(N)

9.6 BellSouth Optional DA Calling Plan 1

9.6.1 General Description

BellSouth Optional DA Calling Plan 1 is available to customers subscribing to BellSouth Alternate DA Service Capability to provide directory assistance and in addition to any other requirements that may be set forth below, is offered subject to the provisions of Section 2 of this Tariff.

9.6.2 Obligations of the Customer

- (A) To order BellSouth Optional DA Calling Plan 1, the customer must have existing BellSouth Alternate DA Service Capability, as detailed in 9.5 preceding, or must order BellSouth Alternate DA Service Capability from the Telephone Company.
- (B) When ordering BellSouth Optional DA Calling Plan 1, the customer must provide the Telephone Company a forecast of how many DA calls they will send to the Telephone Company via BellSouth Alternate DA Service Capability during an average month.
- (C) As part of BellSouth Optional DA Calling Plan 1, the customer may opt for the BellSouth Optional DA Calling Plan 1 Savings Plan. A BellSouth Optional DA Calling Plan 1 Savings Plan Agreement must be executed by the customer and the Telephone Company in order to implement this option. Under the Savings Plan, the customer must deliver to the Telephone Company DA call volumes within the time frame specified in its BellSouth DA Calling Plan 1 Savings Plan Agreement. These DA call volumes must meet or exceed the minimum amounts required for the plan option selected by the customer, subject to the regulations detailed in 9.6.4(D) and 9.6.4(E), following.

9.5.4 Special Promotion for BellSouth Alternate DA Service Capability (N)

(A) Description (N)

Nonrecurring charges detailed in 9.5.3(A) and (B) preceding will not apply to new orders for BellSouth Alternate DA Service Capability completed during the promotion period beginning June 1, 2005 and continuing through November 30, 2005. The customer will be billed and obligated to pay these nonrecurring charges, however, if new service ordered during the promotion period is terminated prior to being in service for six (6) months. (N)

(B) General Regulations (N)

(1) This tariff provides a Special Promotion for BellSouth Alternate DA Service Capability and is valid for new service orders completed during the period beginning June 1, 2005 and continuing through November 30, 2005. (N)

(2) Nonrecurring charges detailed in 9.5.3(A) and (B) preceding will not apply to new orders for BellSouth Alternate DA Service Capability completed during the promotion period beginning June 1, 2005 and continuing through November 30, 2005. The customer will be billed and obligated to pay these nonrecurring charges, however, if new service ordered during the promotion period is terminated prior to being in service for six (6) months. (N)

(3) The Company reserves the right to change the rates and charges for BellSouth Alternate DA Service Capability. (N)

(B) When ordering BellSouth Optional DA Calling Plan 1, the customer must provide the Telephone Company a forecast of how many DA calls they will send to the Telephone Company via BellSouth Alternate DA Service Capability during an average month.

(N)

(N)

(N)

(N)

(C) As part of BellSouth Optional DA Calling Plan 1, the customer may opt for the BellSouth Optional DA Calling Plan 1 Savings Plan. A BellSouth Optional DA Calling Plan 1 Savings Plan Agreement must be executed by the customer and the Telephone Company in order to implement this option. Under the Savings Plan, the customer must deliver to the Telephone Company DA call volumes within the time frame specified in its BellSouth DA Calling Plan 1 Savings Plan Agreement. These DA call volumes must meet or exceed the minimum amounts required for the plan option selected by the customer, subject to the regulations detailed in 9.6.4(D) and 9.6.4(E), following.

9.5 BellSouth Alternate DA Service Capability

(N)

9.5.1 General Description

(N)

BellSouth Alternate DA Service Capability makes available Telephone Company network resources required to provision directory assistance service to end users of a customer who chooses to route DA calls to a Telephone Company assigned, customer and service specific 10-digit telephone number.

(N)
(N)
(N)
(N)

9.5.2 Rate Regulations

(N)

(A) BellSouth Alternate DA Service Capability is offered subject to the regulations specified in Section 2. of this Tariff.

(N)
(N)

(B) To utilize this arrangement, the ordering customer must select one or more of the service options detailed in 9.5.3 following.

(N)
(N)

(C) The service options set forth in 9.5.3 following are sized based on the Telephone Company's estimate of network resources required to handle blocks of 250,000 calls per month based on average per call holding time.

(N)
(N)
(N)

(D) The Telephone Company will work cooperatively with the customer to help them determine what quantity of the service options will be needed to serve all calls the customer projects will be delivered per month at per call holding times estimated by the customer.

(N)
(N)
(N)
(N)

(E) When a customer ordering BellSouth Alternate DA Service Capability anticipates both interstate and intrastate usage, the customer must report to the Telephone Company the percent interstate usage to be applied to their BellSouth Alternate DA Service Capability charges.

(T)

9.3 BellSouth Direct Access to Directory Assistance (Cont'd)

(T)

9.3.2 Undertaking of the Telephone Company (Cont'd)

- (G) The BellSouth Direct Access to Directory Assistance system can accommodate a maximum of 10,000 operator workstation connections. When this number is reached, no new customers can be added to the service.

(T)

9.3.3 Obligations of the Customer

- (A) Subscription to BellSouth Direct Access to Directory Assistance Service requires that a customer utilize its own switch, operator workstations and attendants, and transport facilities to interconnect with the BellSouth Direct Access to Directory Assistance Location. The Telephone Company will incur no costs or liability associated with the customer's physical data links, circuits, or facilities required to connect the customer to the BellSouth Direct Access to Directory Assistance location. Provision of an audio subsystem by the customer will be optional. Technical requirements and specifications for each component of the customer's system are as follows:

(T)

(T)

(T)

(T)

(T)

1. Switch

The customer's switch handles switching and routing of all the customer's Directory Assistance requests.

(T)

BellSouth Direct Access to Directory Assistance will support the Northern Telecom DMS 200 switch or the AT&T 5ESS switch. The specifications for each interface are as set forth in reference documents:

(T)

(T)

- Northern Telecom Document Q210-1 Version AI07 NTDMS/CCIDAS System Application Protocol to support the Northern Telecom switch (available under a licensed protocol through Northern Telecom) and;
- AT&T Document 250-900-535 Operator Services Position System Listing Service Application Call Processing Data Link Interface Specification to support the AT&T switch.

ACCESS SERVICE

9 - BellSouth Directory Assistance Access (T)

9.3 BellSouth Direct Access to Directory Assistance (T)

9.3.1 General Description

BellSouth Direct Access to Directory Assistance provides a customer with access to the Telephone Company's Directory Assistance Listing Database, Directory Assistance Search Application and Database Administration Call Control for the purpose of providing voice Directory Assistance Service to that customer's end users. The customer must provide its own Switch, Operator Workstation, Audio system (optional) and transport facilities to interface with BellSouth Direct Access to Directory Assistance. (T)
Specifications for connecting are as described in 9.3.3 following. (T)

9.3.2 Undertaking of the Telephone Company

- (A) BellSouth Direct Access to Directory Assistance provides the customer's operators with the ability to search all available BellSouth listings in the BellSouth Direct Access to Directory Assistance Listing Database using a standard Directory Assistance search format. The search format will be provided by the Telephone Company upon subscription to the service. (T)
- (B) When a name search is initiated by the customer's operator workstation attendant, a response screen containing the listed telephone number, address and zip code, if available, will be provided subject to the rates and charges as set forth in 9.3.5. (T)
- (C) A telephone number and/or address which is not listed in the Telephone Company's Directory Assistance records will not be available to the customer. Telephone numbers for non-published listings will not be available to the customer. (T)
- (D) The Telephone Company will provide the Directory Assistance Listing Database, the Directory Assistance Search Application, the Database Administration Call Control and a point of availability for the customer to connect to the system. (T)
- (E) The Telephone Company will cooperatively test with the customer at the time of installation.
- (F) When the customer has both interstate and intrastate BellSouth Direct Access to Directory Assistance usage, the Percent Interstate Usage (PIU) for the customer's BellSouth Direct Access to Directory Assistance service will be determined as specified in 2.3.10 preceding and will be applied to the customer's BellSouth Direct Access to Directory Assistance charges. ACCESS SERVICE

9 - Bell South Directory Assistance Access (Cont'd) (T)

9.1.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(3) Directory Transport (Cont'd)

Directory Transport is a two-way voice frequency transmission path composed of Bell South SWA Transport facilities as set forth in 6.1.3 (T) preceding. The two-way voice frequency path transports calls in the terminating direction (from the premises of the customer to the DA location). The voice frequency transmission path may be comprised of any configuration of plant capable of and typically used in the telecommunications industry for the transmission of voice and associated telephone signals within the frequency bandwidth of approximately 300 to 3000 Hz.

Directory Transport facilities are specified by the customer and include the following rate categories. These rate categories are further defined in Section 6, Bell South SWA service. (T)

(a) Bell South SWA Local Channel must be specified by the customer. This facility is used in the transport of the Bell South Directory Assistance Access service call from the customer's premises to the Telephone Company's Serving Wire Center (SWC). The Bell South SWA Local Channel is assessed a monthly rate based on capacity. (T)

(b) Bell South SWA Interoffice Channel, either Bell South SWA Common Transport or Bell South SWA Dedicated Transport must be specified by the customer. (T)

Bell South SWA Dedicated Transport Interoffice Channels (SW DI OC) are used for the transport of the Bell South Directory Assistance Access service call to the Bell South Directory Assistance Access location without utilizing a Telephone Company Access Tandem Switch, or for the transport of the call to the Access Tandem where Bell South SWA Common Transport is ordered from the Access Tandem to the Bell South Directory Assistance Access location. The SW DI OC is assessed a monthly rate, per mile, based on the capacity ordered by the customer. (T)

Bell South SWA Common Transport Interoffice Channels (SW CI OC) are used for the transport of the Bell South Directory Assistance Access service call to the Bell South Directory Assistance Access location utilizing a Telephone Company Access Tandem Switch. The SW CI OC charge is assessed on a per call basis, and a per call mile basis. (T)

ACCESS SERVICE

9 - BellSouth Directory Assistance Access (Cont'd)

9.1.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(3) Directory Transport (Cont'd)

Directory Transport is a two-way voice frequency transmission path composed of BellSouth SWA Transport facilities as set forth in 6.1.3 preceding. The two-way voice frequency path transports calls in the terminating direction (from the premises of the customer to the DA location). The voice frequency transmission path may be comprised of any configuration of plant capable of and typically used in the telecommunications industry for the transmission of voice and associated telephone signals within the frequency band width of approximately 300 to 3000 Hz.

Directory Transport facilities are specified by the customer and include the following rate categories. These rate categories are further defined in Section 6, BellSouth SWA service.

- (a) BellSouth SWA Local Channel must be specified by the customer. This facility is used in the transport of the BellSouth Directory Assistance Access service call from the customer's premises to the Telephone Company's Serving Wire Center (SWC). The BellSouth SWA Local Channel is assessed a monthly rate based on capacity.
- (b) BellSouth SWA Interoffice Channel, either BellSouth SWA Common Transport or BellSouth SWA Dedicated Transport must be specified by the customer.

BellSouth SWA Dedicated Transport Interoffice Channels (SW DIOC) are used for the transport of the BellSouth Directory Assistance Access service call to the BellSouth Directory Assistance Access location without utilizing a Telephone Company Access Tandem Switch, or for the transport of the call to the Access Tandem where BellSouth SWA Common Transport is ordered from the Access Tandem to the BellSouth Directory Assistance Access location. The SW DIOC is assessed a monthly rate, per mile, based on the capacity ordered by the customer.

BellSouth SWA Common Transport Interoffice Channels (SW CIOC) are used for the transport of the BellSouth Directory Assistance Access service call to the BellSouth Directory Assistance Access location utilizing a Telephone Company Access Tandem Switch. The SW CIOC charge is assessed on a per call basis, and a per call mile basis.

Where BellSouth SWA Common Transport is selected by the customer, the DS3 to DS1 Multiplexor element is applicable. This element provides for the use of DS3 to DS1 multiplexor equipment between the Telephone Company Access Tandem switch and the BellSouth Directory Assistance Access Location. (N)(x)

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd) (M)

10.6 Service Offerings to the Federal Government (Cont'd) (M)

10.6.1 Type and Description (Cont'd) (M)

(F) Federal Government Transport Plan (FGTP) (Cont'd) (M)

(6) Conversions From An Existing Area Commitment Plan (M)

If a customer has submitted to the Telephone Company, by May 10, 1998, a letter indicating its intent to submit ASRs, by June 15, 1998, for the purpose of accomplishing a conversion of eligible DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service circuits from an existing Area Commitment Plan with a customer selected termination date prior to March 9, 2000, to a FGTP arrangement, and specifying, at a minimum: (M)

- Customer Name, (M)
- Access Carrier Name Abbreviation (ACNA), (M)
- Carrier Identification Codes (CICs), (M)
- Circuit Identification. (M)

At the customer's option, the existing ACP arrangement will be converted to a FGTP arrangement with the same termination date as that associated with the existing ACP arrangement. Recurring monthly rates for converted circuits of this type will be those FGTP rates associated with a number of months equal to those committed under the existing ACP arrangement. All ASRs associated with the conversion must be received by the Telephone Company by June 15, 1998. (M)

Material appearing on this Page previously appeared on Original Page 10-6.9.

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.2 Mileage Application

(M)

Mileage, when used for rate application between two customer premises, shall be determined by the V and H Coordinates Method as set forth in NATIONAL EXCHANGE CARRIER ASSOCIATION, INC., TARIFF F.C.C. No. 4 and administered as set forth in 7.4.6 preceding.

(M)
(M)
(M)
(M)

10.6.3 Application of Move Charges

(M)

(A) When service without a maximum termination liability charge associated with it, as set forth in 10.6.4(A) and (B) following, is moved to a different building, the nonrecurring charge applies; when moved to a new location in the same building, a charge of one-half the nonrecurring charge applies.

(M)
(M)
(M)
(M)
(M)

(B) When service with a maximum termination liability charge associated with it, as set forth in 10.6.4(A) and (B) following, is moved and is reinstalled at a new location, the customer may elect:

(M)
(M)
(M)

- to pay the unexpired portion of the maximum termination liability charge for the service, if any, with the application of a nonrecurring charge and the establishment of a new maximum termination liability charge for such service at the new location, or
- to continue service subject to the unexpired portion of the maximum termination liability charge, if any, and pay the estimated costs of moving such service, provided that the customer requests these charges be quoted prior to ordering the service move. Charges for moving such service will be based on estimated costs attributable to the move.

Move charges include the estimated costs of removal, restoration of services or facilities necessitated by the move, transportation, storage, reinstallation, engineering, labor, supervision, materials, administration, and any other specific items of cost directly attributable to the move.

10.6.4 Rates and Charges

(A) Voice Grade Special Access (a.k.a. BellSouth SPA DS0 VG) Service

The provision of T-3 and G conditioned services contemplates station and tandem switching operations, using customer provided equipment, as well as Special Access (a.k.a. BellSouth SPA) Service. Separate narrowband or voice grade (a.k.a. BellSouth SPA DS0 VG) services, where required by the customer provided equipment or switching operation, are furnished in accordance with the applicable sections of this tariff.

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.3 Application of Move Charges (Cont'd)

(B) (Cont'd)

- to pay the unexpired portion of the maximum termination liability charge for the service, if any, with the application of a nonrecurring charge and the establishment of a new maximum termination liability charge for such service at the new location, or
- to continue service subject to the unexpired portion of the maximum termination liability charge, if any, and pay the estimated costs of moving such service, provided that the customer requests these charges be quoted prior to ordering the service move. Charges for moving such service will be based on estimated costs attributable to the move.

Move charges include the estimated costs of removal, restoration of services or facilities necessitated by the move, transportation, storage, reinstallation, engineering, labor, supervision, materials, administration, and any other specific items of cost directly attributable to the move.

10.6.4 Rates and Charges

(A) Voice Grade Special Access (a.k.a. Bell South SPA DSO VG) Service (T)

The provision of T-3 and G conditioned services contemplates station and tandem switching operations, using customer provided equipment, as well as Special Access (a.k.a. Bell South SPA) Service. Separate narrowband (T) or voice grade (a.k.a. Bell South SPA DSO VG) services, where required by (T) the customer provided equipment or switching operation, are furnished in accordance with the applicable sections of this tariff.

EFFECTIVE: NOVEMBER 30, 1996

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(5) Reports (N)

Three reports will be provided as a part of the rate for the GETS ACR (N)
feature: Call Data Report, Quarterly Certification Report, and (N)
Emergency Data for Performance Reporting. (N)

(1) Call Data Report (N)

The Call Data Report provides call detail associated with GETS ACR (N)
usage. The Call Data report contains information such as call date, (N)
call time, call duration, and IC used for the call. This report will (N)
be provided on a monthly basis.

(2) Emergency Data for Performance Reporting (N)

At the request of the Government, emergency call detail associated (N)
with GETS ACR usage will be provided twice daily. This report will (N)
include information such as total calls into the affected area, total (N)
calls out the affected area, and number of blocked GETS calls. (N)

10.6.2 Mileage Application (N)

Mileage, when used for rate application between two customer premises, shall (N)
be determined by the V and H Coordinates Method as set forth in NATIONAL (N)
EXCHANGE CARRIER ASSOCIATION, INC., TARIFF F.C.C. No. 4 and administered as (N)
set forth in 7.4.6 preceding. (N)

10.6.3 Application of Move Charges (M)

(A) When service without a maximum termination liability charge associated (M)
with it, as set forth in 10.6.4(A) and (B) following, is moved to a (M)
different building, the nonrecurring charge applies; when moved to a new (M)
location in the same building, a charge of one-half the nonrecurring (M)
charge applies.

(B) When service with a maximum termination liability charge associated with (N)
it, as set forth in 10.6.4(A) and (B) following, is moved and is (M)
reinstalled at a new location, the customer may elect: (M)

ACCESS SERVICE

- 10 - Special Federal Government Access Services (Cont'd) (N)
- 10.6 Service Offerings to the Federal Government (Cont'd) (N)
- 10.6.1 Type and Description (Cont'd) (N)
- (F) Federal Government Transport Plan (FGTP) (Cont'd) (N)
- (5) Moves and Upgrades (Cont'd) (N)
- (b) (Cont'd) (N)
- A customer may upgrade DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service rate elements included in a FGTP arrangement to a higher order of service provided under an Optional Payment Plan (i.e., a Transport Payment Plan arrangement), and request a reduction in the FGTP arrangement commitment level without incurring a termination liability. The customer request for the DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service being upgraded from an FGTP arrangement must be coordinated with the installation of the higher order of service. When a customer upgrades a portion of the DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service rate elements provided under a FGTP arrangement, the customer must enter into a new FGTP arrangement to reflect the revised commitment level. The revised commitment level must be equal to or greater than the current commitment level less the quantity of FGTP DS1 High Capacity services upgraded. When all DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service elements provided under a FGTP arrangement are upgraded, no termination liability is applicable. (N)
- (6) Conversions From An Existing Area Commitment Plan (N)
- If a customer has submitted to the Telephone Company, by May 10, 1998, a letter indicating its intent to submit ASRs, by June 15, 1998, for the purpose of accomplishing a conversion of eligible DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service circuits from an existing Area Commitment Plan with a customer selected termination date prior to March 9, 2000, to a FGTP arrangement, and specifying, at a minimum: (N)
- Customer Name, (N)
 - Access Carrier Name Abbreviation (ACNA), (N)
 - Carrier Identification Codes (CICs), (N)
 - Circuit Identification. (N)
- At the customer's option, the existing ACP arrangement will be converted to a FGTP arrangement with the same termination date as that associated with the existing ACP arrangement. Recurring monthly rates for converted circuits of this type will be those FGTP rates associated with a number of months equal to those committed under the existing ACP arrangement. All ASRs associated with the conversion must be received by the Telephone Company by June 15, 1998. (N)

EFFECTIVE: MARCH 13, 1998

ACCESS SERVICE

- 10 - Special Federal Government Access Services (Cont'd) (N)
- 10.6 Service Offerings to the Federal Government (Cont'd) (N)
- 10.6.1 Type and Description (Cont'd) (N)
- (F) Federal Government Transport Plan (FGTP) (Cont'd) (N)
- (4) Termination Liability (Cont'd) (N)
- (a) Cont'd (N)
- The termination liability, per unit terminated (i.e., commitment level and/or period), will equal the DS1 High Capacity (a.k.a. Bell South SPA DS1 High Capacity) service element rate associated with the existing FGTP arrangement multiplied by the difference in months between the time the FGTP arrangement has been in effect and the minimal months of the existing FGTP arrangement times a factor. The factor is 40 percent for FGTP arrangements that have been in effect twelve months or less, or 20 percent for FGTP arrangements that have been in effect longer than twelve months. (N)
- (b) In the case of a termination affecting both a commitment level and commitment period, the termination liability will be calculated first for the reduction in level and then for the reduction in period. (N)
- (c) Nonrecurring charges associated with DS1 High Capacity (a.k.a. Bell South SPA DS1 High Capacity) service and termination liability will not be assessed if the disconnect of an FGTP arrangement is due to a Federal Government closing of the site (i.e., Air Force Base, etc.). (N)
- (d) DS1 High Capacity (a.k.a. Bell South SPA DS1 High Capacity) service(s) that convert from an existing CSPP or ACP arrangement, specified in 2.4.8, will not incur termination liability associated with the prior arrangement. (N)
- (5) Moves and Upgrades (N)
- (a) When a DS1 High Capacity (a.k.a. Bell South SPA DS1 High Capacity) Service circuit is moved to a different building prior to completion of the minimum twenty-four month service period, no nonrecurring charges will be levied against the disconnected FGTP DS1 High Capacity service; however, full nonrecurring charges as specified in 7.5.9 preceding for DS1 High Capacity (a.k.a. Bell South SPA DS1 High Capacity) Service will be assessed at the new location for the reestablished service. Nonrecurring charges as specified in 7.4.5(A) are applicable for moves of DS1 High Capacity (a.k.a. Bell South SPA DS1 High Capacity) Service provided under a FGTP arrangement within the same building. (N)
- (b) In the case of upgrades to a higher order service occurring prior to completion of the minimum twenty-four month commitment period, nonrecurring charges appropriate for installation of a new DS1 High Capacity (a.k.a. Bell South SPA DS1 High Capacity) service, as specified in 7.5.9 preceding, will apply for those rate elements converted to a higher order service. (N)

EFFECTIVE: MARCH 13, 1998

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd) (N)

10.6 Service Offerings to the Federal Government (Cont'd) (N)

10.6.1 Type and Description (Cont'd) (N)

(F) Federal Government Transport Plan (FGTP) (Cont'd) (N)

(3) Application of Rates (Cont'd) (N)

(f) If the number of in-service rate elements are less than the commitment level, a credit will be determined by multiplying the in-service rate element quantity by the difference in the appropriate Rate Zone month-to-month rate for DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service and the appropriate DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service rate element Rate Zone commitment period rate under FGTP. Credits will be applied utilizing the same method as set forth in 10.6.1(F)(3)(c) and (e). In addition, a shortfall charge, equal to the difference in the commitment level and the in-service quantity, multiplied by 50% of the DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service FGTP arrangement Rate Zone 1 rate for the customer selected commitment period as specified in 10.6.4(F)(1) will be applied. The DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service FGTP rate that will be used is the one that is in effect on the billing date for the appropriate commitment period. (N)

(g) Credits and shortfall amounts will be distributed to billing areas based on each billing area's portion of a customer's regional FGTP-eligible in-service demand. Each state in the region is considered to be one billing area. Where the customer has more than one FGTP arrangement, the credits and shortfall charges will be determined in chronological order, starting with the earliest arrangement. Credits for DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service elements provided under a FGTP arrangement will be made at the circuit level. (N)

(h) If a customer obtains telecommunications service under provisions of this tariff not authorized by the Federal Government for its use, the customer will be liable for any applicable nonrecurring charge(s) as set forth in 7.5.9 preceding and a charge for the inappropriate service connection. A charge equal to the difference between the month-to-month recurring rate for DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service, as set forth in 7.5.9 preceding, and the billed DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service FGTP arrangement rate, for the entire period of service will apply. (N)

(4) Termination Liability (N)

(a) A termination charge will apply if: (1) the FGTP arrangement is terminated prior to the completion of the customer selected commitment period; (2) a regional in-service quantity falls to zero; or (3) if during the FGTP arrangement commitment period the customer decreases the commitment level. In the case of a decrease in commitment, the customer must enter into a new FGTP arrangement and terminate the existing FGTP arrangement(s). This will result in a termination liability to be calculated as follows: (N)

EFFECTIVE: MARCH 13, 1998

ACCESS SERVICE

- 10 - Special Federal Government Access Services (Cont'd) (N)
- 10.6 Service Offerings to the Federal Government (Cont'd) (N)
- 10.6.1 Type and Description (Cont'd) (N)
- (F) Federal Government Transport Plan (FGTP) (Cont'd) (N)
- (3) Application of Rates (Cont'd) (N)
- (c) In order to determine if the customer is eligible for credit amounts, each month the appropriate number of DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service FGTP arrangement rate elements that are to be billed by the Telephone Company in the region under each FGTP arrangement will be determined. If the total number of in-service FGTP arrangement Local Channel and Interoffice Channel Per Mile rate element quantities equals or exceeds the FGTP arrangement commitment level, the Telephone Company will credit the customer's bill, by rate element. Credit for Rate Zone 1 circuits will be calculated first, beginning with the highest rated circuit in Rate Zone 1, and will continue in descending order through Rate Zones 1, 2 and 3 until the commitment for the particular rate element is met. (N)
- (d) Utilizing the method set forth in (c) above, the credit for the Local Channel and Interoffice Channel Per Mile rate elements will be determined by multiplying the commitment level by the difference in the appropriate Rate Zone month-to-month rate for DS1 High Capacity (a.k.a. BellSouth SPA High Capacity) Service Local Channel rate element specified in 7.5.9 preceding and the appropriate Rate Zone commitment period rate for a DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service Local Channel rate element under a FGTP arrangement. When the circuit is associated with a Meet Point Billing Arrangement, the rates used in the calculation of the credit will be reduced by the appropriate Meet Point Billing Arrangement percentage. (N)
- (e) For each circuit eligible for credit that includes Interoffice Channel mileage also eligible for credit, the credit for the Interoffice Channel Fixed rate elements will be determined by multiplying the quantity of Interoffice Channel Fixed rate elements associated with the count of Interoffice Channel Per Mile rate elements by the difference in the appropriate Rate Zone month-to-month rate for DS1 High Capacity (a.k.a. BellSouth SPA High Capacity) Service Interoffice Channel Fixed rate element specified in 7.5.9 preceding, and the appropriate Rate Zone commitment period rate for a DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service Interoffice Channel rate element under a FGTP arrangement. When the circuit is associated with a Meet Point Billing Arrangement, the rates used in the calculation of the credit will be reduced by the appropriate Meet Point Billing Arrangement percentage. (N)

ACCESS SERVICE

- 10 - Special Federal Government Access Services (Cont'd) (N)
- 10.6 Service Offerings to the Federal Government (Cont'd) (N)
- 10.6.1 Type and Description (Cont'd) (N)
- (F) Federal Government Transport Plan (FGTP) (Cont'd) (N)
- (3) Application of Rates (N)
- (a) Except as provided in 10.6.1.F.5, nonrecurring charges for DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service rate elements provided under a FGTP arrangement will not apply provided the customer maintains the service for the minimum twenty-four consecutive month service period. If a DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service Local or Interoffice Channel provided under a FGTP arrangement is disconnected prior to completion of the minimum twenty-four month service period, full nonrecurring charges for the applicable elements of service will be billed at the current nonrecurring charge rate as specified in 7.5.9 preceding for month-to-month DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service. (N)
- (b) Except as specified in 10.6.1(F)(6), recognition of previous service will be given to customers who convert eligible existing DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service arrangements to a DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service under a FGTP arrangement, or renew a DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service FGTP arrangement at the same location. In the case of conversions/renewals prior to completion of the original arrangement, the commitment period of the new FGTP arrangement must be equal to or greater than the remaining commitment period of the original arrangement, but no less than twenty-four months. Rates and charges in effect on the first day of service of the conversion/renewal will apply. (N)

EFFECTIVE: MARCH 13, 1998

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd) (N)

10.6 Service Offerings to the Federal Government (Cont'd) (N)

10.6.1 Type and Description (Cont'd) (N)

(F) Federal Government Transport Plan (FGTP) (Cont'd) (N)

(2) Terms and Conditions (N)

(a) To subscribe to a FGTP the customer must specify the number of DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service Local Channel and Interoffice Channel Per Mile rate elements which are to be included in the FGTP arrangement. The number of elements specified by the customer become the customer's commitment level for the FGTP arrangement. FGTP arrangement commitments are made on a regional basis, by rate element. Additionally, the customer must also specify which DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service circuits are to be included in the FGTP arrangement. (N)

Each grouping of DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service rate element(s) (i.e., Local and Interoffice Channel Fixed and Per Mile) is assigned a circuit identification number. Rate elements having a common circuit identification number are considered to be a circuit for purposes of the FGTP. (N)

(b) The customer may add or disconnect DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service Local (LC) and Interoffice (IOC) channel rate elements under FGTP as desired, subject to applicable minimum periods and appropriate nonrecurring charges. (N)

If the customer desires to increase the FGTP commitment level, the customer may enter into an additional agreement for the increase in commitment level, or the customer may revise an existing FGTP arrangement to include the additional quantity. In the latter case, the FGTP commitment period must be equal to or greater than the time remaining in the existing FGTP arrangement, and no less than the least commitment period available under FGTP. (N)

(c) When subscribing to a FGTP arrangement the customer must select a FGTP commitment period as follows: (N)

- FGTP A, commitment periods may be selected from 24 to 48 months in length. (N)

- FGTP B, commitment periods may be selected from 49 to 72 months in length. (N)

- FGTP C, commitment periods may be selected from 73 to 96 months in length. (N)

Termination liability as set forth in (F)(4)(a) following will not apply for DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service elements provided under a FGTP arrangement provided the customer maintains the DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service elements for at least twenty-four months under Plan A, forty-nine months under Plan B, or seventy-three months under Plan C. (N)

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(E) Government Emergency Telecommunications Service (GETS) Access (Cont'd)

(5) Reports

Three reports will be provided as a part of the rate for the GETS ACR feature: Call Data Report, Quarterly Certification Report, and Emergency Data for Performance Reporting.

(1) Call Data Report

The Call Data Report provides call detail associated with GETS ACR usage. The Call Data report contains information such as call date, call time, call duration, and IC used for the call. This report will be provided on a monthly basis.

(2) Emergency Data for Performance Reporting

At the request of the Government, emergency call detail associated with GETS ACR usage will be provided twice daily. This report will include information such as total calls into the affected area, total calls out the affected area, and number of blocked GETS calls.

(F) Federal Government Transport Plan (FGTP)

(N)

The Federal Government Transport Plan (FGTP) allows the Federal Government or any customer providing telecommunications service(s) for the exclusive use of the Federal Government and its authorized agents to obtain DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service in accordance with the specific terms and conditions of this plan.

(N)
(N)
(N)
(N)
(N)
(N)

(1) General

(N)

- (a) This plan is limited to DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service Local and Interoffice channel Fixed and Per Mile rate elements. DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service rate elements included in a FGTP arrangement may not be included in a Channel Services Payment Plan (CSPP) or Area Commitment Plan (ACP) as specified in 2.4.8 preceding.

(N)
(N)
(N)
(N)
(N)
(N)

DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service rate elements provided under a FGTP arrangement are excluded from any application of Shared Use provisions as specified in 7.4.8.

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(2) Liability of the Telephone Company

The Telephone Company shall have no liability whatsoever for unauthorized use of the 710 NPA.

(3) GETS Alternate Carrier Routing (ACR) Feature

(N)

ACR is an Advanced Intelligent Network (AIN) feature which allows as many as three IC choices for completing a GETS call. When a GETS caller dials a GETS number, i.e., 710-NCS-GETS to access the service, the ACR feature routes the call alternately to the three GETS ICs identified by Carrier Identification Codes (CICs) in an ordered sequence:

(N)
(N)
(N)
(N)
(N)

- Primary IC
- Alternate IC
- Second Alternate IC

(N)
(N)
(N)

The United States Government Office of the Manager, National Communications System (OMNCS), will supply the pre-defined ordering of ICs for each end office.

(N)
(N)
(N)

(4) GETS Calling Party Number (CPN) Feature

(N)

The CPN feature modifies the originating CPN to a GETS-unique number (710-NCS-GETS). This CPN will be passed along with other call information from the BellSouth network to the IC and finally to the terminating Local Exchange Carrier (LEC). The CPN information will be used by any network or network element to identify the call for GETS treatment. The GETS-unique number assignment for the CPN can be changed. The capability to turn "on" and "off" this feature will be provided.

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(D) Telecommunications Service Priority (TSP) System (Cont'd)

Telecommunications Service Priority System is provided under the terms and conditions and at the rates and charges as set forth in Section 13.3.9 following.

(M)
(M)
(M)

(E) Government Emergency Telecommunications Service (GETS) Access

(N)

GETS is an emergency telecommunications service offered by the United States Government Office of the Manager, National Communications System (OMNCS), to meet national security and emergency preparedness (NS/EP) requirements for use of public, defense, or Federal telephone networks by Government departments, agencies and other authorized users. Access to GETS is accomplished through the use of the 710 non-geographical Numbering Plan Area (NPA) utilizing the Public Switched Network (PSN) and an Interexchange Carrier (IC) designated by the OMNCS as a GETS-designated IC.

(N)
(N)
(N)
(N)
(N)
(N)
(N)
(N)
(N)

(1) Coverage

(N)

GETS Access is available in the entire Telephone Company service area. The 710 non-geographical NPA code will be opened in all areas served by the Telephone Company.

(N)
(N)
(N)

BellSouth will not provide special routing, operator handling, or other features for calls utilizing the 710 NPA call. Such calls will be delivered to the underlying IC regardless of whether that carrier has been designated as a GETS IC by the Federal Government. Applicable access charges under other provisions of this tariff will apply for the underlying access service provided to the involved IC.

ACCESS SERVICE

12 - Specialized Service or Arrangement (Cont'd)

12.3 Rates and Charges (Cont'd)

Service: SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 (T)
Customer Name: Digital Equipment Corporation
Location: Alpharetta, Georgia

NOTES:

1. This SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 Transport Service is a high capacity network service capable of providing an STS-1 transport link. (T)
2. This SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 Transport Service provides a flat rate transport link between the customer premises located at 5555 Windward Parkway, Alpharetta, Georgia, where the network is accessed, and the Powers Ferry serving wire center. This arrangement is comprised of three service components for SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 Transport Service: the SMARTPath Area Connection; the SMARTPath Area Junction; the DS1 Customer Channel Interface. (T)
3. The SMARTPath Area Connection provides for the connection at 5555 Windward Parkway, Alpharetta, Georgia, where the customer gains access to SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 Transport service and transport to the Powers Ferry Central Office. (T)
4. The SMARTPath Area Junction, for SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 Transport service, provides for the connection between the SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) network and the Powers Ferry serving wire center in the same SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) Area for connection to FlexServ service (a.k.a. BellSouth SPA Customer Reconfiguration). (T)
5. The DS1 Customer Channel Interface permits the customer to aggregate individual DS1 services at a the customer premises located at 5555 Windward Parkway, Alpharetta, Georgia, and transport them over SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 Transport Service. (T)
6. The FlexServ (a.k.a. BellSouth SPA Customer Reconfiguration) STS-1 channel connection provides for the termination of a SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 circuit with DS1 Switching. This connection provides the customer monitoring and reconfiguration capability at the DS1 level. This charge is in addition to the rates and charges applicable to FlexServ service (a.k.a. BellSouth SPA Customer Reconfiguration) as found in Sections 7.4.12 and 7.5.18 preceding. (T)
7. The minimum service period for this special arrangement is twelve (12) months. If the customer terminates service prior to the end of the 12 month service period, termination liability charges would be calculated based on the number of months remaining in the service period times all of the monthly rates applicable to this special arrangement. (T)

(N)

13.3.24 Virtual Access Cross Connect Service

(M)(T)

- (A) A monthly recurring charge applies for the Virtual Access Cross Connect element that consists of the cross connect panel, cable racks, bay framework, jumpers and other supporting hardware. (M)(T)
(M)
- (B) The Virtual Access Cross Connect element is designated as BellSouth SWA or Special Access (a.k.a. BellSouth SPA), depending on the type of service to which it cross connects. (M)(T)
(M)
- (C) The BellSouth SWA Virtual Access Cross Connect element is subject to the jurisdictional report requirements as set forth in Section 2.3.10 of this Tariff. (M)(T)
(M)
- (D) Virtual Access Cross Connect Service is flat rate, non-distance sensitive charges and will be applied on a per cross connect ordered basis. (M)(T)
(M)
- (E) Standards for performance monitoring of services which interconnect to the collocation arrangement will be driven by the particular service type and service specific requirements. The Telephone Company's obligation for monitoring ends at the demarcation point. (M)
(M)
- (F) Virtual Access Cross Connects will be ordered on the same ASR as the service being cross-connected. All ASRs must be complete and accurate before the Company will initiate the provisioning process. (M)(T)
(M)
- (G) Nonrecurring charges for the Virtual Access Cross Connect Service are assessed on a "First" and "Additional" basis. (M)(T)
(M)

ACCESS SERVICE

13 - Additional Engineering, Additional Labor and Miscellaneous Services
(Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.23 Physical Access Cross Connect Service

(A) General Description

- (1) Physical Access Cross Connects provide a one to one dedicated transmission path between the customer's Special Access (a.k.a. BellSouth SPA) tariff service offerings or transport equipment located in the Telephone Company Central Office and another telecommunications carrier's (collocator's) physical collocation arrangement.
- (2) Standards for performance monitoring of services which interconnect to the collocation arrangement will be driven by the particular service type and service specific requirements. The Telephone Company's obligation for monitoring ends at the demarcation point.
- (3) Physical Access Cross Connects are flat rate, non-distance sensitive charges and will be applied on a per cross connect ordered basis.
- (4) Physical Access Cross Connects will be ordered on the same ASR as the service being cross-connected. All ASRs must be complete and accurate before the Company will initiate the provisioning process.
- (5) Nonrecurring charges are applicable for Physical Access Service Cross Connect Service.
- (6) The collocator may cross connect at the DS0 level with the following Telephone Company access services:
 - Local and Interoffice Channels (described in 7.1.2 of this Tariff)
 - Optional Features and Functions (described in 7.1.2(C) of this Tariff)
- (7) The collocator may cross connect at the DS1 level with the following Telephone Company access services:
 - DS1 local channel or interoffice
 - DS1 Basic Channelization System
 - FlexServ (a.k.a. BellSouth SPA Customer Reconfiguration) Port in a Digital Cross-Connect System

(N)

13.3 Miscellaneous Services (Cont'd)

(N)

13.3.21 BellSouth Local Number Portability End User Line Charge

(N)(x)

(A) General

(N)(x)

The BellSouth LNP End User Line Charge (End User Line Charge) recovers the residual costs to implement Local Number Portability (LNP) after Call Routing Service and Query Service costs are subtracted. This charge will be applied to all lines which are portable between telecommunications service providers. An end user line is deemed to be portable at the time the NPA-NXX serving that line is capable of providing Local Number Portability. The offices deemed to be portable and for which the End User Line Charge will apply are set forth in the National Exchange Carrier Association, Inc. Tariff F.C.C. No. 4.

(N)(x)
(N)(x)
(N)(x)
(N)(x)
(N)(x)
(N)(x)

The End User Line Charge will apply to:

(N)(x)

Primary Residential Local Exchange service lines or trunks
Primary Business Local Exchange service lines or trunks
Feature Group A (FGA) lines (Toll Guide accounts)
Unbundled Network Element (UNE) switch ports
PBX trunks
Payphone Service Provider lines
Foreign Exchange (FX) service lines
Foreign Central Office (FCO) service lines
Centrex Type Services station lines
Basic Rate ISDN Digital Subscriber lines (ISDN BRI)
Primary Rate ISDN Interface (ISDN PRI)

(N)(x)
(N)(x)
(N)(x)
(N)(x)
(N)(x)
(N)(x)
(N)(x)
(N)(x)
(N)(x)
(N)(x)
(N)(x)

The applicable End User Line Charge will be billed to Resellers in the case of any end user lines sold to Resellers.

(N)(x)
(N)(x)

(B) Limitations

(N)(x)

The End User Line Charge will not apply to Lifeline lines or local exchange service provided as remote call forwarding residential or business service.

(E) Rates Regulations

The following rate elements apply to EOLS Service:

(1) EOLS Query

The EOLS Query Charge will apply each time a customer requests information for a line number and the SCP sends a response.

(2) Originating Point Code Establishment or Change Charge

The Originating Point Code Establishment or Change Charge provides for the establishment or change of a customer requested Originating Point Code. This charge is nonrecurring and will apply each time that the customer requests and receives the establishment of a new Originating Point Code or requests and receives a change to an existing Originating Point Code. These codes are to be used for billing EOLS Queries.

13.3.12 Security Card

(A) Description

Dial access and web access customers of Mechanized Interface to Specified Operation Support Systems and/or FlexServ Service (a.k.a. BellSouth SPA Customer Reconfiguration) must order a Security Card. A nonrecurring charge will apply. This card provides the customer a unique password identification code, which will electronically change periodically, thereby providing a valuable layer of security. Should the customer require additional cards for reasons such as additional users or lost or damaged card, a nonrecurring charge will apply for each additional card requested. (C)

If the customer has purchased a Security Card in conjunction with a feature or service offered by the Company, that Security Card may also be used in conjunction with other features or services requiring a Security Card. It is up to the customer to notify the Company of an existing Security Card so the Company can ensure that the card is validated for multiple features and/or services.

(C) Allowance for Interruptions

- (1) A Bell South Administrative Management service interruption occurs (T)
when the customer's access to the customer service information
functions is not available for the customer's use. The total service
will be deemed as unavailable if either the dedicated access line
used by the customer to access Bell South Administrative Management (T)
service or the Bell South Administrative Management service processor (T)
is not operational. A Bell South Administrative Management service (T)
interruption is not considered to occur if only information (T)
associated with Bell South Administrative Management service features
is not available. A pro rata adjustment of the appropriate Bell South (T)
Administrative Management service monthly charges will be allowed if
the total service is unavailable for more than a twenty-four hour
period. Appropriate Bell South Administrative Management service (T)
monthly charges do not include the block of usage for transaction (T)
charges. There will be no pro rate adjustment for interruptions due (T)
to a particular customer service information function not being
available. (T)
- (2) No credit shall be allowed for an interruption of Bell South (T)
Administrative Management service which is less than 24 hours. The (T)
customer shall be credited for an interruption of 24 hours or more at
the rate of 1/30 of the monthly rates for each period of 24 hours or
major fraction thereof that the interruption continues for failure to
gain information, i.e., transactions, reports, etc. via Bell South. (T)
In the case of Bell South Administrative Management services billed
upon actual usage, no credit allowance is applicable.

(D) Application of Rates

For the initial establishment of Bell South Administrative Management (T)
service, a nonrecurring Basic Service charge and a recurring monthly
charge as set forth in 13.3.10(E)(1) will apply.

ACCESS SERVICE

13.3 Miscellaneous Services (Cont'd)

13.3.10 Bell South Administrative Management Service (Cont'd) (T)

(A) Service Description (Cont'd)

(2) Customer Service Information Functions (Cont'd)

-Administrative Reports

This option allows the customer to request reports based on Bell South Administrative Management Service activity. The reports may be requested by specified periods (weekly or monthly). Detailed information as to number of transactions on a user specific basis or number of features accessed over a specified time period may also be requested. (T)

(B) Provision of Service

The customer may access Bell South Administrative Management Service on either a dial/shared or dedicated basis. (T)

For dial/shared access, the customer is required to provide a terminal and a modem. Provided the customer's premises resides in a Telephone Company locally franchised territory, the customer will dial a non-toll access number furnished by the Telephone Company which provides access to Bell South Administrative Management Service. If the customer's premises is outside a Telephone Company LATA, the call may be either toll or non-toll, depending on the customer's premises location, to reach a Bell South Administrative Management Service port. The Bell South Administrative Management Service port will be assigned a seven digit number to enable the customer to access this port. If the customer desires multiple telephone numbers to access Bell South Administrative Management Service, an additional port charge, as set forth in 13.3.10(E)(3) following, is required for each additional telephone number requested. (Only one telephone number is assigned per port). (T)

Dedicated access to Bell South Administrative Management Service will be provided over a dedicated 9600 bps data circuit obtained by the customer from the Telephone Company to a location designated by the Telephone Company. Dedicated access is used in conjunction with customer-provided terminal and modem. (T)

13.3.9 Telecommunications Service Priority (TSP) System

(A) Service Description

The Telecommunications Service Priority (TSP) System is a structured coding scheme that prescribes the order in which National Security Emergency Preparedness (NSEP) telecommunications services are installed or restored. The TSP System was developed to support the requirements of the U. S. Government as defined in the TSP Service Vendor Handbook and applies only to NSEP telecommunications services to which the Company is able to apply priority treatment. It requires and authorizes priority action by the Company.

Conditions of emergency or crises that cause invocation of NSEP treatment can only be declared by authorized officials of the Federal Government or other officials (Federal or Non-Federal) specified by the Manager - National Communication System (NCS) on behalf of the Executive Office of the President of the United States.

ACCESS SERVICE

13 - Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.6 Provision of Access Service Billing Options

- (A) At the customer's request and at no charge, the customer may choose as the primary billing medium one of these billing formats: standard paper, magnetic tape, data transmission or CD-ROM/Computer diskette. The standard paper, magnetic paper and data transmission mediums will also include, at the customer's option, billing via CD-ROM/computer diskette. (C)
(N)
(N)
- (B) When magnetic tape is requested as the primary monthly bill, the Telephone Company does not require the customer to return previously supplied tapes.
- (C) When data transmission is requested as the primary monthly bill, the data may be transmitted at either 50 kbps or 56 kbps for customers using T-TRAN software, or 56 kbps for customers using Network Data Mover (NDMTM) software.
- (D) The customer will receive an abbreviated bill in paper format when the magnetic tape or data transmission option is chosen as the primary billing medium. The abbreviated bill will conform with industry standard billing data output.
- (E) CD-ROM and computer diskette billing provide an electronic transmission medium for the customer's use in reading and printing access bills. Only one CD-ROM or set of diskettes will be provided per bill period. (N)
(N)
(N)
- (F) The Telephone Company will accept a request for change from one form of primary billing medium to another at no charge to the customer. Where a customer requests combinations of more than one type of billing media, and the Telephone Company can, with reasonable effort, comply with that request, such combinations will be provided to the customer. (T)
- (G) At the option of the customer, and for additional charges, additional copies of the access bill will be provided on magnetic tape format, transmitted to the customer's premises by data transmission, or provided on microfiche film. Additional paper or microfiche copies of the access bill or the customer service record may also be requested. (T)

13.3.3.1 Expedited PIC Switchback Service (Cont'd)

(C) The Expedited PIC Switchback option in no way relieves the IC of the regulatory requirements for: (M)(x)
(M)(x)

(1) Verifying all PIC orders generated by telemarketing prior to submitting those orders, as provided in 13.3.3(B)(2) preceding, or; (M)(x)
(M)(x)

(2) Instituting steps to obtain LOAs on all PIC orders submitted to the Telephone Company, as provided in 13.3.3(B) preceding. (M)(x)
(M)(x)

In addition, the end user or location provider or its authorized agent continues to have the option of initiating action to investigate an alleged unauthorized change in PIC subscription. In this event, Expedited PIC Switchback Service charges will not apply. (C)(x)

(D) The Telephone Company will monitor monthly the number of Expedited PIC Switchback requests from end users and location providers or its authorized agents. (C)(x)

(E) The nonrecurring charge for an Expedited PIC Switchback Change in subscription is as follows. In addition, the IC will be assessed one (1) PIC change charge, as stipulated in 13.3.3(F), credited to the end user or location provider or its authorized agent at the time of switchback to the former PIC. (C)(x)

	<u>Nonrecurring Charge</u>	
- Per Business, Residence or Pay Telephone line or trunk	\$10.03	(T)(x) (C)(x) (D)(x) (D)(x)

(Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.3.1 Expedited PIC Switchback Service

(A) Service Description

- (1) Expedited PIC Switchback service provides an expedited method of handling disputed PIC changes for end users and location providers or its authorized agents. (C)(x)
- (2) The Telephone Company will provide Expedited PIC Switchback service to ICs participating in BellSouth Equal Access Subscription. The IC must have a blanket agency letter for submitting PIC orders on file with the Telephone Company. In addition, the IC must execute and submit to the Telephone Company an Expedited PIC Switchback letter. (S)
- (3) With Expedited PIC Switchback service, no investigation activities are performed by the Telephone Company when an end user or location provider or its authorized agent denies requesting a change in IC subscription, as submitted by the IC.
- (4) The IC participating in Expedited PIC Switchback will be billed the Expedited PIC Switchback Charge, as specified in (E) following, to expedite the switchback to the end user's or location provider's or its authorized agent's former PIC. In addition, the IC will be billed for one (1) PIC change charge assessed for the disputed change in PIC. (C)(x)
- (5) The Expedited PIC Switchback option is available for all IC submitted orders. The Expedited PIC Switchback option is not available for orders originally submitted to the Telephone Company by the end user or location provider or its authorized agent. (C)(x)

- (B) When the Telephone Company is contacted by an end user or location provider or its authorized agent who denies requesting a change in IC subscription, and the change in primary carrier has occurred within the past 90 days, the end user or location provider or its authorized agent will be credited the PIC change charge assessed for the disputed change in PIC, and will be immediately switched back to the former PIC at no charge to the end user or location provider or its authorized agent. (C)(x)

- (1) A Letter of Authorization (LOA) from the IC will not be requested or accepted at a later date in the event of a dispute of the charges assessed under the Expedited PIC Switchback option.

(2) (Cont'd) (N)

(a) On-Line Transfer service is available in all states within the Telephone Company's operating territory. On-Line Transfer service may be ordered through a service agreement submitted to the Telephone Company. The service must be ordered on a state basis. (M)
(M)
(M)
(M)

(b) The Telephone Company representative will make one attempt to transfer the end user or location provider or its authorized agent to the preferred IC. When the transfer is completed and the Telephone Company's representative receives one audible ring, the representative will disconnect from the call. If a busy line of circuit busy is encountered, the end user or location provider or its authorized agent will be instructed to dial the 800 telephone number, previously provided, at a later time.

The preferred IC will be billed applicable charges for the transfer as provided in 13.3.3(E), following.

(c) The preferred IC must comply with the following guidelines:

- i. The preferred IC must provide a dedicated 800 number for the end user or location provider or its authorized agent transfer.
- ii. On-Line Transfer service calls must be processed on a first priority basis, i.e. 95% of all calls transferred must be answered by the preferred IC within 30 seconds.
- iii. The preferred IC must process transferred calls within six minutes.

(d) The preferred IC must provide written notification thirty days prior to discontinuance of this service.

(3) If an IC elects to discontinue BellSouth SWA FGD or BellSouth SWA TSBA 3 service, the IC is obligated to contact, in writing, all end users or location providers or their authorized agents who have selected, or were allocated to, the canceling IC as their primary IC. The IC must inform the end user or location provider or its authorized agent that they are canceling their BellSouth SWAFGD or BellSouth SWA TSBSA 3 service; request that the end user or location provider or its authorized agent select a new IC; and state that the canceling IC will pay the change charge. This charge is billed to the end user which is the subscriber to the Telephone Exchange Service or to the location provider or its authorized agent of pay telephones, except as set forth in the Commission's Allocation Plan when such charge(s) will be billed to an IC. At the option of the IC, this charge may be billed to the IC instead of the end user.

(D)
(D)
(D)
(D)
(D)
(D)

- (2) On-Line Transfer service is available to ICs for the purpose of assisting ICs and customers in the establishment of the end user's or location provider's or its authorized agent's account. Once the end user or location provider or its authorized agent selects a preferred IC, the Telephone Company representative will provide the end user or location provider or its authorized agent with the preferred IC's 800 telephone number. If the preferred IC participates in On-Line Transfer Service, the end user or location provider or its authorized agent will have the option of being transferred directly to the preferred IC.

On-Line Transfer service will not be available to end users or location providers or their authorized agents when the end users or location providers or their authorized agents have selected a preferred IC for intraLATA subscription, and a preferred IC for interLATA subscription and the preferred ICs are not the same IC, and both ICs participate in the On-Line Transfer service.

(N)
(N)
(N)
(N)
(N)
(N)

Furthermore, when the Telephone Company uses third party verification to confirm its selection as local or intraLATA toll service provider, On-Line Transfer service will not be available.

(C)

(C)

(a) The IC has obtained the customer's written authorization to submit the order that explains what occurs when a PIC is changed and confirms:

- the customer's billing name and address and each telephone number to be covered by the PIC change order;

- the decision to change the PIC to the IC; and

(T)

- the customer's understanding of the PIC change fee; or

(b) The IC has obtained the customer's electronic authorization, placed from the telephone number(s) on which the PIC is to be changed, to submit the order that confirms the information described in 13.3.3.B(1)(a) preceding to confirm the authorization; or

(T)

(c) An appropriately qualified and independent third party has obtained the customer's oral authorization to submit the PIC change order that confirms and includes appropriate verification data (e.g., the customer's date of birth or social security number).

(C)

(C)

(C)

An appropriately qualified and independent third party must operate in a location physically separate from the IC and may not be owned, managed, controlled, or directed by the soliciting IC, nor can it receive financial incentives to approve carrier changes.

ACCESS SERVICE

13 - Additional Engineering, Additional Labor and Miscellaneous Services
(Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.3 BellSouth Equal Access Subscription (Cont'd)

(A) Description (Cont'd)

The IC shall submit an order for all end offices subtending an access tandem indicating whether 1+ traffic from its subscribed pay telephones shall be routed to itself (as direct IC) or to another IC (as transport carrier). Recordings with alternate dialing instructions are not acceptable. If calls are to be routed to a transport carrier, the 0+ IC must provide written authorization certifying that the order is being submitted pursuant to an agreement with the transport carrier. Only one transport carrier may be indicated for each access tandem.

If the IC designated as the primary IC for 0+ and 00- traffic does not submit an order designating the transport carrier for 1+ traffic for pay telephones at all end offices subtending an access tandem, the 1+ traffic for that office will continue to be routed to the existing 1+ carrier until the subscribed 0+ carrier is ready to handle the 1+ sent-paid traffic, or makes arrangements with another IC to handle the traffic.

(C)

(B) Confirmations/Verification of Choice of IC

ICs must request confirmations/verification of choice from their customers. All letters of agency, recordings, or other evidence of confirmation/verification shall be maintained by the soliciting IC for at least two years from the date the customer's service was switched. Failure to maintain such records shall constitute prima-facie evidence that consent from the customer was not obtained.

13.3 Miscellaneous Services

13.3.1 Maintenance of Service

- (A) When a customer reports a trouble to the Telephone Company for clearance and no trouble is found in the Telephone Company's facilities, the customer shall be responsible for payment of a Maintenance of Service charge.

Failure of Telephone Company personnel to find trouble in Telephone Company facilities will result in no charge if the trouble is actually in those facilities, but not discovered at the time.

- (B) The customer shall be responsible for payment of Maintenance of Service charge for all maintenance/repair work performed by the Telephone Company in connection with its BellSouth Virtual Expanded Interconnection offering.

(T)
(T)

- (C) The customer shall be responsible for payment of a Maintenance of Service charge when the Telephone Company dispatches personnel and the trouble is in equipment or communications systems provided by other than the Telephone Company or in detariffed CPE provided by the Telephone Company.

- (D) The Maintenance of Service charge applies for the period of time from when Telephone Company personnel are dispatched to when the work is completed. When more than one employee is dispatched the sum of the time is used to determine the number of 30-minute increments to be billed. Only one initial increment is to be billed per request. A request resulting in the dispatch of a Telephone Company employee at a time not consecutive with the employee's scheduled work period is subject to a minimum charge of three hours.

In either (A) or (B) preceding, no credit allowance will be applicable for the interruption involved if the Maintenance of Service charge applies.

ACCESS SERVICE

13 - Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

13.2 Additional Labor (Optional Priority Installation and Repair Service)

Additional labor is that labor requested by the customer on a given service and agreed to by the Telephone Company or when the customer requests BellSouth Virtual Expanded Interconnection service and the Telephone Company must perform installation and/or acceptance testing activities as set forth in 13.2.1 through 13.2.5 following. The Telephone Company will notify the customer that additional labor charges as set forth in 13.2.6 following will apply before any additional labor is undertaken. The labor charges apply per Telephone Company employee performing billable work at the customer's request. The sum of the time is used to determine the number of 30-minute increments to be billed. Only one initial increment is to be billed per request. A request for additional labor by a Telephone Company employee at a time not consecutive with the employee's scheduled work period is subject to a minimum charge of three hours. (T)
(T)

13.2.1 Overtime Installation

Overtime installation is that Telephone Company installation effort outside of normally scheduled working hours.

13.2.2 Overtime Repair

Overtime repair is that Telephone Company maintenance effort performed outside of normally scheduled working hours.

13.2.3 Stand By

Stand by includes all time in excess of one-half (1/2) hour during which Telephone Company personnel stand by to make cooperative tests with a customer to verify facility repair on a given service.

13.2.4 Testing and Maintenance with Other Telephone Companies

Additional testing, maintenance or repair of facilities which connect to facilities of other telephone companies, which is in addition to normal effort required to test, maintain or repair facilities provided solely by the Telephone Company.

ACCESS SERVICE

13 - Additional Engineering, Additional Labor and Miscellaneous Services

In this section normally scheduled working hours are an employee's scheduled work period in any given calendar day (e.g., 7:00 a.m. to 4:00 p.m.) for the application of rates based on working hours.

13.1 Additional Engineering

Additional engineering will be provided by the Telephone Company at the rates set forth in 13.1.1 when:

- (A) A customer requests additional technical information after the Telephone Company has already provided the technical information normally included on the Design Layout Report (DLR) as set forth in 6.1.5 and 7.1.6 preceding.

The Telephone Company will notify the customer that additional engineering charges, as set forth in 13.1.1 following, will apply before any additional engineering is undertaken. These charges apply per Telephone Company employee performing billable work at the customer's request. The sum of the time is used to determine the number of 30-minute increments to be billed. Only one initial increment is to be billed per request.

- (B) A customer requests BellSouth Virtual Expanded Interconnection service under the terms specified in Section 20.17 and 20.20(G) following. (T)

These charges apply per Telephone Company employee performing billable engineering work associated with the provision and maintenance of the requested BellSouth Virtual Expanded Interconnection arrangement. The sum of the time is used to determine the number of 30-minute increments to be billed. Only one initial increment is to be billed per work project. (T)
