexServ Service DS1 Channel Connections (i.e., with DS0 or DS1 Switching) if the customer meets the following conditions: (C)
- The customer must subscribe to a new 24-month or greater Channel Services Payment Plan (CSPP) for a new or existing BellSouth SPA CNM - FlexServ Service Channel Connection within the 90-day promotional period. The BellSouth SPA CNM - FlexServ Service Channel Connection must be used with a new or existing SPA DS1 Service that is designated solely for interstate use. All CSPP regulations including termination liability shall apply. (C)

ACCESS SERVICE

7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

7.8 Promotions (Cont'd)

7.8.2 Special Promotion - BellSouth SPA Customer Network Management (CNM) - FlexServ Service (Cont'd) (C)

7.8.2.3 Description (Cont'd)

(A) (Cont'd)

(1) Option 1: (Cont'd)

- A termination penalty will also apply under this promotion should the customer disconnect the BellSouth SPA CNM - FlexServ Service Channel Connection prior to the 24-month CSPP. The customer will be required to repay all credits received under this promotion and the Company will bill such amount to the customer. (C)

(2) Option 2:

This option waives all nonrecurring charges (if applicable) and provides a 50% monthly credit, for a 12-month period, on the monthly recurring charges associated with BellSouth SPA CNM - FlexServ Service DS1 Channel Connections (i.e., with DS0 or DS1 Switching) if the customer meets the following conditions: (C)

- The customer must subscribe to a new 36-month or greater Channel Services Payment Plan (CSPP) for a new or existing BellSouth SPA CNM FlexServ Service Channel Connection within the 90-day promotional period. The BellSouth SPA CNM - FlexServ Service Channel Connection must be used with a new or existing SPA DS1 Service that is designated solely for interstate use. All CSPP regulations including termination liability shall apply. (C)

- A termination penalty will also apply under this promotion should the customer disconnect the BellSouth SPA CNM - FlexServ Service Channel Connection prior to the 36-month CSPP. The customer will be required to repay all credits received under this promotion and the Company will bill such amount to the customer. (C)

(B) This promotion allows customers to receive rewards in the form of credits for the service offered under this promotion, and these credits will be applied to the customer's bill. Applicable taxes will be computed based on the full tariff price for the service, and credits will be applied to the service's full tariff price. Credits will not be applied to taxes.

(C) Monthly recurring credits given under this promotion will be applied to the customer's bill 30 days in arrears (i.e., the next month's bill period).

(D) Nonrecurring credits will be applied to the customer's bill at the customer's next bill date.

## ACCESS SERVICE

### 13 - Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

#### 13.3 Miscellaneous Services (Cont'd)

##### 13.3.24 Virtual Access Cross Connect Service (Cont'd)

###### (A) General Description (Cont'd)

(11) The collocator may cross connect at the DS3 level with the following Telephone Company access services:

- LightGate Service (a.k.a. BellSouth SPA Point to Point Network) local channel or interoffice channel via a LightGate service (a.k.a. BellSouth SPA Point to Point Network) DS3 Central Office Channel Interface (described in 7.2.9 of this Tariff)
- SMARTRing Service (a.k.a. BellSouth SPA Dedicated Ring) via a SMARTRing Service (a.k.a. BellSouth SPA Dedicated Ring) Central Office Node DS3 Channel Interface (described in 7.2.11 of this Tariff)
- 28 DS1 Channelization System (described in 7.1.2 of this Tariff)
- BellSouth SWA Service (described in 6.1.3 of this Tariff)
- SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring) (described in 7.2.13 of this Tariff)
- SMARTGate Service (a.k.a. BellSouth SPA Managed Shared Ring Network) (described in 7.2.15 of this Tariff)
- BellSouth SPA Customer Network Management (CNM) - FlexServ Service (C) in a Digital Cross Connect System (described in 7.4.12 of this Tariff)
- Exchange Access Frame Relay Service (described in 21.1 of this Tariff)
- Managed Shared Frame Relay Service (described in 21.4 of this Tariff)
- Exchange Access ATM Service (described in 21.3 of this Tariff)
- Managed Shared ATM Service (described in 21.5 of this Tariff)
- Video Service (described in 7.2.5 of this Tariff)
- ADSL, End-User Aggregation Service (described in 28.2.1 of this Tariff)

ACCESS SERVICE  
21 - Fast Packet Access Services

21.6 BellSouth Network Visibility Service (Cont'd)

21.6.1 General Description (Cont'd)

Access to the BellSouth NVS graphical interface is available via a Web Interface; alternatively, a dial or dedicated method described in section 7.4.12, BellSouth SPA CNM - FlexServ Service may also be used to access the NVS graphical interface. Additionally, NVS may be accessed via a Remote Message Interface for the collection of raw data. For security reasons, customers are required to identify themselves via a username and password. The username and password are assigned at the time the account is established. Following are descriptions and requirements for each type of Management Access Interface: (C)

1. Web Interface - This interface allows customers to access the BellSouth NVS graphical interface via the Web using a standard web browser. This type of access requires a Security Card.

Security Card - This card provides the customer a unique password identification code which will electronically change periodically.

If the customer has purchased a Security Card in conjunction with another feature or service offered by BellSouth, that Security Card may also be used in conjunction with NVS. It is the customer's responsibility to notify BellSouth of an existing Security Card so BellSouth can ensure that the card is validated for multiple features and/or services.

2. Dial Interface access to the BellSouth NVS graphical interface - See section 7.4.12
3. Dedicated Interface access to the BellSouth NVS graphical interface - See section 7.4.12
4. Remote Message Interface - This interface will allow SSH-IP connectivity to BellSouth NVS from other compatible Network Management systems for the collection of raw data. The customer must have SSH access to the NVS platform. Connectivity must be via a Frame Relay PVC to the Company network. Technical details and limitations on the Remote Message Interface can be found in BellSouth Technical Reference TR-73587.

The customer is responsible for providing and maintaining all terminal equipment necessary to access BellSouth NVS.

A customer may subscribe to BellSouth NVS on a monthly basis. An account is established which will include the XAFRS (a.k.a. BellSouth Exchange Access Frame Relay Service) and XAATMS Network Interfaces and the MSFRS and MSATMS Connections designated by the customer to have BellSouth NVS capability. Customers may choose to subscribe to BellSouth NVS for all Network Interfaces/Connections in their BellSouth Fast Packet network or choose BellSouth NVS for only a portion.

## ACCESS SERVICE

### 23 – Metropolitan Statistical Area Access Services (Cont'd)

#### 23.3 Services Available in an MSA

The following services are available in MSA's with Full or Limited Service Relief:

##### BellSouth SWA Dedicated Transport Services

- BellSouth SWA VG
- BellSouth SWA DS0
- BellSouth SWA DS1
- BellSouth SWA DS3
- BellSouth SWA Dedicated Ring
- BellSouth SWA Managed Shared Network Service
- BellSouth SWA Managed Shared Ring Service
- CCS7 Signaling Connection and CCS7 Signaling Termination
- Dedicated Network Access Lines (DNALs)
- BellSouth SWA SONET Transport Components
- BellSouth Wavelength SWA Dedicated Ring Service Components
- BellSouth Wavelength SWA Channel Service Components

##### Special Access (a.k.a. BellSouth SPA) Services

- Metallic (a.k.a. BellSouth SPA Metallic)
- Telegraph Grade (a.k.a. BellSouth SPA Telegraph)
- Voice Grade (a.k.a. BellSouth SPA VG)
- WATS Access Line (WAL) (a.k.a. BellSouth SPA WATS Lines)
- Program Audio (a.k.a. BellSouth SPA Program Audio)
- Broadcast Quality Video (a.k.a. BellSouth SPA Broadcast Quality Video)
- Commercial Quality Video (a.k.a. BellSouth SPA Commercial Quality Video)
- DS3 Digital Video Service (a.k.a. BellSouth SPA DS3 Digital Video)
- BellSouth SPA Modular Video Transport Service
- 70 MHz Transport (a.k.a. BellSouth SPA 70 MHz Transport)
- Uncompressed Switched Video (a.k.a. BellSouth SPA Uncompressed Switched Video)
- Wideband Analog (a.k.a. BellSouth SPA Wideband Analog)
- Wideband Data (a.k.a. BellSouth SPA Wideband Data)
- Derived Data Channel (a.k.a. BellSouth SPA Derived Data Channel)
- Digital Data Access Service (a.k.a. BellSouth SPA DS0 Digital Data)
- High Capacity (a.k.a. BellSouth SPA High Capacity)
- DS1 (a.k.a. BellSouth SPA DS1)
- LightGate svc.(a.k.a. BellSouth SPA Point to Point)
- SMARTGate svc.(a.k.a. BellSouth SPA Managed Shared Ring)
- SMARTPath svc.(a.k.a. BellSouth SPA DS1 & DS3 Shared Ring)
- SMARTRing svc.(a.k.a. BellSouth SPA Dedicated Ring)
- BellSouth SPA Customer Network Management (CNM) - FlexServ Service (C)
- Dry Fiber
- BellSouth ADSL Service
- BellSouth SPA Managed Shared Network Service
- BellSouth Metro Ethernet Service
- BellSouth Enterprise DSL Service
- BellSouth Wavelength Service
- BellSouth Session Based DSL Service
- BellSouth Wavelength Dedicated Ring Service
- BellSouth Wavelength Channel Service

25 – Contract Tariffs

25.7 Promotions (Cont'd)

25.7.11 Special Promotion - BellSouth SPA Customer Network Management (CNM) - FlexServ Service (Cont'd) (C)  
(C)

25.7.11.1 General Regulations

- (A) This tariff provides a Special Promotion for BellSouth SPA CNM - FlexServ Service for use in conjunction with DS1 (a.k.a. BellSouth SPA DS1) service and is valid for the period beginning April 1, 2004, through June 30, 2004, subject to the regulations, terms and conditions set forth herein. (C)  
(C)
- (B) The rates and charges for BellSouth SPA CNM - FlexServ Service and DS1 (a.k.a. BellSouth SPA DS1) service are set forth in Section 23 of this Tariff. The Company reserves the right to change the terms, conditions, rates and charges for BellSouth SPA CNM - FlexServ Service and DS1 (a.k.a. BellSouth SPA DS1) service in Section 23 or other sections of this Tariff during the promotional period in (A) preceding, unless otherwise specified herein. (C)  
(C)
- (C) The regulations, terms and conditions for this Special Promotion shall apply for the Metropolitan Statistical Areas (MSAs) listed below:
- Atlanta, Baton Rouge, Biloxi, Charlotte, Chattanooga, Columbia, Daytona Beach, Evansville, Gainesville, Greensboro-Winston Salem, Jackson, Jacksonville, Knoxville, Lafayette, Lake Charles, Louisville, Memphis, Miami-Ft. Lauderdale, Monroe, Montgomery, Melbourne, Nashville-Davidson, Orlando, Owensboro, Pensacola, Raleigh-Durham, Savannah, Shreveport, Wilmington, West Palm Beach

25.7.11.2 Eligibility Requirements

- (A) This Special Promotion will run for the period specified in 25.7.11.1(A) above.
- (B) The customer must meet the following eligibility requirements in order to participate in this Special Promotion.
- (1) The customer's BellSouth SPA CNM - FlexServ Service and DS1 (a.k.a. BellSouth SPA DS1) service must be located in one of the MSAs specified in 25.7.11.1(C), preceding. (C)
- (2) The customer must have an existing Area Commitment Plan (ACP) set forth in 2.4.8(B) of this Tariff.
- (3) Effective April 23, 2004, customers with a BellSouth Premium Service Incentive Plan (PSIP), as set forth in 2.4.8(G) of this Tariff, may also participate in this promotion.

25.7 Promotions (Cont'd)

25.7.11 Special Promotion - BellSouth SPA Customer Network Management (CNM) (C)  
Service Cont'd)

25.7.11.3 Description

(A) This Special Promotion will be conducted for a 90-day period and applies to BellSouth SPA CNM - FlexServ Service for use with DS1 (a.k.a. BellSouth SPA DS1) service. This promotion offers two options: (C)

(1) Option 1:

This option provides a 50% monthly credit, for a 12-month period, on the monthly recurring charges associated with BellSouth SPA CNM - FlexServ Service DS1 Channel Connections (i.e., with DS0 or DS1 Switching) if the customer meets the following conditions: (C)

- The customer must subscribe to a new 24-month or greater Channel Services Payment Plan (CSPP) for a new or existing BellSouth SPA CNM - FlexServ Service Channel Connection within the 90-day promotional period. The BellSouth SPA CNM - FlexServ Service Channel Connection must be used with a new or existing SPA DS1 Service that is designated solely for interstate use. All CSPP regulations including termination liability shall apply. (C)

- A termination penalty will also apply under this promotion should the customer disconnect the BellSouth SPA CNM - FlexServ Service Channel Connection prior to the 24-month CSPP. The customer will be required to repay all credits received under this promotion and the Company will bill such amount to the customer. (C)

(2) Option 2:

This option waives all nonrecurring charges (if applicable) and provides a 50% monthly credit, for a 12-month period, on the monthly recurring charges associated with BellSouth SPA CNM - FlexServ Service DS1 Channel Connections (i.e., with DS0 or DS1 Switching) if the customer meets the following conditions: (C)

- The customer must subscribe to a new 36-month or greater Channel Services Payment Plan (CSPP) for a new or existing BellSouth SPA CMM - FlexServ Service Channel Connection within the 90-day promotional period. The BellSouth SPA CNM - FlexServ Service Channel Connection must be used with a new or existing SPA DS1 Service that is designated solely for interstate use. All CSPP regulations including termination liability shall apply. (C)

- A termination penalty will also apply under this promotion should the customer disconnect the BellSouth SPA CNM - FlexServ Service Channel Connection prior to the 36-month CSPP. The customer will be required to repay all credits received under this promotion and the Company will bill such amount to the customer. (C)

(2) Option 2:

This option waives all nonrecurring charges (if applicable) and provides a 50% monthly credit, for a 12-month period, on the monthly recurring charges associated with BellSouth SPA CNM - FlexServ Service DS1 Channel Connections (i.e., with DS0 or DS1 Switching) if the customer meets the following conditions: (C)

- The customer must subscribe to a new 36-month or greater Channel Services Payment Plan (CSPP) for a new or existing BellSouth SPA CNM - FlexServ Service Channel Connection within the six-month promotional period. The BellSouth SPA CNM - FlexServ Service Channel Connection must be used with a new or existing SPA DS1 Service that is designated solely for interstate use. All CSPP regulations including termination liability shall apply. (C)
- A termination penalty will also apply under this Promotion should the customer disconnect the BellSouth SPA CNM - FlexServ Service Channel Connection prior to the 36-month CSPP. The customer will be required to repay all credits received under this Promotion and the Company will bill such amount to the customer. (C)

(B) This Promotion allows customers to receive rewards in the form of credits for the service offered under this Promotion, and these credits will be applied to the customer's bill. Applicable taxes will be computed based on the full tariff price for the service, and credits will be applied to the service's full tariff price. Credits will not be applied to taxes.

(C) Monthly recurring credits given under this Promotion will be applied to the customer's bill 30 days in arrears.

(D) Nonrecurring credits will be applied to the customer's bill at the customer's next bill date.
