7.4.31 Broadcast Quality Video (a.k.a. BellSouth SPA Broadcast Quality Video) Service

Rates and charges as specified in 7.5.6 following apply for each Broadcast Quality Video (a.k.a. BellSouth SPA Broadcast Quality Video) Service. Broadcast Quality Video (a.k.a. BellSouth SPA Broadcast Quality Video) Service is a fiber optic transport video service that interconnects two customer designated end point locations or a customer designated premises and a Telephone Company central office to provide one-way video service with associated audio. This service is transported as either a National Televisions Systems Committee (NTSC) video signal or a Serial Digital Interface (SDI) video signal. Rate categories include Local Channels and Interoffice Channels. Nonrecurring charges and recurring rates are applicable for each.

These rates and charges are only valid for locations where facilities exist. If new facilities must be constructed, special construction charges will apply as set forth in the BellSouth Telecommunications Inc.'s Special Construction Tariff, F.C.C. No. 2.

Broadcast Quality Video (a.k.a. BellSouth SPA Broadcast Quality Video) Service is provided under a month-to-month rate option for customers subscribing on or after December 29, 2001. For customers subscribing prior to December 29, 2001, the NTSC option is provided under Month-to-Month rates and the SDI option is available under Month-to-Month and Channel Services Payment Plans (CSPP) for either Plan A (24-48 Months), Plan B (49-72 Months), or Plan C (73-96 Months). All CSPP's are provided under conditions specified in Section 2.4.8 preceding, except as modified following: (C) (C) (C) (T) (T) (T) (T)

(1) All rate elements, for each Broadcast Quality Video (a.k.a. BellSouth SPA Broadcast Quality Video) Service must be provided under the same payment plan with the same service period and are coterminous upon disconnect of that service, for example Local Channels and Interoffice Channels.
(2) A termination liability charge will be applicable if services provided under a CSPP arrangement are disconnected prior to the end of the chosen service period. The applicable charge is equal to the number of months remaining in the rate stabilized service period times 60% of monthly rates for Broadcast Quality Video (a.k.a. BellSouth SPA Broadcast Quality Video) Service which include Local Channels and Interoffice Channels provided under the CSPP arrangement.

7.4.31 Broadcast Quality Video (a.k.a. BellSouth SPA Broadcast Quality Video) Service (cont'd)

Customers under a CSPP may upgrade to Modular Video Transport Service under a CSPP without incurring any termination charges when: (N)

(a) the completed service period is 12 months, or 25% of the length of the originally selected CSPP service period, whichever is greater, and (N)

(b) the service period of the new CSPP arrangement for Modular Video Transport Service is equal to or longer than the remaining service period of the disconnected Commercial Quality Video Service, and (N)

(c) the service orders to install service under Modular Video Transport Service and disconnect service under Commercial Quality Video Service are related together and received by the Telephone Company at the same time, and there is no lapse in service between installation of Modular Video Transport Service and the disconnection of Commercial Quality Video Service. 7.4.32 BellSouth Metro Ethernet Service (C)

Effective December 17, 2004, BellSouth Native Mode LAN Interconnection Service is being restructured in its entirety and being renamed BellSouth Metro Ethernet Service. Any BellSouth Native Mode LAN Interconnection Service in place as of this date shall be converted to the most comparable BellSouth Metro Ethernet Service with no change in payment plan selection as a result of such conversion. (C)

(A) General (C)

(1) The minimum service period for BellSouth Metro Ethernet Service is four months. (C)

(2) Suspension of BellSouth Metro Ethernet Service is not allowed. (C)

(3) BellSouth Metro Ethernet Service is available 24 hours per day, 7 days per week, except for preventive maintenance. (C)

Due to the nature of BellSouth Metro Ethernet Service it will be necessary to perform preventive maintenance and software updates. This will mean that BellSouth Metro Ethernet Service will be unavailable during the period of time when preventive maintenance is being performed. This could result in the service being unavailable during the period between 1:00 AM and 5:00 AM Eastern Time on the specific days as set forth by state in the following chart. However, the Telephone Company reserves the right to perform maintenance at any time at its discretion that it believes such maintenance is necessary. The Telephone Company will make a reasonable effort to provide notice to those customers likely to be affected by such maintenance work. (C)

| State | Scheduled Maintenance Days | (C) |
|---|---|---|
| | | |
| Alabama | Sunday and Monday | (C) |
| Florida | Sunday and Wednesday | (C) |
| Georgia | Sunday and Friday | (C) |

7.4.32 BellSouth Metro Ethernet Service (Cont'd)

(A) General (Cont'd) (T)

(4) Obligations of customer and Telephone Company:
(a) The Telephone Company is not responsible for the installation, operation or maintenance of any equipment provided by the customer.
(b) The customer is responsible for the provision and maintenance of all customer provided equipment and to insure that the operating characteristics of this equipment is comparable with and does not interfere with the service offered by the Telephone Company.
(c) At the BellSouth Metro Ethernet Service Connection point the customer's signals must conform to IEEE Standards 802.3, 802.3u or 802.3z. To meet end-to-end delay requirements contained in these aforementioned standards, the customer may be required to provide additional equipment.

(5) While BellSouth Metro Ethernet Service transport facilities typically connect a customer premises with a BellSouth Metro Ethernet Service wire center, BellSouth Metro Ethernet Service may alternately be utilized with the appropriate Cross Connect elements in Section 13 of this Tariff to connect a customer's collocation service arrangement (as opposed to a customer premises) with a BellSouth Metro Ethernet Service wire center. Rates and charges for the BellSouth Metro Ethernet Service Connection are applicable for such connectivity; collocation service arrangements located greater than 10 miles from the BellSouth Metro Ethernet Service wire center will additionally require BellSouth Metro Ethernet Service Additional Mileage charges.

Additionally, a BellSouth Metro Ethernet Service Connection provided in association with a collocation arrangement may not be provisioned with Automatic Protection Switching. (N) (N) (N)

(6) In some cases, the Telephone Company and another Incumbent Local Exchange Company (ILEC) may agree to jointly provide a customer Metro Ethernet Service. The rates and charges for the BellSouth Metro Ethernet Service Connection are applicable for such connectivity; charges for BellSouth Metro Ethernet Additional Mileage are also applicable when the mileage from the BellSouth/ILEC meet-point to the BellSouth Metro Ethernet wire center associated with the service is over 10 miles. The Telephone Company is only responsible for the ordering, provisioning, maintaining and billing of such service up to the meet-point (i.e., demarcation point with the ILEC). BellSouth Metro Ethernet Service SLA credits shall only be applicable for the portion of the service provided within the territory of the Telephone Company; such credits are appropriate only for missed commitments determined to be the fault of the Telephone Company. (6) A BellSouth Metro Ethernet reconfiguration nonrecurring charge is applicable for a customer request to reconfigure (rearrange) an existing BellSouth Metro Ethernet Connection. The appropriate reconfiguration charge is dependent upon the physical work required to fulfill the request and applies in lieu of other nonrecurring charges.

A Service Reconfiguration Charge is applicable for requests where the work required is a minor change that does not involve changing the physical service type. The Service Reconfiguration Charge is applicable for a request to change an existing connection to a different connection that is the same physical service type that is a lower order of service, is applicable for a request to change a Premium connection from fixed mode to burst mode (and vice versa) and is applicable for a request to change a Premium connection to add or delete the Priority Plus feature. The Service Reconfiguration Charge is also applicable for changing an existing Virtual connection CoS Profile. (C) (C)

A System Reconfiguration Charge is applicable for requests where the work required involves changing to a different physical service type or involves major support system changes. The System Reconfiguration Charge is applicable for requests to change an existing connection to a different connection that is a different physical service type that is a lower order of service, to change the network channel terminating equipment (NCTE) interface option from optical to electrical (or vice-versa), and to change the premises powering options from AC power to DC power (or vice-versa). A Service Reconfiguration Charge is applicable for a customer request to reconfigure a Premium BellSouth Metro Ethernet Connection from Fixed Mode to Burst Mode (at the same speed), or vice versa; this nonrecurring charge is in lieu of the nonrecurring charge for the new connection. Such a change is not treated as a disconnect and there will be no change in the minimum period requirements. (T)

A Virtual BellSouth Metro Ethernet Connection request to modify its CoS Profile is not considered as a request to change the order of service or physical service type. A Service Reconfiguration Charge is applicable for such requests

(8) Except as specified in (8) preceding, a BellSouth Metro Ethernet Connection not shown as a higher order of service in the hierarchy chart in (5) preceding for a given BellSouth Metro Ethernet Connection is considered to be a lower order of service. A reconfiguration charge is applicable for a customer request to change an existing BellSouth Metro Ethernet Connection to a different BellSouth Metro Ethernet Connection that is a lower order of service; the appropriate reconfiguration charge is applicable in lieu of the standard nonrecurring charge for the lower order of service connection. A Service Reconfiguration Charge is applicable when the lower order of service connection is the same physical service type; a System Reconfiguration Charge is applicable when the lower order of service is a different physical service type. Such a change is not treated as a disconnect and there will be no change in the minimum period requirements. (T)

(10) A move of a BellSouth Metro Ethernet Service will be as follows (in accordance with Section 7.4.5 and, if applicable, Section 2.4.8(D)(5)). (T)

When the move is to a new location within the same building, the charge for the move will be an amount equal to one-half of the Connection nonrecurring charge. There will be no change in the minimum period requirements.

When the move is to a new location in a different building that is within the same serving wire center, the charge for the move will be the nonrecurring charge for the BellSouth Metro Ethernet Service Connection. New minimum period requirements will be established.[1]

When the move is to a new location in a different building that is not in the same serving wire center, the request is treated as a discontinuance and start of service and all associated BellSouth Metro Ethernet Service nonrecurring charges will apply. New minimum period requirements will be established.[1]

Note 1: Such moves of Metro Ethernet Service with Automatic Protection Switching (APS) shall additionally incur the full nonrecurring charge for establishing the APS feature at the new premises (as a new APS design will be required). The APS monthly recurring charge may change as appropriate based upon the actual route mileage associated with the new premises' APS design.

(C) Service Level Agreement for Premium BellSouth Metro Ethernet Service

Customer networks with Premium BellSouth Metro Ethernet Service and CNM - Metro Ethernet Reporting are provided Service Level Agreements (SLAs) as summarized herein 7.4.32(C). BellSouth Metro Ethernet Service SLAs outlined herein specify the Telephone Company's repair and performance commitments for CNM - Metro Ethernet Reporting customers with Premium Metro Ethernet Connections. Details of the technical measurements and performance results methodologies for each commitment are provided in BellSouth Technical Reference TR-73632. (T)

In accordance with 7.4.32(C)(3)(c) following, credits are available for missed commitments to customers purchasing Premium BellSouth Metro Ethernet Service with the CNM - Metro Ethernet Reporting feature. Credits only apply for portions of service provided by the Telephone Company. (T)

The following service measurements will outline the service levels the Telephone Company will deliver to Metro Ethernet Reporting customers with Premium Metro Ethernet Connections:

Repair Commitment:
- BellSouth Metro Ethernet Service Time-to-Repair[1]

Network Service Level Commitments:
- BellSouth Metro Ethernet Service Core Network Availability
- BellSouth Metro Ethernet Service Core Network Latency

The Repair Commitment is measured on a per occurrence basis for each BellSouth Metro Ethernet Connection. A Fault Report is produced thru the Metro Ethernet Reporting system that aids identification of potential outage durations upon which credits may be requested.

The Network Service Level Commitments are measured on the monthly performance of the Metro Ethernet core network during a specific calendar month. An SLA Report is produced thru the CNM - Metro Ethernet Reporting system that provides details of missed Network Service Level Commitments upon which credits may be requested based upon a specific calendar month's performance results. (T)

The Company's performance measurement data for the Repair Commitment and Network Service Level Commitments will be collected and calculated utilizing the Company's internal processes as set forth in BellSouth Technical Reference TR-73632. The Company's calculation of its performance shall be the sole determinate of the Company's obligation to provide a credit for a missed performance commitment.

Note 1: SLA not applicable if missed due to LightGate service (a.k.a. BellSouth SPA Point to Point Network) or SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) outage where BellSouth Metro Ethernet service is using LightGate service (a.k.a. BellSouth SPA Point to Point Network) or SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) as alternate transport.

(1) SLA Definitions

BellSouth Metro Ethernet Service Time to Repair

- BellSouth Metro Ethernet Service Time-To-Repair measures the outage duration on a customer's BellSouth Metro Ethernet Connection. This measure will require the customer to report the problem to the BellSouth repair center.

- The repair interval will start with the time the trouble ticket is created and end when the fault is re-mediated. The Service Level Commitment measurement will be based on each individual trouble ticket for a customer's connection. Time for scheduled maintenance windows (as set forth in 7.4.32(A)(3)) does not count towards SLA threshold.

BellSouth Metro Ethernet Service Network Availability

- BellSouth Metro Ethernet Service Network Availability measures the percentage of time during a calendar month that the customer's service is unavailable on the core network. The core network is defined as being from the Ethernet switch serving the customer's A-end to the Ethernet switch serving the customer's B-end. Customer networks that do not span more than one switch in the core network are not eligible for the Network Availability SLA, and one will not be provided.

- This Service Level Commitment will be calculated by measuring and summing the outage for each core network component used by the customer, divided by the total number of components, times the total service time for a particular calendar month. Excluded from the outage time and service time are scheduled maintenance windows (as set forth in 7.4.32(A)(3)) and time the network was unavailable due to circumstances outside the Telephone Company's control (as set forth in 7.4.32(C)(3)(b)).

Note 1: Details of the technical measurements and performance results methodologies for each commitment are provided in BellSouth Technical Reference TR-73632.

BellSouth Metro Ethernet Service Network Latency

- BellSouth Metro Ethernet Service Network Latency measures average one-way delay in milliseconds within the core network. The core network is defined as being from the Ethernet switch serving the customer's A-end to the Ethernet switch serving the customer's B-end. Customer networks that do not span more than one switch in the core network are not eligible for the Network Latency SLA, and one will not be provided.

- This Service Level Commitment will be calculated by averaging the measured latency of simulated traffic within the Metro Ethernet Customer Network (i.e., between each pair of connections) during a calendar month.

(2) The Telephone Company's Service Level Commitments for Premium BellSouth Metro Ethernet Service are as follows: (T)

- BellSouth Metro Ethernet Service Time-To-Repair – 4 hours or less

- BellSouth Metro Ethernet Service Network Availability – 99.9% or higher

- BellSouth Metro Ethernet Service Network Latency – 55 milliseconds or less

Note 1: Details of the technical measurements and performance results methodologies for each commitment are provided in BellSouth Technical Reference TR-73632.

(3) SLA Restrictions

(a) The Telephone Company will implement SLA provisioning restrictions that will define customer network design requirements and limitations to BellSouth's commitment to meet Service Levels for BellSouth Metro Ethernet Service. The customer network design requirements are as follows:

- A customer must subscribe to the Metro Ethernet Premium Service with CNM - Metro Ethernet Reporting to receive credits for missed Service Level Commitments. (T)

- Credits are not provided for partial month service.

- A customer's account must be current to receive a credit.

(b) SLA Credits do not apply when any stated objective is not met because the Telephone Company does not have control over the circumstances causing the objective to be missed. Situations over which the Telephone Company does not have control include, but are not limited to, the following:

- any act, any omission or negligence on the part of the customer, any other customer or any third party, or of any other entity providing a portion of the service,

- labor difficulties, governmental orders, civil commotions, acts of civil or military authority, embargoes, epidemics, declared National Emergencies, criminal actions against the Telephone Company, war, terrorist acts, riots, insurrections, fires, explosions, nuclear accidents, power blackouts, acts of God (including, but not limited to, earthquakes, floods or unusually severe weather) or other circumstances beyond the Telephone Company's control,

- the customer's premises equipment, and

- unavailability of the customer's facilities and/or equipment including customer-provided power and environmental conditions for BellSouth-owned and operated equipment located on the customer's premises.

Note 1: Details of the technical measurements and performance results methodologies for each commitment are provided in BellSouth Technical Reference TR-73632.

(c) The Customer must request a credit within one month of the Telephone Company missing a BellSouth Metro Ethernet Service Level Commitment. A customer request for a Network Service Level SLA credit must be submitted on a standard request form issued by the Telephone Company that includes the month the SLA commitment was missed, accurate identification of the affected circuit, and the observed measurement of the specific SLA that was missed. A customer request for a Repair SLA credit must be submitted on a standard request form issued by the Telephone Company that includes the month the SLA commitment was missed, accurate identification of the affected circuit, and the trouble ticket number of the repair request. (T)

The Telephone Company will investigate customer requests for any SLA credits to determine the cause of any performance failures reported by the customer. The Telephone Company will investigate the customer's request over a period of up to 45 calendar days. The 45-day period will begin when the customer makes the request for credit with their BellSouth Sales Representative.

SLA credits will be provided to the customer if the Company determines that the Telephone Company had control over the circumstances causing the failure.

The total credits issued for all SLAs for a specific BellSouth Metro Ethernet Service Connection during a single bill period may not exceed the total monthly recurring charges billed for all the rate elements associated with that BellSouth Metro Ethernet Service Connection. Credits are not provided for partial month service.

(a) BellSouth Metro Ethernet Service Time-To-Repair Credit – The Service Level Commitment measurement will be based on each individual trouble ticket for a customer's connection. Multiple trouble tickets on the same day for the same customer connection will only be eligible for one time-to-repair credit. The SLA credit will apply to the monthly recurring charges for all the rate elements[2] associated with the affected Metro Ethernet Connection.

(b) BellSouth Metro Ethernet Service Network Availability Credit[3] – The Service Level Commitment measurement will be based on a specific calendar month's performance. (3) SLA Restrictions

(a) The Telephone Company will implement SLA provisioning restrictions that will define customer network design requirements and limitations to BellSouth's commitment to meet Service Levels for BellSouth Metro Ethernet Service. The customer network design requirements are as follows:

- A customer must subscribe to the Metro Ethernet Virtual Service with CNM - Metro Ethernet Reporting to receive credits for missed Service Level Commitments. (T)

- Credits are not provided for partial month service.

- A customer's account must be current to receive a credit.

(b) SLA Credits do not apply when any stated objective is not met because the Telephone Company does not have control over the circumstances causing the objective to be missed. Situations over which the Telephone Company does not have control include, but are not limited to, the following:

- any act, any omission or negligence on the part of the customer, any other customer or any third party, or of any other entity providing a portion of the service,

- labor difficulties, governmental orders, civil commotions, acts of civil or military authority, embargoes, epidemics, declared National Emergencies, criminal actions against the Telephone Company, war, terrorist acts, riots, insurrections, fires, explosions, nuclear accidents, power blackouts, acts of God (including, but not limited to, earthquakes, floods or unusually severe weather) or other circumstances beyond the Telephone Company's control,

- the customer's premises equipment, and

- unavailability of the customer's facilities and/or equipment including customer-provided power and environmental conditions for BellSouth-owned and operated equipment located on the customer's premises.

Note 1: Details of the technical measurements and performance results methodologies for each commitment are provided in BellSouth Technical Reference TR-73632.

(3)SLA Restrictions (Cont'd) (N)

(c) The Customer must request a credit within one month of the Telephone Company missing a BellSouth Metro Ethernet Service Level Commitment. A customer request for a Network Service Level SLA credit must be submitted on a standard request form issued by the Telephone Company that includes the month the SLA commitment was missed, accurate identification of the affected circuit, and the observed measurement of the specific SLA that was missed. A customer request for a Repair SLA credit must be submitted on a standard request form issued by the Telephone Company that includes the month the SLA commitment was missed, accurate identification of the affected circuit, and the trouble ticket number of the repair request. (N)

The Telephone Company will investigate customer requests for any SLA credits to determine the cause of any performance failures reported by the customer. The Telephone Company will investigate the customer's request over a period of up to 45 calendar days. The 45-day period will begin when the customer makes the request for credit with their BellSouth Sales Representative. (N)

SLA credits will be provided to the customer if the Company determines that the Telephone Company had control over the circumstances causing the failure. (N)

(4) SLA Credits for Virtual Connections with CNM - Metro Ethernet Reporting (T)

The following credits will apply when the Telephone Company misses a Service Level Commitment on any single CoS (each credit is described in (a) thru (e) following). A maximum of one credit will be applied monthly per Connection for an SLA not met for any CoS that is supported by the customer's CoS profile (i.e., a maximum of one credit is applicable for an SLA even if missed for multiple CoS).

.BellSouth Metro Ethernet Service Time-To-Repair:
- 0 to 4 hours per incident: No Credit
- Over 4 hours to 24 hours per incident: A credit equal to 3/30 of the monthly recurring charges for all the rate elements[2] associated with the affected Metro Ethernet Connection
- Each additional 24-hour period, per incident: Credit an additional amount equal to 3/30 of the monthly recurring charges for all the rate elements[2] associated with the affected Metro Ethernet Connection

.BellSouth Metro Ethernet Service Network Availability: A credit equal to 3/30 of the monthly recurring charges for all the rate elements[2] associated with the affected Metro Ethernet Connection

.BellSouth Metro Ethernet Service Network Latency: A credit equal to 3/30 of the monthly recurring charges for all the rate elements[2] associated with the affected Metro Ethernet Connection

(D) Service Level Agreement for Virtual BellSouth Metro Ethernet Service[1] (Cont'd)

(4) SLA Credits for Virtual Connections with CNM - Metro Ethernet Reporting (Cont'd) (T)

The SLA credit amount will be determined by applying the credits outlined preceding to the rate elements or total billed revenues specified following.

The total credits issued for all SLAs for a specific BellSouth Metro Ethernet Service Connection during a single bill period may not exceed the total monthly recurring charges billed for all the rate elements associated with that BellSouth Metro Ethernet Service Connection. Credits are not provided for partial month service.

(a) BellSouth Metro Ethernet Service Time-To-Repair Credit – The Service Level Commitment measurement will be based on each individual trouble ticket for a customer's connection. Multiple trouble tickets on the same day for the same customer connection will only be eligible for one time-to-repair credit. The SLA credit will apply to the monthly recurring charges for all the rate elements[2] associated with the affected Metro Ethernet Connection.

(b) BellSouth Metro Ethernet Service Network Availability Credit[3] – The Service Level Commitment measurement will be based on a specific calendar month's performance. The credit will apply for each BellSouth Metro Ethernet Service Connection that does not meet the availability commitment. The SLA credit will apply to the monthly recurring charges for all the rate elements[2] associated with the affected Metro Ethernet Connection.

(c) BellSouth Metro Ethernet Service Latency Credit[3] – The Service Level Commitment measurement will be based on a specific calendar month's performance. The credit will apply for each BellSouth Metro Ethernet Service Connection that does not meet the latency Commitment for any eligible CoS. The SLA credit will apply to the monthly recurring charges for all the rate elements[2] associated with the affected Metro Ethernet Connection.

Note 1: Details of the technical measurements and performance results methodologies for each commitment are provided in BellSouth Technical Reference TR-73632.

Note 2: Specifically, rate elements for the Metro Ethernet Connection, Additional Mileage and Features.

Note 3: BellSouth Metro Ethernet networks that do not span more than one switch in the core network are not eligible for credits under this SLA.
