In this filing Qwest is increasing some EUCL rates as a result of a change in the Telecommunications Relay Service (TRS) factor. In Qwest's 2007 Annual Access Charge Tariff Filing, Transmittal No. 325, Qwest based its TRS exogenous recovery on the contribution factor contained in FCC 06-1345, released June 29, 2006, which contained a proposed factor of 0.00535.

On June 29, 2007, the Commission released its Order, CG Docket No. 03-123, In the Matter of Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities, DA 07-2904, which adopted a final factor of 0.0072, an increase to the proposed factor for the July 1, 2007, through June 30, 2008 fund year. In this tariff Qwest adjusts its TRS exogenous cost recovery to reflect the change between the proposed and final TRS factors. Qwest also includes an adjustment to account for three months of underrecovery between June 30, 2007, the effective date of Transmittal No. 325, and October 2, 2007, the date this tariff is to take effect. See the 2007 TRS Adjustment Workpaper 1. The attached TRP and tariff pages reflect these exogenous cost changes. The cumulative impact of all changes is an increase to some of Qwest's current EUCL rates.
