In this filing Qwest is updating the universal service contribution factors for the first quarter of 2007. This update applies the factor as adopted in Public Notice DA 06-2506, released December 13, 2006.

The general USF charge factor has been increased to 0.097 to reflect the first quarter 2007 charge factor.

#### Multiline Business USF Charge Factor

As shown in Workpaper 1, "Federal Universal Service Fund Charge Factor Development," the Multiline Business charge factor for each study area is calculated by dividing the Multiline Business lines subject to FCC end user charges by the total number of lines subject to PICC charges pursuant to 47 C.F.R. 69.153. This ratio is multiplied by the first Quarter 2007 USF Factor to determine the appropriate Multiline Business USF Charge Factor.

#### Centrex USF Charge Factor

As shown in Workpaper 1, "Federal Universal Service Fund Charge Factor Development," the Centrex USF Charge Factor is one-ninth of the Multiline Business USF Charge Factor.

Qwest is also updating the universal service contribution factor contained in its Tariff F.C.C. No. 4, Interstate IntraLATA Message Telecommunications Service, for the first quarter of 2007. This revision also applies the factor as adopted in Public Notice DA 06-2506, released December 13, 2006.

Supporting information discussed under Sections 61.38 and 61.49 of the Commission's Rules is, to the extent required, included in this transmittal letter and the attached documentation.
