ACCESS SERVICE

9 - BellSouth Directory Assistance Access

The Telephone Company will provide two types of BellSouth Directory Assistance Access: service as described in 9.1 following and BellSouth Electronic White Pages Access service as described in 9.2 following.

9.1 BellSouth Directory Assistance Access

9.1.1 General Description

BellSouth Directory Assistance Access service provides service to BellSouth Directory Assistance Access locations, and the use of BellSouth Directory Assistance Access equipment, and operators when required, to provide telephone numbers.

9.1.2 Undertaking of the Telephone Company

- (A) The Telephone Company, when furnished a name and locality, will provide or attempt to provide the telephone number listed in the Telephone Company Directory Assistance records associated with the name given at the rates and charges as set forth in 9.1.6 following. The Telephone Company's contact with the customer's end user shall be limited to that effort necessary to process a customer's end user's request for a telephone number. The Telephone Company will not transfer, forward or redial a customer's end user call to any other location for any purpose other than provision of BellSouth Directory Assistance Access service.
- (B) A maximum of two (2) requests for telephone numbers will be accepted per BellSouth Directory Assistance Access call.
- (C) A telephone number which is not listed in the Directory Assistance records will not be available to the customer's end user.
- (D) The Telephone Company will specify the BellSouth Directory Assistance Access location which provides the BellSouth Directory Assistance Access Service for each numbering plan area code (NPA). The BellSouth Directory Assistance Access locations are as shown in NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. No. 4.

When it becomes necessary, as determined by the Telephone Company, to change a BellSouth Directory Assistance Access location, the Telephone Company will notify the involved customers six months prior to the change. For such changes, the regulations as set forth in 2.1.7 preceding apply.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

9 - BellSouth Directory Assistance Access (Cont'd)

9.1.2 Undertaking of the Telephone Company (Cont'd)

- (E) BellSouth Directory Assistance Access service will be provided between the customer premises and the BellSouth Directory Assistance Access location by the Telephone Company at rates and charges as set forth in 9.1.6 following, and as follows:

When the access tandem switch is appropriately equipped for BellSouth Directory Assistance measurement, the Telephone Company will route all Directory Assistance traffic to the BellSouth Directory Assistance Access location for completion over the customer's BellSouth SWA services provided from the access tandem. Additionally, as set forth in 6.2 preceding and 9.1.2(E)(1) and 9.1.2(E)(3) following, direct connections to BellSouth Directory Assistance may be required. If a customer delivers a BellSouth Directory Assistance Access call to the Telephone Company, the Telephone Company will complete the call at charges as set forth in 9.1.6(A) and (B) following.

(1) General

Each BellSouth Directory Assistance Access service will consist of the following:

An Interface Group equipped with an available Premises Interface Code at the customer's premises.

Directory Transport between the premises of the ordering customer and the BellSouth Directory Assistance Access location.

When required by the Telephone Company, a separate BellSouth Directory Assistance Access service trunk group will be provided for BellSouth Directory Assistance Access service for each NPA. Separate trunk groups will be required when the Telephone Company notifies the customer that the mechanized search of its data base and its mechanized operator practices require a mechanized identification of the NPA code for which the customer's end user desires BellSouth Directory Assistance Access information.

Further, when an access tandem is available and is provided, the BellSouth Directory Assistance Access service will be provided, at Telephone Company choice, either as a separate BellSouth Directory Assistance Access service trunk group or in combination with BellSouth SWA FGB, BellSouth SWA FGC, BellSouth SWA FGD or BellSouth SWA TSBSA service.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

9 - BellSouth Directory Assistance Access (Cont'd)

9.1.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(2) Interface Group and Premises Interface Code

All Interface Groups, as set forth in 6.1.3(A)(5) preceding are available for BellSouth Directory Assistance Access service. When only BellSouth Directory Assistance Access service is provided, only the following Premises Interface Codes are available:

4DS9-15	4RV2-0
4DS6-44	6EA2-M
6EA2-E	4SF3
	2RV3-0

Such Premises Interface Codes are described in 6.1.3(A)(5) preceding. When BellSouth Directory Assistance Access service is provided with BellSouth SWA FGB, BellSouth SWA FGC, BellSouth SWA FGD or BellSouth SWA TSBSA service, the Premises Interface Code for the combination will be the available Premises Interface Code provided for the BellSouth SWA FGB, BellSouth SWA FGC, BellSouth SWA FGD or BellSouth SWA TSBSA service ordered by the customer.

Except as set forth in 9.1.4(C) following, the Interface Groups and Premises Interface Codes provided under a Special Order for BellSouth Directory Assistance Access service are subject to the order conditions as set forth in Section 5 preceding. For purposes of applying the order regulations, a BellSouth Directory Assistance Access location is considered to be a customer's end user serving wire center.

(3) Directory Transport

Directory Transport provides the transmission facilities and transport termination between the premises of the ordering customer and the BellSouth Directory Assistance Access location. For purposes of determining Directory Transport mileage, distance will be measured from the wire center that normally serves the customer premises to the BellSouth Directory Assistance Access location(s).

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

9 - BellSouth Directory Assistance Access (Cont'd)

9.1.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(3) Directory Transport (Cont'd)

Directory Transport is a two-way voice frequency transmission path composed of BellSouth SWA Transport facilities as set forth in 6.1.3 preceding. The two-way voice frequency path transports calls in the terminating direction (from the premises of the customer to the DA location). The voice frequency transmission path may be comprised of any configuration of plant capable of and typically used in the telecommunications industry for the transmission of voice and associated telephone signals within the frequency band width of approximately 300 to 3000 Hz.

Directory Transport facilities are specified by the customer and include the following rate categories. These rate categories are further defined in Section 6, BellSouth SWA service.

- (a) BellSouth SWA Local Channel must be specified by the customer. This facility is used in the transport of the BellSouth Directory Assistance Access service call from the customer's premises to the Telephone Company's Serving Wire Center (SWC). The BellSouth SWA Local Channel is assessed a monthly rate based on capacity.
- (b) BellSouth SWA Interoffice Channel, either BellSouth SWA Common Transport or BellSouth SWA Dedicated Transport must be specified by the customer.

BellSouth SWA Dedicated Transport Interoffice Channels (SW DIOC) are used for the transport of the BellSouth Directory Assistance Access service call to the BellSouth Directory Assistance Access location without utilizing a Telephone Company Access Tandem Switch, or for the transport of the call to the Access Tandem where an Access Tandem is utilized. The SW DIOC is assessed a monthly rate, per mile, based on the capacity ordered by the customer.

Where a Telephone Company Access Tandem is utilized, BellSouth SWA Common Transport Interoffice Channels (SW CIOC) are used for the transport of the BellSouth Directory Assistance Access service call from the Access Tandem to the BellSouth Directory Assistance Access location. The SW CIOC charge is assessed on a per call basis, and a per call mile basis.

For BellSouth SWA Common Transport, the DS3 to DS1 Multiplexor element is applicable. This element provides for the use of DS3 to DS1 multiplexor equipment between the Telephone Company Access Tandem switch and the BellSouth Directory Assistance Access Location.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

9 - BellSouth Directory Assistance Access (Cont'd)

9.1.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(3) Directory Transport (Cont'd)

(c) Access Tandem Switching provides for the function of the access tandem when routing the call from the customer's SWC to the BellSouth Directory Assistance Access location through the access tandem. A rate per call will be assessed for each BellSouth Directory Assistance Access call that traverses the access tandem.

As specified by the customer, BellSouth Directory Assistance Access service is to be routed directly to a BellSouth Directory Assistance Access location or through an access tandem switch appropriately equipped for BellSouth Directory Assistance measurement and served by BellSouth Directory Assistance Access trunks to the BellSouth Directory Assistance Access location when such an access tandem switch is available in combination with BellSouth SWA FGB, BellSouth SWA FGC, BellSouth SWA FGD or BellSouth SWA TSBSA as a separate BellSouth Directory Assistance Access service Trunk Group. The combination of BellSouth SWA FG, BellSouth SWA FGC, BellSouth SWA FGD or BellSouth SWA TSBSA Switched Access Service with BellSouth Directory Assistance Access service will only be provided at such available and appropriately equipped access tandem switches. All BellSouth Directory Assistance Access calls routed via this combination to the access tandem will be completed to the BellSouth Directory Assistance Access location and subject to the charges set forth in 9.1.6 following. If the customer does not want BellSouth Directory Assistance Access calls completed to the BellSouth Directory Assistance Access location via this combination, the customer may block the call.

When Directory Transport is provided using BellSouth SWA Dedicated Transport to the BellSouth Directory Assistance Access location, no address signaling is provided. When Directory Transport is provided with the use of an access tandem switch, wink start-start pulsing signaling is provided at the access tandem switch. When access tandem routing is provided, the customer shall address each call to the BellSouth Directory Assistance Access location using NPA + 555 + 1212 or when required by the Telephone Company, 555-1212. Only NPA codes handled by the BellSouth Directory Assistance Access location served by the access tandem switch will be processed.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

9 -BellSouth Directory Assistance Access (Cont'd)

9.1.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(3) Directory Transport (Cont'd)

Directory Transport is provided with one of the BellSouth SWA Transport Interface Groups as set forth in 6.1.3(A) preceding.

(4) Special Facilities Routing

A customer may request that BellSouth Directory Assistance Access service be provided via Special Facilities Routing. The regulations, rates and charges for Special Facilities Routing (Avoidance, Diversity and Cable Only) are as set forth in Section 11 following.

(5) Design Layout Report

The Telephone Company will provide to the customer the makeup of the facilities and services provided under this section as BellSouth Directory Assistance Access service. This information will be provided in the form of a Design Layout Report similar to that as set forth in 6.1.5. Design Layout Reports for BellSouth Directory Assistance Access service will be provided only when specifically requested by the customer. The Design Layout Report will be provided to the customer at no charge and will be reissued or updated whenever the facilities provided for the customer's use are materially changed.

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

9 - BellSouth Directory Assistance Access (Cont'd)

9.1.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(6) Transmission Specifications

BellSouth Directory Assistance Access service is provided with either Type A, B or C Transmission Specifications. The specifications associated with these parameters are guaranteed to the BellSouth Directory Assistance Access location, whether routed directly or via an access tandem. Type C Transmission Specification is provided with Interface Group 1 when routed directly to a BellSouth Directory Assistance Access location. Type B Transmission Specification is provided with Interface Groups 2, 3, 6 and/or 9 when routed directly to a BellSouth Directory Assistance Access location. Type A Transmission Specification is provided with Interface Groups 2, 3, 6 and/or 9 when routed via an access tandem switch.

When BellSouth Directory Assistance Access service is provided with BellSouth SWA FGD or BellSouth SWA TSBSA 3 service, Type A Transmission Specification is provided. When BellSouth Directory Assistance Access service is provided with BellSouth SWA FGB or BellSouth SWA TSBSA 1 service, Type B Transmission Specification is provided for Interface Groups 2, 3, 6 and/or 9 and Type C Transmission Specification is provided for Interface Group 1. When BellSouth Directory Assistance Access service is provided with BellSouth SWA FGC or BellSouth SWA TSBSA 2 service, Type B Transmission Specification is provided.

Type A, B and C Transmission Specifications are set forth in 6.4.1 preceding.

(7) Acceptance Testing and Testing Capabilities

The acceptance testing and testing capabilities for BellSouth Directory Assistance Access Service traffic routed through an access tandem are the same as those for the associated BellSouth SWA FGB, BellSouth SWA FGC, BellSouth SWA FGD or BellSouth SWA TSBSA end office switching.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

9 - BellSouth Directory Assistance Access (Cont'd)

9.1.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(7) Acceptance Testing and Testing Capabilities (Cont'd)

The acceptance testing for BellSouth Directory Assistance Access Service traffic routed directly to or routed in a separate trunk group through an access tandem to the BellSouth Directory Assistance Access location will be as set forth in 6.1.6 preceding. The testing capabilities for BellSouth Directory Assistance Access Service traffic routed directly to the BellSouth Directory Assistance Access location or routed in a separate trunk group through an access tandem to the BellSouth Directory Assistance Access location will be as set forth for cooperative scheduled testing or manual scheduled testing in Section 13 following.

(F) Trunk side switching is provided at the BellSouth Directory Assistance Access service access location. The BellSouth Directory Assistance Access service access location will provide trunk answer and disconnect supervisory signaling.

(G) The Telephone Company will distribute the calls received over the BellSouth Directory Assistance Access services to the BellSouth Directory Assistance Access System using the BellSouth Directory Assistance Access location access equipment.

(H) In the event the requested telephone number is unavailable, no credit applies for the call charged. When the BellSouth Directory Assistance Access location or BellSouth Directory Assistance Access System equipment or terminals are out of service due to a Telephone Company equipment failure or an incorrect number is provided, a credit as set forth in 9.1.4(F) following will apply.

(I) BellSouth Directory Assistance Access service may be provided, at the option of the customer, for interstate and intrastate communications. When the customer requests such mixed access, the interstate BellSouth Directory Assistance Access service charges will be determined by the Telephone Company using the data furnished by the customer as set forth in 2.3.11 preceding.

9.1.3 Obligations of the Customer

(A) The customer shall order capacity and interface type of BellSouth Directory Assistance Access service it needs except when provided over existing BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA FGC, BellSouth SWA FGD, BellSouth SWA LSBSA or BellSouth SWA TSBBA BellSouth SWA Transport facilities, as specified in 9.1.2(E)(3) preceding.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

9 - BellSouth Directory Assistance Access (Cont'd)

9.1.3 Obligations of the Customer (Cont'd)

- (B) The customer facilities at the premises of the ordering customer shall provide the necessary on-hook and off-hook supervision.
- (C) When requested by the Telephone Company, the customer shall order a separate trunk group for BellSouth Directory Assistance Access service for each NPA. The conditions when the customer will be requested to order separate trunk groups for each NPA are set forth in 9.1.2(E)(1) preceding.
- (D) When the customer bills its end users, the customer shall be responsible for all contacts and arrangements with its end users concerning the provision and maintenance of BellSouth Directory Assistance Access service and the billing and collecting of charges for BellSouth Directory Assistance Access service furnished to its end users.
- (E) The customer understands the Telephone Company will respond to only two (2) telephone number requests per call and will not transfer, forward or redial the call to another location for any purpose other than the provision of BellSouth Directory Assistance Access service.

9.1.4 Payment Arrangements

(A) Minimum Periods

The minimum period for which BellSouth Directory Assistance Access service is provided and for which charges apply is one month. When BellSouth Directory Assistance Access service is provided with a customer's BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA FGC, BellSouth SWA FGD, BellSouth SWA LSBSA or BellSouth SWA TSBSA service, the minimum period requirements apply to the BellSouth SWA Service provided and are set forth in 6.7.2 preceding.

(B) Cancellation of a Special Order

When a customer cancels a Special Order for BellSouth Directory Assistance Access service after the order date but prior to the start of service, the appropriate charges as set forth in Section 5 preceding for BellSouth SWA Transport services apply for the BellSouth Directory Assistance Access service cancelled.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

9 - BellSouth Directory Assistance Access (Cont'd)

9.1.4 Payment Arrangements (Cont'd)

(C) Changes to Special Orders

When a customer requests changes to a pending order for BellSouth Directory Assistance Access service, such changes will be undertaken if they can be accommodated by the Telephone Company. The appropriate charges as set forth in Section 5 preceding for BellSouth SWA Transport services apply for the BellSouth Directory Assistance Access service changed.

(D) Moves

A move involves a change in the physical location of the point of termination at the customer premises or of the customer premises. Moves will be treated as set forth in 6.7.7 preceding and all associated nonrecurring charges will apply. Minimum period requirements will be established at the new location as set forth in 6.7.7 preceding. The customer will also remain responsible for satisfying all outstanding minimum period charges for the discontinued service.

(E) BellSouth Directory Assistance Access Rearrangements

Nonrecurring charges apply for service rearrangements. Service rearrangements are as set forth in 6.7.1(D)(3) preceding. The Service Rearrangement Charges are as set forth in 6.7.1(D)(3) for the type of change provided by the Telephone Company.

(F) Credit Allowance for BellSouth Directory Assistance Access

- (1) When the BellSouth Directory Assistance Access location or the BellSouth Directory Assistance Access System is out of service due to a Telephone Company equipment failure or when an incorrect number is provided following customer connection to the BellSouth Directory Assistance Access System, a credit allowance equal to the amounts charged for a BellSouth Directory Assistance Access service Call as set forth in 9.1.6 following will apply.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

9 - BellSouth Directory Assistance Access (Cont'd)

9.1.4 Payment Arrangements (Cont'd)

(F) Credit Allowance for BellSouth Directory Assistance Access Service
(Cont'd)

- (2) In addition to the credit as set forth in (1) preceding, when the Telephone Company provides an incorrect number for a call and the customer reports such occurrences to the Telephone Company, a credit allowance for such BellSouth Directory Assistance Access call will apply. When the customer reports such a call and the number requested, the number provided and the reason the number provided is incorrect, the number of calls for which a credit will apply will be developed by the Telephone Company in cooperation with the customer. The credit allowance is equal to the amounts charged for a BellSouth Directory Assistance Access service Call as set forth in 9.1.6 following
- (3) When a BellSouth Directory Assistance Access call is not completed due to the failure of BellSouth Directory Assistance Access service to BellSouth Directory Assistance Access locations, BellSouth Directory Assistance Access equipment or the BellSouth Directory Assistance Access System, a credit allowance for the service portion in the originating LATA of such BellSouth Directory Assistance Access call will apply. When the customer reports such a call and BellSouth Directory Assistance Access number dialed, time of the call and the date of the call, the number of calls for which a credit will apply will be developed by the Telephone Company in cooperation with the customer. The credit allowance is equal to the amounts charged for a BellSouth Directory Assistance Access Service Call as set forth in 9.1.6 following.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

9 - BellSouth Directory Assistance Access

9.1.5 Rate Regulations

- (A) The BellSouth Directory Assistance Access service call charge, as set forth in 9.1.6(A) following, applies for each call to BellSouth Directory Assistance Access service. A call occurs when a customer is connected to the BellSouth Directory Assistance Access System. The charge applies whether or not the DA System provides the requested telephone number. The number of calls will be accumulated by Telephone Company measuring equipment. A credit for the provision of an incorrect telephone number will be applied as set forth in 9.1.4(F) preceding.
- (B) The mileage for Directory Transport will be measured as set forth in 6.7.13 preceding, for BellSouth SWA Transport. Title Page notwithstanding, these two wire centers may be in different LATAs.
- (C) The charge per call for Directory Transport, as set forth in 9.1.6(B) following.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

9 -BellSouth Directory Assistance Access

9.1.5.1 Rate Categories

There are 3 rate categories which apply to BellSouth Directory Assistance Access Service:

Directory Transport
BellSouth Directory Assistance Access Service Call
BellSouth Directory Assistance Access Interconnection

Additionally, nonrecurring charges may be applicable as specified in 9.1.6 following.

(A) Directory Transport

The directory transport rate category provides for the transport facilities and termination between the customer's premises and the BellSouth Directory Assistance Access location. These rate elements are defined in 9.1.2(E)(3) preceding.

(B) BellSouth Directory Assistance Access Service Call

The BellSouth Directory Assistance Access Service Call rate category provides for the use of the Telephone Company BellSouth Directory Assistance Access System.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

9 -BellSouth Directory Assistance Access

9.1.5.1 Rate Categories (Cont'd)

(C) BellSouth Directory Assistance Access Interconnection

The BellSouth Directory Assistance Access Interconnection rate category provides for switching capability and network functions not assigned to other BellSouth Directory Assistance Access service rate categories. This charge is assessed to all customers and is applied on a per BellSouth Directory Assistance Access call basis.

Nonrecurring charges will apply for the installation of features, directory transport facilities, as defined in 9.1.2(E)(3) preceding, or service rearrangements.

ACCESS SERVICE

9 - BellSouth Directory Assistance Access

9.3 BellSouth Direct Access to Directory Assistance

9.3.1 General Description

BellSouth Direct Access to Directory Assistance provides customer access to the same listing information that is available to the Telephone Company's Directory Assistance operators including:

- 1) all listings of Telephone Company subscribers,
- 2) all listings associated with Telephone Company lines resold by competitive local exchange carriers (reseller CLECs),
- 3) all listings associated with lines provisioned by local exchange carriers (LECs), including facilities based CLECs, that provide their listings to the Telephone Company, and
- 4) all listings the Telephone Company obtains from sources other than the provider of the local exchange lines associated with the listings.

BellSouth Direct Access to Directory Assistance is offered by the Telephone Company to enable the customer to provide its own directory assistance service to its wholesale customers and/or to its end users. The customer must provide its own switch, operator workstation, audio system (optional) and transport facilities to interface with BellSouth Direct Access to Directory Assistance.

9.3.2 Undertaking of the Telephone Company

- (A) BellSouth Direct Access to Directory Assistance enables the customer's operators to search the same listings available to the Telephone Company's operators, as detailed in 9.3.1 above, using a standard directory assistance search format. The search format will be provided to the customer by the Telephone Company upon subscription to the service.
- (B) When a name search is initiated by the customer's operator workstation attendant, a response screen containing the listed telephone number, address and zip code, if available, will be provided subject to the rates and charges as set forth in 9.3.5.
- (C) A telephone number and/or address which is not listed in the Telephone Company's Directory Assistance records will not be available to the customer. Telephone numbers for non-published listings will not be available to the customer.
- (D) The Telephone Company will provide a point of availability for the customer to connect with the system.
- (E) The Telephone Company will cooperatively test with the customer at the time of installation.

ACCESS SERVICE

9 - BellSouth Directory Assistance Access (Cont'd)

9.3 BellSouth Direct Access to Directory Assistance (Cont'd)

9.3.2 Undertaking of the Telephone Company (Cont'd)

- (F) When the customer has both interstate and intrastate BellSouth Direct Access to Directory Assistance usage, the Percent Interstate Usage (PIU) for the customer's BellSouth Direct Access to Directory Assistance service will be determined as specified in 2.3.10 preceding and will be applied to the customer's BellSouth Direct Access to Directory Assistance charges.
- (G) The BellSouth Direct Access to Directory Assistance system can accommodate a maximum of 10,000 operator workstation connections. When this number is reached, no new customers can be added to the service.

9.3.3 Obligations of the Customer

- (A) Subscription to BellSouth Direct Access to Directory Assistance Service requires that a customer utilize its own switch, operator workstations and attendants, and transport facilities to interconnect with the BellSouth Direct Access to Directory Assistance Location. The Telephone Company will incur no costs or liability associated with the customer's physical data links, circuits, or facilities required to connect the customer to the BellSouth Direct Access to Directory Assistance location. Provision of an audio subsystem by the customer will be optional. Technical requirements and specifications for each component of the customer's system are as follows:

1. Switch

The customer's switch handles switching and routing of all the customer's Directory Assistance requests.

BellSouth Direct Access to Directory Assistance will support the Northern Telecom DMS 200 switch or the AT&T 5ESS switch. The specifications for each interface are as set forth in reference documents:

Northern Telecom Document Q210-1 Version AI07 NTDMS/CCIDAS System Application Protocol to support the Northern Telecom switch (available under a licensed protocol through Northern Telecom)
and;

AT&T Document 250-900-535 Operator Services Position System Listing Service Application Call Processing Data Link Interface Specification to support the AT&T switch.

9.3 BellSouth Direct Access to Directory Assistance

9.3.3 Obligations of the Customer

2. Operator Workstation, Operator Workstation Attendant

The customer's operator workstation attendant can initiate listing searches from specified operator workstations in association with the BellSouth Direct Access to Directory Assistance supported switches. The specifications for interfacing with BellSouth Direct Access to Directory Assistance are available under a licensed protocol through Northern Telecom as set forth in the following reference document:

- Northern Telecom Document CSI-2300-07 Universal Gateway/Position Message Interface Format Specification

3. Audio Subsystem (Optional)

The customer may elect to interface an audio subsystem with BellSouth Direct Access to Directory Assistance. The audio subsystem issues automated messages and telephone numbers to the customer's end user. The interface specifications for the audio subsystem are available under a licensed protocol through Northern Telecom as set forth in the following reference document:

- Northern Telecom Document 355-00424 Gateway/Interactive Voice Subsystem Protocol Specification

- (B) The customer is responsible for providing the physical links and facilities required to connect to the point of availability. The physical links and facilities required for BellSouth Direct Access to Directory Assistance service may be purchased from the Telephone Company at rates and terms set forth in Section 7 preceding.
- (C) The customer shall be responsible for all contacts and arrangements with its end user concerning the provision and maintenance of BellSouth Direct Access to Directory Assistance and the billing and collecting of charges for BellSouth Direct Access to Directory Assistance furnished to its end user.

ISSUED: JUNE 16, 2011

9.3 BellSouth Direct Access to Directory Assistance (Cont'd)

9.3.3 Obligations of the Customer (Cont'd)

- (D) The customer will cooperatively test with the Telephone Company at the time of installation.
- (E) Jurisdictional reporting for BellSouth Direct Access to Directory Assistance will apply as specified in 2.3.10 preceding for determining the Percent Interstate Usage (PIU).
- (F) The customer will disclose no information displayed on non-published listings. The Telephone Company will be released from any and all liability, loss, damages and expense which may arise due to the failure of the customer to maintain this obligation.
- (G) BellSouth Direct Access to Directory Assistance is provided solely for the customer's use to provide voice directory assistance services to its wholesale customers and/or end users.

9.3.4 Rate Regulations

The following rate elements apply to BellSouth Direct Access to Directory Assistance:

(A) Service Establishment Charge

BellSouth Directory Access to Directory Assistance Service Establishment Charge is a nonrecurring charge applied at the time a customer orders BellSouth Direct Access to Directory Assistance.

(B) BellSouth Direct Access to Directory Assistance Service Charge

BellSouth Direct Access to Directory Assistance Database Service Charge provides for database security and administration, and ongoing support. This rate will be assessed as a monthly recurring charge.

(C) BellSouth Direct Access to Directory Assistance per Initial or Subsequent Query Charge for each provision of a subscriber listing 1) of the Telephone Company, 2) of a reseller CLEC, or 3) of a LEC, including a facilities passed CLEC, that provides such listings to the Telephone Company

This charge will apply to each customer query for provision of a subscriber listing 1) of the Telephone Company, 2) of a reseller CLEC, or 3) of a LEC, including a facilities based CLEC, that provides such listings to the Telephone Company.

(D) BellSouth Direct Access to Directory Assistance per Initial Query Charge for listings the Telephone Company obtains from sources other than the provider of the local exchange lines associated with such listings

This charge will apply to each initial query for listings the Telephone Company obtains from sources other than the provider of the local exchange lines associated with such listings. Provision of a subsequent listing query, if any, is included in this charge.

9.4 BellSouth Flat Rated DA Trunks

9.4.1 General Description

BellSouth Flat Rated DA Trunks provide the means to interconnect a customer's high capacity facility or facilities (e.g., DS1, MegaLink, LightGate, SmartPath or SMARTRing) at a DS1 level to the network location of their directory assistance provider.

- (A) BellSouth Flat Rated DA Trunks have the same transmission specifications as do BellSouth SWA FGD trunks, as described in 6.2.4 of this tariff.
- (B) BellSouth Flat Rated DA Trunks are made available in the following types:
 - Type 1: Supports bi-directional transport of customer calls using CCS7 signaling to provide call return,
 - Type 2: Supports unidirectional transport of customer calls using CCS7 signaling, and
 - Type 3: Supports unidirectional transport of customer calls using MF signaling.
- (c) Rates and charges for BellSouth Flat Rated DA Trunks are as detailed in 9.4.3, following.

9.4.2 Service Requirements

- (A) BellSouth Flat Rated DA Trunks must be interconnected with a customer's high capacity facility or facilities (i.e., DS1, MegaLink, LightGate, SmartPath or SMARTRing) at a DS1 level in order that BellSouth Flat Rated DA Trunks function properly. Any combination of twenty-four (24) Flat Rated DA Trunk Types 1, 2 and 3 can be ordered to meet this requirement. If the customer requires more than twenty-four (24) Flat Rated DA Trunks, additional trunks must be ordered in increments of twenty-four (24).
- (B) The Telephone Company will specify network locations from which BellSouth Flat Rated DA Trunks are made available as shown in NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. No.4.
- (C) When ordering BellSouth Flat Rated DA Trunks, the customer must submit to the Telephone Company a Connecting Facility Assignment (CFA) identifying which and/or what part of the customer's high capacity facility and/or facilities are to be interconnected to the Telephone Company's BellSouth Flat Rated DA Trunks. Any subsequent change of Connecting Facilities Assignment (CFA) affecting interconnection with BellSouth Flat Rated DA Trunks must also be submitted to the Telephone Company.

9.5 BellSouth Alternate DA Service Capability

9.5.1 General Description

BellSouth Alternate DA Service Capability makes available Telephone Company network resources required to provision directory assistance service to end users of a customer who chooses to route DA calls to a Telephone Company assigned, customer and service specific 10-digit telephone number.

9.5.2 Rate Regulations

- (A) BellSouth Alternate DA Service Capability is offered subject to the regulations specified in Section 2. of this Tariff.
- (B) To utilize this arrangement, the ordering customer must select one or more of the service options detailed in 9.5.3 following.
- (C) The service options set forth in 9.5.3 following are sized based on the Telephone Company's estimate of network resources required to handle blocks of 250,000 calls per month based on average per call holding time.
- (D) The Telephone Company will work cooperatively with the customer to help them determine what quantity of the service options will be needed to serve all calls the customer projects will be delivered per month at per call holding times estimated by the customer.
- (E) When a customer ordering BellSouth Alternate DA Service Capability anticipates both interstate and intrastate usage, the customer must report to the Telephone Company the percent interstate usage to be applied to their BellSouth Alternate DA Service Capability charges.

9.5.4 Special Promotion for BellSouth Alternate DA Service Capability

9.5.4.1 Promotion No. 1

(A) Description

Nonrecurring charges detailed in 9.5.3(A) and (B) preceding will not apply to new orders for BellSouth Alternate DA Service Capability completed during the promotion period beginning June 1, 2005 and continuing through November 30, 2005. The customer will be billed and obligated to pay these nonrecurring charges, however, if new service ordered during the promotion period is terminated prior to being in service for six (6) months.

(B) General Regulations

- (1) This tariff provides a Special Promotion for BellSouth Alternate DA Service Capability and is valid for new service orders completed during the period beginning June 1, 2005 and continuing through November 30, 2005.
- (2) Nonrecurring charges detailed in 9.5.3(A) and (B) preceding will not apply to new orders for BellSouth Alternate DA Service Capability completed during the promotion period beginning June 1, 2005 and continuing through November 30, 2005. The customer will be billed and obligated to pay these nonrecurring charges, however, if new service ordered during the promotion period is terminated prior to being in service for six (6) months.
- (3) The Company reserves the right to change the rates and charges for BellSouth Alternate DA Service Capability.

9.5.4.1 Promotion No. 1 (Cont'd)

(B) General Regulations (Cont'd)

(4) The regulations, terms and conditions for the Special Promotion provided herein shall apply to all customers that meet the described requirements.

9.5.4.2 Promotion No. 2

- (A) This Promotion offers certain discounts to customers placing new service orders for BellSouth Alternate DA Service Capability subject to the conditions herein. Customers may subscribe to this Promotion within forty-five (45) days of this Tariff's effective date by contacting a Company representative. The subscription period ends February 8, 2007.
- (B) Customers who select a 12, 24, or 36 month payment plan period for the Optional DA Calling Plan 1 Savings Plan as set forth in 9.6.4(E)(12) following, will receive a three (3) month waiver of the monthly recurring rate in 9.5.3(A) and (B) preceding for the Alternate DA Capability. The first month's waiver will begin with the customer's first bill period following the customer's subscription to this Promotion.
- (C) At the end of the 3 month promotional period, the waiver of the monthly recurring rate in 9.5.3(A) and (B) preceding will be discontinued and, thereafter, the customer will be billed the rate shown in that section.
- (D) In addition to (B) above, the customer will receive a \$.27 DA Per Call Rate for the 3 month promotional period under the Optional DA Calling Plan 1 Savings Plan set forth in 9.6.4(E)(12) following.
- (E) At the end of the 3 month promotional period, the customer will revert to the applicable DA Per Call Rate shown in 9.6.4(E)(12).
- (F) If the customer discontinues BellSouth Alternate DA Service prior to the end of the selected payment plan period, the customer must repay the monthly recurring rate in 9.5.3(A) and (B), preceding, for the 3 month promotional period. In addition, the termination liability specified in 9.6.4(E)(8) following for the Optional DA Calling Plan 1 Savings Plan will apply. Customers subscribing to this Promotion who subsequently terminate BellSouth Alternate DA Service within the 3 month promotional period will not have to be repay the waived monthly recurring charges and will not be subject to termination liability specified in 9.6.4(E)(8) for the Optional DA Calling Plan 1 Savings Plan.
- (G) The Company reserves the right to change the rates and charges for BellSouth Alternate DA Service Capability.

9.6 BellSouth Optional DA Calling Plan 1

9.6.1 General Description

BellSouth Optional DA Calling Plan 1 is available to customers subscribing to BellSouth Alternate DA Service Capability to provide directory assistance and in addition to any other requirements that may be set forth below, is offered subject to the provisions of Section 2 of this Tariff.

9.6.2 Obligations of the Customer

- (A) To order BellSouth Optional DA Calling Plan 1, the customer must have existing BellSouth Alternate DA Service Capability, as detailed in 9.5 preceding, or must order BellSouth Alternate DA Service Capability from the Telephone Company.
- (B) When ordering BellSouth Optional DA Calling Plan 1, the customer must provide the Telephone Company a forecast of how many DA calls they will send to the Telephone Company via BellSouth Alternate DA Service Capability during an average month.
- (C) As part of BellSouth Optional DA Calling Plan 1, the customer may opt for the BellSouth Optional DA Calling Plan 1 Savings Plan. A BellSouth Optional DA Calling Plan 1 Savings Plan Agreement must be executed by the customer and the Telephone Company in order to implement this option. Under the Savings Plan, the customer must deliver to the Telephone Company DA call volumes within the time frame specified in its BellSouth DA Calling Plan 1 Savings Plan Agreement. These DA call volumes must meet or exceed the minimum amounts required for the plan option selected by the customer, subject to the regulations detailed in 9.6.4(D) and 9.6.4(E), following.

(This page filed under Transmittal No. 1)

9 -BellSouth Directory Assistance Access (Cont'd)

9.6 BellSouth Optional DA Calling Plan 1 (Cont'd)

9.6.3 Obligations of the Telephone Company

- (A) The Telephone Company will satisfy up to two (2) listing requests per DA call.
- (B) The Telephone Company will process the customer's calls through automated response, live response or a combination of both automated and live response.

9.6.4 Rate Regulations and Payment Arrangements

- (A) Rates and charges for BellSouth Optional DA Calling Plan 1 are as detailed in 9.6.5 following. Rates and charges for the BellSouth Optional DA Calling Plan 1 Savings Plan are as described in 9.6.4(E) following.
- (B) When opting for the BellSouth Optional DA Calling Plan 1 Savings Plan, in no event will the untimely installation or failure of customer equipment required to deliver calls to the BellSouth Alternate DA Service Capability location relieve the customer of its commitment to deliver to the Telephone Company DA call volumes as specified in its BellSouth Optional DA Calling Plan 1 Savings Plan Agreement.
- (C) Credit Allowance for BellSouth Optional DA Calling Plan 1
 - (1) When BellSouth Optional DA Calling Plan 1 calls are not answered by the Telephone Company due to a Telephone Company equipment failure, a credit allowance equal to the daily average number of calls processed during the prior month times the rate the customer paid per Optional DA Calling Plan 1 call during the prior month as set forth in 9.6.5, or as set forth in 9.6.4(E) if the customer has agreed to a Savings Plan option, will apply. This credit allowance will appear on the customer's next regular monthly bill.
- (D) In the event BellSouth Optional DA Calling Plan 1 is terminated by the customer prior to the one (1) month minimum subscription period, usage equal to the customer's forecasted monthly call volume as described in 9.6.2(B) will be applied to the standard per call rate detailed in 9.6.5 to determine the usage portion of the customer's bill.

(E) BellSouth Optional DA Calling Plan 1 Savings Plan

- (1) The BellSouth Optional DA Calling Plan 1 Savings Plan provides a customer the option to receive a reduced per DA call rate in exchange for its commitment to deliver a specified number of DA calls to the Telephone Company during a specified payment plan period. A BellSouth Optional DA Calling Plan 1 Savings Plan Agreement is required to implement this option.
- (2) BellSouth Optional DA Calling Plan 1 Savings Plan rates are as detailed for each plan option in 9.6.4(E) following.

9.6.4 Rate Regulations and Payment Arrangements (Cont'd)

(E) BellSouth Optional DA Calling Plan 1 Savings Plan (Cont'd)

- (3) Application of BellSouth Optional DA Calling Plan 1 Savings Plan rates will commence with the first bill period following the plan option effective date, as agreed to, by and between the customer and the Telephone Company.
- (4) The minimum payment plan period of a BellSouth Optional DA Calling Plan 1 Savings Plan is twelve (12) months and the maximum payment plan period is sixty (60) months.
- (5) Except as indicated in 9.6.4(E)(7), 9.6.4(E)(8), 9.6.4(E)(9) and 9.6.4(E)(10), the customer must during the selected payment plan period send DA call volumes greater than or equal to ninety-five percent (95%) of the minimum usage specified in its Savings Plan Agreement to the Telephone Company using BellSouth Alternate DA Service Capability.
- (6) At the end of the selected payment plan period, BellSouth Optional DA Calling Plan 1 Savings Plan usage sent by the customer to the Telephone Company during the selected payment plan period will be compared to the minimum usage required for the plan option the customer has selected. If the DA call volume sent during the payment plan period is below ninety-five percent (95%) of the minimum usage required for the plan option selected in the customer's BellSouth Optional Calling Plan 1 Savings Plan Agreement, in addition to the billed usage charges for the plan selected, the customer will be billed an additional five cents (\$.05) per call for all calls that have been billed during the selected payment plan period.
- (7) At any time during the active option payment plan period an existing BellSouth Optional DA Calling Plan 1 Savings Plan customer may request an upgrade to a service option having a higher usage commitment and/or a longer payment plan period. A new BellSouth Optional DA Calling Plan 1 Savings Plan Agreement is required to implement the change.

9.7 BellSouth Operator Services Automatic Call Distribution (OS-ACD) Service

9.7.1 General Description

BellSouth Operator Services Automatic Call Distribution (OS-ACD) Service provides automatic call distribution functionality to Customers who deliver calls to the Telephone Company at designated BellSouth OS-ACD Service locations.

9.7.2 Undertaking of the Telephone Company

- (A) The Telephone Company will specify BellSouth OS-ACD Service locations as shown in NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. No.4.
- (B) When it becomes necessary, as determined by the Telephone Company, to change a BellSouth OS-ACD Service location, the Telephone Company will notify the involved customers six months prior to the change. For such changes, the regulations as set forth in 2.1.7 apply.
- (C) The Telephone Company will queue and manage calls delivered by a customer to a BellSouth OS-ACD Service location and will deliver such calls to the Customer's Operator Service Positions (OSPs) using Nortel's Open Position Protocol (OPP).
- (D) The Telephone Company will engineer BellSouth OS-ACD Service based on the customer's requirements and the Telephone Company's available network capacity.

9.7.3 Obligations of the Customer

- (A) The Customer is responsible for interconnection and facilities required to transport calls to and from the Customer's location(s) and the BellSouth OS-ACD Service location. BellSouth OS-ACD Service is provided only when associated with dedicated two-way SS7 trunks.
- (B) Communications between the Customer's OSP equipment and the BellSouth OS-ACD Service location must utilize Nortel's Open Position Protocol (OPP) in order that OS-ACD Service can perform as described in this tariff.
- (C) The Customer and the Telephone Company shall cooperatively test prior to implementation of BellSouth OS-ACD Service.
- (D) The Customer must attend its Operator Service Positions (OSPs) at levels required to answer all calls presented by BellSouth OS-ACD Service to the Customer twenty four (24) hours a day, seven (7) days a week. The Telephone Company may terminate service when and if the Customer fails to attend its OSPs at this level.
- (E) The Customer shall notify the Telephone Company immediately of any cases where its Operator Service Positions (OSPs) will be vacated due to an emergency or other situation. The Telephone Company may terminate service when and if the Customer fails to comply with this requirement.

9.7 BellSouth Operator Services Automatic Call Distribution OS-ACD Service
(Cont'd)

9.7.3 Obligations of the Customer (Cont'd)

- (F) The Customer shall provide the Telephone Company an alternate service location to where its calls will be routed when and if the Customer's Operator Service Positions (OSPs) are vacated due to an emergency or other situation. The Customer shall provide facilities through which such alternate service location can be accessed.
- (G) The Customer must maintain up to date OSP software that is compatible with BellSouth Operator Services Automatic Call Distribution OS-ACD Service at all times in order that OS-ACD Service can perform as described in this tariff.
- (H) Force management of the Customer's OSPs is the Customer's responsibility.
- (I) The Customer and the Telephone Company shall work cooperatively to test and implement BellSouth OS-ACD Service prior to installation.

9.7.4 Technical References and Requirements

Nortel's Open Position Protocol (OPP) is used as the network interface between the Customer's location and the BellSouth Operator Services Automatic Call Distribution OS-ACD Service location. The OPP network interface is defined in Nortel Document No. Q214-1. Compatible Customer provided equipment and software are required for proper queuing, managing and routing of Customer calls.

9.7.5 Rate Regulations

Rates for BellSouth Operator Services Automatic Call Distribution OS-ACD Service are applied per call delivered to the Telephone Company's BellSouth Operator Services Automatic Call Distribution OS-ACD Service location.

10 - Special Federal Government Access Services (Cont'd)

10.1 General

This section covers Access Services that are provided to a customer for use only by agencies or branches of the Federal Government and other users authorized by the Federal Government. Services provided to state emergency operations centers are included. These services provide for command and control communications, including communications for national security, emergency preparedness and presidential requirements. They are required to assure continuity of Government in emergency and crisis situations and to provide for national security.

Services for command and control communications and for national security and emergency preparedness sometimes require short notice and short duration service provisions. These provisions are especially needed to meet presidential requirements or in response to natural, man-made, or declared emergencies. Requirements of this type cannot be forecasted and are usually needed for a relatively short period. The provision of service under these conditions may require the availability of facilities, such as portable microwave equipment, which are provided on a temporary basis by the Telephone Company or customer.

10.2 Emergency Conditions

These services will be provided on the date requested or as soon as possible thereafter when an emergency falls into one of the following categories:

- State of crisis declared by the National Command Authorities (includes commitments made to the National Communications System in the "National Plan for Emergencies and Major Disasters")
- Efforts to protect endangered U.S. personnel or property both in the U.S. and abroad. (Includes space vehicle recovery and protection efforts.)
- Communications requirements resulting from hostile action, a major disaster or a major civil disturbance.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.2 Emergency Conditions (Cont'd)

- The director (Cabinet level) of a Federal department, Commander of a Unified/Specified Command, or head of a military department has certified that a communications requirement is so critical to the protection of life and property or to the National Defense that it must be processed immediately.
- Political unrest in foreign countries which affect the national interest.
- Presidential service.

10.3 Intervals to Provide Service

Services provided under the provisions of this section of the tariff are provided on an individual case basis.

10.4 Safeguarding of Service

10.4.1 Facility Availability

In order to insure communications during periods of emergency, the Telephone Company will, within the limits of good management, make available the necessary facilities to restore service in the event of damage or to provide temporary emergency service. In order to meet the requirements of agencies or branches of the Federal Government, the Telephone Company may utilize government-owned facilities, when necessary to provide service.

10.5 Federal Government Regulations

In accordance with Federal Government Regulations, all service provided to the Federal Government will be billed in arrears. However, this provision does not apply to other customers that obtain services under the provisions of this tariff to provide their services to the Federal Government.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government

The following unique services are provided to a customer for use only by agencies or branches of the Federal Government, other authorized users and state emergency operations centers. The rates and charges for these services shall be developed on an individual case basis and shall be consistent with the rates and charges for services offered in other sections of this tariff.

10.6.1 Type and Description

(A) Voice Grade Special Access (a.k.a. BellSouth SPA DSO VG) Services

(1) Voice Grade Secure Communications Type I

Approximate bandwidth of 10-50,000 Hertz. Furnished for two-point secure communications on two-wire or four-wire metallic facilities between an IC premises and an end user's premises. Services are conditioned as follows:

T-3 Conditioning - The absolute loss (referenced to 1 milliwatt) with respect to frequency shall not exceed:

15 dB at 10 Hz
13 dB at 100 Hz
9 dB at 1,000 Hz
20 dB at 10,000 Hz
30 dB at 50,000 Hz

Additional conditioning (available in one or two directions on four-wire facilities only) to provide the following characteristics:

The absolute loss (referenced to one milliwatt) with respect to frequency shall not exceed:

0 db at 1,000 Hz
+1 dB between 1,000 Hz and 40,000 Hz
+2 dB between 10 Hz and 50,000 Hz
(+ means more loss)

The net loss of the conditioned service (with or without additional conditioning) shall not vary by more than four dB at 1,000 Hz from the levels specified above. Voice frequency signaling or supervisory tones can be transmitted.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

10.6.1 Type and Description (Cont'd)

(A) Voice Grade Special Access (a.k.a. BellSouth SPA DSO VG) Services
(Cont'd)

(2) Voice Grade Secure Communications Type II

Approximate bandwidth 10-50,000 Hz. Furnished on four-wire metallic facilities for duplex operation for two-point secure communications between an IC premises on an end user's premises and an end user's premises. Services are conditioned as follows:

G-1 Conditioning - The absolute loss with respect to frequency and the net loss variation shall be the same as Voice Grade Secure Communications Type I services without additional conditioning. Voice frequency signaling or supervisory tones can be transmitted.

(3) Voice Grade Secure Communications Type III

Approximate bandwidth 10-50,000 Hz. Furnished on four-wire metallic facilities for duplex operation for two-point secure communications between an IC premises switch and an end user's premises. Services are conditioned as follows:

G-2 Conditioning - The absolute loss with respect to frequency and the net loss variation from the switch to an end user's premises shall be the same as Voice Grade Secure Communications Type I services without additional conditioning; from an end user's premises to the switch shall be the same as Voice Grade Secure Communications Type I services with additional conditioning. Voice frequency signaling or supervisory tones can be transmitted.

(4) Voice Grade Secure Communications Type IV

Approximate bandwidth 10-50,000 Hz. Furnished on four-wire metallic facilities for duplex operation for two-point secure communication between two IC premises switches. Services are conditioned as follows:

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(A) Voice Grade Special Access (a.k.a. BellSouth SPA DSO VG) Services
(Cont'd)

(4) Voice Grade Secure Communications Type IV (Cont'd)

G-3 Conditioning - The absolute loss with respect to frequency and the net loss variation shall be the same in both directions of transmission as Voice Grade Secure Communications Type I services with additional conditioning. Voice frequency signaling or supervisory tones can be transmitted.

(B) Wideband Digital Special Access Service

Service arrangements for secured communications to accommodate the transmission of binary digital baseband signals in a random polar format.

(1) Wideband Secure Communications Type I

For transmission at the rate of 18,750 bits per second.

(2) Wideband Secure Communications Type II

For transmission at the rate of 50,000 bits per second.

(3) Wideband Secure Communications Type III

To accommodate the transmission of restored polar two-level facsimile signals with a minimum signal element width of twenty microseconds at a rate of 50,000 bits per second.

To accommodate the transmission of binary digital baseband signals in a random polar format at the rate of 50,000 bits per second.

(C) Special Routing Access Service (SRAS)

This service provides the customer's end users, in emergency and crises situations, the ability to originate and terminate calls to or from the customer's premises utilizing a single SRAS Area Code.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(C) Special Routing Access Service (SRAS) (Cont'd)

This service is furnished to an Interexchange Carrier (IC) for an agency or branch of the Federal Government. Therefore, in order for an end user to utilize the SRAS, the end user must be a customer of that IC.

This service is an optional service which operates in conjunction with the IC's Trunk Side Premium Access Service furnished under other provisions of this tariff.

The Telephone Company will record SRAS Access Service Trunk Usage, which will be the total elapsed time that the trunk group dedicated to SRAS service is activated, and will bill the customer in accordance with these records. The hours for each trunk in the SRAS trunk group will be aggregated and the total then rounded to the nearest hour. A minimum of one hour, per trunk, per occurrence, will be used to determine the charge.

(D) Telecommunications Service Priority (TSP) System

The Telecommunications Service Priority (TSP) System is a structured coding scheme that prescribes the order in which National Security Emergency Preparedness (NSEP) telecommunications services are installed or restored. The TSP System was developed to support the requirements of the U.S. Government as specified in the TSP Service Vendor Handbook and applies only to NSEP telecommunications services to which The Company is able to apply priority treatment. It requires and authorizes priority action by The Company.

Conditions of emergency or crises that cause invocation of NSEP treatment can only be declared by authorized officials of the Federal Government or other officials (Federal or Non-Federal) specified by the Manager - National Communication Systems (NCS) on behalf of the Executive Office of the President of the United States.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(D) Telecommunications Service Priority (TSP) System (Cont'd)

Telecommunications Service Priority System is provided under the terms and conditions and at the rates and charges as set forth in Section 13.3.9 following.

(E) Government Emergency Telecommunications Service (GETS) Access

GETS is an emergency telecommunications service offered by the United States Government Office of the Manager, National Communications System (OMNCS), to meet national security and emergency preparedness (NS/EP) requirements for use of public, defense, or Federal telephone networks by Government departments, agencies and other authorized users. Access to GETS is accomplished through the use of the 710 non-geographical Numbering Plan Area (NPA) utilizing the Public Switched Network (PSN) and an Interexchange Carrier (IC) designated by the OMNCS as a GETS-designated IC.

(1) Coverage

GETS Access is available in the entire Telephone Company service area. The 710 non-geographical NPA code will be opened in all areas serviced by the Telephone Company.

BellSouth will not provide special routing, operator handling, or other features for calls utilizing the 710 NPA call. Such calls will be delivered to the underlying IC regardless of whether that carrier has been designated as a GETS IC by the Federal Government. Applicable access charges under other provisions of this tariff will apply for the underlying access service provided to the involved IC.

The GETS features in 10.6.1(E)(3)-(10) following are available in DMS and 5ESS switches installed or ordered on or before December 31, 2000 and in EWSD switches installed or ordered on or before December 31, 2003.

BellSouth will install GETS features in a switch concurrent with the scheduled upgrade for that switch. BellSouth will provide the prime contractor a schedule of planned switch upgrade activity, thereby indicating GETS feature availability.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(E) Government Emergency Telecommunications Service (GETS) Access

(2) Liability of the Telephone Company

The Telephone Company shall have no liability whatsoever for unauthorized use of the 710 NPA.

(3) GETS Alternate Carrier Routing (ACR) Feature

ACR is an Advanced Intelligent Network (AIN) feature which allows as many as three IC choices for completing a GETS call. When a GETS caller dials a GETS number, i.e., 710-NCS-GETS to access the service, the ACR feature routes the call alternately to the three GETS ICs identified by Carrier Identification Codes (CICs) in an ordered sequence:

- Primary IC
- Alternate IC
- Second Alternate IC

The United States Government Office of the Manager, National Communications System (OMNCS), will supply the pre-defined ordering of ICs for each end office.

(4) GETS Calling Party Number (CPN) Feature

The CPN feature modifies the originating CPN to a GETS-unique number (710-NCS-GETS). This CPN will be passed along with other call information from the BellSouth network to the IC and finally to the terminating Local Exchange Carrier (LEC). The CPN information will be used by any network or network element to identify the call for GETS treatment. The GETS-unique number assignment for the CPN can be changed. The capability to turn "on" and "off" this feature will be provided.

(5) GETS Reports

Two reports will be provided as a part of the rate for the GETS ACR feature: Call Data Report and Emergency Data for Performance Reporting:

(1) Call Data Report

The Call Data Report provides call detail associated with GETS ACR usage. The Call Data report contains information such as call date, call time, call duration, and IC used for the call. This report will be provided on a monthly basis.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(E) Government Emergency Telecommunications Service (GETS) Access (Cont'd)

(5) GETS Reports (Cont'd)

(2) Emergency Data for Performance Reporting

At the request of the Government, emergency call detail associated with GETS ACR usage will be provided twice daily. This report will include information such as total calls into the affected area, total calls out the affected area, and number of blocked GETS calls.

(6) GETS Enhanced Alternate Carrier Routing (EACR) Feature

With EACR, when no trunks are available to the Interexchange Carrier at the tandem office, a release with cause message is sent from the tandem back to the originating office. When this release message is received at the originating office, that office will try the next carrier in the list. This process will continue until all carriers in the list have been exhausted.

(7) GETS Default Routing Feature

Default Routing works in conjunction with the GETS ACR feature. Default Routing is an office feature that provides basic routing instructions if a response is not received from the AIN Service Control Point before timeout occurs. In the case of GETS the call will be routed to the 710-NCS-GETS number using the PIC of the calling line. No alternate carriers will be attempted.

(8) Setting Calling Party Category and IAM Signaling Priority Feature

The Calling Party Category within the SS7 Initial Address Message (IAM) will be set to the NS/EP value. The 8-bit NS/EP value is 11100010. This value will be used by the switches to provide Trunk Group Queuing and Exemption from Network management controls. The value will also be passed on to the next switch for like treatment. This is in accordance with ANSI standards T1.631-1993 (Available June 1993). The IAM Signaling Priority for GETS calls will be set to 1. POTS calls will be set to 0. This is in accordance with ANSI Standard T1.1111-1996 (Available March 1996).

ISSUED: JUNE 16, 2011

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(E) Government Emergency Telecommunications Service (GETS) Access (Cont'd)

(9) GETS Trunk Queuing Feature

Trunk Queuing further enhances the probability of a call completing by allowing GETS calls to queue on busy trunk groups. The queued call will be connected to the next available trunk ahead of other POTS calls that may be attempting to connect to the trunk group.

(10) GETS Exemption from Network Management Controls Feature

This feature provides High Probability Completion (HPC) marked calls exemption from restrictive Network Management controls including:

- Exemption from Cancel To (EX-CANT)
- Exemption from Call Gap (EX-CGAP)
- Exemption from Automatic Congestion Control (EX-ACC)
- Exemption from Trunk Reservation (EX-TR)
- Exemption from Automatic Code Gap (EX-ACG)

(F) Federal Government Transport Plan (FGTP)

The Federal Government Transport Plan (FGTP) allows the Federal Government or any customer providing telecommunications service(s) for the exclusive use of the Federal Government and its authorized agents to obtain DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service in accordance with the specific terms and conditions of this plan.

(1) General

- (a) This plan is limited to DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service Local and Interoffice channel Fixed and Per Mile rate elements. DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service rate elements included in a FGTP arrangement may not be included in a Channel Services Payment Plan (CSPP) or Area Commitment Plan (ACP) as specified in 2.4.8 preceding.

DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service rate elements provided under a FGTP arrangement are excluded from any application of Shared Use provisions as specified in 7.4.8.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(F) Federal Government Transport Plan (FGTP) (Cont'd)

(2) Terms and Conditions

- (a) To subscribe to a FGTP the customer must specify the number of DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service Local Channel and Interoffice Channel Per Mile rate elements which are to be included in the FGTP arrangement. The number of elements specified by the customer become the customer's commitment level for the FGTP arrangement. FGTP arrangement commitments are made on a regional basis, by rate element. Additionally, the customer must also specify which DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service circuits are to be included in the FGTP arrangement.

Each grouping of DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service rate element(s) (i.e., Local and Interoffice Channel Fixed and Per Mile) is assigned a circuit identification number. Rate elements having a common circuit identification number are considered to be a circuit for purposes of the FGTP.

- (b) The customer may add or disconnect DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service Local (LC) and Interoffice (IOC) channel rate elements under FGTP as desired, subject to applicable minimum periods and appropriate nonrecurring charges.

If the customer desires to increase the FGTP commitment level, the customer may enter into an additional agreement for the increase in commitment level, or the customer may revise an existing FGTP arrangement to include the additional quantity. In the latter case, the FGTP commitment period must be equal to or greater than the time remaining in the existing FGTP arrangement, and no less than the least commitment period available under FGTP.

- (c) When subscribing to a FGTP arrangement the customer must select a FGTP commitment period as follows:
- FGTP A, commitment periods may be selected from 24 to 48 months in length.
 - FGTP B, commitment periods may be selected from 49 to 72 months in length.
 - FGTP C, commitment periods may be selected from 73 to 96 months in length.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(F) Federal Government Transport Plan (FGTP) (Cont'd)

(2) Terms and Conditions (Cont'd)

Termination liability as set forth in (F)(4)(a) following will not apply for DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service elements provided under a FGTP arrangement provided the customer maintains the DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service elements for at least twenty-four months under Plan A, forty-nine months under Plan B, or seventy-three months under Plan C.

(3) Application of Rates

- (a) Except as provided in 10.6.1.F.5, nonrecurring charges for DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service rate elements provided under a FGTP arrangement will not apply provided the customer maintains the service for the minimum twenty-four consecutive month service period. If a DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service Local or Interoffice Channel provided under a FGTP arrangement is disconnected prior to completion of the minimum twenty-four month service period, full nonrecurring charges for the applicable elements of service will be billed at the current nonrecurring charge rate as specified in 7.5.9 preceding for month-to-month DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service.
- (b) Except as specified in 10.6.1(F)(6), recognition of previous service will be given to customers who convert eligible existing DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service arrangements to a DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service under a FGTP arrangement, or renew a DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service FGTP arrangement at the same location. In the case of conversions/renewals prior to completion of the original arrangement, the commitment period of the new FGTP arrangement must be equal to or greater than the remaining commitment period of the original arrangement, but no less than twenty-four months. Rates and charges in effect on the first day of service of the conversion/renewal will apply.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(F) Federal Government Transport Plan (FGTP) (Cont'd)

(3) Application of Rates (Cont'd)

- (c) In order to determine if the customer is eligible for credit amounts, each month the appropriate number of DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service FGTP arrangement rate elements that are to be billed by the Telephone Company in the region under each FGTP arrangement will be determined. If the total number of in-service FGTP arrangement Local Channel and Interoffice Channel Per Mile rate element quantities equals or exceeds the FGTP arrangement commitment level, the Telephone Company will credit the customer's bill, by rate element. Credit for Rate Zone 1 circuits will be calculated first, beginning with the highest rated circuit in Rate Zone 1, and will continue in descending order through Rate Zones 1, 2 and 3 until the commitment for the particular rate element is met.
- (d) Utilizing the method set forth in (c) above, the credit for the Local Channel and Interoffice Channel Per Mile rate elements will be determined by multiplying the commitment level by the difference in the appropriate Rate Zone month-to-month rate for DS1 High Capacity (a.k.a. BellSouth SPA High Capacity) Service Local Channel rate element specified in 7.5.9 preceding and the appropriate Rate Zone commitment period rate for a DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service Local Channel rate element under a FGTP arrangement. When the circuit is associated with a Meet Point Billing Arrangement, the rates used in the calculation of the credit will be reduced by the appropriate Meet Point Billing Arrangement percentage.
- (e) For each circuit eligible for credit that includes Interoffice Channel mileage also eligible for credit, the credit for the Interoffice Channel Fixed rate elements will be determined by multiplying the quantity of Interoffice Channel Fixed rate elements associated with the count of Interoffice Channel Per Mile rate elements by the difference in the appropriate Rate Zone month-to-month rate for DS1 High Capacity (a.k.a. BellSouth SPA High Capacity) Service Interoffice Channel Fixed rate element specified in 7.5.9 preceding, and the appropriate Rate Zone commitment period rate for a DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service Interoffice Channel rate element under a FGTP arrangement. When the circuit is associated with a Meet Point Billing Arrangement, the rates used in the calculation of the credit will be reduced by the appropriate Meet Point Billing Arrangement percentage.

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(F) Federal Government Transport Plan (FGTP) (Cont'd)

(3) Application of Rates (Cont'd)

- (f) If the number of in-service rate elements are less than the commitment level, a credit will be determined by multiplying the in-service rate element quantity by the difference in the appropriate Rate Zone month-to-month rate for DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service and the appropriate DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service rate element Rate Zone commitment period rate under FGTP. Credits will be applied utilizing the same method as set forth in 10.6.1(F)(3)(c) and (e). In addition, a shortfall charge, equal to the difference in the commitment level and the in-service quantity, multiplied by 50% of the DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service FGTP arrangement Rate Zone 1 rate for the customer selected commitment period as specified in 10.6.4(F)(1) will be applied. The DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service FGTP rate that will be used is the one that is in effect on the billing date for the appropriate commitment period.
- (g) Credits and shortfall amounts will be distributed to billing areas based on each billing area's portion of a customer's regional FGTP-eligible in-service demand. Each state in the region is considered to be one billing area. Where the customer has more than one FGTP arrangement, the credits and shortfall charges will be determined in chronological order, starting with the earliest arrangement. Credits for DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service elements provided under a FGTP arrangement will be made at the circuit level.
- (h) If a customer obtains telecommunications service under provisions of this tariff not authorized by the Federal Government for its use, the customer will be liable for any applicable nonrecurring charge(s) as set forth in 7.5.9 preceding and a charge for the inappropriate service connection. A charge equal to the difference between the month-to-month recurring rate for DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service, as set forth in 7.5.9 preceding, and the billed DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service FGTP arrangement rate, for the entire period of service will apply.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(F) Federal Government Transport Plan (FGTP)

(4) Termination Liability (Cont'd)

- (a) A termination charge will apply if: (1) the FGTP arrangement is terminated prior to the completion of the customer selected commitment period; (2) a regional in-service quantity falls to zero; or (3) if during the FGTP arrangement commitment period the customer decreases the commitment level. In the case of a decrease in commitment, the customer must enter into a new FGTP arrangement and terminate the existing FGTP arrangement(s). This will result in a termination liability to be calculated as follows:

The termination liability, per unit terminated (i.e., commitment level and/or period), will equal the DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service element rate associated with the existing FGTP arrangement multiplied by the difference in months between the time the FGTP arrangement has been in effect and the minimal months of the existing FGTP arrangement times a factor. The factor is 40 percent for FGTP arrangements that have been in effect twelve months or less, or 20 percent for FGTP arrangements that have been in effect longer than twelve months.

- (b) In the case of a termination affecting both a commitment level and commitment period, the termination liability will be calculated first for the reduction in level and then for the reduction in period.
- (c) Nonrecurring charges associated with DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service and termination liability will not be assessed if the disconnect of an FGTP arrangement is due to a Federal Government closing of the site (i.e., Air Force Base, etc.).
- (d) DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service(s) that convert from an existing CSPP or ACP arrangement, specified in 2.4.8, will not incur termination liability associated with the prior arrangement.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(F) Federal Government Transport Plan (FGTP) (Cont'd)

(5) Moves and Upgrades

- (a) When a DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service circuit is moved to a different building prior to completion of the minimum twenty-four month service period, no nonrecurring charges will be levied against the disconnected FGTP DS1 High Capacity service; however, full nonrecurring charges as specified in 7.5.9 preceding for DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service will be assessed at the new location for the reestablished service. Nonrecurring charges as specified in 7.4.5(A) are applicable for moves of DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) Service provided under a FGTP arrangement within the same building.
- (b) In the case of upgrades to a higher order service occurring prior to completion of the minimum twenty-four month commitment period, nonrecurring charges appropriate for installation of a new DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service, as specified in 7.5.9 preceding, will apply for those rate elements converted to a higher order service.

A customer may upgrade DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service rate elements included in a FGTP arrangement to a higher order of service provided under an Optional Payment Plan (i.e., a Transport Payment Plan arrangement), and request a reduction in the FGTP arrangement commitment level without incurring a termination liability. The customer request for the DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service being upgraded from an FGTP arrangement must be coordinated with the installation of the higher order of service. When a customer upgrades a portion of the DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service rate elements provided under a FGTP arrangement, the customer must enter into a new FGTP arrangement to reflect the revised commitment level. The revised commitment level must be equal to or greater than the current commitment level less the quantity of FGTP DS1 High Capacity services upgraded. When all DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service elements provided under a FGTP arrangement are upgraded, no termination liability is applicable.

(F) Federal Government Transport Plan (FGTP) (Cont'd)

(6) Conversions From An Existing Area Commitment Plan)

If a customer has submitted to the Telephone Company, by May 10, 1998, a letter indicating its intent to submit ASRs, by June 15, 1998, for the purpose of accomplishing a conversion of eligible DS1 High Capacity (a.k.a. BellSouth SPA DS1 High Capacity) service circuits from an existing Area Commitment Plan with a customer selected termination date prior to March 9, 2000, to a FGTP arrangement, and specifying, at a minimum:

- Customer Name,
- Access Carrier Name Abbreviation (ACNA),
- Carrier Identification Codes (CICs),
- Circuit Identification.

At the customer's option, the existing ACP arrangement will be converted to a FGTP arrangement with the same termination date as that associated with the existing ACP arrangement. Recurring monthly rates for converted circuits of this type will be those FGTP rates associated with a number of months equal to those committed under the existing ACP arrangement. All ASRs associated with the conversion must be received by the Telephone Company by June 15, 1998.

(G) Program Manager for FAA Network Setup

This service offering provides dedicated Program Manager capabilities for setup of a specialized transport network to meet FAA diversity and security requirements. Work functions to be performed include assisting in security background checks for Telephone Company personnel needing access to FAA sites, assuring that Telephone Company personnel follow FAA security requirements, oversee on-site implementation planning at FAA locations, coordinate and verify diversity and latency compliance of FAA network transport services and so forth as required as a part of implementing an updated transport service arrangement for the FAA.

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(H) LightGate Service (a.k.a. BellSouth SPA Point-to-Point Network) DS3
Alternate Serving Wire Center (ASWC) Arrangement

LightGate Service (a.k.a. BellSouth SPA Point-to-Point Network) DS3 ASWC Arrangement provides the capability for a non-channelized DS3 High Capacity (a.k.a. BellSouth SPA High Capacity) service over a fiber transmission path between a customer-designated premises and a serving wire center other than the normal serving wire center for the customer's premises (i.e., an alternate serving wire center). The customer must have at least one other High Capacity (a.k.a. BellSouth SPA High Capacity) service from the same customer-designated premises to its normal serving wire center. LightGate Service (a.k.a. BellSouth SPA Point-to-Point Network) DS3 ASWC Arrangement is available to alternate wire centers, as determined by the Telephone Company, that are contiguous with the customer's normal serving wire center. At the alternate serving wire, a LightGate Service (a.k.a. BellSouth SPA Point-to-Point Network) DS3 ASWC Arrangement may connect to other standard non-channelized DS3 service offerings as found in other sections of this tariff.

LightGate Service (a.k.a. BellSouth SPA Point-to-Point Network) DS3 ASWC Arrangement service components are comprised of a DS3 ASWC Local Channel System, DS3 ASWC Local Channel Mileage and DS3 Channel Interfaces. The DS3 ASWC Local Channel System provides the capacity for a single High Capacity DS3 and includes the first one-half air mile of transport required to connect to the ASWC. The DS3 ASWC Local Channel Mileage provides the additional transport, in additional one-half air mile increments, to connect to the ASWC. A fraction of a one-half air mile is considered as a whole one-half mile. A DS3 Customer Channel Interface and a DS3 Central Office Channel Interface apply per LightGate Service (a.k.a. BellSouth SPA Point-to-Point Network) DS3 ASWC Arrangement.

The LightGate Service (a.k.a. BellSouth SPA Point-to-Point Network) DS3 ASWC Arrangement is available under month-to-month rates and charges with a 12-month minimum service period or under the Transport Payment Plan terms and conditions, as described in Section 2, preceding. Nonrecurring charges are applicable for services installed under month-to-month or Transport Payment Plan terms and conditions. Where special construction of facilities is necessary, special construction charges will apply as set forth in the BellSouth Telecommunications Inc.'s Special Construction Tariff, F.C.C. No. 2.

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.1 Type and Description (Cont'd)

(I) Voice Grade (a.k.a. BellSouth SPA DSO VG) Alternate Serving Wire Center (ASWC) Arrangements

Voice Grade (a.k.a. BellSouth SPA DSO VG) ASWC Arrangements are provided over a transmission path between a customer-designated premises and a serving wire center other than the normal serving wire center for the customer's premises (i.e., an alternate serving wire center). The customer must have at least one other tariff service from the same customer-designated premises to its normal serving wire center. Voice Grade (a.k.a. BellSouth SPA DSO VG) ASWC Arrangements are available to alternate wire centers, as determined by the Telephone Company, that are contiguous with the customer's normal serving wire center. At the alternate serving wire, Voice Grade (a.k.a. BellSouth SPA DSO VG) ASWC Arrangements may connect to other standard Voice Grade (a.k.a. BellSouth SPA DSO VG) service offerings as found in other sections of this tariff.

Voice Grade (a.k.a. BellSouth SPA DSO VG) ASWC Arrangement service components are comprised of a Voice Grade (a.k.a. BellSouth SPA DSO VG) Basic Channel and Basic Channel Mileage. The Voice Grade (a.k.a. BellSouth SPA DSO VG) Basic Channel provides the capacity for a single Voice Grade (a.k.a. BellSouth SPA DSO VG) service arrangement and includes the first one-half route mile of transport required to connect to the ASWC. The Basic Channel Mileage provides the additional transport, in additional one-half route mile increments, to connect to the ASWC. A fraction of a one-half route mile is considered as a whole one-half mile.

The Voice Grade (a.k.a. BellSouth SPA DSO VG) ASWC Basic Channel is available as a two wire or a four wire service arrangement with the capability for the various technical specifications, as described for Voice Grade (a.k.a. BellSouth SPA DSO VG) service in Section 7, of this tariff.

The Basic Channel Mileage service component is applicable per service arrangement, in addition to the Voice Grade (a.k.a. BellSouth SPA DSO VG) Basic Channel service component.

The Voice Grade (a.k.a. BellSouth SPA DSO VG) ASWC Arrangement is available under month-to-month rates and charges with a one-month minimum service period or under the Channel Services Payment Plans (CSPP) A (24-48 Months) and B (49-72 Months) terms and conditions, as described in Section 2, preceding. Where special construction of facilities is necessary, special construction charges will apply as set forth in the BellSouth Telecommunications Inc.'s Special Construction Tariff, F.C.C. No. 2.

The credit for service outages associated with Voice Grade (a.k.a. BellSouth SPA DSO VG) ASWC Arrangements shall be the same as for Voice Grade (a.k.a. BellSouth SPA DSO VG) service as described in Section 2, preceding.

10.6.1 Type and Description (Cont'd)

(J) Digital Data (a.k.a. BellSouth SPA DSO Digital Data) Alternate Serving Wire Center (ASWC) Arrangement

Digital Data (a.k.a. BellSouth SPA DSO Digital Data) Alternate Serving Wire Center (ASWC) Arrangements are provided over a transmission path between a customer-designated premises and a serving wire center other than the normal serving wire center for the customer's premises (i.e., an alternate serving wire center). The customer must have at least one other tariff service from the same customer-designated premises to its normal serving wire center. Digital Data (a.k.a. BellSouth SPA DSO Digital Data) ASWC Arrangements are available to alternate wire centers, as determined by the Telephone Company, that are contiguous with the customer's normal serving wire center. At the alternate serving wire, Digital Data (a.k.a. BellSouth SPA DSO Digital Data) ASWC Arrangements may connect to other standard Digital Data (a.k.a. BellSouth SPA DSO Digital Data) service offerings as found in other sections of this tariff.

Digital Data (a.k.a. BellSouth SPA DSO Digital Data) ASWC Arrangement service components are comprised of a Digital Data (a.k.a. BellSouth SPA DSO Digital Data) ASWC Basic Channel and Basic Channel Mileage. The Digital Data (a.k.a. BellSouth SPA DSO Digital Data) ASWC Basic Channel provides the capacity for a single Digital Data (a.k.a. BellSouth SPA DSO Digital Data) service arrangement and includes the first one-half route mile of transport required to connect to the ASWC. The Basic Channel Mileage provides the additional transport, in additional one-half route mile increments, to connect to the ASWC. A fraction of a one-half route mile is considered as a whole one-half mile.

The Digital Data (a.k.a. BellSouth SPA DSO Digital Data) ASWC Basic Channel provides for duplex four-wire transmission of synchronous serial data and is available at transmission rates of 2.4, 4.8, 9.6, 19.2, 56.0 or 64.0 kbps, as described for Digital Data (a.k.a. BellSouth SPA DSO Digital Data) in Section 7, of this tariff.

The Basic Channel Mileage service component is applicable per service arrangement, in addition to the Digital Data (a.k.a. BellSouth SPA DSO Digital Data) Basic Channel service component.

ACCESS SERVICE

10 – Special Federal Government Access Services

10.6 Special Offering to the Federal Government

10.6.1 Type and Description (Cont'd)

(K) Intra-office Disaster Recovery Access Links

(1) General Description

- (a) Intra-office Disaster Recovery Access Links are provided to support disaster recovery associated with critical national security communications at the John C. Stennis Space Center and are available for subscription to Inter-exchange Carriers.
- (b) Intra-office Disaster Recovery Access Links will provide intra-office non-channelized transport facilities in the BellSouth Jackson Pearl Central Office (JCSNMSCPWAM) in the Jackson Mississippi LATA to connect the tariff services in (c) below to the John C. Stennis disaster recovery services using the following components:
- Intra-office Access Links¹
- DS1 Access Link
 - DS3 Access Link
- (c) The above DS1 and DS3 Access Links may connect in the Jackson Pearl Central Office with the following tariff services.
- DS1 Service (a.k.a. BellSouth SPA DS1)
 - DS3 LightGate 1 Service (a.k.a. BellSouth SPA Point to Point)

(2) Rate Regulations

A nonrecurring charge is associated with the installation of an Intra-office Disaster Recovery Access Link, and a month-to-month rate is associated with the service's facilities as set forth in (3) below.

(3) Rates and Charges

Intra-office Access Links, per Access Link

	<u>Nonrecurring Charge</u>	<u>Month to Month</u>	<u>USOC</u>
- DS1 Access Links	\$155.00	\$2.65	SGND1
- DS3 Access Links	\$155.00	\$27.83	SGND3

Note 1: These Access Links are non-channelized.

ACCESS SERVICE

10 - Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government (Cont'd)

10.6.2 Mileage Application

Mileage, when used for rate application between two customer premises, shall be determined by the V and H Coordinates Method as set forth in NATIONAL EXCHANGE CARRIER ASSOCIATION, INC., TARIFF F.C.C. No. 4 and administered as set forth in 7.4.6 preceding.

10.6.3 Application of Move Charges

- (A) When service without a maximum termination liability charge associated with it, as set forth in 10.6.4(A) and (B) following, is moved to a different building, the nonrecurring charge applies; when moved to a new location in the same building, a charge of one-half the nonrecurring charge applies.
- (B) When service with a maximum termination liability charge associated with it, as set forth in 10.6.4(A) and (B) following, is moved and is reinstalled at a new location, the customer may elect:
- to pay the unexpired portion of the maximum termination liability charge for the service, if any, with the application of a nonrecurring charge and the establishment of a new maximum termination liability charge for such service at the new location, or
 - to continue service subject to the unexpired portion of the maximum termination liability charge, if any, and pay the estimated costs of moving such service, provided that the customer requests these charges be quoted prior to ordering the service move. Charges for moving such service will be based on estimated costs attributable to the move.

Move charges include the estimated costs of removal, restoration of services or facilities necessitated by the move, transportation, storage, reinstallation, engineering, labor, supervision, materials, administration, and any other specific items of cost directly attributable to the move.

10.6.4 Rates and Charges

(A) Voice Grade Special Access (a.k.a. BellSouth SPA DSO VG) Service

The provision of T-3 and G conditioned services contemplates station and tandem switching operations, using customer provided equipment, as well as Special Access (a.k.a. BellSouth SPA) Service. Separate narrowband or voice grade (a.k.a. BellSouth SPA DSO VG) services, where required by the customer provided equipment or switching operation, are furnished in accordance with the applicable sections of this tariff.

ACCESS SERVICE

11 - Special Facilities Routing of Access Services

11.1 General

The services provided under this tariff are provided over such routes and facilities as the Telephone Company may elect. Special Facilities Routing is involved when, in order to comply with requirements specified by the customer, the Telephone Company provides BellSouth SWA service, Special Access (a.k.a. BellSouth SPA) service or Special Federal Government Access Service in a manner which includes one or more of the following conditions:

(A) Diversity

Two or more services must be provided over not more than two different physical routes.

(B) Avoidance

A service must be provided on a route which avoids specified geographical locations.

(C) Cable-Only Facilities

Certain Voice Grade (a.k.a. BellSouth SPA DSO VG) services are provided on Cable-Only Facilities to meet the particular needs of a customer.

Service is provided subject to the availability of Cable-Only facilities. In the event of service failure, restoration will be made through the use of any available facilities as selected by the Telephone Company.

Avoidance and Diversity are available on BellSouth SWA service as set forth in 6.1.4 preceding; Metallic (a.k.a. BellSouth SPA Metallic), Telegraph Grade (a.k.a. BellSouth SPA Telegraph), Voice Grade (a.k.a. BellSouth SPA DSO VG), Program Audio (a.k.a. BellSouth SPA Program Audio), Video (a.k.a. BellSouth SPA Video) and Wideband Analog (a.k.a. BellSouth SPA Wideband Analog), Wideband Data (a.k.a. BellSouth SPA Wideband Data), Digital Data Access (a.k.a. BellSouth SPA DSO Digital Data), High Capacity (a.k.a. BellSouth SPA High Capacity) services as set forth in 7.1.5 preceding and Special Federal Government Access Services as set forth in 10.6 preceding. Cable-Only Facilities are available for BellSouth SWA service as set forth in Section 6 preceding; Voice Grade (a.k.a. BellSouth SPA DSO VG) services as set forth in 7.2.3 preceding and Special Federal Government Access Services as set forth in 10.6 preceding.

In order to avoid the compromise of special routing information, the Telephone Company will provide the required routing information for each specially routed service to only the ordering customer. If requested by the customer, this information will be provided when service is installed and prior to any subsequent changes in routing.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

11 - Special Facilities Routing of Access Services (Cont'd)

11.1 General (Cont'd)

The offering of Special Facilities Routing of Access Services contemplates the use of existing facilities. Should facilities not be available, it may be necessary to construct such facilities, either as (1) normal or (2) Special Construction. If Special Construction is involved, the regulations as set forth in the BellSouth Telecommunications, Inc. Tariff F.C.C. No. 2 apply. However, the applicable rates and charges effective May 5, 1985 through July 31, 1990 are in this section of this tariff, not the Special Construction Tariff. Effective August 1, 1990, the special construction charges shall be filed in BellSouth Telecommunications Inc. Tariff FCC No. 2. In either case of (1) or (2) preceding, the rates and charges for administration and any other specific items of cost directly attributable to the provision of this service shall be filed in this section also.

The rates and charges for Special Facilities Routing of Access Services as set forth in 11.2 following are in addition to all other rates and charges that may be applicable for services provided under other sections of this tariff.

11.2 Rates and Charges

The rates and charges for Special Facilities Routing of Access Services are as follows:

ALL STATES

11.2.1 Diversity

For each service provided in accordance with 11.1(A) preceding, the rates and charges will be developed on an individual case basis and filed in 11.3 following. All Special Construction charges involved with Diversity requests shall be filed in BellSouth Telecommunications, Inc. Tariff FCC No. 2.

11.2.2 Avoidance

For each service provided in accordance with 11.1(B) preceding, the rates and charges will be developed on an individual case basis and filed in 11.3 following. All Special Construction charges involved with Avoidance requests shall be filed in BellSouth Telecommunications, Inc. Tariff FCC No. 2.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

11 - Special Facilities Routing of Access Services (Cont'd)

11.1 General (Cont'd)

11.2.3 Diversity and Avoidance Combined

For each service provided in accordance with 11.1(A) and 11.1(B) preceding, combined, the rates and charges will be developed on an individual case basis and filed in 11.3 following. All Special Construction charges involved with Diversity and Avoidance requests shall be filed in BellSouth Telecommunications, Inc. Tariff FCC No. 2.

11.2.4 Cable-Only Facilities

For each service provided in accordance with 11.1(C) preceding, the rates and charges will be developed on an individual case basis and filed in 11.3 following. All Special Construction charges involved with Cable-Only Facilities requests shall be filed in BellSouth Telecommunications, Inc. Tariff FCC No. 2.

The termination charges will be the monthly rate times the number of months between the time of disconnection and the end of the 24-month period.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

12 - Specialized Service or Arrangements

12.1 General

Specialized Service or Arrangements may be provided by the Telephone Company, at the request of a customer, on an individual case basis if such service or arrangements meet the following criteria:

- (A) The requested service or arrangements are not offered under other sections of this tariff.
- (B) The facilities utilized to provide the requested service or arrangements are of a type normally used by the Telephone Company in furnishing its other services.
- (C) The requested service or arrangements are provided within a LATA.
- (D) The requested service or arrangements are compatible with other Telephone Company services, facilities, and its engineering and maintenance practices.
- (E) This offering is subject to the availability of the necessary Telephone Company personnel and capital resources.

12.2 Application of Move Charges

- (A) When service without a maximum termination liability charge associated with it is moved to a different building, the nonrecurring charge applies; when moved to a new location in the same building, a charge of one-half the nonrecurring charge applies.
- (B) When service with a maximum termination liability charge associated with it is moved and is reinstalled at a new location, the customer may elect:
 - to pay the unexpired portion of the maximum termination liability charge for the service, if any, with the application of a nonrecurring charge and the establishment of a new maximum termination liability charge for such service at the new location, or
 - to continue service subject to the unexpired portion of the maximum termination liability charge, if any, and pay the estimated costs of moving such service, provided that the customer requests these charges be quoted prior to ordering the service move. Charges for moving such service will be based on estimated costs attributable to the move.

Description

Switched Multimegabit Data Service (SMDS) is a Special Service Arrangement to support DS1 Special Access Services for electrical interfaces with the customer's premises equipment.

These rates and charges are on a month-to-month basis. Should this service become the subject of general tariff service offering, the customer shall be required to either terminate the service or convert the service to the general tariff offering at the rates provided thereunder.

The customer must subscribe to DS1 High Capacity service as specified in Section 7. The SNI location will serve as a customer designated premises for the purpose of terminating the DS1 service at the designated SNI location determined by BellSouth Telecommunications, Inc.

Case No.: GA95-7010-01
Customer: MCI
Location: BellSouth Region

Description

This special arrangement provides for network interfaces (SSI) to connect Exchange Access Connectionless Data Service (a.k.a. BellSouth Exchange Access Connectionless Data Service) (XACDS) and the customer's network facilities.

Except as set forth below, the rates and charges provided herein are not subject to Telephone Company initiated rate changes for 60 months from the effective date of this tariff. A minimum service period of 60 months from the time of installation is required for each Network Interface (Tariff References 12.3.A.1.a. and 12.3.A.1.b.). Termination Liability Charges will apply to any of the services that are terminated by the customer prior to the completion of the 60 month minimum service period. Termination Liability Charges will be computed by multiplying the monthly recurring rate associated with the service(s) by the number of months remaining in the 60 month minimum service period.

The Service Establishment Charge is a one-time charge that will be billed to the customer.

If a general tariff offering of this service becomes available, the customer will have the option to convert, without termination liability charges, to the general service tariff offering. If the customer does not convert to that general offering, service under this arrangement will be discontinued without termination liability charges applied.

	<u>Monthly Recurring Rate</u>	<u>Nonrecurring Charges</u>	<u>USOC)</u>
SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) nodal redundancy on the same physical fiber ring at the same premise location	\$600.00	\$4,514.00	
Service Establishment Charge		\$1,286.00	

NOTES:

1. The rates and charges set forth above are stabilized for a two year period beginning with the Installation Date of Service. If the customer discontinues the service arrangement prior to the end of the two year term, termination liability will apply calculated at the monthly recurring rate shown above times the number of months remaining in the two year term. Provided, however, if a SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) nodal redundancy service becomes the subject of a general tariff offering, the customer shall have the option of converting the arrangement to the general tariff offering at the rates, charges, terms and conditions provided thereunder or discontinuing the arrangement altogether, and in either case, no termination liability under this arrangement shall apply.
2. The customer must purchase at least one (1) SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) on each of the two nodes involved from Plan A of either the Channel Services Payment Plan or the Area Commitment Plan as set forth in Sections 2.4.8(A) and (B) and 7.4.19 preceding.

Service: SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1
Customer Name: Digital Equipment Corporation
Location: Alpharetta, Georgia

NOTES:

1. This SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 Transport Service is a high capacity network service capable of providing an STS-1 transport link.
2. This SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 Transport Service provides a flat rate transport link between the customer premises located at 5555 Windward Parkway, Alpharetta, Georgia, where the network is accessed, and the Powers Ferry serving wire center. This arrangement is comprised of three service components for SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 Transport Service: the SMARTPath Area Connection; the SMARTPath Area Junction; the DS1 Customer Channel Interface.
3. The SMARTPath Area Connection provides for the connection at 5555 Windward Parkway, Alpharetta, Georgia, where the customer gains access to SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 Transport service and transport to the Powers Ferry Central Office.
4. The SMARTPath Area Junction, for SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 Transport service, provides for the connection between the SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) network and the Powers Ferry serving wire center in the same SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) Area for connection to BellSouth Customer Network Management Service.
5. The DS1 Customer Channel Interface permits the customer to aggregate individual DS1 services at a the customer premises located at 5555 Windward Parkway, Alpharetta, Georgia, and transport them over SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 Transport Service.
6. The BellSouth Customer Network Management Service STS-1 channel connection provides for the termination of a SMARTPath (a.k.a. BellSouth SPA DS1 Shared Ring) STS-1 circuit with DS1 Switching. This connection provides the customer monitoring and reconfiguration capability at the DS1 level. This charge is in addition to the rates and charges applicable to BellSouth Customer Network Management Service as found in Sections 7.4.12 and 7.5.18 preceding.
7. The minimum service period for this special arrangement is twelve (12) months. If the customer terminates service prior to the end of the 12 month service period, termination liability charges would be calculated based on the number of months remaining in the service period times all of the monthly rates applicable to this special arrangement.

12.5 Video Ring Service (Cont'd)

Customer Name: Turner Broadcasting System, Inc.
Location: Atlanta, Georgia
Case No.: GA 94-1651-04

12.5.1 Video Ring Service Description

The Telephone Company shall provide uncompressed digital video service (analog interface to the Subscriber) with four audio channels per video channel using two unidirectional fiber rings with one fiber per ring at the customer specified locations identified in Section 12.5.2 following. The Services and obligations described in this Section will be collectively referred to hereafter as "Service Requirements".

Certain network monitoring or other such Subscriber capabilities related to the Subscriber's use of the Service may require additional tariffed or other services from the Telephone Company or other providers. If the Subscriber elects to obtain such additional tariffed or other services, the Subscriber agrees to be responsible for all rates, charges and conditions for such other services.

12.5.2 Service Options

The Telephone Company shall make the Video Ring Service and the specific options described herein available to the Subscriber. The Telephone Company shall not provide battery back-up service for the Video Ring Service. The rate elements and applicable rates associated with the Service are set forth in Section 12.5 preceding.

(A) Basic Video Ring Service Arrangement

The Telephone Company shall provide nodes at the following five locations: 190 Marietta Street, 1050 Techwood Drive, 1802 Briarcliff Rd., N.E., 165 Boulevard, S.E., and 535 Plasamour Dr., N.E. Each fiber between any two nodes on the ring shall have 16 channels of capacity. Any combination of the links below can be added to the Basic Video

12.5.2 Service Options (Cont'd)

(B) Option 1 Video Ring

The Telephone Company shall provide nodes at the following three locations: 190 Marietta Street, 1050 Techwood Drive, and 72 Campbellton Road. Each fiber between any two nodes on the ring shall have 16 channels of capacity. Any combination of the links can be added to the Option 1 Video Ring so long as the addition of links does not exceed system capacity. The remaining spare channels on the ring will be available to the Subscriber by adding Codecs.

Option 1 Video Ring is only available if the Subscriber takes the Basic Video Ring Service Arrangement. From the date the Subscriber activates his Basic Video Ring Service, the Subscriber has a twenty-four month period in which to activate Option 1 Video Ring Service at the Option 1 Video rate in effect on the activation date of the Basic Video Ring Service. If the Subscriber activates the Option 1 Video Ring Service after the expiration of the twenty-four month period, the rate for Option 1 Video Ring Service shall be the rate then in effect for Option 1 Video Ring Service on the activation date of such service.

(1) The Option 1 Video Ring and Node service is provided in Atlanta, Georgia at the following locations:

(C) Option 2 Video Ring and Node

The Telephone Company shall provide an additional node at 1018 West Peachtree for the Service between the locations specified in 12.5.2(C)(1) following. All video channels will be transported via the Option 1 Video Ring.

Option 2 Video Ring can be activated by the Subscriber at the rate set forth in Section 12.5 preceding, if activation occurs within twenty-four (24) months of the activation date for the Basic Video Ring Service Arrangement. Option 2 Video Ring is only available if the Subscriber has taken the Basic Video Ring Service Arrangement and Option 1 Video Ring. Any combination of the links can be added to the Option 2 Video Ring so long as the addition of links does not exceed system capacity.

- (1) The Option 2 Video Ring and Node service is provided in Atlanta, Georgia at the following locations:

<u>FROM</u>	<u>TO</u>	<u>NUMBER OF CHANNELS</u>
1050 Techwood Drive	1018 W. Peachtree	5
1018 W. Peachtree	1050 Techwood Drive	3

12.5 Video Ring Service (Cont'd)

Customer Name: Turner Broadcasting System, Inc.
Location: Atlanta, Georgia
Case No.: GA 94-1651-04

12.5.3 Provision of the Service

The Telephone Company shall provide the Service through the use of Codecs, which are digital, 10-bit systems with four companion audio channels. The Codecs will provide for channel activation to transmit and receive video signals along the Video Ring Service. The Telephone Company shall maintain spare Codecs at 4:16 ratio that can be substituted for the Codecs used in connection with the Service in the event of equipment malfunction. The Telephone Company shall charge for feature activation based on a per encoder and per decoder rate, as set forth in Section 12.5 preceding.

12.5.4 Service Requirements

Codecs (initial as well as replacement or substitute) shall meet the Service Requirements set forth in Section 12.5.22 following.

12.5.5 Service Failure; Repair/Substitution

In the event of Service failure or out of specification performance, the Telephone Company will (assuming capacity exists in the facilities included in the Subscriber's Service) use the alternate pair of non-interconnecting, non-switched rings established for transmission.

(A) Service Failure due to Codec Failure

In the event of Codec failure or out of specification performance, assuming such capacity exists, any circuit will be placed on the alternate routing within two (2) hours after the Telephone Company is notified by the Subscriber of a Service-affecting Codec failure and receives authorization from the Subscriber to begin service repair (unless such Codec failure has been repaired prior to the expiration of such two-hour period). If the Telephone Company otherwise becomes aware of a Service-affecting Codec failure through network monitoring or otherwise, it will use its best efforts to contact the Subscriber, alert the Subscriber to the condition and request authorization to

begin such repair. If a malfunctioning Codec can not be repaired within two (2) hours after the Telephone Company receives such authorization, the Telephone Company shall within two (2) hours thereafter substitute alternate Codec equipment for the malfunctioning Codec(s).

(B) Service Failure due to Fiber Failure

In the event of fiber failure, assuming capacity exists in the facilities included in the Subscriber's Service, the Telephone Company will immediately commence action to use the alternate pair of non-interconnecting, non-switching rings established for transmission. Assuming such capacity exists, any circuit can be placed on such alternate ring(s) in case of fiber failure.

12.5.6 Codec Replacement

In addition to the substitution of spare Codecs under Section 12.5.5 receding, the Telephone Company may from time to time replace any existing Codecs supporting the Services with other Codecs that meet or exceed the requirements of the Codecs specified in Section 12.5.22 following. The Telephone Company shall provide written notice to the Subscriber prior to replacing any Codecs used to provide the Video Ring Service. In the event the Telephone Company replaces a Codec at the originating or terminating end or a channel, it shall also replace the reciprocal Codec at the terminating or originating end of that same channel, whichever is appropriate, of the affected circuit, with a Codec meeting the same or better technical parameters, but only if such replacement of the reciprocal Codec is necessary to meet the performance requirements specified on in Section 12.5.22 following.

12.5.7 Network Management Systems

The Basic Video Ring Service Arrangement shall enable the Subscriber to access an internal alarming and network management system ("NMS") through an appropriate interface provided by the Telephone Company for the Subscriber's network monitoring and reconfiguration activities. The NMS shall be capable of monitoring the activity along the entire Video Ring network, provided that the Subscriber has obtained and maintained the necessary additional data connectivity available from additional tariffed services or otherwise as set forth in Section 12.5.1 preceding. The Subscriber shall be responsible for monitoring the Video Ring network at all times, to the degree it deems necessary or desirable, and for notifying the Telephone Company of any Service failure or outage condition requiring Codec repair or substitution or other such service repair. The Telephone Company will also have certain monitoring capabilities through its Video Operations Group, which shall monitor those functions available to it during normal business hours (8:00a.m. to 5:00p.m. Monday through Friday, excluding Telephone Company holidays). While the Telephone Company shall have no obligations to perform any specific level of such monitoring, if the Telephone Company becomes aware of a Service malfunction through such network monitoring capabilities as are described in Section 12.5.8 following, it will use its best efforts to contact the Subscriber, alert the Subscriber to the condition and request authorization to begin repair. The Subscriber shall report any malfunctions or service repair needs to the Telephone Company's Video Operations Group during such normal business hours. Outside of such hours, the Subscriber shall report such conditions to the Telephone Company's Major Account Center, which shall be available for such reporting 24 hours per day, 7 days per week. Any such reports received by the Major Account Center will be forwarded to on call personnel for the Video Operations Group for handling in an expeditious manner.

12.5.8 Signal Monitoring

The Telephone Company's Video Operations Group may, during normal business hours as set forth in 12.5.7 preceding, monitor for plug-in failure and lack of signal along the Video Ring with the internal alarming and NMS. If the Telephone Company becomes aware of a Service malfunction through such signal monitoring capabilities, it will use its best efforts to contact the Subscriber, alert the Subscriber to the condition and request authorization to begin repair.

12.5.9 Outage Reporting

The Telephone Company shall immediately notify the Subscriber by telephone if it discovers any Service outage (i.e., any failure of the Services to meet the Service Requirements set forth in this tariff), through the network or signal monitoring described in Sections 12.5.7 and 12.5.8 preceding, or otherwise, and shall confirm with the Subscriber any restoration of the Service upon correction of the problem(s) causing the outage. In the event of any such outage, whether first discovered by the Subscriber or the Telephone Company, the Telephone Company shall provide the Subscriber with a written report that shall, *inter alia*, state the date, time, and length of the outage, the steps that were taken to remedy it, the alternative services (if any) that were provided during it, and the individuals at the Subscriber's office who were initially notified of the outage and who subsequently confirmed that the outage had been cured.

12.5.10 Higher Order of Service

For purposes of this Video Ring Service offering, a "Higher Order of Service" shall be defined as a video service later developed or introduced as a result of changes in technology which was not available in the industry at the beginning of the Service Period, and which shall provide additional value to the Subscriber with higher functionality and increased capacity.

12.5.11 Obligation of the Subscriber

(A) Minimum Service Requirement

The Subscriber agrees to activate a minimum of 13 channels ("Minimum Service Requirement") on the Basic Video Ring Service Arrangement and to assume responsibility for payment for at least 13 channels even if the Subscriber activates fewer than 13 channels.

(B) Customer Premises Equipment

The Subscriber shall provide compatible customer premises equipment to enable the Subscriber to utilize the Service. Such equipment shall include but not be limited to 19" relay racks, power, and hvac at the Subscriber's premises.

12.5.12 Other Terms and Conditions

(A) Service Period

The Service Period for Video Ring Service shall commence on the effective date of this tariff or on the date the Telephone Company can begin to provide such service, if said date is later (the "Effective Date").

12.5.12 Other Terms and Conditions (Cont'd)

(B) Term of Service

For the Video Ring Service at the existing locations set forth in Section 12.5.2 preceding, the minimum service period shall extend for a scheduled period of seven (7) years from the Effective Date (the "Term"). However, the Subscriber may at any time, by written notice to the Telephone Company given at least sixty (60) days prior to the proposed effective date of cancellation set forth in such notice, terminate this Video Ring Service offering effective as of the date set forth in such notice; provided that the Subscriber pays the termination charges required in connection with such early termination as set forth in Section 12.5.18(B) following. At the request of the Subscriber, on or about the second and fourth anniversary of the Effective Date, the Subscriber and the Telephone Company shall meet to discuss the then current and anticipated technical changes with respect to the Service and any technological advances in the industry.

In the event this Service becomes the subject of a general tariff service offering, Subscriber shall be required to either terminate the Service or convert the Service to the general tariff offering at the rates, terms and conditions provided thereunder. No termination charges shall apply in either instance.

12.5.12 Other Terms and Conditions (Cont'd)

(C) Credits

Failure to provide Service in accordance with the Service Requirements for any reason (an "outage") shall result in a pro rata reduction of the service charges for the Service involved ("Credit") in accordance with the provisions set forth in (1) through (3) following.

(1) General

An outage period starts when the Subscriber reports or acknowledges the outage to the Telephone Company and authorizes the Telephone Company to commence service repair as provided in Sections 12.5.5 through 12.5.9 preceding, and ends when the Service is again operative in accordance with the Service Requirements. No credit shall apply unless the Subscriber reports or acknowledges the Service outage to the Telephone Company and the trouble is found in the Telephone Company equipment based on information provided by the network surveillance system associated with the Service. Credit allowances will not apply if Service is interrupted during Subscriber-requested upgrades and/or additions to Service or during Subscriber-requested rearrangements.

(2) Computation of Credit

Credits, where applicable as set forth in 12.5.12(C) preceding, shall be computed pro rata to the monthly service charges assessed for the portions or rate elements of the Service that are interrupted or in an Outage condition. Any remaining fractional period of more than 30 seconds will be rounded up and treated as a one minute period for the purposes of computing the pro rata credit. The combined total of all credit allowance during any month shall not exceed the applicable monthly rate for the Service or rate element thereof involved. Credits shall be computed and, where applicable, paid or credited to the Subscriber approximately every six (6) months during the term hereof.

(3) Other Exclusions (Cont'd)

No credit allowance will be made for:

- (f) Periods of temporary discontinuance or interruption as set forth in the following provisions:
 - (i) The characteristics and methods of operation of any circuits, facilities or equipment provided by other than the Telephone Company and associated with the facilities utilized to provide services under this Video Ring Service offering shall not interfere with or impair service over any facilities of the Telephone Company, its affiliated companies, or its connecting and concurring carriers involved in its services, cause damage to their plant, impair the privacy of any communications carried over their facilities or create hazards to the employees of any of them or the public. Except as provided for equipment or systems subject to the F.C.C. Part 68 Rules in 47 C.F.R. Section 68.108, if such characteristics or methods of operation are not in accordance with the preceding sentence, the Telephone Company will, where practicable, notify the Subscriber that temporary discontinuance of the use of a service may be required; however, where prior notice is not practicable, nothing contained herein shall be deemed to preclude the Telephone Company's right to temporarily discontinue forthwith the use of a service if such action is reasonable under the circumstances. In case of such temporary discontinuance, the Subscriber will be promptly notified and afforded the opportunity to correct the condition which gave rise to the temporary discontinuance. During such period of temporary discontinuance, credit allowance for service interruptions is not applicable.

12.5.13 Payment Arrangements

(A) Billing for Service Charges

The Telephone Company shall bill on a current basis all charges incurred by and credits due to the Subscriber under this Video Ring Service offering attributable to Services. In addition, the Telephone Company shall bill in advance charges for all Services to be provided during the ensuing billing period. The Telephone Company will establish a bill day each month for each Subscriber account. The bill will cover charges for the ensuing billing period for which the bill is rendered, and any known unbilled charges for prior periods. Any known unbilled adjustments will be applied to this bill.

12.5.13 Payment Arrangements (Cont'd)

(B) Payment of Charges

All bills for Service provided to the Subscriber by the Telephone Company as set forth in 12.5.13(A) preceding are due on the payment due date. The payment due date is the date which is 31 days after the bill day, or by the next bill date (i.e., same date in the following month as the bill date), whichever is the shortest interval except as provided herein, and are payable in immediately available funds. If such payment due date would cause the payment to be due on a Saturday, Sunday or Holiday (e.g., New Year's Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day, and a day when Washington's Birthday, Memorial Day or Columbus Day is legally observed), payment for such bills will be due from the Subscriber as set forth in (1) following.

- (1) If such payment due date falls on a Sunday or on a Holiday which is observed on a Monday, the payment due date shall be the first non-Holiday day following such Sunday or Holiday. If such payment due date falls on a Saturday or on a Holiday which is observed on Tuesday, Wednesday, Thursday or Friday, the payment due date shall be the last non-Holiday day preceding such Saturday or Holiday.

(C) Late Fees; Payment of Disputed Amounts

If any portion of the payment is received by the Telephone Company after the payment due date as set forth in Section 12.5.12(C) preceding, or if any portion of the payment is received by the Telephone Company in funds which are not immediately available to the Telephone Company, then a late payment penalty may, at the Telephone Company's discretion, be due to the Telephone Company. The late payment penalty shall be the portion of the payment not received by the payment due date times a late factor. The late factor shall be 1% per month (.000329 per day) or 12% annually.

12.5.13 Payment Arrangements (Cont'd)

(D) Billing Disputes

- (1) In the event of a billing dispute, the Subscriber must submit a documented claim for the disputed amount. If the dispute is submitted on or before the payment due date or within 90 days after the payment due date and the disputed amount is paid prior to resolution of the dispute, any interest credits due the Subscriber upon resolution of the dispute shall be calculated from the date of the overpayment to the resolution date. If the dispute is submitted more than 90 days after the payment due date and the disputed amount is paid prior to resolution of the dispute, any interest credits due the Subscriber upon resolution of the dispute shall be calculated from the dispute date or the date the payment is made, whichever occurs later, to the resolution date. The Telephone Company will resolve the dispute and assess interest credits or late payment penalties to the Subscriber as set forth in (2) through (7) following.
- (2) If the dispute is resolved in favor of the Telephone Company and the Subscriber has paid the disputed amount on or before the payment due date, no credits or late payment penalties will apply to the disputed amount. If the dispute is resolved in favor of the Telephone Company and the Subscriber has withheld the disputed amount, any payments withheld pending settlement of the dispute shall be subject to the late payment penalty as set forth in (1) preceding.
- (3) If the dispute is resolved in favor of the Subscriber and the subscriber has withheld the disputed amount, no credits or late payment penalties will apply to the disputed amount. If the dispute is resolved in favor of the Subscriber and the Subscriber has paid the disputed amount, the Subscriber will receive a credit from the Telephone Company for the disputed amount times a penalty factor (computed in the same fashion as late payment fees for the Subscriber as set forth in 12.5.13(D) preceding). The penalty factor shall be 1% per month (.000329 per day) or 12% annually.

(D) Billing Disputes (Cont'd)

- (4) Adjustments for the quantities of Services established or discontinued in any billing period beyond the minimum period set forth for Services in other sections of this Video Ring Service offering will be prorated based on the number of days the Subscriber had Service during the billing period times 1/30th the monthly rate. Billing for Service begins on the day following the date of installation and shall accrue through and including the day Service is discontinued. The Telephone Company will, upon request and if available, furnish such detailed information as may reasonably be required for verification of any bill, including information relative to the development of the subscriber line ratio.
- (5) The dispute date is the date the Subscriber presents sufficient documentation to support the claim. Sufficient documentation consists of the following information, where such information is relevant to the dispute and reasonably available to the Subscriber:
 - (a) The nature of the dispute (i.e., incorrect rate, incorrect circuit type, etc.), including the basis for the Subscriber's belief that the bill is incorrect.
 - (b) The billing account number(s) assigned by the Telephone Company.
 - (c) The amount of money in dispute.
 - (d) The date of the bill in dispute.

(D) Billing Disputes (Cont'd)

- (6) The Telephone Company and the Subscriber shall work cooperatively to resolve the dispute. If additional information from the Subscriber would assist in resolving the dispute, the Subscriber may be requested to provide additional information relevant to the dispute and reasonably available to the Subscriber. The request for such additional information shall not affect the dispute date as set forth in (5) preceding.
- (7) The resolution date is the date on which the Telephone Company completes the investigation of the dispute, and the Telephone Company's service representative notifies the Subscriber of the disposition and notes the Subscriber's account or when the Telephone Company forwards the amount of credit to the Subscriber, depending upon Subscriber preference.

12.5.14 Termination of Existing Telephone Company Service

It is recognized that the Subscriber may determine that it is desirable to migrate from existing Telephone Company services to the service offerings described in this Video Ring Service offering. To the extent that the existing tariffs or special assembly agreements for these services provide for waiver of termination charges or other charges for the migration from these services to future Telephone Company services, nothing in this Video Ring Service offering is intended to modify these waiver provisions.

12.5.15 Suspension of Service

- (A) In the event payment in full is not received from the Subscriber on or before sixty (60) days following the date that payment is due, then: after giving the Subscriber fifteen (15) business days written notice, the Telephone Company shall have the right to suspend the specific Service for which payment has not been received; (ii) upon subsequent fifteen (15) business days written notice, the Telephone Company shall have the right to suspend Service along any and all of the remaining paths comprising the Services; and (iii) in either event, the Telephone Company shall have the right to continue such suspension until such time as the Subscriber has paid in full all charges then due, including any late fees as specified herein. If the Subscriber fails to make such payment by a date to be determined by and acceptable to the Telephone Company, as to which the Subscriber has been notified in writing at least fifteen (15) business days in advance, the Subscriber will be deemed to have canceled the suspended Service effective on the date of such suspension.
- (B) If the Subscriber fails to comply with its obligations with respect to the Service, including any payments to be made by it on the dates and times herein specified, then on thirty (30) days written notice by Certified U.S. Mail to the person designated by the Subscriber to receive such notices of noncompliance, the Telephone Company may refuse additional applications for Service and/or refuse to complete any pending orders for Service by the Subscriber at any time thereafter. If the Telephone Company does not refuse additional applications for Service on the date specified in the thirty (30) days notice, and the Subscriber's noncompliance continues, nothing contained herein shall preclude the Telephone Company's right to refuse additional applications for Service to the Subscriber without further notice.

12.5.15 Suspension of Service (Cont'd)

- (C) If the Subscriber fails to comply with any of its obligations with respect to the Service, other than payment of sums due which are covered in (A) preceding, the Telephone Company may, on thirty (30) days written notice by Certified U.S. Mail to the person designated by the Subscriber to receive such notices of noncompliance, discontinue the provision of the Services to the Subscriber at any time thereafter. In the case of such discontinuance, all applicable charges, including termination charges as set forth in (D) following shall become due. If the Telephone Company does not discontinue the provision of the Services involved on the date specified in the thirty (30) days notice, and the Subscriber's noncompliance continues, nothing contained herein shall preclude the Telephone Company's right to discontinue the provision of the Services to the Subscriber without further notice.
- (D) For cancellations or termination of this Video Ring Service offering or the Service by the Telephone Company under this Section 12.5.15, the termination charges payable by the Subscriber shall be computed and payable in the manner set forth in Section 12.5.18(B) following, except that the applicable percentage shall be 100% of the remaining balance of the charges for the Service for the remainder of the originally-scheduled minimum term in all cases. Such termination charges (together with any other then due but unpaid amounts owing from the Subscriber) shall be the Telephone Company's sole remedy against the Subscriber for claims relating solely to the premature cancellation of the Service (but this provision shall have no effect on any other right or remedy of the Telephone Company for other claims or damages, including by way of example but not limitation such claims as damage to or theft of Telephone Company equipment or facilities, which the Telephone Company may have in connection with the Subscriber's use of the Services or any breach or default by the Subscriber).

12.5.16 Cancellation Prior to Completion of Installation

If the Subscriber cancels this order for Service prior to the completed installation of the Service, the Subscriber shall pay all reasonable costs incurred in the implementation of the Service prior to receipt of written notice of cancellation by the Telephone Company. Notwithstanding the foregoing, such reasonable costs shall not exceed all costs which would apply if the work in the implementation of this Video Ring Service offering had been completed by the Telephone Company.

12.5.17 Termination by Subscriber for Cause

(A) Failure of Service to Meet Requirements

If the Services fail to conform to the Service Requirements set forth in Section 12.5.1 preceding (which, for the purposes of this Section, shall mean that Service outages occur and remain unremedied beyond the applicable time periods set forth in Section 12.5.1 preceding for the completion of repair or substitution activities by the Telephone Company for reasons not attributable to the Subscriber or causes beyond the Telephone Company's control such as force majeure) either (i) continuously for five (5) minutes; (ii) cumulatively for thirty (30) minutes during any consecutive thirty (30) day period, or (iii) cumulatively for two (2) hours during any consecutive twelve (12) month period, then the Subscriber may terminate this Video Ring Service arrangement and the Service without payment of termination charges otherwise payable under Section 12.5.18(B) following provided that the Subscriber gives written notice to Telephone Company of such termination within ten (10) days after such failure of the Service to satisfy the Service requirements as set forth above. Any such termination shall be effective thirty (30) days following the date of such notice.

12.5.17 Termination by Subscriber for Cause (Cont'd)

(B) Unavailability of Higher Order of Service

In the event that the Subscriber desires to subscribe to a Higher Order of Service, as defined in Section 12.5.10 preceding, and after reasonable efforts by the Telephone Company to evaluate the feasibility of offering such new service the Telephone Company decides not to offer such Higher Order of Service, the Subscriber has the option to terminate this Video Ring Service arrangement and the Service for unavailability of such Higher Order of Service, by written notice to the Telephone Company within thirty (30) days after the Telephone Company's notice to the Subscriber of its decision not to offer such service, for payment of the termination charges set forth in Section 12.5.18(B) following, except that the applicable percentage shall be 10% (rather than 50%) of the remaining balance of the charges for the Service for the remainder of the originally-scheduled minimum term beyond the initial three (3) year period described therein.

12.5.18 Termination Charges

(A) Transition to Higher Order of Service

In the event that the Subscriber elects to receive from the Telephone Company a Higher Order of Service, as such term is defined in Section 12.5.10 preceding, no termination liabilities shall apply when:

- (1) The Subscriber has subscribed to the existing Service for a period of twelve (12) months, or 25% of the length of the originally selected Service Period, whichever is greater, and

12.5.18 Termination Charges (Cont'd)

(A) Transition to Higher Order of Service (Cont'd)

- (2) The Service Period of the new Video Ring Service arrangement for the Higher Order of Service is equal to or longer than the remaining Service Period of the disconnected Video Ring Service, and
- (3) The service orders to install the new Higher Order of Service and disconnect the old Service are related together and received by the Telephone Company at the same time, and there is no lapse in Service between installation of the Higher Order of Service and disconnection of the existing Service, and
- (4) All of the Service under the Video Ring Service offering is converted to the Higher Order of Service, and the capacity of the Higher Order of Service is equal to or greater than the previous existing Service.

(B) Termination by the Subscriber Without Cause

If the Subscriber cancels this Video Ring Service, through the exercise of its rights as set forth in Section 12.5.12(B) preceding, or otherwise (except pursuant to Sections 12.5.17 or 12.5.18(A) preceding), at any time prior to the expiration of the originally scheduled Term of the Video Ring Service, the Subscriber shall be responsible for all termination charges as set forth below, based upon the effective date of such cancellation as follows:

12.5.18 Termination Charges (Cont'd)

(B) Termination by the Subscriber Without Cause (Cont'd)

<u>If the date of</u> <u>cancellation is:</u>	<u>then the applicable</u> <u>termination charge is:</u>
3 years or less after the Effective Date	100% of the remaining balance of charges for the period remaining until the third anniversary of the Effective Date, plus 50% of the remaining balance of charges through the end of the originally-scheduled Term
more than 3 years after the Effective Date	50% of the remaining balance of charges

For the purpose of this computation, the remaining balance of charges is defined as the total of charges for the level or elements of Service then in existence at the time of cancellation (or the minimum required level or elements of Service, if greater) that would be payable for the remainder of the required minimum Service Term if such cancellation had not occurred. Such termination charges shall be payable either (i) in equal monthly installments for the remainder of the scheduled Term, or (ii) within thirty (30) days after cancellation in a lump sum payment.

12.5.19 Warranty; Limitations on Liability

- (A) The Telephone Company warrants that the Service shall be provided to the Subscriber in accordance with the Service Requirements, subject to the limitations set forth in Section 12.5.1 et. seq.. The Telephone Company shall use reasonable best efforts under the circumstances to remedy any delays, interruptions, omissions, mistakes, accidents or errors in the Service and restore such Service to comply with the terms hereof. The foregoing warranty is exclusive and in lieu of all other warranties, whether express, implied or statutory, including without limitation implied warranties of merchantability and fitness for a particular purpose. In the event of any breach of the provisions set forth in Section 12.5.1 et. seq. arising out of the gross negligence or willful misconduct of the breaching party, the breaching party shall be liable to the non-breaching party for direct and actual damages only and shall not be liable under any circumstances for incidental, consequential, special or punitive damages, or for any lost profits of any kind or nature whatsoever. For any other breach of this Video Ring Service offering, the Telephone Company's liability shall not exceed an amount equal to the proportionate charge for the service for the period during which the service was affected by such breach. In the event of any breach of the provisions set forth in Section 12.5.1 et. seq., the liability of the Telephone Company under this paragraph shall be in addition to and not in lieu of any credit to which the Subscriber may be entitled pursuant to Section 12.5.12(C) preceding.
- (B) The Telephone Company shall not be liable for any act or omission of any other carrier or customer providing a portion of a service, nor shall the Telephone Company for its own act or omission hold liable any other carrier or customer providing a portion of a service.
- (C) The Telephone Company is not liable for damages to the Subscriber premises resulting from the furnishing of a service, including the installation and removal of equipment and associated wiring, unless the damage is caused by the Telephone Company's negligence.

12.5.20 Indemnification

Subject to the limitations and exclusions set forth in this Video Ring Service offering, each party shall indemnify and hold harmless the other and the other's officers, directors, employees, agents or contractors against and from any and all claims and liabilities for (i) physical property damage, physical personal injury or wrongful death and (ii) infringement of any United States patent, trade name, trademark, service mark, copyright or trade secret enforceable in the United States belonging to any other person or entity, arising out of the negligent or wrongful acts or omissions of the respective indemnifying party, its officers, directors, employees, agents or contractors in connection with the provision or use of Services or other performance pursuant to this Video Ring Service offering. In the event that thir parties should use or be affected by the Service as used by the Subscriber, the Subscriber shall indemnify and hold harmless the Telephone Company from and against any claims by third parties for damages arising or resulting from any defect in or failure to provide the Service or any other aspect of the Subscriber's use of the Service. The indemnifying party agrees to defend the indemnified party against the claims as set forth above and to pay all reasonable litigation costs, attorney's fees, court costs, settlement payments, and any damages awarded or resulting from such claims, provide that the indemnified party (i) promptly notifies the indemnifying party of the existence of such claim, (ii) permits the indemnifying party to control the defense of such claim, (iii) provides the indemnifying party with reasonable assistance in defending against such claim, at the indemnifying party's expense, and (iv) does not make any admission of liability or enter into or make any settlement, payment or other compromise of such claim without the prior written approval of the indemnifying party (which approval shall not be unreasonably withheld or delayed).

12.5.21 Other Miscellaneous Provisions

(A) Entire Video Ring Service Offering

- (1) This Video Ring Service offering constitutes a complete statement of the understanding between the Telephone Company and the Subscriber and supersedes all proposals (oral or written) between the Telephone Company and the Subscriber relating to Service. Any addition, deletion or modification to the terms and conditions contained in this Video Ring Service offering shall be included in appropriate documentation between the Telephone Company and the Subscriber. In the event any provision of this Video Ring Service offering conflicts with any applicable statute, rule or order of any governmental unit or regulatory body, then such statute, rule or order shall control. The provisions of the Telephone Company's tariff in effect from time to time and applicable to its services generally shall also apply to the Service provided under this Video Ring Service offering unless and except to the extent this Video Ring Service offering contains express provisions specifically in conflict therewith (in which case the express provisions of this Video Ring Service offering shall control to the extent permitted by applicable law.
- (2) If any such statute, rule or order should materially and adversely affect either party's ability to perform its obligations under this Video Ring Service offering, the Telephone Company and the Subscriber agree to notify each other of such statute, rule or order and, to the extent permitted thereby, to negotiate for a period of up to one hundred and twenty (120) days from the date of such notification to amend this Video Ring Service offering to incorporate terms and conditions that are legally acceptable yet retain the spirit of this Video Ring Service offering and are reasonably

acceptable to both parties. If the parties fail to reach agreement on such an amendment within such 120 day period, either party may terminate this Video Ring Service offering by written notice to the other within thirty (30) days after the end of such period, without incurring any liability for termination charges or otherwise for such cancellation. If Service is not provided during all or any portion of either such 120 day or 30 day period described in this Section, the Subscriber shall not be charged for Service during any portion of either such period during which Service is not provided.

(B) Notices

Except as otherwise provided in this Video Ring Service offering, notices required to be given pursuant to this Video Ring Service offering shall be effective when received, and shall be sufficient if given in writing, hand delivered or United States mail, postage prepaid, addressed to the appropriate party at the address designated by the Telephone Company and by the Subscriber. Notices may be given by facsimile transmission but shall be effective only upon receipt of such transmission and only if receipt is confirmed in writing (by return fax or otherwise) by the receiving party. Either party hereto may change the name and address to whom all notices or other documents required under this Video Ring Service offering must be sent at any time by giving written notice to the other party.

(C) Assignment

Neither the Subscriber nor the Telephone Company may assign its rights or obligations hereunder without the express written consent of the other party; provided, however, (i) the Subscriber may assign, without obtaining the consent of the Telephone Company, any or all of its rights or obligations hereunder to any affiliate or subsidiary of the Subscriber or to any entity with which the Subscriber may merge or which may acquire all or substantially all of the assets of the Subscriber, and (ii) the Telephone Company may assign, without obtaining the consent of the Subscriber, any or all of its rights or obligations hereunder to any affiliate or subsidiary of the Telephone Company or to any entity with which the Telephone Company may merge or which may acquire all or substantially all of the assets of the Telephone Company, or to any entity to which such assignment is ordered or approved by any court, regulatory agency or other governmental body.

(D) Confidentiality

The Telephone Company and the Subscriber shall hold in confidence any information that one party notifies the other in writing as being confidential or proprietary, and that the notified party may learn from the other in the course of performing its obligations hereunder. Notwithstanding the foregoing, disclosure, under appropriate conditions of confidentiality and on a need to know basis, shall be permitted to a party's auditors, attorneys, lenders, insurance agents and proposed and actual successors in interest. Disclosures required by law shall also be permitted, provided, that the party making such disclosure uses all reasonable efforts to do so on a confidential basis. Notwithstanding the foregoing, information shall not be considered confidential which was previously known to the receiving party, is or becomes publicly available or is developed independently by the receiving party.

12.5.21 Other Miscellaneous Provisions (Cont'd)

(E) No Partnership

The provision of the Service shall not create a partnership or joint venture between the Telephone Company and the Subscriber.

(F) Severability

In the event that one or more of the provisions contained in this Video Service Ring offering or incorporated within by reference shall be held by final order of a court of competent jurisdiction to be invalid, illegal or unenforceable in any respect under any applicable statute, regulatory requirement or rule of law, then such provision(s) shall be considered inoperative to the extent of such invalidity, illegality or unenforceability and the remainder of this Video Ring Service offering shall continue in full force and effect.

(G) Force Majeure

If either the Telephone Company's or the Subscriber's performance of this Video Ring Service offering or any obligation hereunder is prevented, restricted or interfered with by causes beyond its reasonable control including, but not limited to, acts of God, fire, explosion, vandalism, cable cut, storm, earthquakes, volcanic action, nuclear accidents, other major environmental disturbances, or other similar occurrence, any law, order, regulation, direction, action or request of the United States Government or state or local governments,

or of any department, agency, commission, court, bureau, corporation or other instrumentality of any one or more of said governments, or of any civil or military authority, or by national emergencies, insurrections, riots, wars, terrorist acts, strikes, power blackouts, inability to secure products or services of other persons or transportation facilities, or other such causes, then such party shall be excused from such performance to the extent of such prevention, restriction or interference. Such party shall use reasonable efforts under the circumstances to avoid and remove such causes of non-performance and shall proceed to perform with reasonable dispatch whenever such causes cease.

(H) Waiver

The failure of the Telephone Company or the Subscriber to insist upon strict performance of any obligation hereunder shall not constitute a waiver of such party's right to demand strict compliance therewith in the future.

(I) Singular/Plural

Whenever required by the context, the use of the singular form shall be deemed to include the plural, and the use of the plural form shall be deemed to include the singular.

(J) No License Granted

No license under patents (other than the limited license to use) is granted by the Telephone Company or the Subscriber or shall be implied or arise by estoppel, with respect to any Service offered under the Video Ring Service offering.

ACCESS SERVICE

13 - Additional Engineering, Additional Labor and Miscellaneous Services

In this section normally scheduled working hours are an employee's scheduled work period in any given calendar day (e.g., 7:00 a.m. to 4:00 p.m.) for the application of rates based on working hours.

13.1 Additional Engineering

Additional engineering will be provided by the Telephone Company at the rates set forth in 13.1.1 when:

- (A) A customer requests additional technical information after the Telephone Company has already provided the technical information normally included on the Design Layout Report (DLR) as set forth in 6.1.5 and 7.1.6 preceding.

The Telephone Company will notify the customer that additional engineering charges, as set forth in 13.1.1 following, will apply before any additional engineering is undertaken. These charges apply per Telephone Company employee performing billable work at the customer's request. The sum of the time is used to determine the number of 30-minute increments to be billed. Only one initial increment is to be billed per request.

- (B) A customer requests BellSouth Expanded Interconnection service under the terms specified in Section 20 of this Tariff.

These charges apply per Telephone Company employee performing billable engineering work associated with the provision and maintenance of the requested BellSouth Virtual Expanded Interconnection arrangement. The sum of the time is used to determine the number of 30-minute increments to be billed. Only one initial increment is to be billed per work project.

(This page filed under Transmittal No. 1)

All BellSouth marks contained herein and as set forth in the trademarks and servicemarks section of this Tariff are owned by BellSouth Intellectual Property Corporation.

ACCESS SERVICE

13 - Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

13.2 Additional Labor (Optional Priority Installation and Repair Service)

Additional labor is that labor requested by the customer on a given service and agreed to by the Telephone Company or when the customer requests BellSouth Expanded Interconnection service and the Telephone Company must perform installation and/or acceptance testing activities as set forth in 13.2.1 through 13.2.5 following. The Telephone Company will notify the customer that additional labor charges as set forth in 13.2.6 following will apply before any additional labor is undertaken. The labor charges apply per Telephone Company employee performing billable work at the customer's request. The sum of the time is used to determine the number of 30-minute increments to be billed. Only one initial increment is to be billed per request. A request for additional labor by a Telephone Company employee at a time not consecutive with the employee's scheduled work period is subject to a minimum charge of three hours.

13.2.1 Overtime Installation

Overtime installation is that Telephone Company installation effort outside of normally scheduled working hours.

13.2.2 Overtime Repair

Overtime repair is that Telephone Company maintenance effort performed outside of normally scheduled working hours.

13.2.3 Stand By

Stand by includes all time in excess of one-half (1/2) hour during which Telephone Company personnel stand by to make cooperative tests with a customer to verify facility repair on a given service.

13.2.4 Testing and Maintenance with Other Telephone Companies

Additional testing, maintenance or repair of facilities which connect to facilities of other telephone companies, which is in addition to normal effort required to test, maintain or repair facilities provided solely by the Telephone Company.

13.3 Miscellaneous Services

13.3.1 Maintenance of Service

- (A) When a customer reports a trouble to the Telephone Company for clearance and no trouble is found in the Telephone Company's facilities, the customer shall be responsible for payment of a Maintenance of Service charge.

Failure of Telephone Company personnel to find trouble in Telephone Company facilities will result in no charge if the trouble is actually in those facilities, but not discovered at the time.

- (B) The customer shall be responsible for payment of Maintenance of Service charge for all maintenance/repair work performed by the Telephone Company in connection with its BellSouth Expanded Interconnection offering.
- (C) The customer shall be responsible for payment of a Maintenance of Service charge when the Telephone Company dispatches personnel and the trouble is in equipment or communications systems provided by other than the Telephone Company or in detariffed CPE provided by the Telephone Company.
- (D) The Maintenance of Service charge applies for the period of time from when Telephone Company personnel are dispatched to when the work is completed. When more than one employee is dispatched the sum of the time is used to determine the number of 30-minute increments to be billed. Only one initial increment is to be billed per request. A request resulting in the dispatch of a Telephone Company employee at a time not consecutive with the employee's scheduled work period is subject to a minimum charge of three hours.

In either (A) or (B) preceding, no credit allowance will be applicable for the interruption involved if the Maintenance of Service charge applies.

13.3.3 BellSouth Equal Access Subscription

(A) Description

(1) Subscription

Subscription is a procedure whereby an end user for Telephone Exchange Service lines and/or trunks or a location provider or its authorized agent for pay telephones may select and designate to the Telephone Company an IC to access for interLATA, interstate calls without dialing an access code. This IC is referred to as the end user's or location provider's or authorized agent's preferred IC and is defined by a unique Carrier Identification Code (CIC) shown on the customer service record.

Should a customer wish to use other services of the same or another IC, it will be necessary for the customer to dial the necessary access code(s) to reach that IC's other service(s).

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

13 - Additional Engineering, Additional Labor and Miscellaneous Services
(Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.3 BellSouth Equal Access Subscription (Cont'd)

(A) Description (Cont'd)

The IC shall submit an order for all end offices subtending an access tandem indicating whether 1+ traffic from its subscribed pay telephones shall be routed to itself (as direct IC) or to another IC (as transport carrier). Recordings with alternate dialing instructions are not acceptable. If calls are to be routed to a transport carrier, the 0+ IC must provide written authorization certifying that the order is being submitted pursuant to an agreement with the transport carrier. Only one transport carrier may be indicated for each access tandem.

If the IC designated as the primary IC for 0+ and 00- traffic does not submit an order designating the transport carrier for 1+ traffic for pay telephones at all end offices subtending an access tandem, the 1+ traffic for that office will continue to be routed to the existing 1+ carrier until the subscribed 0+ carrier is ready to handle the 1+ sent-paid traffic, or makes arrangements with another IC to handle the traffic.

13.3.3 BellSouth Equal Access Subscription (Cont'd)

(B) Discrepancy in Subscription (Cont'd)

(1) (Cont'd)

ICs involved in changes will be notified by the weekly activity report via paper format or mechanized interface in Network Operations Forum (NOF) format.

(2) The IC will be assessed the subscription change charge as specified in 13.3.3(E) following, when an alleged unauthorized change has been reported by the end user or location provider or its authorized agent.

(C) BellSouth Equal Access Subscription Charge Application

(1) New end users or new location providers or their authorized agent will be asked to select a preferred IC at the time they place an order with the Telephone Company for Telephone Exchange Service, or pay telephone service. There will be no charge for this initial selection. The nonrecurring charge for any subsequent change is as set forth in 13.3.3(E) following.

ISSUED: JUNE 16, 2011

13.3 Miscellaneous Services (Cont'd)

13.3.3 BellSouth Equal Access Subscription (Cont'd)

(C) BellSouth Equal Access Subscription Charge Application (Cont'd)

(1) (Cont'd)

This charge is billed to the end user which is the subscriber to the Telephone Exchange Service or to the location provider or its authorized agent of pay telephones, except as set forth in the Commission's Allocation Plan when such charge(s) will be billed to an IC. At the option of the IC, this charge may be billed to the IC instead of the end user.

(2) On-Line Transfer service is available to ICs for the purpose of assisting ICs and customers in the establishment of the end user's or location provider's or its authorized agent's account. This service is not applicable when the end user initiates a request via the internet. Once the end user or location provider or its authorized agent selects a preferred IC, the Telephone Company representative will provide the end user or location provider or its authorized agent with the preferred IC's 800 telephone number. If the preferred IC participates in On-Line Transfer Service, the end user or location provider or its authorized agent will have the option of being transferred directly to the preferred IC.

On-Line Transfer service will not be available to end users or location providers or their authorized agents when the end users or location providers or their authorized agents have selected a preferred IC for intraLATA subscription, and a preferred IC for interLATA subscription and the preferred ICs are not the same IC, and both ICs participate in the On-Line Transfer service.

Furthermore, when the Telephone Company uses third party verification to confirm its selection as local or intraLATA toll service provider, On-Line Transfer service will not be available.

13.3.3 BellSouth Equal Access Subscription (Cont'd)

(C) BellSouth Equal Access Subscription Charge Application (Cont'd)

(2) (Cont'd)

(a) On-Line Transfer service is available in all states within the Telephone Company's operating territory. On-Line Transfer service may be ordered through a service agreement submitted to the Telephone Company. The service must be ordered on a state basis.

(b) The Telephone Company representative will make one attempt to transfer the end user or location provider or its authorized agent to the preferred IC. When the transfer is completed and the Telephone Company's representative receives one audible ring, the representative will disconnect from the call. If a busy line of circuit busy is encountered, the end user or location provider or its authorized agent will be instructed to dial the 800 telephone number, previously provided, at a later time.

The preferred IC will be billed applicable charges for the transfer as provided in 13.3.3(E), following.

(c) The preferred IC must comply with the following guidelines:

i. The preferred IC must provide a dedicated 800 number for the end user or location provider or its authorized agent transfer.

ii. On-Line Transfer service calls must be processed on a first priority basis, i.e. 95% of all calls transferred must be answered by the preferred IC within 30 seconds.

iii. The preferred IC must process transferred calls within six minutes.

(d) The preferred IC must provide written notification thirty days prior to discontinuance of this service.

(3) If an IC elects to discontinue BellSouth SWA FGD or BellSouth SWA TSBA 3 service, the IC is obligated to contact, in writing, all end users or location providers or their authorized agents who have selected, or were allocated to, the canceling IC as their primary IC. The IC must inform the end user or location provider or its authorized agent within 90 (ninety) days that they are canceling their BellSouth SWAFGD or BellSouth SWA TSBSA 3 service; request that the end user or location provider or its authorized agent select a new IC with 30 (thirty) days; and state that the canceling IC will pay the change charge.

13.3.3 BellSouth Equal Access Subscription (Cont'd)

(C) BellSouth Equal Access Subscription Charge Application (Cont'd)

(3) (Cont'd)

For a period of two years from the date of BellSouth SWA FGD or BellSouth SWA TSBSA 3 discontinuance, the IC discontinuing service will be responsible for paying the change charge for any of its designated end users or location providers or its authorized agents.

- (4) The Telephone Company will waive the applicable subscription change charge to the end user or location provider or its authorized agent when the end user or location provider or its authorized agent has been incorrectly assigned.

(5) Interexchange Carrier Pays Billing Option

The Interexchange Carrier Pays (IC Pays) Billing Option is an option that permits an Interexchange Carrier to be charged by the Telephone Company for their end user's PIC change charge when the Telephone Company changes an end user's primary IC assignment.

The PIC change may either be requested via an IC-provided end user or agent list submitted in the Customer Account Record Exchange (CARE) format (IC Pays – Carrier Initiated) or by the end user customer directly to the Telephone Company (IC Pays – Customer Initiated).

ICs that subscribe to "IC Pays – Carrier Initiated" have the option to redirect billing of the PIC change on a case by case basis.

For ICs that subscribe to "IC Pays – Customer Initiated", all billing of end user PIC changes to the IC's CIC (and at the IC's option, changes from the IC's CIC to "No PIC") initiated through the Telephone Company will be redirected to the IC.

The IC submitting the PIC change must sign an IC Pays Billing Option agreement with the Telephone Company for either of the IC Pays Billing Options to apply.

When these conditions have been met, the end user customer will not be assessed the Subscription Change charge for the PIC change. The IC participating in the IC Pays Billing Option will be charged the Subscription change charge per line or trunk as set forth in (E), following.

(D) The nonrecurring charge for a change in subscription and the charges for On-Line Transfer Service are as follows:

- a. Manual – Manually handled PIC changes are initiated via direct customer contact from End User customers to their appropriate BellSouth Service Center. Service orders with PIC change requests received from End User customers will receive a manual PIC change charge per request. Manual subscriber order lists submitted to the Equal Access Service Center (EASC) require resources in the EASC to handle these requests and are assessed a manual PIC change charge.
- b. Mechanized – The IC may initiate mechanically generated PIC change requests via available BellSouth ordering systems.

(D) (Cont'd)

Simultaneous PIC Changes (PIC and LPIC changes) Simultaneous PIC changes are when either the End User customer or the IC changes both the PIC and LPIC and the IC is the same for both the PIC and LPIC, made at the same time (period of time/day), on the same service order.¹

Note 1: When a end user requests one IC for their PIC and another IC for their LPIC, the order is not a simultaneous change. If two ICs issue an order for the same end user customer on the same day and one IC is the end user's PIC and one IC is the end user's LPIC, the order is not considered a simultaneous change as two unrelated service orders are issued independently.

13.3.4 Standard Jacks - Registration Program

Standard jacks are provided by the Telephone Company to connect Registered Equipment to those services that are subject to the Registration Program as set forth in Technical Reference Publication AS No. 1. The use of jacks is covered in Part 68 of the F.C.C.'s Rules and Regulations. Specific jacks are described in the document on file with the FCC entitled "Descriptions of Standard Registration Program Connection Configurations Supplementing Configurations Described in Subpart F of Part 68 of the FCC's Rules and Regulations."

These jacks are used to terminate services provided by the Telephone Company. Other services or facilities provided by the Telephone Company or by others may also be terminated in any spare capacity of the jacks remaining after installation without additional charge for the use of such capacity.

The nonrecurring charges, which include installation, for standard jacks and their typical uses are set forth following:

13.3.5 Testing Services

Testing Services offered under this section of the tariff are optional and subject to rates and charges as set forth in 13.3.5(C) following. Other testing services provided by the Telephone Company in association with Access Services are furnished at no additional charge. These other testing services are described in 6.1.6 and 7.1.7 preceding.

Testing services are normally provided by Telephone Company personnel at Telephone Company locations. However, provisions are made in (A)(5) and (B)(2) following for a customer to request Telephone Company personnel to perform testing services at the customer's premises.

Testing charges which are time sensitive apply per Telephone Company employee performing billable work at the customer's request. The sum of the time is used to determine the number of 30-minute increments to be billed. Only one initial increment is to be billed per request. A request for additional labor by a Telephone Company employee at a time not consecutive with the employee's scheduled work period is subject to a minimum charge of three hours.

ACCESS SERVICE

13 - Additional Engineering, Additional Labor and Miscellaneous Services
(Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.5 Testing Services (Cont'd)

The offering of Testing Services under this section of the tariff is made subject to the availability of the necessary qualified personnel and test equipment at the various test locations mentioned in (A), (B) and (C) following.

In addition to the testing services listed below, Performance and Fault Management Service (PFMS) will also be made available to the customer on an individual case basis. PFMS is a mechanized presentation system which allows customers to perform specific surveillance and trouble isolation functions through interfaces to specific BellSouth operational support systems.

PFMS is BellSouth's name for the BSEs listed in the ONA Services User Guide as "Real Time Access to Exchange Network Testing Facilities" and "Pass Through Diagnostics to User".

(A) BellSouth SWA Service

Testing Services for BellSouth SWA are comprised of (a) tests which are performed during the installation of a BellSouth SWA service, and (b) tests which are performed after acceptance of such access services by a customer, i.e., in-service tests. These in-service tests may be further divided into two broad categories of tests: scheduled and nonscheduled.

Scheduled tests are those tests performed by the Telephone Company on a regular basis, e.g., monthly, which result in the measurement of BellSouth SWA service. Scheduled tests may be done on an automatic basis (no Telephone Company or customer technicians involved), on a cooperative basis (Telephone Company technician(s) involved at Telephone Company office(s) and customer technician(s) involved at customer's premises), or a manual basis (Telephone Company technician(s) involved at Telephone Company office(s) and at customer's premises).

Nonscheduled tests are performed by the Telephone Company "on demand", which result in the measurement of BellSouth SWA services. Nonscheduled tests may involve Telephone Company technicians at Telephone Company offices and at the customer's premises.

(Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.5 Testing Services (Cont'd)

(A) BellSouth SWA Service (Cont'd)

(1) Additional Cooperative Acceptance Testing

Additional Cooperative Acceptance Testing (ACAT) of BellSouth SWA service involves the Telephone Company provision of a technician at its office(s) and the customer provides a technician at its premises, with suitable test equipment to perform the required tests.

Additional Cooperative Acceptance Tests may, for example, consist of the following tests:

- . Impulse Noise
- . Phase Jitter
- . Signal to C-Notched Noise Ratio
- . Intermodulation (Nonlinear) Distortion
- . Frequency Shift (Offset)
- . Envelope Delay Distortion
- . Dial Pulse Percent Break

(2) Automatic Scheduled Testing

Automatic Scheduled Testing (AST) of BellSouth SWA services (BellSouth SWA FGC, BellSouth SWA FGD, BellSouth SWA TSBSA 2 and BellSouth SWA TSBSA 3), where the customer provides remote office test lines and 105 test lines with associated responders or their functional equivalent, will consist of monthly loss and C-message or C-notched noise tests. However, the customer may specify a greater number of tests. In addition to the loss and noise tests, the IC may also order, at additional charges, gain-slope and balance testing.

The Telephone Company will provide a monthly AST report that lists the test results for each trunk tested. Trunk test failures requiring customer participation for trouble resolution will be provided to the customer on an as-occurs basis.

(Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.5 Testing Services (Cont'd)

(A) BellSouth SWA Service (Cont'd)

(5) Nonscheduled Testing

Nonscheduled Testing (NST) of BellSouth SWA services is where:

- the customer provides remote office test lines and 105 test lines with associated responders or their functional equivalent ("automatic testing"), or
- the Telephone Company provides a technician at its office(s) and the customer provides a technician at its premises, with suitable test equipment to perform the required tests ("cooperative testing"), or
- the Telephone Company provides a technician at its office(s), and/or at the customer's premises with suitable test equipment to perform the required tests ("manual testing").

Nonscheduled Tests may consist of any test(s) required by the IC, for example loss, noise, slope, envelope delay* or balance.

(6) Obligations of the Customer

- (a) The customer shall provide the Remote Office Test Line priming data to the Telephone Company, as appropriate, to support AST as set forth in 13.3.5(A)(2) preceding or NST as set forth in 13.3.5(A)(5) preceding.
- (b) The customer shall make the facilities to be tested available to the Telephone Company at times mutually agreed upon.
- (c) Access to the test lines for BellSouth SWA FGD and BellSouth SWA TSBSA 3 service should follow protocols recommended in Technical Reference TR-NPL-00258.

* Envelope delay tests are not available with Automatic Testing.

(Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.5 Testing Services (Cont'd)

(B) Special Access (a.k.a. BellSouth SPA) Service

The Telephone Company will, at the request of a customer, provide assistance in performing specific tests requested by the customer.

(1) Additional Cooperative Acceptance Testing (ACAT)

When a customer provides a technician at its premises or at an end user's premises, with suitable test equipment to perform the requested tests, the Telephone Company will provide a technician at its office for the purpose of conducting Additional Cooperative Acceptance Testing on Voice Grade services (a.k.a. BellSouth SPA DSO VG). At the customer's request, the Telephone Company will provide a technician at the customer's premises or at the end user premises. These tests may, for example, consist of the following:

- Attenuation Distortion (i.e., frequency response)
- Intermodulation Distortion (i.e., harmonic distortion)
- Phase Jitter
- Impulse Noise
- Envelope Delay Distortion
- Echo Control
- Frequency Shift

(2) Nonscheduled Testing (NST)

When a customer provides a technician at its premises, with suitable test equipment to perform the required tests, the Telephone Company will provide a technician at its office for the purpose of conducting Nonscheduled Testing. At the customer's request, the Telephone Company will provide a technician at the customer's premises. Nonscheduled tests may consist of such tests as loss, noise, slope and envelope delay.

A customer may also request nonscheduled testing for the purpose of isolating trouble. If no trouble is found in the Telephone Company's facilities, the customer shall be responsible for paying nonscheduled testing charges as set forth in 13.3.5(C)(2)(b) following.

(b) Automatic Scheduled Testing (AST)

AST requires a minimum yearly contract for twelve 1004 Hz Loss Tests and twelve C-Message or C-Notched Noise Tests per circuit. However, at the customer's option, a greater number of tests may be contracted for. As illustrated in (iii) following, billing for each test ordered will be spread over a twelve month period. Optional tests, as set forth in (ii) following, may be contracted for at additional charges. Sixty (60) days notice is required when a request for a greater number of tests or additional tests are made subsequent to the initial order.

13.3.6 Provision of Access Service Billing Options

13.3.6.1 General Regulations

- (A) Access Bills, which include Customer Service Records, are available in two formats: (1) Standard Paper Bill and (2) Billing Data Tape (BDT). At the customer's request and at no charge, the customer may choose one primary billing medium in either one of the above two billing formats. A description of these two billing formats and their available options are described in 13.3.6.2, following.

- (B) The Telephone Company will accept a request for change from one form of primary billing medium to another at no charge to the customer. Where a customer requests combinations of more than one type of billing media, and the Telephone Company can, with reasonable effort, comply with that request, such combinations will be provided to the customer.

13.3 Miscellaneous Services (Cont'd)

13.3.6 Provision of Access Service Billing Options (Cont'd)

13.3.6.2 Description of Billing Options

The customer may select as the primary billing medium one option from either the Standard Paper Bill format described in (A) below or the Billing Data Tape (BDT) format described in (B) below:

- (A) The Standard Paper Bill format is available in the two options shown below. The customer may select one of these options as the primary billing medium at no charge. Should the customer request additional copies of the Access Bill in one of these options, the customer will be charged rates shown in 13.3.6.3(A), following.
- (1) Standard Paper Bill
This option provides the customer a Standard Paper Bill in hard copy.
- (2) CD-ROM
This option provides the customer a CD-ROM, which allows the customer to view or print the Standard Paper Bill.
- (B) The Billing Data Tape (BDT) format is available in the four options shown below. The customer may select one of these options as the primary billing medium at no charge and will also receive an abbreviated paper bill for bill payment purposes at no charge. Should the customer request additional copies of the Access Bill in one of these options, the customer will be charged rates shown in 13.3.6.3(A), following.
- (1) CONNECT: Direct
This option provides an electronic transmission of the customer's Access Bill in BDT format and requires the customer to have a dedicated circuit from the customer's premises to a BellSouth data center.
- (2) CD-ROM
This option provides the delivery of the customer's Access Bill in BDT format via a physical medium, i.e., CD-ROM.
- (3) Cartridge Tape
This option provides the delivery of the customer's Access Bill in BDT format via a physical medium, i.e., Cartridge Tape. When the customer elects to receive additional copies of its Access Bill on Cartridge Tape, only one copy of the Cartridge Tape will be provided. The Telephone Company does not require the customer to return previously supplied tapes.
- (4) Internet Mailbox
This option provides the delivery of the customer's Access Bill in BDT format to an Internet-based, secure mailbox from which customers may download their bill.

13.3.6 Provision of Access Service Billing Options (Cont'd)

13.3.6.2 Description of Billing Options (Cont'd)

- (C) Unless otherwise specified by the customer, Standard Paper Bills, Cartridge Tape and/or CD ROM will be sent via U.S. Mail service. However, at the customer's request, the customer or the customer's representative may pick up the Paper Bills, CD ROM or Cartridge Tape at a location designated by the Telephone Company.
- (D) The customer may deem it necessary to request that the Telephone Company resend the Access Service billing information. Such a request, when not the result of Telephone Company error, will be subject to the same rates as an original request for copies of Access Service billing information. These rates are set forth in 13.3.6.3, following.

13.3.6.3 Rates and Charges

- (A) The rates and charges for additional copies of the customer's Access Service Bill are as follows:

(1) Standard Paper Bill Options

	<u>Rate</u>
(a) Standard Paper Bill - per paper page	\$.25
(b) CD ROM - per CD ROM	\$ 60.00

(2) Billing Data Tape (BDT)

13.3.9 Telecommunications Service Priority (TSP) System

(A) Service Description

The Telecommunications Service Priority (TSP) System is a structured coding scheme that prescribes the order in which National Security Emergency Preparedness (NSEP) telecommunications services are installed or restored. The TSP System was developed to support the requirements of the U. S. Government as defined in the TSP Service Vendor Handbook and applies only to NSEP telecommunications services to which the Company is able to apply priority treatment. It requires and authorizes priority action by the Company.

Conditions of emergency or crises that cause invocation of NSEP treatment can only be declared by authorized officials of the Federal Government or other officials (Federal or Non-Federal) specified by the Manager - National Communication System (NCS) on behalf of the Executive Office of the President of the United States.

13.3 Miscellaneous Services (Cont'd)

13.3.9 Telecommunications Service Priority (TSP) System (Cont'd)

(B) Limitations

- (1) Priority installation and/or restoration of NSEP telecommunications services shall be provided in accordance with Part 64.401, Appendix A, of the Federal Communications Commission's (FCC's) Rules and Regulations.

In addition, TSP System service shall be provided in accordance with the guidelines set forth in "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service User Manual" (NCS manual 3-1-1 dated July 9, 1990) and "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service Vendor Handbook" (NCS manual 3-1-2 dated July 9, 1990).

- (2) The customer for TSP System Service also must be the same customer for the underlying Access Service with which it is associated.
- (3) The Company will arrange for the installation and/or restoration of TSP System Service upon receipt of the proper certification as specified in FCC Rules and Regulations cited in paragraph (1) preceding.
- (4) It is the responsibility of the TSP user to provide the TSP Authority Code to the Company with each service request.
- (5) When performing Priority Installation or Priority Restoration (repair) on TSP-designated services in compliance with the Rules and Regulations cited in (1) above, the Company may not be in a position to notify the customer regarding additional labor charges if additional labor is required.

The customer recognizes that quoting charges and obtaining permission to proceed with the installation or restoration of service may cause unnecessary delays and grants the Telephone Company the right to quote charges after the installation or restoration has been completed.

13 - Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.9 Telecommunications Service Priority (TSP) System (Cont'd)

(C) Rules and Regulations

- (1) Under certain conditions it may be necessary to preempt one or more customer services with a lower (or no) restoration priority in order to install or restore NSEP telecommunications service(s). If preemption is necessary, and if circumstances permit, the Telephone Company will make every reasonable effort to notify the preempted customer of the action to be taken. Credit allowance for service preemption shall be made in accordance with the provisions set forth in 2.4.4(E) preceding concerning temporary surrender of a service.
- (2) No charge applies when a TSP designation is discontinued.
- (3) With the exception of credit information, a customer obtaining TSP system service acknowledges and consents to the provision of certain customer service details by the Telephone Company to the Federal Government to allow for the proper maintenance and administration of the TSP system. That information includes but is not necessarily limited to:
 - (a) Confirmation of completed TSP service orders directly to the Manager, National Communications System (NCS);
 - (b) Verification of installation and/or restoration priority level assignment(s) with the Manager, NCS;
 - (c) Reconciliation of TSP service information with the Manager, NCS, or the customer (prime service vendor).

(D) Definitions

National Communications System (NCS)

The NCS is established under the Executive Office of the President of the United States and is responsible for the day-to-day operation of the TSP System. This includes maintaining a twenty-four hour point-of-contact to handle emergency provisioning requests, assigning priority levels and Authorization Codes and maintaining data on TSP assignments.

(Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.9 Telecommunications Service Priority (TSP) System (Cont'd)

(D) Definitions (Cont'd)

National Security Emergency Preparedness (NSEP) Services

NSEP services are telecommunications services that are used to maintain a state of readiness or to respond to and manage any event or crisis (local, national or international) which causes or could cause injury or harm to the population, damage to or loss of property, or degrades or threatens the NSEP posture of the United States.

Prime Vendor

The service vendor from whom the service user or its authorized agent orders service.

Priority Installation (PI)

Provisioning, on a priority basis, of a new TSP service authorized as so urgent that it must be provided earlier than the Company's standard provisioning interval.

Priority Restoration (PR)

Restoration, on a priority basis, of an existing TSP service for which any interruption would have serious adverse impact on the supported NSEP function.

Subcontractor

The service vendor from whom the prime vendor obtains service for the completion of the prime vendor's end-to-end service.

(Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.9 Telecommunications Service Priority (TSP) System (Cont'd)

(D) Definitions (Cont'd)

Telecommunications Service Priority (TSP) System

TSP is a structured coding scheme that establishes the order in which NSEP services are to be installed or restored in the event of an emergency. The TSP system was developed to ensure priority treatment of the nation's most important telecommunications services.

TSP Authorization Code

A twelve character code that identifies an NSEP TSP service and denotes the order in which that service is to be provisioned (installed) and/or restored.

(E) TSP Rate Categories

There are two basic rate categories which apply to TSP System service:

(1) Priority Installation (PI)

(2) Priority Restoration (PR)

(a) Level Implementation

(b) Level Change

(c) Maintenance/Administration

Certain activities associated with TSP System service are included in the rate elements as follows:

- Priority Installation includes order coordination.
- Priority Restoration includes system development, verification and confirmation.

13.3.10 BellSouth Administrative Management Service

(A) Service Description

(1) General

BellSouth Administrative Management Service provides customers, through a single point, access to customer service information functions listed in Section 13.3.10.(A)(2) following. BellSouth Administrative Management Service is only available at suitably equipped Telephone Company offices where facilities are available. Although not all network management functions are available on a 24 hour basis, BellSouth Administrative Management Service will be provided on a 24 hour basis.

(2) Customer Service Information Functions

Customer Service Information Functions are comprised of two categories, features and options, as follows:

(a) Features

- Access Billing Information

This feature permits the customer to obtain information concerning the customer's last and current bill amounts and any payments or adjustments posted to date. Additionally, access to the Customer Service record which provides information such as customer name, listed address, yellow pages heading (if any), additional listings (if any), billing address, Interexchange Carrier identification, and service and equipment.

13.3.10 BellSouth Administrative Management Service (Cont'd)

(B) Provision of Service

The customer may access BellSouth Administrative Management Service on either a dial/shared or dedicated basis.

For dial/shared access, the customer is required to provide a terminal and a modem. Provided the customer's premises resides in a Telephone Company locally franchised territory, the customer will dial a non-toll access number furnished by the Telephone Company which provides access to BellSouth Administrative Management Service. If the customer's premises is outside a Telephone Company LATA, the call may be either toll or non-toll, depending on the customer's premises location, to reach a BellSouth Administrative Management Service port. The BellSouth Administrative Management Service port will be assigned a seven digit number to enable the customer to access this port. If the customer desires multiple telephone numbers to access BellSouth Administrative Management Service, an additional port charge, as set forth in 13.3.10(E)(3) following, is required for each additional telephone number requested. (Only one telephone number is assigned per port).

Dedicated access to BellSouth Administrative Management Service will be provided over a dedicated 9600 bps data circuit obtained by the customer from the Telephone Company to a location designated by the Telephone Company. Dedicated access is used in conjunction with customer-provided terminal and modem.

(C) Allowance for Interruptions

- (1) A BellSouth Administrative Management service interruption occurs when the customer's access to the customer service information functions is not available for the customer's use. The total service will be deemed as unavailable if either the dedicated access line used by the customer to access BellSouth Administrative Management service or the BellSouth Administrative Management service processor is not operational. A BellSouth Administrative Management service interruption is not considered to occur if only information associated with BellSouth Administrative Management service features is not available. A pro rata adjustment of the appropriate BellSouth Administrative Management service monthly charges will be allowed if the total service is unavailable for more than a twenty-four hour period. Appropriate BellSouth Administrative Management service monthly charges do not include the block of usage for transaction charges. There will be no pro rate adjustment for interruptions due to a particular customer service information function not being available.
- (2) No credit shall be allowed for an interruption of BellSouth Administrative Management service that is less than 24 hours. The customer shall be credited for an interruption of 24 hours or more at the rate of 1/30 of the monthly rates for each period of 24 hours or major fraction thereof that the interruption continues for failure to gain information, i.e., transactions, etc. via BellSouth. In the case of BellSouth Administrative Management services billed upon actual usage, no credit allowance is applicable.

(D) Application of Rates

For the initial establishment of BellSouth Administrative Management service, a nonrecurring Basic Service charge and a recurring monthly charge as set forth in 13.3.10(E)(1) will apply.

13.3.11 Security Card

Effective May 16, 2008, a Security Card will not be required for dial and web access to BellSouth Customer Network Management and the Mechanized Interface to Specified Operation Support Systems. New orders for the Security Card will not be accepted. Customers with an existing Security Card may continue to use the cards but new cards cannot be ordered. Security to these systems will be provided using a customer identification code and password.

(A) Description

Dial access and web access customers of Mechanized Interface to Specified Operation Support Systems and/or BellSouth Customer Network Management Service must order a Security Card. A nonrecurring charge will apply. This card provides the customer a unique password identification code, which will electronically change periodically, thereby providing a valuable layer of security. Should the customer require additional cards for reasons such as additional users or lost or damaged card, a nonrecurring charge will apply for each additional card requested.

If the customer has purchased a Security Card in conjunction with a feature or service offered by the Company, that Security Card may also be used in conjunction with other features or services requiring a Security Card. It is up to the customer to notify the Company of an existing Security Card so the Company can ensure that the card is validated for multiple features and/or services.

13.3.16 Enhanced Originating Line Screening (EOLS) Service

(A) General Description

Enhanced Originating Line Screening (EOLS) Service provides information about calls originated from screened lines. The EOLS Service is transaction-oriented and consists of accepting Originating Line Number Screening (ONLS) queries sent from subscribing carriers, accessing the Calling Number information in the EOLS data base, and returning the Service or Equipment Indicator (SOE) stored in the data base.

(B) Obligations of the Telephone Company

(1) General

The Telephone Company will designate the EOLS Location(s) at which EOLS Service is provided in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. 4. The EOLS Location(s) is the Signal Transfer Point (STP) and its associated Point Code to which the EOLS query will be sent. The EOLS Location(s) will respond to queries received in the required signaling protocol for messages formatted in the American National Standards Institute specification of Signaling System No. 7 (ANSI SS7) protocol.

(2) Transport

Transmission facilities and transport terminations between the SPOI of the ordering customer and the EOLS Location (provided as described in Section 6.1.3, preceding) and between the EOLS Location and the Service Control Point (SCP) represent two-way, diversified digital transmission paths from the customer SPOI to the SCP, via a Telephone Company designated EOLS Location. This transmission path transports queries from the SPOI to the SCP and responses to the SPOI from the SCP in the SS7 protocol. The technical specifications for the interface required at the customer SPOI are provided in the BellSouth EOLS Technical Reference (TR-73604) document.

(3) EOLS Data Specifications

The Telephone Company's EOLS database will contain a record for every working line number identified by the Telephone Company as having a call screening code assignment.

The Telephone Company will update the EOLS information; e.g. add, delete, and modify customer accounts as customers move or order new service as appropriate.

(4) EOLS System Management

The Telephone Company will administer its EOLS to insure the provision of acceptable service levels to all customers of the Telephone Company's EOLS Service. During periods of system congestion, call gapping procedures may be utilized to control such congestion.

(5) Confirmation Service

At the request of a customer, the Telephone Company Business Office will confirm which call screening codes are associated with the customer's lines.

(C) Obligations of the Customer

To obtain EOLS Service, the customer must order CCS7 Signaling Connections and Terminations as described in 6.1.3(C) preceding.

The customer and the Company shall cooperatively determine the number of additional transmission paths needed, if any, for EOLS Service.

The customer's facilities at the customer's SPOI shall provide the necessary capability to send queries and receive responses in the American National Standards Institute specifications of Signaling System No. 7 (ANSI SS7) protocol.

The customer will cooperatively test with the Telephone Company at the time of installation the parameters as specified in the BellSouth EOLS Technical Reference (TR-73604) document.

(D) Ordering Requirements and Payment Arrangements

(1) Minimum Periods

The minimum period for which services are provided is as set forth in Section 2.4.2 preceding.

(2) Moves

Moves will be treated as set forth in 6.7.7 preceding, and all associated nonrecurring charges will apply. Minimum period requirements will be established at the new location as set forth in 6.7.7 preceding. In addition, all outstanding minimum period charges for the discontinued service will apply.

(A) General

The BellSouth Wireless LNP End User Line Charge (End User Line Charge) recovers the incremental costs to implement Wireless Local Number Portability (WLNP). This charge will be applied to all lines which are portable between telecommunications service providers. An end user line is deemed to be portable at the time the NPA-NXX serving that line is capable of providing Local Number Portability. The offices deemed to be portable and for which the End User Line Charge will apply are set forth in the National Exchange Carrier Association, Inc. Tariff F.C.C. No. 4.

The End User Line Charge will apply to:

Primary Residential Local Exchange service lines or trunks
Primary Business Local Exchange service lines or trunks
Feature Group A (FGA) lines (Toll Guide accounts)
Unbundled Network Element (UNE) switch ports
PBX trunks
Payphone Service Provider lines
Foreign Exchange (FX) service lines
Foreign Central Office (FCO) service lines
Centrex Type Services station lines
Basic Rate ISDN Digital Subscriber lines (ISDN BRI)
Primary Rate ISDN Interface (ISDN PRI)

The applicable End User Line Charge will be billed to Resellers in the case of any end user lines sold to Resellers.

(B) Limitations

The End User Line Charge will not apply to Lifeline lines or local exchange service provided as remote call forwarding residential or business service.

(C) Payment Arrangements and Credit Allowances

- When there is an interruption to an end user's ported line, requested LNP End User Line charge credit allowances for interruptions will be provided as set forth for credit allowance for interruptions in 2.4.4 preceding.
- When an end user temporarily suspends its local exchange service which is associated with End User Line Charge, one-half of the End User Line Charge per month charge will be temporarily suspended for the time period the local exchange service is suspended.

(Cont'd)

(D) Rate Regulations

- The End User Line Charge, as set forth in 13.3.21 (F) following, will be billed to the end user subscriber of the associated local exchange service, including, where applicable, a reseller of the associated local exchange service, in which case the reseller shall be deemed an end user for purposes of application of such charges.
- The End User Line Charge applicable to Primary Business Local Exchange service lines or trunks, Primary Residence Local Exchange service lines or trunks, Feature Group A ("FGA") lines (Toll Guide accounts), Payphone Service Provider lines, Basic Rate ISDN Digital Subscriber lines (ISDN BRI) and Unbundled Network Element ("UNE") switch ports, (including Reseller, FX and FCO), is set forth in 13.3.21 (F)(1) following.
- The End User Line Charge applicable to PBX Trunks, (including Reseller, FX and FCO), is set forth in 13.3.21 (F)(2) following.
- The End User Line Charge applicable to Primary Rate ISDN Interface (ISDN PRI), (including Reseller, FX and FCO), is set forth in 13.3.21 (F)(3) following.
- The End User Line Charge applicable to Centrex Type Services, (including Reseller, FX and FCO), is set forth in 13.3.21 (F)(4) following.
- The End User Line Charge will be bill period effective. Billing will commence with the May 16, 2004 billing cycle.

(E) BellSouth Wireless Local Number Portability End User Line Charge

1. Pursuant to the F.C.C. Order In the Matter of Telephone Number Portability, BellSouth Corporation Petition for Declaratory Ruling and/or Waiver, CC Docket No. 95-116, released April 13, 2004, the Telephone Company will recover the costs of implementing wireless LNP.
2. The BellSouth Wireless Local Number Portability End User Line Charges are as set forth in 13.3.21(F) following.

(Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.18 Intra-Office Collocation Cross Connect Service

(A) General Description

- (1) Intra-Office Collocation Cross Connect Service provides for a collocator to interconnect its network with that of another collocator at the Telephone Company's premises and to connect its collocated equipment to equipment of another collocated carrier within the same Telephone Company premises pursuant to 47 U.S.C. Section 201 of the Communications Act of 1934, as amended.

(B) Limitations

- (1) No representation is made as to the transmission capability of the fiber jumper other than it will consist of a single mode fiber capable of transmitting 1310 nm or 1550 nm wavelengths

(C) Obligations of the Telephone Company

- (1) Intra-Office Collocation Cross Connects will be provisioned between a collocator's virtual or physical collocation arrangement and those of another collocated telecommunications carrier within the same central office.
- (2) Intra-Office Collocation Cross Connect Service shall be provisioned through facilities owned by the two collocators that are interconnecting their networks or equipment and the Telephone Company's distribution frames or panels. The Telephone Company will provide a jumper between two CFAs provided by the two collocators.

(D) Obligations of the Ordering Collocator

- (1) The ordering collocator is responsible for all ordering, bill payment, disconnect orders and maintenance transactions and is the customer of record.
- (2) The ordering collocator must submit to the Telephone Company written certification that more than ten percent of the amount of traffic to be transmitted through the Intra-Office Collocation Cross Connect Service will be interstate.
- (3) The ordering collocator must submit to the Telephone Company a Letter of Authorization (LOA) from the other collocator that includes the appropriate CFA and Access Carrier Terminal Location (ACTL) that the Telephone Company is authorized to use for interconnecting the networks or equipment of the two collocators.

13.3.19 Physical Access Cross Connect Service

(A) General Description

- (1) Physical Access Cross Connects provide a one to one dedicated transmission path between the ordering customer's tariffed service offerings or transport equipment located in the Telephone Company Central Office and the ordering customer's own physical collocation arrangement or another telecommunications carrier's (collocator's) physical collocation arrangement in the same Telephone Company Central Office.
- (2) Standards for performance monitoring of services which interconnect to the collocation arrangement will be driven by the particular service type and service specific requirements. The Telephone Company's obligation for monitoring ends at the demarcation point.
- (3) Physical Access Cross Connects are flat rate, non-distance sensitive charges and will be applied on a per cross connect ordered basis.
- (4) Physical Access Cross Connects will be ordered on the same ASR as the service being cross-connected. All ASRs must be complete and accurate before the Company will initiate the provisioning process.
- (5) Nonrecurring charges are applicable for Physical Access Service Cross Connect Service.
- (6) The collocator may cross connect at the DS0 level with the following Telephone Company access services:
 - Local and Interoffice Channels (described in 7.1.2 of this Tariff)
 - Optional Features and Functions (described in 7.1.2(C) of this Tariff)
 - Exchange Access Frame Relay Service (described in 21.1 of this Tariff)
 - Managed Shared Frame Relay Service (described in 21.4 of this Tariff)

13.3.20 Virtual Access Cross Connect Service

(A) General Description

- (1) Virtual Access Cross Connects provide a one to one dedicated transmission path between the ordering customer's tariffed service offerings or transport equipment located in the Telephone Company Central Office and the ordering customer's own virtual collocation arrangement or another telecommunications carrier's (collocator's) virtual collocation arrangement in the same Telephone Company Central Office.
- (2) A monthly recurring charge applies for the Virtual Access Cross Connect element that consists of the cross connect panel, cable racks, bay framework, jumpers and other supporting hardware.
- (3) The Virtual Access Cross Connect element is designated as BellSouth SWA or Special Access (a.k.a. BellSouth SPA), depending on the type of service to which it cross connects.
- (4) The BellSouth SWA Virtual Access Cross Connect element is subject to the jurisdictional report requirements as set forth in Section 2.3.10 of this Tariff.
- (5) Virtual Access Cross Connect Service is flat rate, non-distance sensitive charges and will be applied on a per cross connect ordered basis.
- (6) Standards for performance monitoring of services which interconnect to the collocation arrangement will be driven by the particular service type and service specific requirements. The Telephone Company's obligation for monitoring ends at the demarcation point.
- (7) Virtual Access Cross Connects will be ordered on the same ASR as the service being cross-connected. All ASRs must be complete and accurate before the Company will initiate the provisioning process.
- (8) Nonrecurring charges for the Virtual Access Cross Connect Service are assessed on a "First" and "Additional" basis.

ACCESS SERVICE

14 - Exceptions to Access Service Offerings

The services offered under the provisions of this tariff are subject to availability as set forth in 2.1.4 preceding. In addition, the following exceptions apply:

ALL STATES

The following items are not offered in the operating territory of this Company.

14.1 Interstate Served Direct Foreign Exchange Service

With the exception of End User Access Service and BellSouth Equal Access Subscription service, as set forth in Section 4. and 13.3.3 preceding, respectively, the regulations and rates set forth in this tariff do not apply to customers for the type of connections and in the locations listed following. The regulations and rates for these connections are the applicable Telephone Exchange Service regulations and rates specified in the General Subscriber Service Tariff for the Exchange Service tariff for the exchange from which the connection is provided. In addition, regulations and rates for the associated channel between the locality in which the customer is located and the exchange from which the connection is provided, apply as specified in AT&T-C's Tariff F.C.C. No. 9 for interLATA channels furnished for Exchange Service or its successor tariff for comparable channels.

<u>Customer Location</u> <u>Locality</u> <u>State</u>	<u>Exchange from Which</u> <u>Connection is</u> <u>Provided</u>	<u>Type of</u> <u>Connection</u>
