

DESCRIPTION AND JUSTIFICATION

John Staurulakis, Inc. Tariff F.C.C. No. 1

Transmittal No. 129 - June 15, 2007

John Staurulakis, Inc. ("JSI") hereby provides description and justification (D&J) for JSI Transmittal No. 129 on behalf of the issuing carriers for JSI Tariff F.C.C. No. 1.

INTRODUCTION

In this transmittal, JSI proposes addition to JSI Tariff F.C.C. No. 1 of regulations for the following:

Asymmetric Digital Subscriber Line ("ADSL") Access Service at new Section 8.1,

Digital Subscriber Line ("DSL") Access Services Wholesale Rate Plan ("WRP") at new Section 8.3, and

Public Packet Data Network Ethernet Transport Service ("ETS") at new Section 16.4.

The issuing carrier offerings associated with the above regulations are being filed today under the JSI Tariff F.C.C. No. 1 annual filing, JSI Transmittal No. 130 for eight new issuing carriers migrating from issuing carrier status for National Exchange Carrier Association, Inc. (NECA) Tariff F.C.C. No. 5. The addition of these regulations allows continued offering by the new issuing carriers of the services offered under NECA Tariff F.C.C. No. 5. A list of the eight carriers exiting the NECA Traffic Sensitive Pool and for which NECA will cancel issuing carrier status for NECA Tariff F.C.C. No. 5 is attached hereto as D&J Exhibit 1.

Also in this transmittal, JSI proposes revisions to the following sections of the tariff:

Section 2, General Regulations

Section 5, Access Ordering

Section 7, Special Access,

Section 16.1, Public Packet Data Network Frame Relay Service ("FRAS"), and

Section 16.7, Public Packet Data Network Asynchronous Transfer Mode Cell Relay Access Service ("ATM-CRS").

No introduction of new rates for issuing carriers are proposed in this filing. Proposed rate page revisions included in this filing are limited to two pages: one page each for Horry Telephone Cooperative, Inc. ("Horry") and Hargray Telephone Company ("Hargray").

These additions and revisions are necessary to allow seamless transition for the new issuing carriers concurrent with cancellation as issuing carriers for National Exchange Carrier Association, Inc. ("NECA") Tariff F.C.C. No. 5 effective June 30, 2007.

This transmittal is a companion filing to JSI Transmittal No. 130, the required 2007 annual filing. In the annual filing, JSI is filing revised rates on behalf of existing issuing carriers who file rates pursuant to Section 61.39 on a mandatory basis in odd-numbered years. In addition to the eight issuing carriers exiting the NECA Traffic Sensitive Pool and becoming issuing carriers for JSI Tariff F.C.C. No. 1 effective June 30, 2007 a ninth carrier, South Central Rural Telephone Cooperative ("South Central") is being added as an issuing carrier concurrent with cancellation of its individual tariff, South Central Rural Telephone Cooperative Tariff F.C.C. No. 1. under JSI Transmittal No. 130.

DESCRIPTIONS

1. Revisions to Section 2, General Regulations

Revisions proposed in this tariff to three pages in Section 2, General Regulations are limited to changing references to other tariff sections for the purpose of including all new service offerings added to JSI Tariff F.C.C. No. 1.

2. Revisions to Section 5, Access Ordering

Revisions proposed in this tariff to three pages in Section 5, Access Ordering, are limited to adding all new service offerings added to JSI Tariff F.C.C. No. 1 together with changing references to other tariff sections.

3. Revisions to Section 7, Special Access

Revisions to Section 7, Special Access are necessary to ensure seamless application of rate regulations for the new issuing carriers as they migrate from NECA Tariff F.C.C. No. 5 to JSI Tariff F.C.C. No. 1. These revisions do not currently and directly affect the Special Access offerings of existing issuing carriers for JSI Tariff F.C.C. No. 1. The principal reason for revisions is to fully integrate Synchronous Optical Channel Service into the Special Access regulations of JSI Tariff F.C.C. No. 1. Revisions to JSI Tariff F.C.C. No. 1 for Synchronous Optical Channel Service to date have not been as detailed as revisions by NECA, including descriptions of interfaces and technical standards.

JSI is including in the proposed revised tariff sheets for Special Access the tables included in D&J Exhibit 2. Unlike Switched Access, for which rate regulation application is more uniform among the issuing carriers, applicability of Special Access rate regulations varies. The tables will indicate which Special Access Services apply to both the continuing and the new issuing carriers for JSI Tariff F.C.C. No. 1.

4. Removal of Obsolete DS3 Capacity Discounts

JSI Tariff F.C.C. No. 1 includes as a Special Access High Capacity Optional Rate Plan, at Section 7.2.8(B), DS3 Capacity Discounts. As this is an obsolete offering, JSI proposes removal of the offering from the tariff. Only two continuing issuing carriers have DS3 Capacity Discounts listed in their rate sections, Horry and Hargray. Neither Horry nor Hargray has any customers subscribing to DS3 Capacity Discount offerings. For the new issuing carriers, none is currently offering a DS3 Capacity Discount. Moreover, NECA removed the offering as an obsolete offering from NECA Tariff F.C.C. No. 5 effective May 1, 2003 under NECA Transmittal No. 980 filed April 16, 2003. According to Transmittal No. 980, the DS3 Capacity Discount Plan expired February 1, 2002.

The former regulations for the DS3 Capacity Discount in NECA Tariff F.C.C. No. 5 indicated that it was grandfathered for carriers who had ordered it prior to February 1, 1997 (of which there were only three NECA issuing carriers in 2003). Horry and Hargray became issuing carriers for JSI Tariff F.C.C. No. 1 on August 1, 1994 – before the apparent grandfathering of the DS3 Capacity Discount in NECA Tariff F.C.C. No. 5. Thus it appears the DS3 Capacity Discount migrated from the NECA tariff to JSI Tariff F.C.C. No. 1 and JSI did not subsequently make filings parallel to NECA filings respecting first the grandfathering and, in turn, the removal of the offering.

The obsolete DS3 Capacity Discount pricing structure allows discounted rates for higher volumes of DS3 ordered by a single customer. However, it appears that at the time of the MAG Order in 2004, the Commission's understanding was that DS1 and DS3 services were not subject to volume discount provisions. Thus, it appears that it is consistent with Commission policy that the DS3 Capacity Discount pricing option be removed from JSI Tariff F.C.C. No. 1 at this time.¹ Together with the fact that no current customers are impacted, the apparent Commission policy supports removal of the regulations without any related Section 214 discontinuance filings.

5. Addition of ADSL Access Service and Wholesale Rate Plan Regulations

The addition of new ADSL Access Service and DSL Access Service Wholesale Rate Plan ("WPR") regulations mirroring those of National Exchange Carrier Association, Inc. ("NECA") Tariff F.C.C. No. 5 is necessary to allow continue offering of ADSL Access Service under existing terms and conditions by four carriers exiting the NECA Traffic Sensitive Pool and becoming issuing carriers for JSI Tariff F.C.C. No. 1. See Exhibit 1 for a list of carriers becoming issuing carriers for JSI Tariff F.C.C. No. 1. JSI's existing

¹ See *Multi-Association Group (MAG) Plan for Regulation of Interstate Services of Non-Price Cap Incumbent Local Exchange Carriers and Interexchange Carriers*, CC Docket No. 00-256, Federal-State Joint Board on Universal Service, CC Docket No. 96-45, Report and Order and Second Further Notice of Proposed Rulemaking, 19 FCC Rcd 4122, FCC 04-31 (Rel. Feb. 26, 2004) at par. 52.

ADSL regulations, which will continue with application limited to the four carriers currently offering ADSL services under those regulations, have not been updated to match precisely the NECA ADSL regulations. Moreover, JSI Tariff F.C.C. No. 1 does not have as an offering a DSL-Wholesale Rate Plan (“WRP”) consistent with the NECA offering, instead offering simpler discount structures. To avoid confusion, JSI proposes adding as new ADSL Access Service at new Section 8.1 regulations mirroring those of NECA with retention of the existing JSI ADSL Access Service regulations at Section 16.2 applicable to existing issuing carriers for JSI Tariff F.C.C. No. 1. The proposed tariff revisions include introduction of tables at the beginning of new Sections 8.1 and 8.3 together with existing Section 16.2 to indicate which issuing carriers offer services under the respective sections. None of the new issuing carriers offers SDSL, thus JSI is not proposing addition of SDSL regulations mirroring those of NECA Tariff F.C.C. No. 5 at this time (however, JSI is reserving Section 8.2 for possible future addition or migration of the JSI Section 16.3 SDSL regulations in future tariff maintenance filings).

JSI is including in the proposed revised or new tariff sheets the following tables respecting ADSL at proposed Original Sheet 8.1. for the purpose of identifying issuing carriers offering ADSL under the Section 8.1 ADSL regulations.

| <u>Telephone Company</u> | <u>Study Area Code</u> | <u>Non-WRP</u> | <u>Wholesale Rate Plan (WRP)*</u> |
|---|------------------------|----------------|-----------------------------------|
| Chesnee Telephone Company, Inc. | 240515 | | X |
| Gearheart Communications Company, Inc. d/b/a Coalfields Telephone Company | 260408 | | X |
| Skyline Telephone Membership Corp. | 230501 | | X |
| South Central Rural Telephone Cooperative Corporation, Inc. | 206418 | X | |
| Yadkin Valley Telephone Membership Corporation | 230511 | | X |

JSI is including in the proposed revised or new tariff sheets the following tables respecting the DSL Wholesale Rate Plan at Original Sheet 8-22. for the purpose of identifying issuing carriers offering the DSL Wholesale Rate Plan (“WRP”) under the Section 8.3 regulations.

| <u>Telephone Company</u> | <u>Study Area Code</u> | <u>ADSL</u> | <u>SDSL</u> |
|---|------------------------|-------------|-------------|
| Chesnee Telephone Company, Inc. | 240515 | X | |
| Gearheart Communications Company, Inc. d/b/a Coalfields Telephone Company | 260408 | X | |
| Skyline Telephone Membership Corp. | 230501 | X | |
| Yadkin Valley Telephone Membership Corporation | 230511 | X | |

6. Addition of Ethernet Transport Service

The addition of Ethernet Transport Service (“ETS”) regulations is necessary for seven carriers that will become issuing carriers in the upcoming annual filing on June 15, 2007 to be effective June 30, 2007. The seven new issuing carriers are currently issuing carriers for NECA Tariff F.C.C. No. 5 and each offers some or all of the services covered by the regulations described above. One of the eight carriers migrating from NECA Tariff F.C.C. No. 5 does not offer ETS (Skyline Telephone Membership Corporation).

16.4 Ethernet Transport Service

Telephone Companies providing Ethernet Transport Service (ETS) under this Section are indicated in the following table.

| <u>Telephone Company</u> | <u>Study Area Code</u> | <u>Provides ETS</u> |

7. Revisions to Section 16.1, Public Packet Data Network Frame Relay Service (“FRAS”)

Proposed revisions to Section 16.1, Public Packet Data Network Frame Relay Service, are limited to addition of the following table.

16.1 Frame Relay Access Service

Telephone Companies providing Frame Relay Access Service under this Section are indicated in the following table.

8. Revisions to Section 16.7, Public Packet Data Asynchronous Transfer Mode Cell Relay Access Service (ATM-CRS)

Revisions to Section 16.7 Public Packet Data Asynchronous Transfer Mode Cell Relay Access Service (ATM-CRS) include addition of the following table to indicate issuing carriers offering ATM-CRS under the tariff and also revisions to the regulations. Revisions to the regulations are for the purpose of updating descriptions of interconnections with other services offered under the tariff.

16.7 Asynchronous Transfer Mode Cell Relay Access Service (ATM-CRS)

Telephone Companies providing Asynchronous Transfer Mode Cell Relay Access Service under this Section are indicated in the following table.

| Carrier | SAC | Ports | DSL Access Service Connection | VPs | VCC | Inverse Multi-plexing |

CONCLUSION

This transmittal is essential for the purpose of adding regulations to allow new issuing carriers to continue to provide services they have until now provided as issuing carriers for NECA Tariff F.C.C. No. 5. Additionally, this filing includes additions of tables to clearly indicate which carriers offer which Special Access, DSL and Public Packet Data services (similar tables are not necessary for Switched Access at this time because of the greater universality of provision of those services).

Allowing the revisions proposed in JSI Transmittal No. 129 to become effective without suspension will facilitate the seamless migration of carriers from status as issuing carriers for NECA Tariff F.C.C. No. 5 to status as issuing carriers for JSI Tariff F.C.C. No. 1 effective June 30, 2007.
