SECTION 1

DESCRIPTION and JUSTIFICATION

DESCRIPTION

This filing is being made to change the Federal Universal Service Contribution factor charged on Centrex and non-Centrex Multi-Line Business Lines listed in Windstream Telephone System Tariff F.C.C Nos. 1 and No. 3.

JUSTIFICATION

This filing is being made pursuant to §61.38 (b)(2) of the Annotated F.C.C Rules as revised February 1, 1998.

SECTION 2

FACTOR DEVELOPMENT

Factor Development

USF Base Factor

The Commission released its *Proposed Second Quarter 2007 Contribution Factor*, DA 07-1330, on March 15, 2007. The Commission proposed a USF factor of 11.7%, an increase from the previous factor of 9.7%. As a result, this filing seeks to implement the increased factor.

USF Factor Reallocation

On March 14, 2003, the FCC released and adopted FCC 03-58. This Order allows, on an interim basis, carriers to continue to recover through the federal universal service line item certain contribution costs associated with Centrex customers on a per line basis from multi-line business customers.

To derive the factors that would need to be charged to multi-line business and Centrex customers, Windstream first calculated our USF contribution by multiplying total multi-line business lines by the current subscriber line charge (SLC) and then by the current USF contribution factor of 11.7%. Next, Windstream determined the number of lines that would be subject to the charge based on the Commission Order allowing Centrex customers to be charged at the rate of 1 full charge for every 9 Centrex lines. Windstream next determined the USF chargeable revenue by multiplying the adjusted lines by the current SLC rate. Windstream's USF contribution, calculated earlier, was then divided by this USF chargeable revenue to determine the factor that would need to be applied to the chargeable lines. Because it is cost prohibitive to modify our billing system to allow one full USF charge for every 9 Centrex lines, Windstream has chosen to divide the full factor by 9 and apply this factor to every Centrex line. Exhibit USF shows how Windstream derived the percentage to charge multi-line business customers as well as Centrex customers.
